

Structured Cabling,
Cable Management &
Specialist Tooling for the
Communications Industry

2017/18

**THE ONE-STOP SHOP FOR
NETWORK INSTALLERS**

For 99 years Mills has been providing its customers with the **RIGHT PRODUCTS** at the **RIGHT PRICE, ON TIME.**

Tools are where we started, way back in 1918 and we still lead the way today. Inside this catalogue you will find the most comprehensive range of specialist communication tools on the market - many of which have been developed and designed by us to meet your specific requirements. Our range of fibre optic tools and blown fibre installation tools has grown significantly to assist with the rapidly expanding fibre infrastructure and FTTx roll-out in the UK and worldwide.

The Mills catalogue is one of only a few in its industry to include prices and, due to the current economic climate, some published prices may be subject to change.

TOP BRANDS

MILLS MASTER CLASS

Within our tooling section, you'll find many items bearing the **MILLS MASTERCLASS GUARANTEE.**

These tools will give a **LIFETIME'S SERVICE.** Should any product fail to give complete satisfaction or break during normal usage, simply return it to us for immediate replacement.

Mills is the MAIN DISTRIBUTOR for Fusion Integrated Structured Cabling and Fibre Optic Solutions.

SHOP AT OUR TRADE COUNTER UNIT 9 FAIRWAY DRIVE!

- Open Mon - Fri (8am - 5:30pm, closes 5pm Fridays)

Cabinet Delivery Charges

Fusion Free Standing Cabinets, Server Cabinets and 18U Wallboxes are shipped on pallets and therefore incur a minimum delivery charge of £49.95 per cabinet to mainland UK.

Cannon Technologies Cabinets are delivered to mainland UK free of charge.

Please contact sales for delivery charges to Northern Ireland, Eire, Channel Islands and the Scottish Highlands.

For the sake of expediency, we may arrange for larger items to be despatched direct from the manufacturer. Such items are indicated by this symbol and may incur an extra delivery charge.

HOW TO PAY

We are happy to accept payment by the following methods:

CREDIT CARD

Please quote your card number, start and expiry dates and security digits together with your name, address and delivery address.

CHEQUE

Cheques for collection must be supported by a valid bank guarantee card and made payable to "Mills Ltd".

ACCOUNT

Accounts may be opened within 4 hours, subject to status, following receipt of a completed account application form. Please contact our Accounts Department direct on **020 8833 2622** for further details.

PRICES GIVEN ARE IN POUNDS STERLING AND MAY BE SUBJECT TO CHANGE

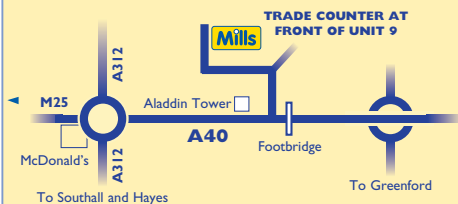

ALL PRICES ARE SUBJECT TO VAT

Mills Standard Terms and Conditions apply (see page 393)

TRADE COUNTER

Trade Counter Hours: Mon-Fri 8am to 5:30pm (Friday 5:00 pm)

9 Fairway Drive, Fairway Ind Est, Greenford, Middlesex UB6 8PW

MILLS M25 'SAME DAY' DELIVERY

From a single parcel to a container-load delivered anywhere within the M25, just call **0208 833 2626** for an instant response to your last minute delivery requirements. (Subject to location - prices may vary)

Fusion Custom Made Cabinets & Enclosures

Altogether better because...

- Built to your exact requirements - any size, any colour, any quantity
- Specify your own choice of doors, locks, side panels, venting, castors etc
- Can be supplied pre-configured with your choice of accessories such as fan trays, shelves, PDUs
- Made in the UK
- Typical 3-5 day lead time

Call sales to discuss your requirements

FUSION 19" 1.5U UNIVERSAL MOUNTING BRACKET

Designed to be fitted within the 19" profiles of cabinets and wallboxes, this recessed bracket enables the rackmounting of non-19" equipment such as power supplies and alarm boxes. Alternatively it may be used as a recessed cable tie bar.

PART NO.	DESCRIPTION	PRICE
T70-5382	FUSION 19" UNIVERSAL MOUNTING BRACKET	14.95

FUSION TOOLLESS SNAP-IN BLANKING PANELS

Snap-In blanking panels that can be quickly and easily fitted without tools and cage nut sets. Secured using two quick-release slide clips. Panel is made of steel with a black finish. Available in 1U and 2U.

A

B

PART NO.	DESCRIPTION	PRICE
T90-4993	A) SELECT SERIES SNAP-IN BLANKING PANEL 1U	5.10
T90-4994	B) SELECT SERIES SNAP-IN BLANKING PANEL 2U	6.85

FUSION CABLE DUMP

An idea which addresses the problem of hiding excess length patch leads. Install the unit near the bottom of the rack, unclip the front and place excess patch leads into the cable dump, taking care not to over bend the cable.

The plastic fingers will allow cables to exit in a neat and orderly fashion once the cover is fitted.

Available in 1U and 2U heights.

PART NO.	DESCRIPTION	PRICE
T70-2368	1U CABLE DUMP	10.45
T70-2369	2U CABLE DUMP	12.02

FUSION STANDARD CABLE MANAGEMENT BAR

Available in 1U and 2U sizes with four 70mm Management Rings – Black finish.

PART NO.	DESCRIPTION	PRICE
T70-2406	1U MANAGEMENT BAR	4.56
T70-2407	2U MANAGEMENT BAR	9.40

FUSION 5 RING CABLE MANAGEMENT BAR

A 5 Ring 1U Management Bar with 3 rings fixed whilst the outside rings are able to rotate through 360 degrees allowing vertical and horizontal cable management.

PART NO.	DESCRIPTION	PRICE
T70-2383	5 RING ADJUSTABLE MANAGEMENT BAR	8.35

FUSION CAGE NUTS & CAGE NUT TOOL

Fusion Cage Nut Sets M6 x 16mm

Supplied in pkts of 50 and 100 zinc plated or in black.

Caged Nut Insertion and Removal Tool - Ideal for helping installers insert cage nuts into cabinets, and to aid removal. Saves time!

PART NO.	DESCRIPTION	PRICE
T70-2366	ZINC PKT 50 CAGED NUT SET	6.59
T70-2367	ZINC PKT 100 CAGED NUT SET	11.45
T70-2508	BLACK PKT 100 CAGED NUT SET	12.45
C00-0113	CAGED NUT INSERTION/REMOVAL TOOL	5.78

FUSION CABLE RINGS

70mm x 70mm 'Jumper' Rings, designed for vertical management on 800mm Floor Cabinets – Black Finish.

65mm x 45mm 1U Rings designed to give extra management on all Floor and Wall Cabinets – Black finish.

PART NO.	DESCRIPTION	PRICE
T70-2412	70 X 70MM JUMPER RINGS	2.96
T70-2428	65 X 45MM JUMPER RINGS	2.56

FUSION VERTICAL CABLE SUPPORT

The Vertical Cable Support provides additional control for patch leads running vertically in the rack.

This simple metal bracket is fitted under the end of a 1U panel.

A hook and loop cable strap is supplied to secure cables.

PART NO.	DESCRIPTION	PRICE
T70-2370	VERTICAL CABLE SUPPORT	4.15

FUSION EXTRA DEEP CABLE MANAGEMENT BAR

1U with four 100mm management rings. Black finish.

Ideal for larger diameter cables.

PART NO.	DESCRIPTION	PRICE
T70-5383	1U EXTRA DEEP MANAGEMENT BAR	6.80

FUSION BLANKING PANELS AND SPACE BARS

The 19" Blanking Panels provide a neat way of closing off any unused space in a rack and give a neat and tidy appearance to the finished installation.

Available in sizes 1U, 2U, 3U and 4U and 1(15mm) and 2(30mm) Space.

Colour: Black.

PART NO.	DESCRIPTION	PRICE

MILLS RACKMOUNT STRUCTURED CABLING TOOLKIT 2U DRAWER

The Mills Structured Cabling Kit Drawer has been specifically designed for Data Centre and Network Managers to provide a convenient and secure means of storing tools within cabinets and enclosures.

Housed within a lockable sliding 2U drawer, this kit ensures all the essential tools and test equipment are locked safe and sound, where you need them. A custom fitted foam insert secures the contents in place, keeping things tidy and protected.

The Structured Cabling Toolkit Drawer includes:

- C00-8998** Krone Sensor Punch Down Tool
- C70-6865** Punch Down Tool For 110
- E68-3002** Cyclops Cable Stripper
- E70-5013** RJ45 Ratchet Crimper
- E00-1113** Cable Cutter up to 10.5mm O/D
- F70-4264** Phillips Screwdriver 100mm x No.2
- F70-4259** Slotted Screwdriver 100 x 5mm
- E12-6164** Side Cutter 4 1/2"
- C00-2000** Mills Structured Cable Tester
- C00-1554** Tone Probe & Generator
- T70-2509** RJ11 Female To BT Male Adaptor
- T70-0061** RJ45 Cat 6 Modular Plugs (Pkt 10)
- T70-0172** RJ45 Plug Boots (Pkt 10)

Fusion Cat 5e Cable

Altogether better because...

- 25 year system warranty
 - Competitively priced
 - Metre marked 305.0m
 - Category 5e compliant
- Heavy duty boxes are:
- designed to take a bashing!
 - suitable for stacking
 - have plastic reinforced handle grips
 - have no-sag cable dereeler

**Price
Checked**
GUARANTEED

All Fusion Cat 5e cable is price checked against the industry prices on a monthly basis

**25
YEAR
WARRANTY**

FUSION 'DUAL PULL' CABLE BOXES

All Fusion Cat 5e cables (excluding FTP), external and stranded, when ordered in multiples of two, are supplied in a heavy duty dual pull cable distribution box which is supplied complete with two inner 305 metre cable boxes.

- Saves time! - designed to assist the cable installer by allowing two cables to be dispensed at the same time for quicker cable laying
- Made with a removable perforated front outlet so cables can be pulled out quickly and easily
- The two inner Fusion cable boxes can be removed from the outer box and used individually as an option

FUSION CAT 5E UTP PVC CABLE

Fusion 4 Pair UTP Cat 5e PVC Grey Cable. Supplied in reinforced no snag 'easy reel' boxes – 305M (1000ft) solid core unshielded cable meeting and exceeding the requirements of TIA/EIA 568A ISO/IEC 11801.

By 1st July 2017 this cable will be CE marked with a EuroClass Designation as part of the CPR (Construction Products Regulations).

T70-6817	CAT 5E UTP LS0H CABLE 500M DRUM

FUSION CAT 5E UTP EXTERNAL CABLE 305M

External Grade Cat 5e Cable supplied in 305m reels. The cable is made suitable for external use by sheathing it with Polyethylene. This can withstand the outside elements, being a tough material resistant to water, moisture, oil and also abrasion resistant. For added security, trunking or conduit can be used.

ISO 11801/EIA/TIA 568A compliant.

Since this cable is designed for external use only this cable is not required to be CE marked with a EuroClass Designation as part of the CPR (Construction Products Regulations).

Fusion CAT 6 UTP

Altogether better because...

- We've specially designed our Fusion CAT 6 boxes with large cable delivery apertures ensuring a snag free cable delivery. Plastic reinforced handle grips and heavy duty cardboard provide support when carrying boxes on site.

Fusion CAT 6 UTP cable meets or exceeds the latest ISO and TIA requirements for category 6 compliance. As with our Cat 5e range, the Fusion CAT 6 product has been designed for ease of use and to save installer time. When installed by a registered Fusion Installer, the system is guaranteed for 25 years.

FUSION 4 PAIR CAT 6 UTP PVC & LSOH CABLE 305M

Supplied in heavy duty boxes – 305M (1000ft) solid core.

23 AWG unshielded cable. Supplied metre marked for easy installation and to prevent wastage.

Approved for the Fusion 25 year system warranty when installed by an approved Fusion Installer.

By 1st July 2017 this cable will be CE marked with a EuroClass Designation as part of the CPR (Construction Products Regulations).

FUSION CAT 6 FTP LSOH CABLE 305M

Fusion CAT 6 23AWG FTP with violet Low Smoke Zero Halogen sheath.

When used as part of a shielded system the overall foil prevents electromagnetic interference from entering or exiting the cable thus reducing background noise and alien crosstalk between cables.

Approved for the Fusion 25 year system warranty when installed by an approved Fusion Installer.

By 1st July 2017 this cable will be CE marked with a EuroClass Designation as part of the CPR (Construction Products Regulations).

----------	----------------------------

FUSION 4 PAIR CAT 6 UTP EXTERNAL CABLE 500M

External Grade CAT 6 Bulk Cable supplied on wooden 500m drum.

The cable is made suitable for external use by sheathing it with Polyethylene. This can withstand the outside elements, being a tough material resistant to water, moisture, oil and also abrasion resistant.

For added security, trunking or conduit can be used.

Since this cable is designed for external use this cable is not required to be CE marked with a EuroClass Designation as part of the CPR (Construction Products Regulations).

Introducing Fusion 25 year unlimited product warranty

The Fusion Cabling System is backed by an altogether better 25 year warranty to show our commitment and responsibility in ensuring that all of our products perform to an exceptional standard.

The 25 year product warranty covers Cat 5e and Cat 6 copper cabling systems and gives you protection on all your Fusion structured cabling installations. It is available only to Fusion Registered Installers.

If you need to claim on the warranty, just call - and once we can confirm that the failure of a Fusion product is responsible for the problem, we will replace the product absolutely free of charge!

For more details on Fusion's 25 year Warranty or to register to become a Fusion Installer, please contact

FUSION SLIDING PATCH PANEL - SC, LC

24 Port sliding tray optical fibre patch system in its basic form is supplied with the panels unloaded ready for you to install the adaptor of your choice.

The panel can also be pre-loaded with SC simplex or LC duplex adaptors (4, 8, 12 & 24).

**Specification:**

Width: 482mm
Depth: 205mm
Height: 1u – 44mm
Weight: 2.4kg fully loaded
Cable entry 2 x 20mm gland holes 2 x 25mm gland holes
Colour: Black RAL 9004 as standard

**FTTX INTERNAL CUSTOMER TERMINATION BOX
(DIRECT CONNECT)**

This internal customer outlet box is designed for use inside the home or office environments. This box can allow up to 4 fibres whilst ensuring that the minimum bend radius is not exceeded.

- Removable cover for easy access
- 2 Integrated heatshrink splice holders
- Ability to allow cables to enter from multiple points of the unit
- All fibres are positively managed to maintain a 30mm minimum bend radius

BREAK-OUT (OCB) & INTRA-FACILITY (OCI) CABLE ASSEMBLIES

CommScope offers a range of break-out cable assemblies (OCB) and intra-facility cables (OCI) using singlemode ITU-T.G.657.A1 fibre for applications where connections need to be made between an optical distribution frame and electronic equipment rack or between two electronic equipment racks.

The cable construction means this can be done even if no fibre raceway system exists.

Break-out cables are based on ruggedised LSZH sub-units and the intra-facility cables utilise one or more sub-units containing twelve 900µm fibres.

All cables are compatible with the TE FIST system.

BREAK-OUT (FCB) & HYDRA (FHC & MHC) CABLE ASSEMBLIES

CommScope offers a range of break-out cable assemblies (FCB) and hydra cables (FHC & MHC) supporting a wide range of fibre types for applications where connections need to be made between an optical distribution frame and electronic equipment rack or between two electronic equipment racks.

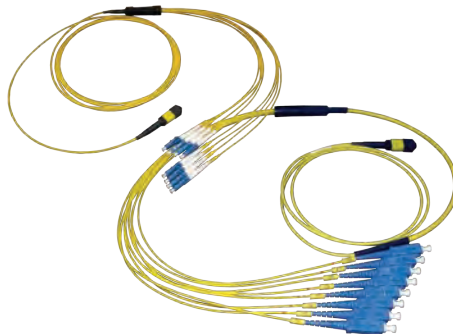

The cable construction means this can be done even if no fibre raceway system exists. Break-out cables are based on ruggedized LSZH sub-units. Hydra cables utilise an office distribution type cable containing 900µm fibres (max. 24 fibres) and micro hydra cables utilise a proprietary design using 250µm fibres up to a maximum of sixteen fibres.

FIST-GR3 AND FIST-GR3F NEXT GENERATION FIST ETSI RACKS

The all-purpose, easy-to-assemble FIST-GR3 and FIST-GR3F racks accommodate the FIST fibre management system in a central office, head-end or customer premises environment.

Several versions of the rack are available: one series based on the ETSI standard (600 mm wide) and

one on the 15-inch standard (450 mm wide).

Accepts TE's FIST-GSS2/GPS2 and FIST-GSS3/GPS3 shelves.

FACT ODF SYSTEM

Fibre Connectivity for Splice/Patch and Patch/Patch enables faster and easier installation in a high density environment.

The toolless system approach and the high level of modularity guarantee an easy migration path towards new connectivity platforms and expansion of existing central office sites.

BENEFITS OF ADVANCED ELEMENT PATCHING

- Easy: Full front access and non-moving fibre during element manipulation
- Fast: Toolless scalable system
- Clean: Both sides easily accessible for cleaning adaptors
- Safe: Laser light oriented perpendicularly to the operator
- Accessible: Guaranteed full front access at both sides of connection
- Visible: Patch cords do not hamper access or visibility of ports
- Secure: Because of their position in the trays, connectors are better protected than in some front facing patch shelves
- Manipulation of patch cords does not cause transient losses
- Reconnection to other positions in the same tray or shelf does not result in uncontrolled overlengths
- Bend controls guide and protect the pigtail cable and ensure controlled cable routing

FEATURES

- Patching, using patch cords, connectorized breakout or intrafacility cables
- Splicing loose tube, non-connectorised intrafacility or breakout cables to pigtails and patching these pigtails to patch cords
- Supports integration of passive optical splitters and wavelength division multiplexers
- Various connector/adaptor types possible
- Enhanced modularity created by stacking four elements together in a 3HU grouping
- Full patching capability on the elements and between elements in one module and across modules
- Use of connectorised cables allows repair of pigtails
- Easy identification of each fibre
- Kits available to attach cables at the side of the elements
- Full wrap-around solution accessible from the front to guide fibres and pigtails
- Can be installed in FIST racks and metric (ETSI) rack sizes
- FACT elements and modules are shipped with the maximum number of trays already installed.

CO-FMD FIBRE MANAGEMENT DRAWER

The CO-FMD is a 1U drawer assembly for mounting within a pivoting optical sub rack (POSR), ETSI style ODF or an optical fibre distribution module (OFDM).

Drawers can be configured for specific applications or a mixture of applications :

- Patching only, using patch cords, connectorised breakouts (Hydras) or inter facility cable
- Splicing of pigtails to loose tube cable, tight buffered cable, non-connectorised intra facility or break-out cable and connecting to patching facility
- Pivoting design enables splicing to be achieved without removing unit from the ODF
- High Capacity (48 fibres LC) per drawer
- Splicing of ribbon fibre can be accommodated
- Splitters can be integrated into the internal splice management

CO-POSR PIVOTING OPTICAL SUB-RACK

CommScope's pivoting optical sub-rack (POSR) product range offers a diverse capability to meet many customer applications. Available in 1U high through to 7U high versions offering the end user flexibility in connectivity capacity unmatched by many of its competitors.

Each unit is factory assembled to customer requirements depending upon connector type and number of adaptors & pigtails to be pre-installed . Application configurations of splicing and patching; patching only or including MPO and passive components are all supported. Sub-racks can be provided with cable unit breakouts (CUB) for OSP cable fixation or ordered separately.

FIST-GPS2 GENERIC SPLICE/PATCH SHELF

The CommScope Generic Splice/Patch Shelf, FIST-GPS2 is a mechanical shelf assembly for the FIST fibre management system in a rack environment.

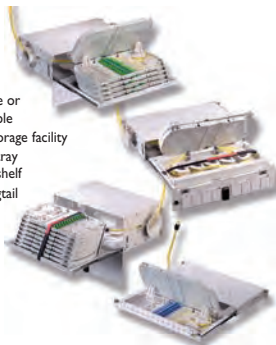

The FIST-GPS2 is typically used in conjunction with FIST splice and patch trays (FIST-GPST-12).

Suitable for:

- Patching only, using patch cords, connectorised break-out or intra-facility cable
- Splicing loose tube cable, non-connectorised intra-facility or break-out cable to pigtails and patching these pigtails to patch cords
- Splitters can be integrated
- Can be installed in FIST racks and other 19" or metric (ETSI) racks

Features:

- Available in 4 different heights (44, 88, 125 and 167 mm)
- Kits to attach cables at the side or the back of the shelf are available
- Optional jumper overlength storage facility
- Full patching capability on the tray and between the trays of one shelf
- Wraparound side panel and pigtail guide for easy repatching (only for 88, 125 and 167 mm version).

BUDI BUILDING DISTRIBUTION ENCLOSURES

CommScope's BUDI (building distributor) product family of compact, wall mountable fibre enclosures for indoor and outdoor use. They are specifically designed for fast deployment and easy customer connection.

Using the FIST management system with splicing and/or patching capabilities; high connector density, small and large footprints, the BUDI product range offers flexible solutions for a wide range of applications.

Multiple cable ports available, bottom cable entry managed with cable glands or wrap around cable seals for various cable diameters and quantities of cables. Allows integration of passive components such as FIST-SASA2 splitter modules.

Available in four sizes ranging from the small BUDI-2S growing in size from BUDI-1S, BUDI-S to the largest BUDI-M. The smallest BUDI-2S enclosure is available only with a security screw lid fixation. The other BUDI enclosures have a

locking option for greater security.

Splice capacities and connectivity density vary by size of BUDI enclosure: smallest density available from the BUDI-2S rising to the highest density from the BUDI-M. SC and LC connectivity supported as standard; others may be available upon request. MOQ's may apply.

FOSC 400 & FOSC 450G EXTERNAL FIBRE OPTIC SPLICE CLOSURES
COMMSCOPE®
 DISTRIBUTOR

CommScope's FOSC 400 products are butt-type closures used in the outside plant network when mass splice storage is the main requirement.

They are available in four different sizes and are typically used as track joints. Depending on the closure size, the splice storage and organiser trays can accommodate from 6 to 768 single fibre splices. All splicing trays are hinged at one end and any fibre can be accessed without disturbing fibre on other trays, kinking buffer tubes, or introducing losses. All cable termination and sealing functions are provided with the closures. Uncut loose buffer tube storage is provided in optional storage baskets.

 FIBRE OPTIC
 PRODUCTS
**FOSC 450G****FOSC 400**

The FOSC 400 range is available with traditional heat shrink cable seals or TE's new gel sealing system. FOSC 450G gel sealed splice closures have the same splice capacity as standard FOSC 400 closures and feature the same reliable and easy-to-use dome-to-base clamping system. The major difference with the FOSC 450G closures is that the cable sealing terminations use gel sealing technology instead of traditional heat shrink. Gel seal cable terminations automatically adjust to cable size and shape, and require no special tools, tapes or mastics to install. Gel seals enable quick and easy cable removal and are completely re-usable.

TENIO FIBRE CLOSURES
COMMSCOPE®
 DISTRIBUTOR

Building on almost 30 years of innovation and industry leadership, TE's new TENIO closures enable 30% faster, future-proof network deployments in 30% less space. TENIO closures feature modular building blocks and combine proven fibre management hardware with a new sealing system to simplify training and reduce inventory. The closure's 100% mechanical, toolless and intuitive design facilitates lower-skilled network deployments. Full modularity of the closure platform supports a phased CAPEX network deployment scheme, reducing up-front CAPEX investment.

Designed for use with any cable construction (loose buffer tube, central core tube, loose fibre), the closures deploy in any environment (aerial, pedestal, handhole, manhole) and TE's superior gel-sealing technology guarantees sealing regardless of cable type and form.

FIST-GC0G2 GEL SEALED EXTERNAL FIBRE OPTIC SPLICE CLOSURES

CommScope's generic gel closure FIST-GC0G2 is an environmentally sealed enclosure for the FIST fibre management system. The closure is a single-ended design made of a thermoplastic material. The base and dome are sealed with a clamp (or latches) and an O-ring system.

Six round cable ports are provided in a wrap-around block with pre-installed gel profile for cable sealing. This block can be opened and closed repeatedly without the need to remove or replace the gel.

COMMScope®
DISTRIBUTOR

FIST-GC0G2 has provision for all cable termination and sealing requirements. The universal mounting system profiles provide the foundation for mounting combinations of trays and/or splitters.

INTRODUCING FREMCO FIBRE BLOWING MACHINES & EQUIPMENT

A
NANOFLOW

B
**MICROFLOW
TOUCH**

C
**MINIFLOW
RAPID**

Fremco is an innovative Danish manufacturer of fibre cable blowing machines. Since the mid 90s Fremco has specialised exclusively in fibre blowing equipment, with their machines being designed and hand made in Denmark. Mills is proud to be the exclusive distributor of Fremco products in the UK and Ireland.

Fremco develops its products in close collaboration with customers, duct manufacturers and cable manufacturers worldwide. This ensures the product range offers user friendly solutions covering all dimensions of fibres/cables, ducts and applications.

Fremco fibre blowing machines are built to last and this is backed up by a 36 month manufacturer's warranty on all machines.

FREMCO SYSTEM OVERVIEW

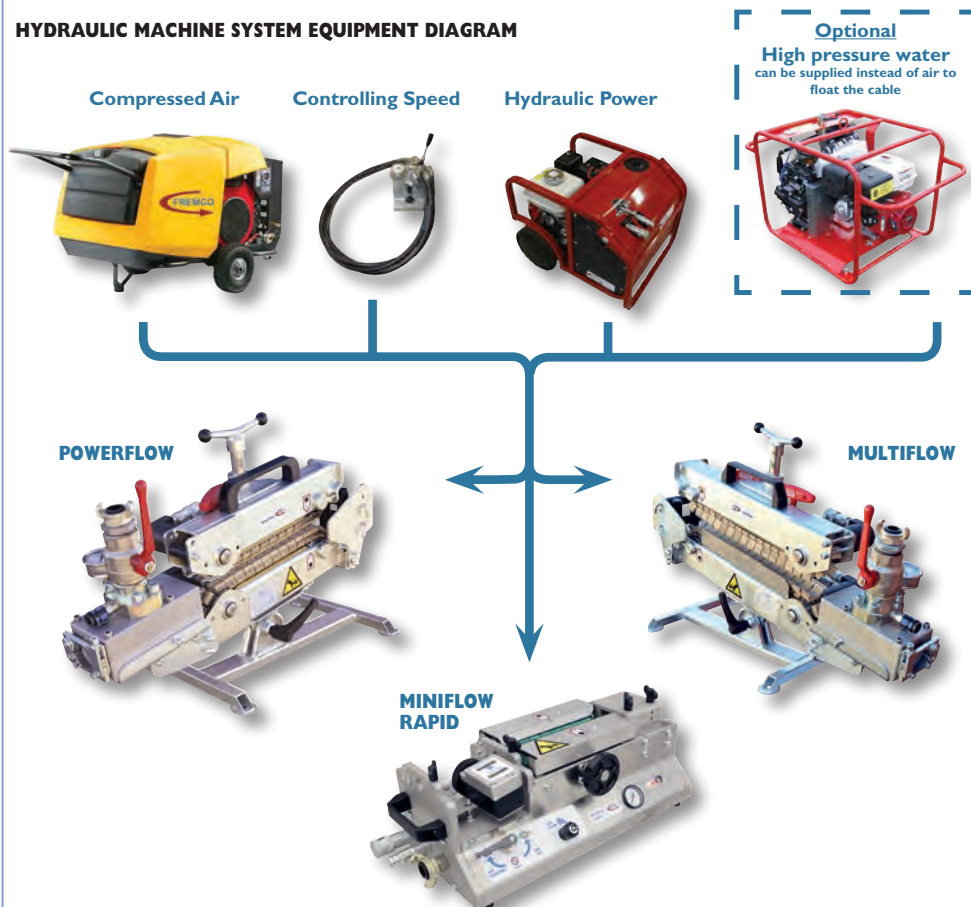

In order to blow fibre using Fremco machines, a number of other pieces of equipment are required dependent on which machine and the environment it is to be used in.

The Microflow Touch simply requires an air compressor and a 110-220V AC electrical power supply. The hydraulic powered machines (Miniflow Rapid, Powerflow & Multiflow) require a Hydraulic Multipowerpack, a Hydraulic Control Unit and either an Air Compressor or a compressed water supply.

FREMCO NANOFLOW FIBRE BLOWING MACHINE

Nanoflow™ provides easy, efficient, seamless and automatic FTTH installation.

HIRE AND FINANCE OPTIONS AVAILABLE
SEE PAGE 75

- Fully automatic fibre blowing machine with unique double fibre protection
- Battery-powered (independent of 110V/230V)
- Quick load of fibre and duct
- No tools needed = very easy to configure/operate/start up
- Easy to open and close by hand
- Easy load and removal of pre-connected products from the machine without cutting

 Datasheet available online

SPECS:	
Duct size:	3-10mm
Fibre size:	0.8-2.8mm
Blowing length:	up to 1.2km
Weight:	2.8kg (without bat.)
Length:	212mm
Height:	139mm
Width:	104mm

NANOFLOW™

Operation:

Easy setting with 6 steps for adjustment of speed and 6 steps for adjustment of torque. If the maximum recommended load on the fibre exceeds the preset torque, the machine stops the blowing process immediately without damage to the fibre. If the machine setting is wrong with too high torque, a unique synchronous system will also interrupt the process immediately. Obviously also without fibre damage.

The operator can use these safety systems as an indication that the fibre has reached the customer, thus a one-man job.

Features:

- Easy-to-read LED display (also in daylight), showing speed, distance, fibre protection and low battery information
- Can be placed in multiple positions for fibre blowing
- Lightweight but powerful
- Anodised aluminium construction*

Included:

- Delivered in practical carrying case with quick guide
- Can be used with or without air
- 36 months warranty
- 2 x 24V 2.0 Ah powerful Lithium-ion battery with quick charger (up to 12 hours battery life with normal usage)
- 2 sets of adaptor plates for 1.1-1.2 mm and 1.4-1.6 mm EPFU fibre (2F-12f)
- Duct adaptors for duct sizes 3-5.7-8-10 mm

Accessories: (not included)

- Tripod with quick adaptor
- Shoulder strap
- Reel holder arm for pre-connected fibre
- 24V 4.0 Ah Lithium-ion battery
- A wide selection of adaptor plates for different fibre/duct sizes on request

* Anodising is a process that increases resistance to corrosion and wear and significantly enhances the surface hardness. During the process, there is a build-up of aluminium oxide on the aluminium surface. Aluminium oxide has a hardness grade of 9.7, making it one of the hardest materials in the world (according to the Mohs scale, diamond is the hardest material in the world, with a hardness grade of 10. The hardness grade of glass is 5.6). Anodising creates a maintenance-free surface with superior wearing qualities. It ensures ultimate corrosion resistance and creates a durable, shock and scratch proof surface. Fremco uses anodising as surface treatment on all aluminium parts.

PART NO.	DESCRIPTION
NANOFLOW	NANOFLOW FIBRE BLOWING MACHINE

FREMCO MICROFLOW TOUCH FIBRE BLOWING MACHINE

The Fremco Microflow Touch is the natural choice for effortless FTTH installations. Its compact size and dual voltage usage sets it apart from its competitors in the market.

It has been designed to blow fibre cables from 0.8-5.5mm into tube sizes 5-16mm at speeds of up to 100m per minute over distances up to 2.5km.

Specifications

- Fibre cable diameter from 0.8 - 5.5 mm
- Microduct diameter from 5 - 16 mm
- Speed up to 100 m/min.
- Powered by 24V DC electric motor
- Electronic control unit
- Electronic meter speed/counter with presetting of blowing distance
- Adjustable motor torque load of fibre cable
- Electronic protection technology to prevent damages to fibre cable
- Recommended pressure and airflow 8-16 bar (200-500 l/pr. min.).

The blowing process

Using the Microflow Touch a typical blowing process is as follows:

1. The machine is placed on a stable surface and the fibre cable is placed into the machine.
2. The duct, in which the fibre cable is to be blown, is placed into the machine as well and the pulling wheels are adjusted
3. Using the control unit the appropriate torque level, speed and blowing distance can be finely adjusted
4. Once the start button has been pressed, the fibre cable is fed into the duct and after 10-20 metres the air is turned on
5. The cable blowing is now automatic and can be stopped either manually by pressing the stop button or automatically when the preset blowing distance has been reached

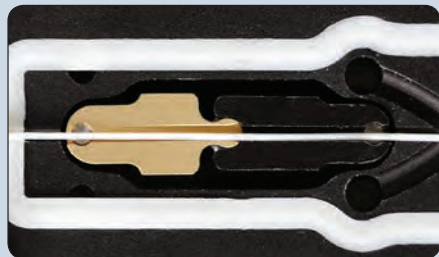

HIRE AND
FINANCE
OPTIONS
AVAILABLE
SEE PAGE 75

Protection technology

The Microflow Touch has a unique protection technology that stops the machine if the fibre cable meets an obstacle.

An obstacle in the microduct will cause the fibre cable to become slightly bent inside the machine.

This bend is detected by a sensor and the motor stops automatically to prevent any damage being done to the fibre cable.

Control unit

Microflow's control unit has a user friendly touch display, which can be used to make a number of different adjustments:

- Adjustment of maximum motor torque
- Adjustment of maximum speed
- Presetting of counter with automatic stop after a specified blowing distance
- Acceleration - from start to maximum speed
- Deceleration - from maximum speed to stop
- The display shows different information during blowing, for instance: distance count, speed and torque

PART NO.	DESCRIPTION
MICROFLOWTOUCH	MICROFLOW TOUCH FIBRE BLOWING MACHINE

FREMCO MINIFLOW RAPID FIBRE BLOWING MACHINE

The Fremco MiniFlow Rapid offers exceptionally rugged construction and high performance.

Featuring a wheel-free chain drive system that ensures reliability in all extreme weather conditions.

It has been designed to blow fibre cables from 4-12mm into tube sizes 7-20mm at speeds of up to 100m per minute over distances up to 3.5km.

Specifications

- Micro cable diameter: 4 - 12 mm
- Microduct diameter: 7 - 20 mm
- Blowing distance¹: Up to 3.5 km (water), 2.5 km (air)
- Blowing speed²: Up to 100 m/min.
- Recommended pressure and airflow²: 8-16 bar (1,000 l/pr. min.)
- Weight: 24 kg
- Length: 650 mm
- Width: 225 mm
- Height: 210 mm

¹ Stated distances are for guidance only. Actual performance may be greater or lesser dependent on duct size, duct condition and fibre cable type.

² Cooled and dried air.

WITH HYDRAULIC DRIVE

AS USED BY MAJOR TELCOS WORLDWIDE

Cable damage prevention

The MiniFlow RAPID features a unique monitoring system that continuously monitors the pushing force applied to the fiber cable. This provides the user with visibility should the cable meet a blockage or too much resistance in the duct. The user can then stop the drive wheels before the fiber cable is damaged.

Pushing force in kilograms

The MiniFlow RAPID offers many advantages:

• User friendly design

The MiniFlow RAPID has a user friendly design that makes for easy operation.

The machine is designed with the main focus on functionality that includes:

- Rugged stainless construction
- Safety chain guard
- Large easy to use adjustable knobs
- Pushing force indicator

• Built-in meter counter

The MiniFlow RAPID has a built-in mechanical meter counter. The counter is easy to read and is robust and simple to operate. A digital counter and tachometer is available as an optional extra.

• Flexible

MiniFlow RAPID offers great flexibility. The machine can quickly be adapted to accommodate different cable and duct sizes.

• Efficient cable blowing

MiniFlow RAPID is a compact and efficient cable blowing machine. The machine is capable of installing fibre cable at speeds up to 100 m/min. and up to a distance of 3.5 km.

• Robust and compact

The machine is constructed in stainless steel and anodized aluminium that makes it suited for use under rugged conditions at cable blowing locations.

PLEASE NOTE: The following additional equipment is required to operate the blowing machine.

- Hydraulic MultiPower Pack
- Hydraulic Control Unit
- High pressure air compressor and hoses

These are required items but are not supplied with the blowing machine and must be ordered separately.

PART NO.	DESCRIPTION
MINIFLOWRAPID	MINIFLOW RAPID FIBRE BLOWING MACHINE

FREMCO POWERFLOW FIBRE BLOWING MACHINE

The Fremco Powerflow is a highly robust machine, engineered specifically for external use and capable of blowing single and multiple fibre cables into multiducts.

Designed to blow or float fibre cables from 8-25mm into duct sizes 18-70mm at speeds of up to 80m per minute over distances up to 10km (using water).

Specifications

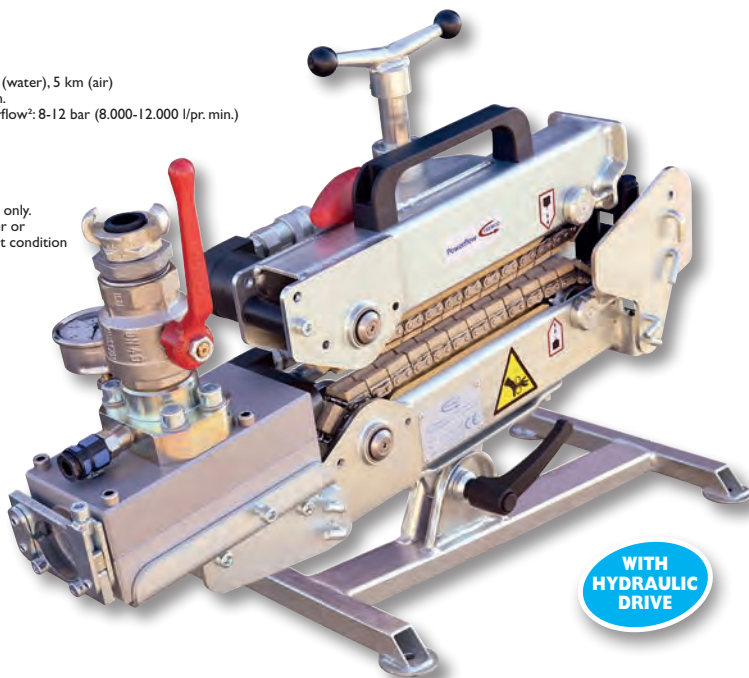

- Cable diameter: 8 - 25 mm
- Duct diameter: 18 - 70 mm
- Blowing distance¹: Up to 10 km (water), 5 km (air)
- Blowing speed¹: Up to 80 m/min.
- Recommended pressure and airflow²: 8-12 bar (8.000-12.000 l/pr. min.)
- Weight: 38 kg
- Length: 650 mm
- Width: 230 mm
- Height: 350 mm

¹ Stated distances are for guidance only. Actual performance may be greater or lesser dependent on duct size, duct condition and fibre cable type.

The PowerFlow offers several benefits

• User friendly design

The PowerFlow has a user friendly design, making the machine easy to operate. The main focus of its design is functionality to make cable blowing simple.

• Cable blowing using either air or water

With PowerFlow it is possible to install fibre optic cables using either air or water. With water assisted cable blowing you can achieve optimal results, especially when installing larger cables or blowing long distances.

• Efficient blowing

The PowerFlow is a very efficient cable blowing machine. It can blow cables with a speed up to 80 m/min. It is possible to blow distances up to 10 km (using water)

• Robustness

The PowerFlow is built to last and can handle being used in the harsh environments commonly experienced at cable blowing sites.

• Flexibility

The Powerflow is very flexible since it can be changed to blow into different sizes and numbers of microducts. There are many different sizes and combinations of fittings available to suit cable diameters 8 - 25 mm into duct diameters 18 - 70 mm.

PLEASE NOTE: The following additional equipment is required to operate the blowing machine.

- Hydraulic MultiPower Pack
- Hydraulic Control Unit
- High pressure air or water compressor and hoses

These are required items but are not supplied with the blowing machine and must be ordered separately.

FREMCO MULTIFLOW FIBRE & MICRODUCT BLOWING MACHINE

The Fremco Multiflow is a multipurpose heavy duty external blowing machine. Comfortable in blowing the largest multiple fibres as well as blowing microducts into larger ducts (relining).

Designed to blow or float fibre cables from 8-32mm into duct sizes 18-70mm at speeds of up to 80m per minute over distances up to 10km (using water).

Specifications

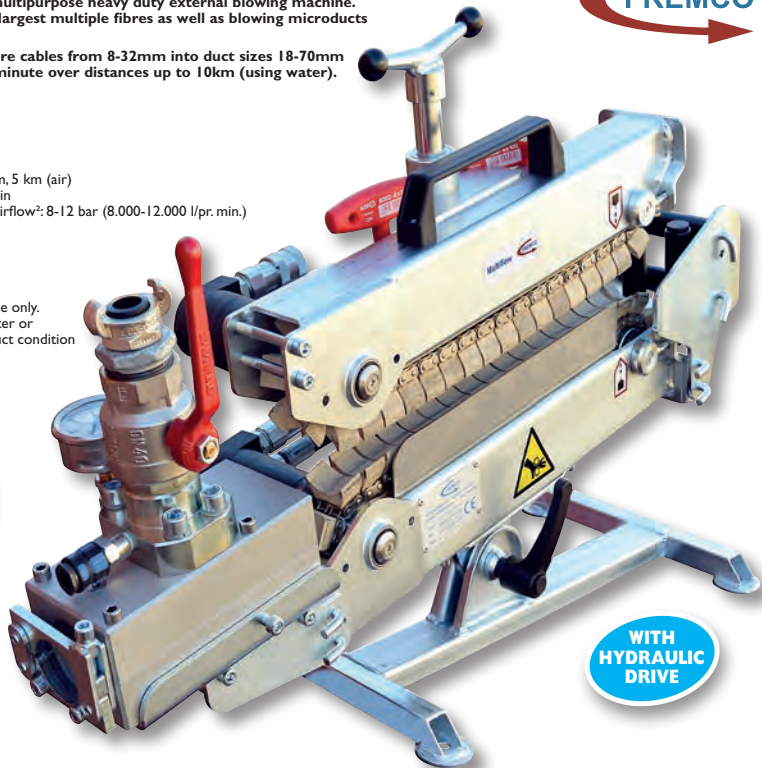

- Cable diameter: 8 - 32 mm
- Duct diameter: 18 - 70 mm

FREMCO HYDRAULIC MULTIPOWER PACK

The Hydraulic MultiPower Pack is the required hydraulic power source for the MiniFlow, MultiFlow and PowerFlow machines.

- Oil flow 18 l.p.m at 3300 r.p.m.
- Working pressure nominal 100 bar.
- Pressure relief valve set at 110 bar.
- Pump Gear pump.
- Oil temperature Max. 70°C.
- Hydraulic oil tank capacity min. 5 litres/max. 7 litres
- Petrol tank capacity 3.1 litres
- Hydraulic system - Max. 8 litres
- Filter system (filter element) 25 Micron with by-pass
- Engine Honda GX200QX7 6.5 HP (gross power)
- 4-stroke petrol with oil alert system.
- Petrol - normal or unleaded.
- Engine oil 1.1 litres.
- Guaranteed sound power level LWA 100 dB
- Sound pressure level 1 m LPA 88 dB
- Dimensions (LxVxH) 630x530x510 mm
- Weight, without hydraulic oil 54 kg.

Fibre Blowing Machine Hire

Whether you need a blowing machine for as little as a week for a short term project, or for several months as part of a medium-term contract, Mills has an extensive fleet of the latest Fremco machines available for you to hire from stock immediately.

Hiring with Mills offers you flexibility according to demand and avoids the need for capital investment. You can pick and choose which model you need, where you need it and when you need it as dictated by your project requirements. Weekly hire fees enable you to keep a tight control of your cashflow whilst you 'pay-as-you-blow' and all hire payments are 100% tax deductible in the year they are made and do not appear on the balance sheet.

It's straightforward and simple to hire from Mills. Our expert blowing machine specialists will find the best solution for you and your business. If desired they will provide basic operation training when delivering the machine to you - all this at no extra cost. In addition to this you will be provided with the details of our 24/7 Fremco OnSiteAssist helpline that will put you directly through to a blowing machine specialist, should the need arise. There are no hidden costs; all appropriate and necessary equipment, support, and logistics will be taken care of by Mills and included in the cost of the hire agreement.

So don't let upfront costs be a barrier to entry on bidding for fibre blowing projects, call sales on **020 8833 2626** for further information and a hire quote.

Fibre Blowing Machine Finance Purchase

Want to purchase a blowing machine without the upfront cost, enabling you to use valuable capital elsewhere in your business? If yes, then Mills can help you purchase a blowing machine and spread the cost over 24 or 36 months with a minimum amount of interest and with the flexibility to settle early without penalty.

So don't let upfront costs be a barrier to entry on bidding for fibre blowing projects, call sales on **020 8833 2626** for further information on finance purchasing a Fremco fibre blowing machine now.

HEXATRONIC FIBRE BLOWING MACHINE KIT

Application

The Air Blown Fibre Installation Tool is used for the installation of Air Blown Fibres into microducts. This unique, easy-to-handle and lightweight tool is designed for optimal performance.

Design

The blowing tool consists of a body that guides and feeds the fibre unit into the microduct. The tool uses both compressed air and an electric motor to feed the fibre. An adjustable magnetic coupling limits feeding force on fibre to avoid damage in case of a sudden stop. A Li-ion battery pack, fitted in the tool handle, powers the motor. The motor speed and direction is controlled by a trigger switch on the handle.

The blowing tool is normally fed with dry compressed air. The compressed air is connected to the tool with a 1/4" standard (CEJN) quick connector. For optimal installation performance, an air flow of 80 l/min and a nominal pressure of 8 bar is required.

For shorter distances, a smaller compressor or a portable pressure canister with a reduction valve can be used. For very short distances (up to 50 m) such as in small multi dwelling units, the fibre can be fed by the integrated electrical motor only, without using any compressed air supply at all.

Fibre Units

The Hexatronic Air Blown Fibre units are available either as pre-connected (with a fibre connector in the end) or without connectors. The pre-connected fibres are delivered in small lightweight reels that are conveniently fitted on the reel holder of the tool.

Performance

The installation distance and performance depends on several parameters such as number of bends, radius of each bend, temperature, humidity, air pressure, type of fibre unit etc. In normal situations, a blowing distance of typically 1000 m can be expected. The maximum installation speed varies depending on distance and is typically 80-120 m/min (max 150 m/min).

HEXATRONIC
Cables & Interconnect Systems

Features

- Class leading installation performance
- Installation speed of up to 150 m/min
- Portable and Lightweight
- Easy to use and virtually calibration free design
- Low noise
- For microduct dimensions 3, 5 and 7 mm.

Contents of Kit

- Blowing tool
- Battery charger
- Two Li-ion batteries
- Set of air filter and valve
- Small toolbox with tools and common replacement parts
- Fibre guide sets for up to ≤ 1.3 mm and ≤ 1.6 mm fibre units
- Nozzles for 3 mm, 5 mm and 7 mm microducts
- Microduct cutter
- User guide
- Carrying case

ZEITLER EZ SPEEDY CABLE FEEDING KIT

The 'EZ Speedy' is a cost effective and efficient solution for feeding fiber optic cables (ø 0.5 mm to 8.0 mm) into microducts, utilising a standard cordless power tool (not included), up to a distance of 500m, when used in conjunction with the 'EZ Booster' compressed air adaptor. The 'EZ Speedy' is supplied in a robust ABS case and comprises a full range of cabling guides and microduct adaptors to feed most fiber optic cables with diameters from 0.5mm to 8mm into microducts with outside diameters of 6, 7, 8, 10, 12 & 14 mm. Also included in the kit is an 8mm hexagon drive adaptor for direct connection to most popular cordless power tools. We recommend a 10.8v cordless power tool for convenience and versatility. Insertion length up to 500m.

In connection with the EZ BOOSTER the cable can be inserted even more smoothly and evenly.

Supplied equipment in strong ABS plastic case:

- 1 x EZ SPEEDY basic tool
- 2 x rubber rolls according to chosen cable dimension
- 2 x cable guides according to chosen cable dimension
- 5 x microduct couplings (6,8,10,12 and 14 mm)
- 1 x tube reducer 8/7mm
- 1 x microduct adaptor
- 1 x Hex Bit holder 8 mm
- 1 x Allen key 5 mm
- 1 x wrench 8 mm
- 1 x small container with spare screws
- 1 x operating manual

E00-6681	EZ SPEEDY CABLE FEEDING KIT

ZEITLER EZ BOOSTER COMPRESSED AIR ADAPTOR KIT

For feeding cables up to distances of 500m, the 'EZ Speedy' must be used in conjunction with the EZ Booster, which is a compressed air adaptor and fits quickly to the 'EZ Speedy' and needs to be adjusted to fit the desired microduct using the duct couplers supplied in the kit.

Supplied equipment in strong ABS plastic case:

- 1 x EZ BOOSTER basic tool
- 1 x entrance plate (green) according to selected cable dimension
- 1 x connection plate (violet) according to selected cable dimension (to connect EZ SPEEDY)
- 5 x microduct couplings (6, 8, 10, 12 & 14 mm)
- 1 x microduct reducer 8/7mm
- 1 x Torx wrench T20
- 1 x small container with 10 rubber disks according to selected cable dimension
- 1 x small container with 6 spare screws
- 1 x operating manual

ZEITLER EZ GLIDE LUBRICATOR ACCESSORY KIT

As an accessory to the EZ Speedy and EZ Booster, the EZ Easy Glide Lubricator is strongly recommended. Specifically designed to simply and automatically apply lubricant on to the cable evenly and economically.

Supplied equipment in strong ABS plastic case:

- 1 x EZ Easy Glide basic tool
- 1 x EZ Easy Glide entrance plate
- 1 x EZ Easy Glide connection plate
- 1 x EZ Easy Glide glass cylinder
- 5 x microduct couplings (6, 8, 10, 12 & 14 mm)
- 1 x microduct reducer 8/7mm
- 1 x Torx wrench T20
- 1 x small container with 15 rubber disks
- 1 x small container with 6 spare screws
- 1 x coupling front
- 1 x 125ml cable lubricant

E00-6683	EZ GLIDE LUBRICATOR ACCESSORY KIT

BOSCH 10.8V LI-ION CORDLESS COMBINATION DRILL

The Bosch GSB10-8VLi is a 10.8V Lithium-ion cordless combination drill. This package includes the drill, two 2.0 Ah Li-ion batteries, a quick charger, holster and is supplied in a strong ABS storage case.

It is the ideal partner and driving tool for the EZ Speedy. In addition to use with the EZ Speedy it can, of course, be used for drilling wood, steel and masonry in addition to screwing.

NEW!

Includes:

- Bosch GSB10-8VLi Combi Drill
- 2 x 2.0 Ah Li-ion batteries
- AL I130 CV Quick Charger
- Holster
- L-BOXX Transportation Case

At 189 mm it has the shortest design in its class for optimum handling, especially when performing drilling and screwdriving applications, overhead and in tight spaces.

P09-6870	BOSCH GSB10-8VLI COMBI DRILL + 2 x 2Ah BATTERIES

POLYWATER® PRELUBE 2000™ CABLE BLOWING LUBRICANT 0.95L

Ideal for blowing cables and relining ducts, Polywater® Prelube 2000™ reduces frictional drag during the blowing of outside plant cable into duct. It increases the length of cable that can be blown in a single shot. Prelube 2000™ can also be used to blow in the hollow microtubes intended to hold future microcables.

Over the last decade, Prelube 2000™ has been proven in the blowing of tens of thousands of kilometers of cable in over 20 countries on a variety of cable blowing machines.

- Cable blowing lube for air-assisted fibre optic cable installations.
- Compatible with cable jackets.
- Approved & recommended by numerous blowing equipment manufacturers.
- Increases blowing distance with lower friction.

PART NO.	DESCRIPTION	PRICE
S83-6675	PRELUBE 2000™ CABLE BLOWING LUBRICANT 0.95L	9.25

POLYWATER® F LUBRICANT 3.8L

Polywater F Lubricant is a high performance, pourable liquid, cable pulling lubricant recommended for pulling underground fibre optic cable. It is also suitable for pulling coaxial and copper-pair cable. Polywater F is a thick liquid, and is applied by pouring or pumping the lubricant into the duct system. It is a popular lubricant and used in the pulling over 50,000 miles (80,000 km) of fibre optic cable into duct.

- Field proven high performance pourable lubricant
- Easy to pour into innerducts and feeder tubes
- Works on underground fibre optic, coaxial, and copper cable pulls
- Approved and recommended by many cable manufacturers
- Superior friction reduction
- Carries with cable for long distance - wets and clings to cable.
- Compatible with cable jackets
- Clean and non-staining

PART NO.	DESCRIPTION	PRICE
S83-6677	POLYWATER® F LUBRICANT 3.8L	11.74

POLYWATER® SQUEEYKLEEN™ CABLE CLEANING WIPES

Supplied in a dispenser with 300 5" x 6" (127mm x 152mm) premoistened cable cleaning wipes.

New SqueeKleen™ cleans and fans fibre in two wipes without alcohol, saving time & money. No follow-up with alcohol required to get fibres squeaky clean and separated for fast & easy splicing.

SqueeKleen™ reduces chemical odors & harmful vapour concentrations in splice trailers and vaults while being less harsh on hands.

Its unique formulation and specially designed high-performance toweltette work to remove pik from the entire surface of loose tube or ribbon fibres, leaving no residue.

SqueeKleen™ helps keep splice equipment clean for better fibre alignment & splice quality. Will not harm acrylate on loose tube cable or Mylar on ribbon fibre.

PART NO.	DESCRIPTION	PRICE
S83-6679	POLYWATER® SQUEEYKLEEN COMMUNICATIONS CLEANER	27.06

POLYWATER® PRELUBE 5000™ CABLE BLOWING LUBRICANT 0.25L

Polywater® Prelube 5000™ is more concentrated than the Prelube 2000™. It is intended for blowing microcable into small diameter microtubes. The improved chemistry allows this product to spread further and lower friction at extremely low coating levels. The lower viscosity allows practical application into the microtubes.

- Microfibres/Microduct applications.
- Cable blowing lubricant for air assisted installations.
- Compatible with micro cable plastic jackets.
- Reduces friction, drag, and increases blowing length

Polywater® Prelube 5000™ is easy to use. It can be squeezed into the small diameter microducts.

It works at extremely low coating levels. It coats further and more effectively than conventional blowing lubricants.

Polywater® Prelube 5000™ is compatible with known microcable plastic jackets. However, it should not be used for resin-coated fibre cables.

PART NO.	DESCRIPTION	PRICE
S83-6676	PRELUBE 5000™ CABLE BLOWING LUBRICANT 0.25L	13.49

POLYWATER® FTTX LUBRICANT 0.95L

Polywater® FTTx Fibre Lubricant makes the installation of fibre drops easy. The lubricant is concentrated, only a thin film is required for immediate tension reduction that lasts even as the lubricant dries. Spray or wipe the cable or conduit. Quick and easy to use without mess or excess lubricant.

- Perfect for Fibre Optic Drops
- Non-Staining, Quick Clean-Up
- Easy Application with Spray
- Lubricates with Very Thin Film, Performs After Drying
- Compatible with Common Cable Jackets Including Polyethylene

FTTx Lubricant works even after it has dried. The residue is a thin, slippery film that retains lubricity for months after use.

PART NO.	DESCRIPTION	PRICE
S83-6678	POLYWATER® FTTX LUBRICANT 0.95L	9.46

POLYWATER® AQUAKLEEN™ FIBRE CLEANER 60ML

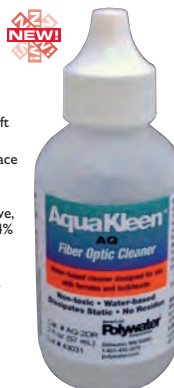

For cleaning ferrules, bulkheads and fibre endfaces.

AquaKleen™ Fibre Cleaner is formulated for cleaning fibre-optic cables and endfaces. Its excellent wetting reaches precision parts to lift dust, buffer gel, lint, finger prints, and oils.

AquaKleen™ dissipates static to remove surface charges so that the surface is less likely to be re-contaminated.

AquaKleen™ Fibre Cleaner contains innovative, water-based technology. A special blend of 94% ultra-pure deionized water with proprietary solvents; it does not leave a residue. Supplied in a squeeze bottle with dropper tip.

- Eco Friendly,
- Non-Toxic
- Water-based
- No Residue
- Excellent Solvency
- Non-Flammable
- Easy to Transport

MILLS BLOWN FIBRE TOOLKIT No.1 IN 20" RUGGEDISED TOOLBOX

A basic toolkit designed for the blown fibre engineer, comprising over 30 tools for the installation and connection of fibre ducting and subsequent blown fibre installation. It is supplied in a large capacity 20" (50cm), ruggedised tool box.

Kit Comprises:

- B70-6169** 20" (50cm) Ruggedised Toolbox
- M99-5489** Mills LED Head Torch
- C00-6409** 0.45 litre Sharps Box
- C71-6895** Sharpie Pen (PK 2)
- E00-0451** Collet Locking Tool
- E00-6468** Micro Duct Cutter
- E00-3021** Cutter Hand No 2
- E00-3646** 3 Piece 1000V Plier Set
- E00-5004** Kevlar Scissors
- N72-6375** Spring Back Knife
- E22-6585** Junior Hacksaw
- R99-1210** PVC Tape Black
- E00-6124** Tube Gauge
- J04-6467** Tube Reamer
- S83-6198** Mills Tri Head Duct Cutter
- E00-6691** Large Capacity Duct Cutter 0-30mm
- F02-3638** Screwdriver Set
- S14-3440** Safety Gauntlets
- R99-6590** Mills Wipes
- E22-6373** 5m Tape Measure
- S26-5924** Bolle Safety Glasses (not laser protective)
- M99-6914** Mini Millslite Cree LED Zoom Lens Torch

PART NO.	DESCRIPTION	PRICE
A10-6183	MILLS BLOWN FIBRE TOOLKIT No.1	179.95

MILLS BLOWN FIBRE TOOLKIT No.2 IN 23" RUGGEDISED WATERPROOF TOOLBOX

A comprehensive toolkit designed for the blown fibre engineer, comprising over 50 tools for the installation and connection of fibre ducting and subsequent blown fibre installation. The Mills Blown Fibre Kit 2 is supplied in a large capacity 23" (58cm), ruggedised waterproof tool box.

Kit Comprises:

- B70-3347** 23" Ruggedised Toolbox
- C00-6409** 0.45 litre Sharps Box
- M99-5489** Mills LED Head Torch
- B94-2889** Parts Organiser
- C71-6895** Sharpie Pen (PK 2)
- E00-0451** Collet Tools
- E00-6468** Micro Duct Cutter
- E00-0470** Longitudinal Cutter 1A
- E00-3021** Cutter Hand No 2
- E00-3646** 3 Piece 1000V Plier Set
- E00-5004** Kevlar Scissors
- M99-6916** Mills Combined LED Torch & Worklight
- E00-6170** Mills 3 Way Fibre Stripper
- H01-1528** Metric Ball End Hex Key Set
- H72-6381** 8" Adjustable Spanner
- J04-3416** Electronic Vernier Caliper
- N72-6375** Spring Back Knife
- E22-6585** Junior Hacksaw
- R99-1210** PVC Tape
- E00-6124** Tube gauge
- J04-6467** Tube Reamer
- S83-6198** Mills Tri Head Duct Cutter
- E72-6782** Bead Crimper
- E00-6691** Large Capacity Duct Cutter 0-30mm
- F02-3638** Screwdriver Set
- S14-3440** Safety Gauntlets
- R99-6590** Mills Wipes
- E22-6373** 5m Tape Measure
- E12-6630** Connector Plier
- S26-5924** Bolle Safety Glasses (not laser protective)

PART NO.	DESCRIPTION	PRICE
A10-6184	MILLS BLOWN FIBRE TOOLKIT No.2	336.55

**MILLS BLOWN FIBRE MICRODUCT
TUBE CUTTER - 0-12MM**

Designed to give a clean, straight cut to the blown fibre microduct before inserting into a connector.

PART NO.	DESCRIPTION	PRICE
E00-6641	MILLS BLOWN FIBRE TUBE CUTTER - 0-12MM	3.95

**MILLS BLOWN FIBRE
MICRODUCT CUTTER - 0-14MM**

A compact plastic duct cutter with PTFE coated blade for precision cutting of micro ducts up to a diameter of 14mm with minimal effort incorporating a one handed locking system. Length: 133mm.

PART NO.	DESCRIPTION	PRICE
E00-6468	MILLS MICRODUCT CUTTER 0-14MM	12.30
E00-6419	SPARE BLADE FOR MICRODUCT CUTTER	5.95

**MILLS SUBDUCT
CUTTER - 6-35MM**

A circumferential cutter for use on Sub-duct with an outside diameter of 6-35mm. The ratchet mechanism provides a smooth cutting action with minimal effort. The cutting blade can be easily cleaned or replaced without the need to open the body of the cutter.

PART NO.	DESCRIPTION	PRICE
S83-6910	MILLS SUBDUCT CUTTER	24.95
S83-6911	SPARE BLADE FOR MILLS SUBDUCT CUTTER	7.95

**HEAVY DUTY RATCHET
42MM DUCT CUTTER**

Heavy Duty Ratchet Pipe Cutter for ducts up to 42mm, manufactured from die cast aluminium with black vinyl grips.

PART NO.	DESCRIPTION	PRICE
S83-6787	HEAVY DUTY RATCHET 42MM DUCT CUTTER	22.95

**MILLS END CUTTING DUCT TOOL
(CROCODILE)**

Specialist microduct cutter with a 90 degree rotating head mechanism allowing the tool to end cut and side cut microduct up to an outside diameter of 10mm, making it essential in awkward access areas. The tool benefits from a locking catch for blade security when not in use and also features comfort grip handles for repetitive applications. Overall length: 175mm.

PART NO.	DESCRIPTION	PRICE
E00-6670	MILLS END CUTTING DUCT TOOL (CROCODILE)	32.95

MILLS TRI-HEAD DUCT CUTTER

An innovative plastic duct cutter with a revolving head giving three duct ranges suitable for the most popular sizes of tubes used in the fibre blowing industry.

Position 1 - Ducts from 0 to 8mm

Position 2 - Ducts from 9mm to 18mm

Position 3 - Ducts from 19mm to 25mm

The tri-head duct cutter also benefits from an S2 high speed steel cutting blade and can be locked in the closed position for storage. Overall length: 215mm.

PART NO.	DESCRIPTION	PRICE
S83-6198	MILLS TRI-HEAD DUCT CUTTER	27.95
S83-4816	SPARE BLADE	4.95

SUBDUCT CUTTER

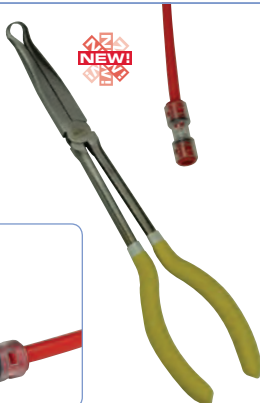

Fully adjustable tube and sub duct cutter adjustable from 3-30mm. The cutter benefits from two guide rollers for ease of use.

PART NO.	DESCRIPTION	PRICE
E00-6691	SUBDUCT CUTTER	16.95

MILLS LONG REACH BLOWN FIBRE DUCT CONNECTOR PLIERS

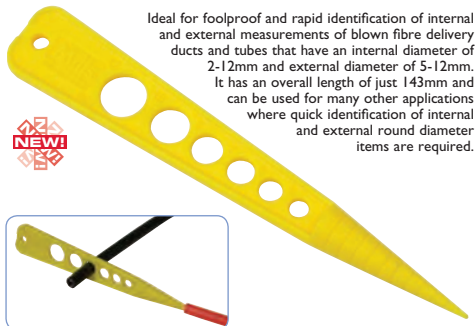

A specialist tool designed for the installation and removal of blown fibre connectors with body diameters of 10-16mm. The tool has an overall length of 270mm and is ideal for difficult to reach places.

PART NO.	DESCRIPTION	PRICE
E12-6630	MILLS LONG REACH DUCT CONNECTOR PLIERS	9.95

MILLS TUBE MEASURING GAUGE

A handy tool for measuring the inside and outside diameter of blown fibre tubes.

Ideal for foolproof and rapid identification of internal and external measurements of blown fibre delivery ducts and tubes that have an internal diameter of 2-12mm and external diameter of 5-12mm. It has an overall length of just 143mm and can be used for many other applications where quick identification of internal and external round diameter items are required.

PART NO.	DESCRIPTION	PRICE
E00-6124	MILLS TUBE MEASURING GAUGE	1.79

MILLS TUBE REAMING & DEBURRING TOOL

A handy essential tool for deburring or reaming the internal surface of plastic blown fibre tubes from 2mm to 12mm, prior to the installation of a connector. The tapered cone contains a long lasting abrasive coating and the tool benefits from bi-material comfort grip handle.

PART NO.	DESCRIPTION	PRICE
J04-6467	MILLS TUBE REAMING & DEBURRING TOOL	5.51

BEAD CRIMPER & GUIDE BEADS

A specialist crimping tool for attaching fibre blowing leader beads to fibre prior to installation. Suitable for crimping bullets 2-8mm. Guide beads available separately in packs of 25.

PART NO.	DESCRIPTION	PRICE
E72-6782	BEAD CRIMPER	10.95
E00-4855	GUIDE BEADS FOR 2/4 FIBRE PK25	9.00
E00-4856	GUIDE BEADS FOR 8/12 FIBRE PK25	7.50

COLLET LOCKING TOOL

Used to securely lock microduct joiners and connectors.

PART NO.	DESCRIPTION	PRICE
E00-0451	COLLET LOCKING TOOL	4.85

MICRODUCT ROUNDING TOOL

Use to round microducts after cutting and before fitting a connector.

Suitable for microducts with internal diameters of:

- 2.1mm
- 3.5mm
- 8mm

PART NO.	DESCRIPTION	PRICE
E00-6411	MICRODUCT ROUNDING TOOL (PK4)	6.95

MILLS 6 IN 1 BLOWN FIBRE CRIMPER / TUBE CUTTER

The 6 in 1 tool is designed for use by both the Plan and Build and Used to Cash engineers. The 6 different functions are:

1. Tube cutter
2. Bead crimper
3. Manifold tube measurement guide
4. Tube reforming nipple
5. Gas and Water block activation tool
6. 30mm splice protector fibre guide

PART NO.	DESCRIPTION	PRICE
E00-5480	6 IN 1 BLOWN FIBRE TOOL	17.00

CUTTER LONGITUDINAL 1A

This tool can be used to strip the sheath longitudinally from around blown fibre microduct or other Telco style cable without damaging it. The unwanted tube which surrounds the fibre can be stripped off with ease.

PART NO.	DESCRIPTION	PRICE
E00-0470	CUTTER LONGITUDINAL 1A	49.51

BLOWN FIBRE DUCT AIR INFLATOR

A simple air inflator for testing the integrity of blown fibre duct installations. The inflator can pressurise ducts up to 12 Bar. It is supplied with a standard PCL fitting, 8mm straight threaded-to-tube adaptor and 400mm of 8mm duct as standard.

This 8mm adaptor can be adapted to fit other tubes diameter, by use of the reducing adaptors shown on this page. The inflator should be used in conjunction with end caps and the air flow gauge shown below on this page.

PART NO.	DESCRIPTION	PRICE
C00-6697	BLOWN FIBRE DUCT AIR INFLATOR	59.95

BLOWN FIBRE DUCT AIRFLOW GAUGE KIT IN POUCH

Used in conjunction with C00-6697 Blown Fibre Air Inflator, this airflow gauge is used for testing the integrity of blown fibre duct installations.

The airflow gauge can measure flow rates of up to 50 litres per minute and is supplied with an 8mm swivel elbow adaptor and 400mm of 8mm duct as standard as well as a storage pouch.

The 8mm duct can be adapted to fit other diameter tubes, using the reducing adaptors shown below on this page.

PART NO.	DESCRIPTION	PRICE
S83-6189	BLOWN FIBRE DUCT AIRFLOW GAUGE KIT	59.95

CONNECTOR REDUCERS

A range of connectors for joining microducts of the most common different sizes.

Sizes specified are outer diameters.

PART NO.	DESCRIPTION	PRICE
Q69-6729	CONNECTOR REDUCER 7MM TO 5MM	1.92
Q69-6731	CONNECTOR REDUCER 8MM TO 5MM	2.26
Q69-6732	CONNECTOR REDUCER 10MM TO 8MM	2.80
Q69-6735	CONNECTOR REDUCER 12MM TO 10MM	2.85
Q69-6737	CONNECTOR REDUCER 14MM TO 12MM	2.98
Q69-6738	CONNECTOR REDUCER 16MM TO 12MM	3.95

CONNECTOR END CAPS

A range of end caps for sealing open microducts of the most common sizes in order to prevent dirt or water entry.

Sizes specified are outer diameters.

PART NO.	DESCRIPTION	PRICE
Q69-6741	CONNECTOR END CAP 5MM	0.98
Q69-6743	CONNECTOR END CAP 7MM	1.05
Q69-6744	CONNECTOR END CAP 8MM	1.10
Q69-6745	CONNECTOR END CAP 10MM	1.25
Q69-6746	CONNECTOR END CAP 12MM	1.50
Q69-6747	CONNECTOR END CAP 14MM	1.95
Q69-6748	CONNECTOR END CAP 16MM	2.65

FIBRE JOINTER'S KIT - IN MILLS TOTE BAG

A toolkit comprising the essential tools required for general fibre jointing & basic copper jointing applications. This version supplied in a Tote Bag.

**Kit comprises:**

B70-0600 Mills Utility Tote Bag With Cover Flap
C00-6409 0.451 Sharps Bin
C00-8296 4 oz IPA Dispenser
E00-0470 Longitudinal Stripper

A10-6194	SPLICER'S KIT No.1 - IN MILLS TOOL ROLL	155.15

FIBRE SPLICER'S KIT No.1 - IN MILLS TOOL BACKPACK

A fibre splicer's toolkit designed to be used in association with a Fusion Splicer that features the essential products required for most splicing applications. This version of the Fusion Splicer's Toolkit No.1 is supplied in a Mills Tool Backpack and comprises:

Kit comprises:

B72-6595 Mills Tool Backpack
C71-6895 Sharpie Pen (PK 2)
M99-5489 Mills LED Headtorch
E00-5004 Kevlar Scissors
E00-6170 Mills Masterclass 3-Way Fibre Stripper
N72-6375 Spring Back Knife
E70-5001 Fibre Ringing Tool
E00-0470 Cutter Longitudinal 1A
E15-1276 125mm Straight Tweezer
F70-4267 No1 x 75mm Pozidrive Screwdriver
F70-4291 Slotted Screwdriver 100mm x 6mm
C00-3038 Lint free Wipes Pack of 100
E00-1113 Cable Cutter 10.5mm Capacity
C00-6408 0.30 Litre Sharps Box
S26-5924 Bolle Safety Glasses (not laser protective)

PART NO.	DESCRIPTION	PRICE
A10-6197	SPLICER'S KIT No.2 - IN FATMAX TOOLBOX	463.90

**MILLS MASTERCLASS 3-WAY
FIBRE OPTIC STRIPPER**

Features high frequency heat treated / induction hardened cutting edges that ensure repeatable precision cutting & stripping to the very highest tolerances, whilst offering extreme durability. The strippers further benefit from bi-material comfort grip handles for repetitive use. The three stripping edges are ideal for general fibre installation and assembly work, covering the following applications:

- Stripping & removal of 2mm outer jacket
- Stripping 900µm buffer insulation
- Stripping 250µm acrylate coating

PART NO.	DESCRIPTION	PRICE
E00-6170	MILLS MASTERCLASS 3-WAY FIBRE OPTIC STRIPPER	21.90

**MILLS MASTERCLASS 5-WAY FIBRE
OPTIC STRIPPER**

Features high frequency heat treated / induction hardened cutting edges that ensure repeatable precision cutting & stripping to the very highest tolerances whilst offering extreme durability. The strippers further benefit from bi-material comfort grip handles for repetitive use. The five stripping edges are ideal for general fibre installation and assembly work, covering the following applications:

- Strips outer jacket from 2.0 – 2.4mm fibre
- Strips outer jacket from 2.8 – 3.0mm fibre
- Strips loose tube from 2.0 – 3.0mm fibre
- Strips 900µm buffer insulation
- Strips 250µm acrylate coating

PART NO.	DESCRIPTION	PRICE
E00-6175	MILLS MASTERCLASS 5-WAY FIBRE OPTIC STRIPPER	32.95

**MILLER 'TRI-HOLE'
FIBRE OPTIC STRIPPER**

Three-hole model performs all common fibre stripping functions in one compact tool.

- Standard 250 to 125µm stripping
- Removes 900 tight buffer to 250µm buffer coating
- Hole for removal of 2 to 3mm fibre jackets

PART NO.	DESCRIPTION	PRICE
E00-7712	MILLER TRI-HOLE STRIPPER	52.69

**MILLER FIBRE OPTIC
BUFFER STRIPPER 10A**

The industry standard original Miller 10A tool used for stripping 250µm primary acrylate coating (buffer) from 125µm optical fibre. All cutting surfaces are precision formed, hardened, tempered and ground assuring precise buffer removal.

PART NO.	DESCRIPTION	PRICE
E00-2021	MILLER FIBRE STRIPPER 10A	28.12

MILLS FIBRE STRIPPER 1A

A compact fibre optic cable stripper for circumferential and longitudinal stripping. At just 73mm long this versatile fibre stripper is ideal for stripping in confined spaces. The stripper uses two 'V' groove steps (0-3.2mm and 3mm- 6.4mm) making it suitable for circumferential and longitudinal stripping of most fibre optic cables up to a maximum diameter of 6.4mm.

PART NO.	DESCRIPTION	PRICE
E00-6912	MILLS FIBRE STRIPPER 1A	14.95

JONARD FIBRE CABLE STRIP & RING TOOL

Designed to slit and ring cables, buffer tubes and jackets on fibre optic cables up to 7.5mm (0.3") in diameter. The tool features an easily adjustable slit blade and ring blade as well as a removable and reversible V block that improves slitting performance and accommodates smaller to larger diameter cables.

- For 1.2-7.5mm outer diameter cables
- Ring & Slit functions

PART NO.	DESCRIPTION	PRICE
E00-6414	JONARD FIBRE CABLE STRIP & RING TOOL	26.75

IDEAL FIBRE/UTP/STP/COAX STRIPPER (5-8MM)

Stripper suitable for a range of cable types with an outside diameter of 5-8mm. Adjustable blades can be set for any depth to help ensure nick-free strips. Includes one round and three straight blades.

PART NO.	DESCRIPTION	PRICE
E00-3035	IDEAL FIBRE/UTP/STP COAX STRIPPER	20.00

IDEAL STRIPPER FIBRE 1A (UP TO 3.2MM)

Most commonly used used to remove the secondary coating from loose jacket optical fibres or RG174/179/187 coax. Features 3 blades, one located on each side of the unit and one at the front for slitting. Blades can be adjusted individually for the type of strip desired, termination or window. For use on cables up to 3.2mm outer diameter.

PART NO.	DESCRIPTION	PRICE
E00-2018	IDEAL STRIPPER FIBRE 1A	16.87

**IDEAL MULTICORE FIBRE/
COAX STRIPPER FOR
3.5-5.5MM**

A precision clothes peg style stripper that is very compact and simple to use. The adjustable blades can be set for any depth to help ensure nick-free stripping on a variety of coaxial cables including twisted pair, tightly wrapped stranded cable, CATV, CB Antenna cable, SO, SJ, SJT with a diameter 3.2mm – 5.6mm (1/8" to 7/32). The stripper is supplied with one round and three straight blades. In addition the stripper can be used for circumferential and longitudinal stripping of fibre cables with a diameter of between 3.2mm – 5.5mm (1/8" to 7/32).

PART NO.	DESCRIPTION	PRICE
E00-5878	MULTICORE FIBRE/COAX STRIPPER FOR 3.5-5.5MM	24.05

**IDEAL MULTICORE
FIBRE/COAX STRIPPER
FOR 6.5-14MM**

A precision clothes peg style stripper that is very compact and simple to use. The adjustable blades can be set for any depth to help ensure nick-free stripping on a variety of coaxial cables including twisted pair, tightly wrapped stranded cable, CATV, CB Antenna cable, SO, SJ, SJT with a diameter 6.35mm – 14.29mm (1/4" – 9/16"). The stripper is supplied with one round and three straight blades. In addition the stripper can be used for circumferential and longitudinal stripping of fibre cables with a diameter of between 6.35mm – 14.29mm (1/4" – 9/16").

PART NO.	DESCRIPTION	PRICE
E00-7700	MULTICORE FIBRE/COAX STRIPPER FOR 6.5-14MM	33.23

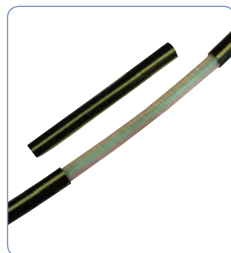

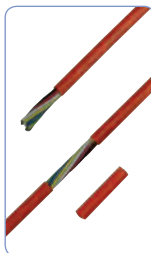

**MILLS MASTERCLASS
STRIPPER CABLE
SHEATH NO.5A**

An exceptionally simple and robust stripper with the capability to circumferentially and longitudinally strip sheath from 6-25mm diameter cables. The hardened steel cutting blade automatically repositions depending on direction of travel making the tool suitable for most stripping applications, as well as plastic pipe cutting. The ergonomic shape fits comfortably into your hand and the blade depth is easily adjustable.

Dimensions: 94 x 49 x 40mm.

**Mills
MASTER**
As good as it gets

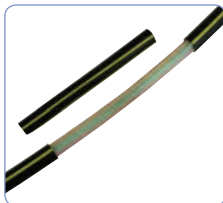

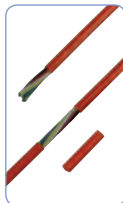

PART NO.	DESCRIPTION	PRICE
E00-6626	MILLS STRIPPER CABLE SHEATH NO.5A	19.95
E00-6627	SPARE BLADE FOR STRIPPER CABLE SHEATH NO.5A	3.95

MILLS MASTERCLASS CABLE RINGING TOOL

The patented cable sheath stripper is designed specifically for removing the outer sheath from power and telecommunication (fibre and copper) cables with a diameter from .18" to 1.0" (4.5 to 25mm). It features an ergonomically shaped tool handle.

The blade is set for circumferential cutting with a control lever for repositioning the blade to enable a spiral or longitudinal cut. Blade cutting depth is easily adjustable.

E70-5001	MILLS MASTERCLASS CABLE RINGING TOOL	14.86
E70-5003	SPARE BLADE FOR CABLE RINGING TOOL	2.70

**KABIFIX STRIPPER
CABLE SHEATH NO.5**

A stripping tool for circumferential and longitudinal stripping of cables up to a diameter of 28mm.

In addition the tool is ideal for gaining access to the microducts in subducts. Suitable for both copper and fibre applications.

PART NO.	DESCRIPTION	PRICE
S83-0952	KABIFIX STRIPPER CABLE SHEATH NO.5	27.93

**JONARD CABLE STRIPPER
& RINGING TOOL**

This Cable Sheath Stripper is used to ring-cut many types of tight buffer, loose tube buffer, breakout cables and other types of jacketed fibre cables. A slitting blade is built into the tool and can be used to slit open the cable sheath if needed. Depth of the cut has two adjustments for .018" or .031" thick plastic, rubber or fabric insulation, and can handle cable diameters from 1/8" to 3/8". One spare blade of each style is included with the tool. Also known as CT2860, Replacement stripping blades and ringing blades are also available.

PART NO.	DESCRIPTION	PRICE
E00-6422	JONARD CABLE STRIPPER & RINGING TOOL	52.20
E00-4824	REPLACEMENT STRIPPER BLADES PK 6	6.50
E00-4825	REPLACEMENT RING BLADES PK 6	6.50

MILLS MID SPAN ACCESS FIBRE SLITTER 1.5-3.3MM

A simple and effective longitudinal sheath stripper tool for easy removal of the outer sheath of most fibres with a diameter of 1.5mm to 3.3mm.

Once the fibre has been placed in one of the 4 preset grooves:

- 1.5 - 1.9mm
- 2.0 - 2.4mm
- 2.5 - 2.9mm
- 3.0 - 3.3mm

The 'Slitter' can simply be pulled along its length, slitting the outer sheath into two halves.

PART NO.	DESCRIPTION	PRICE
E00-6625	MILLS MID SPAN ACCESS FIBRE SLITTER	19.02

MID-SPAN ACCESS TOOL FOR 5 SIZES

Features 5 cable slots: 1.9, 2.2, 2.5, 2.7, 3 mm.

Allows easy mid-span (window cut) access to optical fibres in loose buffer tubes.

Shaves precise opening to prevent fibre damage.

PART NO.	DESCRIPTION	PRICE
E00-4986	MID-SPAN ACCESS TOOL 5 SIZE	55.98
E00-4987	SPARE BLADES (PK5)	10.82

DROP FIBRE 36F FIBRE OPTIC STRIPPER

"Butterfly" Drop Fibre stripping tool for Prysmian Group 36 Fibre Overhead Ultra Lightweight Cable, COF36F.

The ideal tool for the fast and safe removal of the outer sheath for Drop Fibre cables.

Lightweight, one piece moulded body with totally enclosed blades ensures a safe single handed push-on then pull-off operation in any working environment.

The precisely calibrated blades guarantee no damage to the internal fibres. This tool is also factory set therefore no adjustments are needed and it is ready to use out of the box.

PART NO.	DESCRIPTION	PRICE
E00-9575	DROP FIBRE 36 FIBRE OPTIC STRIPPER	16.67

JONARD FIBRE OPTIC DROP CABLE SLITTER (SLIPPERY FISH)

Simplifies the slitting of drop cable jackets at the end of the cable or mid-span. Developed specifically for FTTH technicians working with flat fibre drop cables. For flat cables, where the height is .305"-.350" and the height is .155"-.185". These are the dimensions of a typical Corning SST-Drop flat cable with a jacket thickness of 0.03-0.04 inches.

The tool will work on other cables with similar dimensions.

It slits both sides of the jacket giving easy access to the fibre or strength member. Simply position the tool around the cable, pull and slit. A simple twist of the cable allows the jacket and strength members to separate from the buffer tube leaving the fibre undamaged.

PART NO.	DESCRIPTION	PRICE
C00-6785	JONARD SLIPPERY FISH CABLE SLITTER	44.95
C00-6786	REPLACEMENT BLADES (PK10)	1.50

JONARD MID SPAN SLITTERS

A) Designed to provide easy access to optical fibres in loose buffer tubes 1.2mm - 3.3 mm diameter. Features 6 precision grooves for buffer tube slitting: 1.2-1.5mm, 1.5-1.8mm, 1.8-2.1mm, 2.1-2.5mm, 2.5-2.9mm, 2.9-3.3mm.

B) Designed to provide easy access to optical fibres in loose buffer tubes 2.9mm - 6.8mm diameter. Features 5 precision grooves for buffer tube slitting: 2.9-3.6mm, 3.6-4.4mm, 4.4-5.2mm, 5.2-6.0mm, 6.0-6.8mm.

Replacement blades are available for both types of slitter.

PART NO.	DESCRIPTION	PRICE

E00-6427	B) JONARD MS-26 LARGE MID SPAN SLITTER	69.95
E00-6423	REPLACEMENT BLADE SET FOR E00-6426 (MS-6)	28.18
E00-4826	REPLACEMENT BLADE SET FOR E00-6427 (MS-26)	28.18

FIBRE TUBE SCORING TOOL

A uniquely designed precise one-step buffer tube scorer that scores tube sizes from 1.6mm to 6.0mm. Factory pre-fixed steel blade means no adjustment required.

PART NO.	DESCRIPTION	PRICE
E00-4743	FIBRE TUBE SCORING TOOL	12.88

DROP FIBRE 12F FIBRE OPTIC STRIPPER

The ideal tool for the fast and safe removal of the outer sheath of 12F Drop Fibre cables. The lightweight, one-piece moulded "butterfly" body with totally enclosed blades ensures a safe single handed, push-on then pull-off, operation in any working environment. The precisely calibrated blades guarantee no damage to the internal fibres. The tool is factory set, requiring no adjustments and is therefore ready to use straight out of the box. Stripping Capacity: Overhead 12F Hybrid Drop Fibre.

PART NO.	DESCRIPTION	PRICE
E68-6809	DROP FIBRE 12F FIBRE OPTIC STRIPPER	17.95

MILLER ARMoured CABLE SLITTER 8MM-28.6MM

Professional grade tool ideal for slitting the corrugated copper, steel or aluminum armour layer on Fibre Feeder, Central Tube, Stranded Loose Tube fibre optic cables and other armoured cables.

Tool slits outer polyethylene jacket and armour in one operation:

- Performs longitudinal slitting and circumferential (ringing) for end stripping
- Blade rotates 90 degrees by activating blade lever, allowing easy mid-span preparation (ringing and slitting)

Adjustable from 0.315" (8mm) to 1.125" (28.6mm) cable outside diameter.

PART NO.	DESCRIPTION	PRICE
E00-0469	MILLER ARMoured CABLE SLITTER 8MM-28.6MM	89.89

ARMoured & MICRO CABLE SLITTER 4-10MM

Professional grade tool ideal for slitting the corrugated copper, steel or aluminum armour layer on Fibre Feeder, Central Tube, Stranded Loose Tube fibre optic cables and other armoured cables.

Tool slits outer polyethylene jacket and armour in one operation:

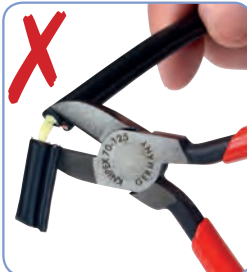

- Performs longitudinal slitting and circumferential (ringing) for end stripping
- Blade rotates 90 degrees by activating blade lever, allowing easy mid-span preparation (ringing and slitting)

Adjustable from 0.157" (4mm) to 0.393" (10mm) cable outside diameter.

PART NO.	DESCRIPTION	PRICE
E00-4742	ARMoured & MICRO CABLE SLITTER 4-10MM	105.86

ALL-IN-ONE FIBRE CABLE & KEVLAR CUTTER

Designed specifically to cut through Kevlar and steel wire reinforced fibre optic drop cables (including slippery fish and other hybrid cables) in one simple movement with just this one tool.

This specialist 160mm length diagonal side cutter is dropped forged from Chrome Vanadium Steel combined with Tungsten Alloy and benefits from a special high frequency induction hardened edge.

This gives the cutter the ability, strength and durability to easily cut steel strength members whilst maintaining a sharp enough edge to simultaneously neatly cut any Kevlar too, making it a truly unique tool.

PART NO.	DESCRIPTION	PRICE
E00-6885	ALL-IN-ONE FIBRE CABLE & KEVLAR CUTTER	34.95

HEAVY DUTY FIBRE CABLE CUTTER

A specialist shear cutter designed for cutting fibre drop cables containing strength members, steel wire rope, and is also ideal for cutting catenary wire. The cutter has heavy duty handles for repetitive applications and features an integrated spring with locking catch. Capacity 6mm and overall length 190mm.

PART NO.	DESCRIPTION	PRICE
E00-6861	MILLS HEAVY DUTY FIBRE CABLE CUTTER	24.95

MILLS KEVLAR SCISSORS

Lightweight scissors for cutting Kevlar strength members found in fibre optic cables.

The serrated scissor blades reduce slipping and the tool further benefits from ergonomic moulded handles resulting in an effortless cutting action.

Length: 140mm.

MILLS MASTERCLASS CABLE & KEVLAR SCISSORS

Scissors for cutting copper cable and can also be used for cutting Kevlar strength members found in fibre optic cables.

The serrated scissor blades reduce slipping and the ergonomic, moulded handles provide comfort for both right and left-handed users.

Length: 140mm.

PART NO.	DESCRIPTION	PRICE
E00-5004	MILLS KEVLAR SCISSORS	13.20

PART NO.	DESCRIPTION	PRICE
N70-7868	MILLS MASTERCLASS CABLE SCISSORS 140MM	11.93

MILLS SPECIALIST HEAVY DUTY FIBRE OPTIC TOOLBAG

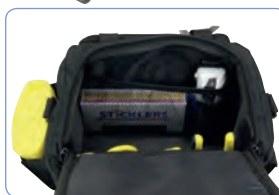

A specialist tool bag specifically designed for the fibre optic installer which is ideal for carrying all the essential tooling and test equipment for fibre splicing, cleaning and inspection. The Mills Heavy Duty Fibre Tool Bag features four external pockets, one specifically designed to accept the Mills C00-6408 Sharps Box. In addition the bag has a further eight internal storage pockets.

For security and to prevent damage to fragile instruments and tooling the wall thickness is constructed from 12mm foam and the fibre installers bag benefits from strong hook and loop type wrap around carry handles and adjustable shoulder strap.

Approx Dimensions - 32.5 x 22.5 x 18.5cm (12.5" x 9" x 7.5").

MILLS ECONOMY COLD CURE FIBRE TERMINATION TOOLKIT

The strong PVC Case with external dimensions of 300L x 230W x 55Dmm, contains all hand tools (except curing oven and microscope) and all consumable items needed. For cold cure terminations of ST and SC/FC Fibre Optic connectors.

Step by step instructions in a protective laminated pouch are supplied with every case.

The kit contains:

- 1 ST Polishing Puck
- 1 SC/FC Polishing Puck
- 1 Glass Plate
- 1 Rubber Pad
- 1 Fibre Optic Stripper
- 1 Kevlar Scissors
- 1 Fibre Optic Crimp tool
- 1 Carbide Scribe

Consumable Items –

- 1 Set of fast setting Epoxy
- 3 Epoxy Mixer Pads
- 5 Plastic Syringes
- 1 6µM Polishing Film
- 1 1µM Polishing Film
- 1 0.05 Polishing Film
- 1 Cleanser
- 3 Set Cleaning Wipes

C00-8242	REPLACEMENT EPOXY & HARDENER	3.10

MILLS COLD CURE FIBRE TERMINATION KIT

A specialist toolkit designed for cold cure fibre terminations and comprising all the essential tooling, consumables and inspection products required for field applications where electricity is not available. This version of the Mills Cold Cure Kit is available in three storage options: Tool & Laptop Bag, Stanley Fatmax Ruggedised Toolbox and Mills Eurocase

Kit comprises:

C00-3530	Sapphire Cleaver
E00-6170	Mills MasterClass 3-Way Fibre Stripper
C00-6408	0.3 Litre Sharps Box
M99-5489	Mills LED Head Torch
C00-7732	IPA Wipes
R02-7029	Anaerobic Adhesive 50ml
R02-7030	Aerosol Activator 150ml
C00-7991	10 x Syringes-Screw Type
C00-7992	10 x Needle tip for above
C00-3051	Soft Polishing Pad
C00-3039	2.5mm Universal SC and ST Polishing Puck
C00-8422	1.25mm LC Polishing Puck
C00-3040/Y	5x 12 Micron Polishing Paper- Yellow
C00-3043/G	5x 1 Micron Polishing Paper- light green
C00-3044/W	5x 0.3 Micron Polishing Paper- White
C00-7929	x 400 Microscope
C00-7927	LC Adaptor for Microscope
E00-5004	Kevlar Scissors
S26-5924	Bolle Safety Glasses (not laser protective)
M99-6914	Mini Millslite Cree LED Zoom Lens Torch
C71-6895	Sharpie Pen (PK 2)

Plus your chosen tool storage option.

C00-8421	C) FIBRE PEN CLEAVER, CARBIDE	16.70

INNO V7+ FIBRE OPTIC CLEAVER

The V7+ is an instrument for high precision fibre cleaving. It can be installed with a variety of holders for ribbon cable up to 12 fibres as well as a universal holder which is applicable to 250µm, 900µm, 3.0mm fibre cable and flat cable.

Work efficiency can be maximized with easy and simple 2 step operations. The V7+ features an automatic collector for fibre shards and off cuts.

The blade provides over 48,000 fibre cleaves by easy and simple blade position selection.

Helped by unmatched functionalities, users can achieve the most accurate cleaving and ideally prepare their fusion splicing.

PART NO.	DESCRIPTION	PRICE
C00-6085	INNO V7+ FIBRE OPTIC CLEAVER	

HEAT CURING EPOXY (RT153)

Industry standard heat curing adhesive, RT153 is available in 4g sachets containing exactly the correct quantities of resin & hardener. A 4g sachet would normally be sufficient to terminate 200 connectors.

PART NO.	DESCRIPTION	PRICE
C00-3031	RT153 EPOXY (PK 5 SACHETS)	8.20

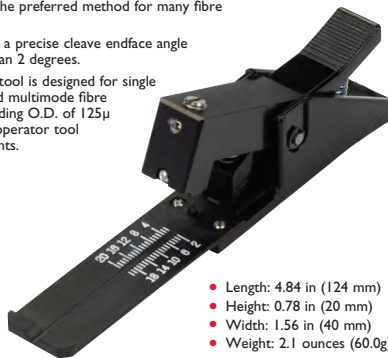

FIBRE OPTIC CLEAVER

Designed for fibre cleaving applications that include field termination of fibre connectors and mechanical splices as well as laboratory applications. Small, lightweight and easy to use.

The "Score and Snap" leaf spring function is easy, fast and the preferred method for many fibre installers.

Produces a precise cleave endface angle of less than 2 degrees.

Cleaving tool is designed for single mode and multimode fibre with cladding O.D. of 125µ with no operator tool adjustments.

- Length: 4.84 in (124 mm)
- Height: 0.78 in (20 mm)
- Width: 1.56 in (40 mm)
- Weight: 2.1 ounces (60.0g)

PART NO.	DESCRIPTION	PRICE
C00-0495	FIBRE OPTIC CLEAVER	145.82

SYRINGE DISPENSER AND TIPS

Medical syringe manufactured to BS5081 & ISO7886 for dispensing of 1ml of epoxy during the termination process. Replacement 25mm tips available.

PART NO.	DESCRIPTION	PRICE
C00-7991	SYRINGE DISPENSER ONLY	0.28
C00-7992	NEEDLE TIPS 25MM	0.40

SHARPS DISPOSAL BINS 0.3L & 0.45L

Heavy duty yellow plastic welded construction sharps boxes with pop up lid and self sealing mechanism for security and ease of use. These bins also have an unobstructed opening, making it ideal for quick disposal of fibre waste, especially when emptying a cleaver waste bin.

A) 0.3L - Ideal for use in fibre toolkits. Dimensions 10.5cm x 5cm

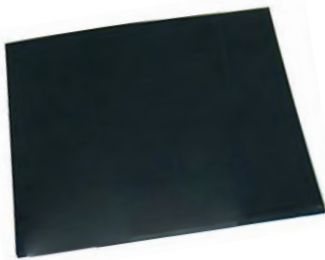

B) 0.45L - Ideal for use in fibre toolkits or for a bench application and has fold away carrying handle. Dimensions 10.5cm x 5cm with a height of 17cm.

PART NO.	DESCRIPTION	PRICE
C00-6408	A) SHARPS DISPOSAL BIN 0.3L	1.95
C00-6409	B) SHARPS DISPOSAL BIN 0.45L	2.59

**SOFT
POLISHING
PAD**

Provides a flat surface for polishing fibre optic connector end faces. Manufactured from neoprene, 40mm square with a thickness of 2.5mm.

PART NO.	DESCRIPTION	PRICE
C00-3051	NEOPRENE FIBRE OPTIC POLISHING PLATE	7.75

FIBRE WORK AREA MAT

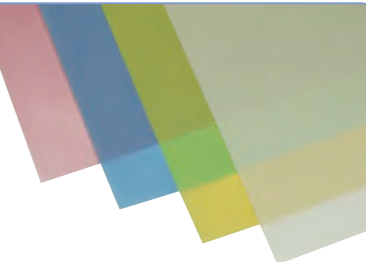

Black vinyl fibre optic polishing/work mat. Measures 22" x 14".

It is dual purpose in nature, allowing fibre scraps to be seen easily and serving as a sub-surface for fibre polishing cloths. This resilient polishing mat depresses easily and lets you pick up fibre quickly for better polishing results.

PART NO.	DESCRIPTION	PRICE
C00-6882	FIBRE WORK AREA MAT	6.95

**LAPPING
FILMS**

Available 215 x 280mm sheets. Aluminium oxide is packed in 50 while diamond is available individually.

DIVOT® BARE FIBRE ADAPTOR/TESTING DEVICE

Quickly connect test equipment to bare fibre. System utilises replaceable index matching gel cartridges resulting in quick low loss and low reflectance connections to your OTDR or other test systems.

- Internal replaceable cartridge filled with optical coupling compound
- No dipping, messy applicators or external reservoirs to fill
- Quickly test fibre without terminating
- Accepts non-cleaved fibre
- Low insertion loss
- Repeatable and Reusable
- LiteLOCK® Technology

The Divot® is designed to quickly connect to unterminated fibre for testing, servicing or communication requirements. Connect the patch cable included with the system to your test equipment and insert bare fibre into the end of the Divot® module.

Preparation of the bare fibre is easy. Simply strip and clean a few inches of fibre down to 125µm cladding. Cleave fibre leaving approximately 3/4" of bare fibre exposed. Insert the bare fibre into the Divot® module until it stops. The device will accept a non-cleaved fibre with a typical insertion loss of less than 0.8dB. Cleave fibre will result in even lower insertion loss.

A) Divot® Bare Fiber Tester includes:

- Divot Module With Patch Cable
- 2 x OCC Cartridges
- Clean-out Wire
- Carry Case

**NEW!****B) Divot® Replacement OCC Cartridge (PK3)****Divot® Replacement Sleeve Set:**

- Zirconia Sleeve x 1
- Phosphor Bronze Sleeve x 1

3M HOT MELT FIBRE OPTIC CONNECTORS

3M Hot Melt Fibre Optic Connectors continue to be a popular choice among installers in the field. Utilising an advanced adhesive technology they are pre-filled with hot melt adhesive enabling fibre termination in 2 minutes or less. 3M Hot Melt Fibre Optic Connectors are used in conjunction with a 3M Hot Melt oven (not included) and can be re-heated to allow for fibre repositioning. These fibre optic connectors have a typical loss of .2dB. We offer ST and LC style Hot Melt Fibre Optic Connectors in both multimode and singlemode versions. 3M Hot Melt Oven and other connector types are available upon request. Minimum order quantities may apply to all types of Hot Melt connector. Please call sales for details.

UNIVERSAL MECHANICAL SPLICE CONNECTOR

Universal Mechanical Splices. A simple, quick and low cost universal splice for splicing both singlemode and multimode fibre (250/250, 250/900 and 900/900), giving an average 'blind' splice loss of 0.2dB. The Mechanical Splice needs to be used in conjunction with the Mechanical Splice Jig (Part Number Y70-6852) and requires minimum training.

- Singlemode and Multimode fibres
- High performance <0.2dB insertion loss
- Minimum tooling requirements
- Limited installer training required
- Suitable for FTTX, metro and enterprise networks
- No epoxy or electricity required
- Suitable for 250 or 900 fibres

PART NO.	DESCRIPTION	PRICE
Y70-6853	MECHANICAL SPLICE CONNECTOR	3.25

MECHANICAL SPLICE JIG

Used in conjunction with the Universal Mechanical Splice, Part Number Y70-6853, to ensure the fibre is held firmly and accurately in position during installation

PART NO.	DESCRIPTION	PRICE
Y70-6852	MECHANICAL SPLICE JIG	16.65

MECHANICAL LENGTH MEASUREMENT JIG

To be used in conjunction with Mechanical Splice Y70-6853 for repetitive applications or use with old style cleavers.

INNO VIEW FUSION SPLICER RANGE (VIEW 3, VIEW 5 & VIEW 7)

The INNO View range comprises the industry's fastest, most reliable fusion splicers, with three models to meet your specific needs. The latest mirrorless technology delivers even higher reliability over other splicers on the market today.

All three models feature a 5" colour LCD touch screen which enables zooming in and out by double-tapping the screen and offers a simple, intuitive interface. The View range features the world's highest magnification rate of 520x ensuring precise operation.

Features:

- As little as 7 second splice time & 13 second splice protector heat time (View 7)
- Up to 355 Splice & Heats per Li-ion battery charge (View 7)
- 5" High-Resolution Colour LCD Touch Screen
- Double-tap screen to zoom in or out
- User-friendly Smart Graphical User Interface
- 520x magnification
- No need to change fibre clamps for primary, loose or tight buffer
- Detachable SOC holder and SOC heating Oven
- 3 bright white LEDs for fibre clamping and alignment with electrodes
- Includes high precision cleaver
- The lowest total cost of ownership core alignment splicers available in the UK
- Support, repairs and calibration in the UK

INNO V7+ FIBRE OPTIC CLEAVER

The V7+ is an instrument for high precision fibre cleaving. It can be installed with a variety of holders for ribbon cable up to 12 fibres as well as a universal holder which is applicable to 250µm, 900µm, 3.0mm fibre cable and flat cable.

Work efficiency can be maximized with easy and simple 2 step operations. The V7+ features an automatic collector for fibre shards and off cuts.

The blade provides over 48,000 fibre cleaves by easy and simple blade position selection.

Helped by unmatched functionalities, users can achieve the most accurate cleaving and ideally prepare their fusion splicing.

- For ribbon fibre cable as well as 250µm, 900µm, 3.0mm and flat cable with universal holder
- Automatic collector for fibre shards and off cuts
- Suitable for single and ribbon cleaving up to 12 fibres
- Simple fibre setting and placement with no need for blade height adjustment
- Each point of the blade can be used not only over 3000 times, but each blade has 16 cutting points, providing over 48,000 cleaves
- Made for magnesium alloy materials, giving high strength and stability whilst maintaining a light weight, small compact size

INNO TS-8 THERMAL RIBBON CABLE STRIPPER

The TS-8 is INNO Instrument's newly developed hand-held thermal ribbon cable stripper with integrated heater to strip the jacket from ribbon cable of up to 12 fibres. This unique product offers superb ease of use in the FTTx field, even in the most extreme of environments.

Developed as a dedicated stripper for ribbon fibre cable, its simple and fast operation enables anyone to do clear stripping with near-zero failure.

Its high battery capacity enables approx. 500 ribbon fibre cable strips

- Dedicated stripper for ribbon fibre cable
- Hand-held type stripper
- World's fastest heating time of 4sec
- Long lasting battery: Approx. 500 times with a full charged battery

MILLS WORK TRAY POLE SPLICING

The Mills Work Tray Pole Splicing has been specifically designed to assist engineers with installation and maintenance of BDUK Pole Fibre Distribution Points (FDP's)

It is manufactured from 2mm steel and has three universal secure mounting location tabs which allow the tray to easily be attached to the pole cabinet, centrally or biased to the left or right.

The tray dimensions are 500mm wide by 250mm deep with a 10mm lip to prevent loss of tools and materials. All corners have been radiused to prevent damage to fibre in addition to being designed to allow any excess rain water to easily drain away.

It is finished with a non-reflective black powder-coat paint.

STICKLERS™ FIBRE OPTIC CLEANING KIT

- Contains the most popular items for cleaning fibre optic connectors and bare fibre prior to splicing
- Delivers 800+ perfectly clean connectors per kit
- Bright colour makes it easy to locate and harder to leave behind
- Features the unique Sticklers™ fibre optic splice and connector cleaner
- Oversized bag to allow space for additional equipment
- Unregulated for transportation

Each kit contains:

- 2 x Sticklers™ Fibre Optic Splice & Connector Cleaner
- 50 x CleanStixx™ (30 x 2.5mm and 20 x 1.25mm)
- 1 x CleanWipe™ 90 Benchtop Wipes
- 1 x CleanWipe™ 400 Benchtop Wipes
- 25 x CleanWipe™ Outdoor Wipes
- 1 x LED inspection flash light

PART NO.	DESCRIPTION	PRICE
C00-6700	CLEANCLICKER™ MPO FIBRE CONNECTOR CLEANER	60.70

STICKLERS™ FIBRE OPTIC SPLICE & CONNECTOR CLEANER

The industry's only product specifically engineered for cleaning fibre optic connectors or fibre before splicing.

- Non-hazardous, non-flammable, plastic-safe
- Fast drying - can't be trapped inside connectors
- Unique Triton™ spray cap is spill-proof & convenient
- Compatible with Sticklers™ CleanWipes™, Sticklers™ CleanStixx™, Cletops® and "One-Click" Tools

Supplied in an 85g non-pressurised travel safe container. Not regulated for transportation.

PART NO.	DESCRIPTION	PRICE
C05-3966	STICKLERS™ SPLICE & CON. CLEANER	11.24

STICKLERS™ FIBRE OPTIC CLEANWIPES™

- A) Outdoor CleanWipes™ - This unique wipe features a high-purity, lint-free fabric sealed in a water-proof, dust-proof protective package that is opened just before use. Supplied in packets of 50.
- B) Benchtop CleanWipes™ 90 - Lint free fabric wipes engineered for use on bare fibre before splicing, and also for cleaning fibre optic jumpers. They are exactly the right size and the right material to make "wet-dry" cleaning simple and cost-effective.
- Contains 90 perforated lint-free wipes, each wipe being 4" x 2" (10 cm x 5 cm). Each wipe can clean up to six fibre optic connectors or one bare fibre.
- C) Benchtop CleanWipes™ 600 - This high-modulus CleanWipe™ material won't rip, tear, shred or lint, for the best possible cleaning. Features soft wiping material that won't scratch end-faces. Colour-coded CleanSlots™ monitor the cleaning process. Eliminates static. Contains 100 wipes. Each wipe is suitable for six connector cleans (Duplex and Simplex type LC and SC connectors).

All Sticklers™ CleanWipes are designed to be used in conjunction with the Sticklers™ Fibre Optic Splice & Connector Cleaner.

PART NO.	DESCRIPTION	PRICE
C05-1311	A) OUTDOOR CLEANWIPES™ PKT 50	20.40
C05-1312	B) BENCHTOP CLEANWIPES™ PKT 90	6.09
C05-3967	C) BENCHTOP CLEANWIPES™ PKT 100	27.57

STICKLERS™ FIBRE OPTIC CLEANSTIXX™ (PK 50)

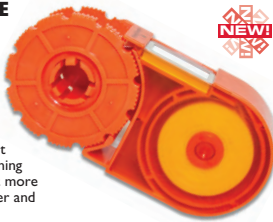

- A high-purity, lint-free, precision "swab" for cleaning fibre optic end-faces
- Moulded fibrous tip out-performs foam or cloth nibs
- Tip conforms to end-faces including APC
- Cleans the entire end-face, not just the contact area

PART NO.	DESCRIPTION	PRICE
C05-1309	(A) 1.25MM CLEANING STICK - GREEN (PK 50)	22.01
C05-1310	(B) 2.5MM CLEANING STICK - BLUE (PK 50)	22.01

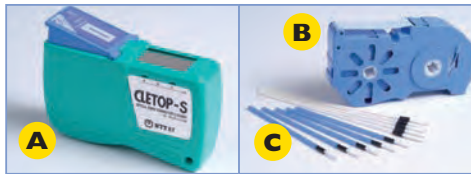

STICKLERS CASSETTE CLEANCLICKER

Ferrule End-Face Cleaner for SC and LC duplex, ST, FC, E2000, and female (no guide pin) MPO cable assemblies. Micro-woven lint-free cleaning ribbon provides high absorbency while trapping dust particles. Manual advance cleaning wheel enables operator to get more cleaning than traditional shutter and trigger-style cassette cleaners.

PART NO.	DESCRIPTION	PRICE
C05-4803	STICKLERS CASSETTE CLEANCLICKER	35.95

THE CLETOP-S TYPE B CASSETTE AND STICK, FIBRE OPTIC CLEANING PRODUCTS

A) Cletop-S – Fast and efficient way of cleaning most fibre optic patch lead connectors prior to connection. The cassette can be advanced over 400 times. Suitable for most connectors except MTRJ and MPO Male for which a separate product is available.

B) Replacement cartridge for Cletop.

C) Cletop Sticks – Stick format cleaners available in 2.5mm and 1.25mm widths – supplied in packets of 10.

PART NO.	DESCRIPTION	PRICE
C00-7038	A) CLETOP-S TYPE B CLEANER	80.36
C00-7039	B) REPLACEMENT CARTRIDGE FOR ABOVE	22.91
C00-7040	C) 2.5MM CLETOP STICK PKT 10	9.38
C00-7041	C) 1.25MM CLETOP STICK PKT 10	9.38

CLEAN CORE CASSETTE

A simple low cost connector cleaner with replacement cartridge utilising a fabric on a cassette which quickly dry cleans all Simplex fibre connectors. The cassette can be advanced over 400 times.

PART NO.	DESCRIPTION	PRICE
C00-9819	CLEAN CORE CASSETTE	36.95
C00-9840	REPLACEMENT CASSETTE	16.86

A) LINT FREE WIPES PK 150

Non-woven Wipe made from a hydro-entangled, 45/55 cellulose/polyester blend, for optimum purity in a nonwoven wipe. This wipe has excellent absorbency and contamination entrapment, as well as high strength suitable for general fibre cleaning applications.

B) IPA WIPES PK 50 (PRE-SATURATED)

These individually packaged, pre-saturated lint-free cleaning wipes contain 99% pure isopropyl alcohol for fibre cleaning applications, all-purpose cleaning and de-greasing. The wipes are made from a high quality, non-abrasive non-woven fabric.

PART NO.	DESCRIPTION	PRICE
C00-3038	A) LINT FREE WIPES PK 150	5.24
C00-7732	B) IPA WIPES PK 50	13.85

LASER SAFETY SPECTACLES - GREEN LENS

Wraparound frame Laser Safety Spectacles for use when working with live fibre cables and equipment. Supersedes the discontinued S26-8261 Laser Safety Goggles.

- Wraparound frame —Med/Large size
- Adjustable temple lengths and angle
- 8 base lens curvature for full coverage
- Comfort fit
- CE Certified

See millsstd.com for full specifications.

PART NO.	DESCRIPTION	PRICE
S26-5927	LASER SAFETY SPECTACLES - GREEN LENS	153.33

BOLLE BANDIDO SAFETY SPECTACLES

Made entirely of highly-resistant polycarbonate, these are the perfect value safety spectacle option.

- Mechanical risk - Low energy impact - F
- Low energy impact, resists a 6 mm, 0.86 g ball at 45 m/s
- Mechanical risk- High speed particles at extreme temperatures - T
The letter T, immediately after the mechanical strength symbol, authorises use for high speed particles at extreme temperatures

PART NO.	DESCRIPTION	PRICE

E15-1277	E) 110MM PLASTIC TWEEZERS	2.60

FUTURA ARMoured FIBRE OPTIC LAUNCH LEADS

A range of compact armoured launch leads for the testing, certification and maintenance of fibre optic networks.

Available in SC/APC-SC/APC & LC/APC-LC/APC configurations in both 500m & 1000m lengths of G.652 Singlemode fibre. Other configurations and lengths are available upon request (minimum order quantities may apply).

These launch leads are passive optical components for use with O.T.D.R.s (Optical Time Domain Reflectometers) and are made of a coiled optical fibre that eliminates the O.T.D.R.'s "dead zone area" when testing fibre optic links.

FUTURA is an innovative and high-quality armoured fibre launch lead that guarantees a high level of cable protection and an easy maneuverability.

This product is 100% tested and certified with connectors that provide an insertion loss lower than 0,25 dB.

**Features:**

- 3 mm armoured external connectorised cables
- May be held in the palm of one hand: Four times smaller than the standard launch boxes
- Patented blocking system for 100% fibre protection
- The external connectorised cables lengths can be easily adjusted by the user
- 3 mm armoured external connectorised cables
- Includes soft protective case with neck strap

Specifications:

- Dimensions: Diameter 110mm x 50mm Height
- Weight: 400g
- Insertion Loss: <0.25dB
- Return loss: <-60dB
- Material: ABS & Aluminium

PART NO.	DESCRIPTION
C00-6770	FUTURA 9/125 SC/APC-SC/APC 500M LAUNCH LEAD
C00-6771	FUTURA 9/125 SC/APC-SC/APC 1000M LAUNCH LEAD

FIBRE MICROSCOPE

Handheld and lightweight microscope available in 200x and 400x magnifications. Light passes through the objective lens and adaptor tip, striking the ferrule perpendicular to the end face, producing a high level of resolution and excellent detail of scratches and contamination.

- White LED illumination provides 100,000 hours life
- A third of the cost of industry standard microscopes
- Perfect vision of ferrules
- Handheld & lightweight
- Fine focus control wheel
- Includes LC adaptor
- Built-in IR filter
- Momentary on/off switch for light source

PART NO.	DESCRIPTION	PRICE
C00-7928	FIBRE OPTIC MICROSCOPE 200X	86.67
C00-7929	FIBRE OPTIC MICROSCOPE 400X	131.23

FLUKE NETWORKS FIBERINSPECTOR™ MICRO FI-500

Inspect all types of installed fibre with the FI-500. The portable fibre inspection tool projects a crisp image of microscopic debris and end-face damage. The patented camera includes PortBright™ to illuminate and easily connect in dark places. Includes handheld colour display, auto-focus inspection scope, 4 tips (LC and SC) bulkheads and patch cords (1.25 and 2.50mm).

FLUKE
networks.

- High resolution end face images on a large screen
- Use in dark patch panels with PortBright illumination built into the probe
- Auto-focus instead of a traditional manual focus ring that is difficult to hold and adjust
- Small probe gets into tight patch panels
- Includes 4 UPC tips (1.25, 2.50, LC and SC) and a case. APC and other tips available

MILLS VISUAL FAULT LOCATORS

Compact but powerful laser Visual Fault Locator, available in a choice of two output powers: 1mW with a 3-5km dynamic range or 10mW with a 8-10km dynamic range.

The red laser shines through most yellow-jacketed fibres to help pinpoint breaks, bends, faulty connectors, splices and other causes of signal loss. It has a reach of up to 8km. The tester locates faults visually by creating a bright red glow at the exact location of the fault on single mode or multimode fibres.

It is supplied with 2.5mm universal connector and 1.25mm adaptor, making it usable with almost every fibre connector.

- Bright red laser at 650nm
- Pulsed and continuous wave operation
- Up to 50 hours of operation
- Use standard AA alkaline batteries (not included)
- Heavy duty rugged and waterproof design
- 2.5mm universal connector and 1.25mm adaptor
- Soft case

PART NO.	DESCRIPTION	PRICE

FLUKE NETWORKS VISIFAULT VFL

Traces fibres, verifies continuity and polarity, and helps find breaks in cables, connectors and splices. Continuous and flashing modes for easier identification.

Features

- Locates faults e.g. tight bends, breaks and bad connectors
- Accelerates end-to-end fibre checks
- Easily verifies polarity and identifies fibres
- Features continuous and flashing modes
- Ergonomic case survives drops & impacts
- Supports 2.5 mm and 1.25 mm SFF connectors
- Over 80 hours of battery life with two AA batteries

FUJIKURA OPTICAL FIBRE IDENTIFIER

The Fujikura FID-30R & FID-31R optical fibre identifiers can pick up any optical traffic within a fibre through 3mm ruggedised outer jacket by simply clipping onto the fibre without causing damage to the fibre or coating or interrupting the signal. The fibre identifiers, used for identifying the light power presence in optical fibres, include three detecting functions: TONE, TRAFFIC, and ONU. The FID-30R also features a built-in optical power meter with interchangeable connector styles. The fibre identifiers can detect the presence of several kinds of light signal and indicate signal directions.

Features

- Robust body design for the field
- Universal fibre clamp design applicable for many types of fibres
- 2.4" full colour LCD touch screen with the backlight
- Trigger lock function for continuous fibre clamping
- Adjustable setting
- Connector head for power meter is interchangeable
- Firmware update via internet

Fluke Networks Fiber QuickMap™ - Multimode Troubleshooter

FLUKE
networks

As a new category of enterprise fibre troubleshooter that leapfrogs the limited capability troubleshooters currently on the market, the Fiber QuickMap quickly and efficiently locates connections and breaks in multimode fibre with the press of one-button. By instantly (six second typical test time) providing distances to failures such as high-loss and high-reflection incidents, it is the must-have troubleshooter for any technician who works with fibre in data centres.

- One button troubleshooting - no lengthy set-up necessary
- Six-second test time - no more blind troubleshooting that can waste hours
- Locate high loss incidents or breaks - find the most common causes of fibre failure

Fluke Networks Fiber OneShot™ PRO - Singlemode Troubleshooter

FLUKE
networks

Fiber OneShot PRO takes the complexity out of singlemode fibre testing by analyzing fibre links and measuring faults up to 15 miles in less than five seconds. Whether you are troubleshooting FTTx, Hybrid Fibre Coax (HFC), fibre links between Central Offices, or working on regional or rural access networks, Fiber OneShot PRO is your first response to fibre trouble. This class of tester fills the gap between a VFL and OTDR because it easily and quickly locates lossy connections, high-loss faults and breaks in a singlemode fibre network.

- Measures up to 75,459 feet (23,000 metres) of fibre in seconds
- Locate severe bends, high-loss splices, breaks and dirty connectors in singlemode fibre
- Save and store up to 99 test results for later review

MODEL	DESCRIPTION
FIBR-I-SHOTPRO	Fiber OneShot PRO only - includes meter, SC adapter, 22-language quick reference guide (QRG) on CD, manual and batteries
FIBR-I-KITPRO	Fiber OneShot PRO-SC-Kit - same as SHOTPRO plus UPC-UPC 2-meter patch cord, holster and case
FIBR-I-KITPRO-VF	Fiber OneShot PRO-SC-Kit with VisiFault - everything in the PRO-SC-Kit plus the VisiFault Visual Fault Locator with 2.5 mm universal adapter
FIBR-I-KITPRO-PM	Fiber OneShot PRO-SC-Kit with SimpliFiber Pro - everything in the PRO-SC-Kit plus SimpliFiber Pro optical power meter and SC adapter
FIBR-I-KITPRO-VFPM	Fiber OneShot PRO-SC-Kit with VisiFault and SimpliFiber Pro - includes meter, SC adapter, UPC-UPC 2-meter patch cord, holster, case, 22-language QRG on CD, manual and batteries plus the VisiFault Visual Fault Locator with 2.5 mm universal adapter and SimpliFiber Pro optical power meter and SC adapter
FIBR-I-PRO-LSPM	Fiber OneShot PRO-SC-Kit with SimpliFiber Pro and Light Source - includes meter, SC adapter, UPC-UPC 2-meter patch cord, holster, case, 22-language QRG on CD, manual and batteries plus SimpliFiber Pro optical power meter and 1310nm/1550nm Light Source

Fluke Networks SimpliFiber® Pro Optical Power Meter & Light Sources

FLUKE
networks

SimpliFiber Pro Optical Power Meter and Fiber Test Kits are the single "go-to" kits for anyone involved in first-line optical fibre cabling installation and verification. Designed for in-house fibre technicians as well as contractors, our expertly configured kits are housed in a professional and durable case and contain all the simple-to-use tools needed to quickly measure loss and power levels, locate faults and polarity issues.

- Dual-wavelength testing—complete testing in half the time
- Additional wavelengths to include 1490 and 1625—calibrated to extend from typical enterprise wavelengths for other applications
- Min/Max—precision tracking of intermittent power fluctuations, a superior alternative to the inaccurate "wobble" test
- CheckActive™—audible tone and display icon alerts you to a live fibre
- Saves 1,000 results—compatible with our popular LinkWare™ Cable Test Management Software

MODEL	DESCRIPTION
SFPOWERMETER	SimpliFiber Pro optical power meter; SC adapter included.
SFMULTIMODE-SOURCE	SimpliFiber Pro multimode 850/1300 light source. Fixed SC port (with ST and LC testing capability available using hybrid test-reference cord accessories purchased separately)—includes FindFiber™ source capability.
SFSINGLEMODE-SOURCE	SimpliFiber Pro singlemode 1310/1550 laser light source. Fixed SC port (with ST and LC testing capability available using hybrid test-reference cord accessories purchased separately)—includes FindFiber source capability.
SFSINGLEMODE2	SimpliFiber Pro singlemode 1490/1625 laser light source. Fixed SC port (with ST and LC testing capability available using hybrid test-reference cord accessories purchased separately)—includes FindFiber™ source capability.

Fluke Networks SimpliFiber® Pro Fiber Test Kits

SimpliFiber Pro fibre test kits come in every configuration to meet your testing needs.

FTK1300 Full-featured Inspection and Multimode Verification Kit

The FTK1300 Full-featured Inspection and Multimode Verification Kit is for network technicians and contractors who install and maintain multimode premises network. Use this kit to verify optical loss and power levels at 850 and 1300 nm, inspect fibre end-faces, locate cable faults, connector problems, and polarity issues.

Basic Verification Kit (FTK1000 and FTK2000)

The Basic Verification Kit is a great starter kit for network technicians and contractors who install and maintain fibre links. Available in single or multimode configurations, quickly verify optical loss and power levels at 850 and 1300 nm or 1310 and 1550 nm. Add additional sources, microscopes, and VFL options as needed.

FTK2100 Singlemode Fiber Verification Kit

Includes SimpliFiber Pro optical power meter, two singlemode sources (1310/1550 and 1490/1625 nm), carrying case, and SC power-meter adapter.

Versiv™ Cable Certification System

Versiv users report spending 1/3 the time on testing and reporting, cutting the total cost of a job by 10%.

Certifying a cable is one part of a process that starts with design of a structured cabling system and ends with systems acceptance. The faster that process goes, the more profitable you'll be. Unfortunately, there are a lot of things that slow the process down – testing to the wrong limits, waiting for lead technicians to set up or troubleshoot, and discovering that you have incomplete results after your team has left the construction site.

Research shows that over 90% of contractors report dealing with issues related to set-up, testing, and reporting every month. It adds up to a week of wasted labour on a typical 1,000 drop job.

Versiv is designed to eradicate these problems. Its ProjX™ System manages job requirements and progress from setup to systems acceptance, making sure all tests are completed correctly. The Taptive™ User Interface simplifies set up, eliminates errors and speeds troubleshooting. The LinkWare™ Live cloud service gives you visibility and control of the whole process: you can set up and track your testers and inspect results from any mobile device while the job is in process. It even lets you upload and integrate results from multiple testers at multiple jobsites so you can quickly generate reports with the de-facto industry standard LinkWare PC.

Eliminate the problems, get jobs done faster, and make money every time you use Versiv.

Versiv™ Saves You Money.*

Fluke Networks CertiFiber® Pro - Optical Loss Test Set

CertiFiber Pro OLTS improves the efficiency of fibre certification with a 3-second, two-fibres-at-both-wavelengths test. The Taptive user interface simplifies set-up, eliminates errors and speeds troubleshooting.

A set reference wizard ensures correct reference setting and eliminates negative loss errors. Built on the future-ready Versiv platform, CertiFiber Pro provides merged Tier 1 (Basic) / Tier 2 (Extended) testing and reporting when paired with OptiFiber Pro module. A convenient quad module supports both singlemode and multimode and is multimode Encircled Flux compliant. Manage and track testers, setups and results, and generate reports with LinkWare PC and Linkware Live.

CertiFiber Pro's double ended fibre optic inspection capability allows you to inspect and certify fibre optic connector end-faces at both ends of your fibre link in less than a second so you can get your job done the first time. This double ended fibre optic inspection capability provides automated PASS/FAIL certification, takes the guess work out of fibre inspection so anyone can be a fibre expert.

- Taptive™ user interface provides simple, animated guidance to eliminate incorrect reference setup and "negative loss" errors
- Fastest time to certify—two fibres at two wavelengths in three seconds
- Encircled Flux compliant as required by ANSI/TIA and ISO/IEC
- Double ended Pass/Fail certification of fibre optic connector endfaces
- Merged Tier 1 (Basic) / Tier 2 (Extended) testing and reporting when paired with OptiFiber Pro
- ProjX™ management system ensures all jobs are completed correctly and efficiently
- Convenient quad module supports both multimode and singlemode loss testing
- Extended singlemode distance range to 130 km

FLUKE networks. VERSIV™

FLUKE networks. VERSIV™

Fluke Networks OptiFiber® Pro OTDR

OptiFiber Pro OTDR is the industry's first data centre OTDR built from the ground up to meet the challenges of enterprise fibre infrastructures. This fibre troubleshooting and certification tool combines uncomplicated power with unparalleled efficiency and the exact functions needed for troubleshooting or certifying campus, data centre and storage fibre networks.

It elevates fibre testing with the industry's only smartphone interface that turns any technician into a fibre expert. The data centre configuration eliminates uncertainty and errors that occur when testing data centre fibre. Its ultra-short dead zones enable testing of fibre patch cords in virtualized data centres. These capabilities, plus the fastest-in-the-industry trace times, make the OptiFiber Pro OTDR the must-have tool.

SmartLoop OTDR enables automated testing and analysis of two fibres in a single test. This patent pending process automatically separates the two fibres for individual pass/fail analysis, display, and reporting. Not only does this cut the testing time by at least half, it also enables bi-directional testing without moving the OTDR to the far end.

- Effectively test data centre fibre with the least set-up and trace time
- Accelerate fibre certification with trace times as short as two seconds in Quick Test mode
- Troubleshoot data centre fibre links where short patch cables and dense connectors are common
- SmartLoop OTDR introduces the testing of two fibres in a single test eliminating the need to travel to the far end of the connection to perform tests
- Reduce network downtime by quickly and precisely identifying faults on singlemode (SM) or multimode (MM) fibre
- Manage and track testers, setups and results, and generate reports with LinkWare PC and Linkware Live

networks.

VERSIV™

End-face contamination is a leading cause of fibre failures. Dirt and contaminants cause insertion loss and back-reflection that inhibits optical transmission and causes havoc with transceivers. Fibre loss and OTDR testing can expose this problem, but in many cases, dirty connections make fibre testing time consuming and inaccurate.

Since dirt can be an issue before, during, or after fibre optic certification testing, and migrate from one end-face to another upon mating, both sides of any connection must always be cleaned and inspected. Further, mating contaminated connectors can cause permanent damage as microscopic debris is crushed between end-faces in physical contact. Even factory terminated patch cords or pigtails must be inspected as protective caps do not keep fibre optic connector end-faces clean. Avoiding this common cause of failure, starts with inspecting the fibre optic connector end-face and eliminating any contamination before insertion into a bulkhead or piece of equipment.

The FI-7000 FiberInspector Pro is a fibre optic inspection scope that allows you to inspect and certify end-faces in 2 seconds so you can get the job done the first time. This fibre optic inspection scope provides automated PASS/FAIL certification taking the guess work out of fibre inspection so anyone can be a fibre expert.

Automated Pass/Fail certification of fibre optic connector end-faces

Graphical indication of problem areas due to contamination, pits, chips, and scratches

Certify to industry standards IEC 61300-3-35

Eliminate human subjectivity from end-face measurements

Buy Gold. Make your investment count

Protect Your Investment and Minimise Business Downtime with Gold Membership

Gold Membership is much more than just a repair warranty. It is a comprehensive maintenance and support program that offers expanded coverage for Fluke Networks' products and accessories. It provides a premium level of support to minimize business downtime and ensure a high return on your investment.

3-Year Gold Membership provides a 10% discount off current Gold pricing along with 3-year price protection. On average customers can save up to 19% over 3-years by taking advantage of the 3-year Gold Membership option. Gold Membership is available for most Fluke Networks products in 1-year or 3-year (save 10% with 3-year) contracts.

What's Included with Gold Membership?

Benefits	Gold Member	Non-Gold Member
Live Technical Support with exclusive phone numbers	✓	
FREE Repair with "first on bench" turnaround service	✓	
Loaner Equipment Service*	✓	
FREE Accessory Replacements**	✓	
FREE Annual Calibration	✓	
Member Only Promotions	✓	
Access to Technical Support	Web, Email and Phone	Web and Email
Response time from Technical Support	<2 Hours	<24 Hours

One-Stop Fibre Shopping

VeEX® offers a comprehensive range of Test and Measurement products for fibre-based networks. VeEX's solutions address FTTx, GPON, DWDM, CWDM and Legacy networks and are optimised for the challenging outside plant environment. The fast growing product range complements VeEX Transmission, CaTV and Ethernet testing solutions.

VeEX® Optical Tools/Fibre Inspection

FX40 Series Power Meter and Light Sources

VeEX
The Verification Experts

- Singlemode and Multimode testing
- PON, Telecom, CATV, LAN/WAN and Mobile applications
- Dual wavelength laser source and power meter
- OPM, OLS, ORL, OLTS configurations
- High accuracy and wide dynamic range
- Save OPM test results
- Transfer stored results to a PC for report generation, printing and Cloud upload
- Reference power level setup and recall
- Frequency detection for fibre identification
- Wave ID automatically detects incoming wavelength from compatible VeEX light source
- ORL testing with calibrated power meter coupled internally to fibre on light source port

FIBRE OPTIC PRODUCTS

DI-1000 Digital Fibre Inspection Scope with USB

The VeEX DI-1000 digital video fibre scope is a portable fibre optic connector inspection tool used to monitor the cleanliness of the connector's surface. It is easily configured for inspecting patchcords or panel adapters fitted with standard or angled polished connectors. When equipped with optional WiFi dongle and free companion application software for a smartphone or tablet, users can automatically analyse connectors according to IEC 61300-3-35 or user defined standards. This includes the ability to view, save, recall and share results via email or other mobile applications.

- Easy operation and quick dial focus adjustment
- IEC 61300-3-35 and user-defined pass/fail limits
- Automatic analysis of fibre connector endface
- Interchangeable tips for male and female, standard or angled connectors
- Compatible with iPhone/iPad iOS7 and Android 2.3 versions and later
- Free Smartphone/Tablet App downloadable from VeEX website

VeEX
The Verification Experts

The displayed tablet and laptop devices are for usage examples only and not included.

VeEX® Optical Tools/Fibre Inspection

OPX-BOX+ Compact Mini OTDR

The OPX-BOX+ is an ultra-compact, OTDR designed to operate remotely using Fiberizer software. The unit can be controlled via USB, WiFi or Bluetooth by Windows, Linux or Android devices. Apple iOS devices supported via WiFi only.

VeEX
The Verification Experts

Tablet not included.

- Bluetooth, WiFi or USB control depending on host device
- Up to 3 wavelengths including Live port (1625 nm, 1650 nm)
- Up to 41 dB Dynamic Range 1/5m Dead Zones
- Optional Light Source (via OTDR port)
- Optional Visual Fault Locator (VFL)
- Multimode and Singlemode wavelength test options - 850, 1300, 1310, 1490, 1550, 1625 and 1650 nm
- Fiberizer Application software available for Windows, Android and Apple iOS operating systems and devices
- Can be operated from Fiberizer Desktop systems

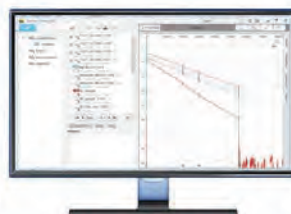

Fiberizer Desktop and Cloud

Fiberizer Desktop is a standalone PC software application to analyse OTDR traces. Edit traces manually, create event tables, generate reports using built-in templates, and more.

Fiberizer Cloud is a centralised web-based fibre test data management system which forms part of the VeEX VeSion Eco-System. OTDR traces, Loss Test Results and Fibrescope images can be analysed, archived and used for advanced reporting purposes. You can work from virtually anywhere, at any time because Fiberizer Cloud is a full online web service.

VeEX® Optical Tools/Fibre Inspection

FX150 OTDR Mini OTDR for FTTx and Metro Fibre Networks

The FX150 is designed for the installation, maintenance and troubleshooting of FTTx, Mobile Front-Haul/Back-Haul and Metro fibre networks. The compact, lightweight OTDR incorporates power meter, light source, fibre inspection probe and VFL test options.

- Robust, handheld design for demanding field testing
- High resolution, 5" TFT color touch-screen suitable for both indoor and outdoor use
- Fast boot-up and measurement critical for fibre troubleshooting and restoration
- Intuitive display, simple function keys and touch-screen for fast navigation and easy operation

- Internal data storage with expandable SD card
- Micro-USB OTG interface for flash drives, fibre inspection probe connection and test data transfer
- Rechargeable Lithium Polymer battery with capacity indicator, low voltage alarm and Auto-off function
- Continuous operation of > 9 hours without having to recharge batteries
- Built-in WiFi option to perform software upgrades and for uploading test data via wireless Internet connection
- Built-in Bluetooth option for pairing applications with smartphones and tablets

VeEX
The Verification Experts

FIBRE OPTIC PRODUCTS

MTTplus Compact Modular Test Platform and Modules

The MTTplus platform is a cost-effective modular test toolkit for today's wide range of technologies. The MTTplus-410 Optics test module supports OTDR, OPM, Light Source and VFL.

- Easy operation and quick dial focus adjustment
- IEC 61300-3-35 and user-defined pass/fail limits
- Automatic analysis of fibre connector endface
- Interchangeable tips for male and female, standard or angled connectors
- Compatible with iPhone/iPad iOS7 and Android 2.3 versions and later
- Free Smartphone/Tablet App downloadable from VeEX website

Optical Power Meter (OPM)

- Optional OPM for LAN, Telco, FTTx and CATV networks
- Multiple calibrated wavelengths
- 1 mm InGaAs detector for standard and high power levels
- Absolute (dBm, Watts) and Relative (dB) measurements
- Optional PONT Wavelength-selective power meter for GPON
- WaveID detection of incoming wavelength from compatible VeEX light source
- Industry standard optical adaptors available

Optical Time Domain Reflectometer (OTDR)

- Multimode - 850 & 1300 nm
- Singlemode - 1310, 1490, 1550, 1625 & 1650 nm
- Filtered 1625 or 1650 nm port for in-service PON measurements
- Live fibre detection to avoid service disruption of active subscribers
- Dynamic range up to 45 dB
- Event dead zone < 1m, Attenuation dead zone < 5m
- V-Scout link mapping (multiple wavelengths, pulse widths)
- Fixed or Universal connectors with UPC or APC

Optical Light Source (OLS)

- Optional OLS function based on OTDR laser fitted
- Stabilised output for insertion loss testing
- WaveID supports testing of three wavelengths
- CW or modulation modes for use with fibre identifiers
- Auto Off feature to conserve battery power

Visual Fault Locator (VFL)

- Visible laser for localised fault finding
- CW and 1 Hz operating modes

VeEX® Optical Tools/Fibre Inspection

V-Scout Optical Link Mapping

V-Scout is a software option for all VeEX OTDRs and Fiberizer Mobile Apps. The application automates the OTDR test functions and eliminates trace interpretation so even unskilled fibre technicians can become test experts quickly.

How does it work?

Multi-pulse width, multi-wavelength acquisitions are used to characterise the fibre under test. Advanced algorithms process the acquired data and display the optical events using intuitive symbols.

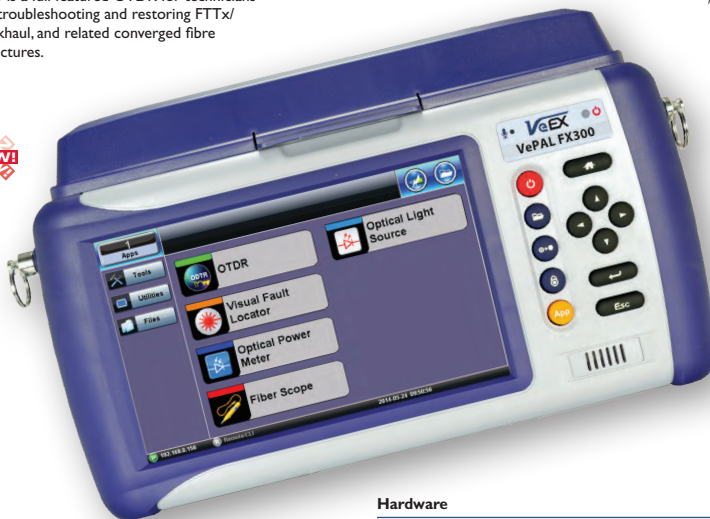

VeEX
The Verification Experts

FX300 Multi-Functional Test Platform for Optical Fibre Networks

The VePAL FX300 is a full featured OTDR for technicians installing, testing, troubleshooting and restoring FTTH/PON, mobile backhaul, and related converged fibre network infrastructures.

VeEX
The Verification Experts

Hardware

- Multimode - 850 & 1300 nm
- Singlemode - 1310, 1490, 1550, 1625 & 1650 nm
- Filtered 1625 or 1650 nm port for in-service measurements
- High resolution, 7" full color TFT touch-screen viewable in any lighting condition
- Connectivity via 10/100Base-T Management interface, WiFi™, Bluetooth®, or 3G Card for back office applications
- Interchangeable Li-ion battery pack for extended test time
- USB-A Interface for USB flash drives and fibre inspection probe connection
- Optional Universal 2.5 mm optical interfaces with inter-changeable optical adaptors (SC/FC/ST/LC)

Software

- Flexible software architecture supports multiple applications
- ReVeal™ PC software to maintain instrument firmware, manage test configurations, process measurement results and generate test reports
- Fiberizer Desktop PC software for fibre trace analysis
- Fiberizer Cloud-based trace analysis and data management
- R-server support for centralized work force management and test results repository

NOYES CKM-2 CONTRACTOR SERIES MULTIMODE TEST KIT WITH SET REFERENCE

The CKM-2 is a cost-effective test kit designed for performing insertion loss measurements on multimode fibre optic links.

The CSSI-MM Dual light source features 850nm and 1300 LED output from a single output port and offers 2 modes of operation.

The CSM1-2 optical power meter operates at 850/1300/1310/1550nm and features multiple test tone detection for fibre identification. One adaptor cap 2.5mm Universal, is included with others available as accessories.

C00-1348	NOYES CKSM-2 MULTI & SINGLE TEST KIT

NOYES SLP5-5 SINGLE & MULTIMODE TEST KIT WITH WAVE ID, SET REFERENCE AND DATA STORAGE

The OPM5-2D optical power meter and OLS4 integrated LED and LASER light source is ideally suited for testing fibre optic networks with hybrid (singlemode and multimode) cables.

The OLS4 features 850/1300 nm LED from a multimode output port and 1310/1550nm LASER output from a singlemode output port.

The OPM5-2D features automatic wavelength identification and stores optical references for each calibrated wavelength and up to 500 records per wavelength of power or insertion loss measurements. Using the supplied Windows® compatible software and USB connection. Test records are transferred to a PC for analysis, printing and storage.

NOYES M210 MULTIFUNCTION MICRO QUAD OTDR

The NOYES M210 is the only inspection ready QUAD OTDR that combines OTDR, OPM and VFI capability with a proven, easy-to-use and easy-to-learn user interface.

OTDR traces (sor format), OPM measurement results and fibre end-face images (when used with DFS1) can be saved together in a job. These results can be downloaded to a computer for analysing and editing using the included companion, NOYES Test Results Manager application software.

- 30 dB dynamic range singlemode
- 26 dB dynamic range multimode
- Built in Optical Power Meter & Visual Fault Locator (VFL)
- 16-hour battery life
- Remote display capable
- Touch and Test intuitive user interface
- New faster processor
- Crisp bright display for indoor/outdoor viewing
- Inspection capable with DFS1 Digital FibreScope (not included)
- Rugged, hand-held, lightweight (<1 kg)

C00-3991	M210 MULTIFUNCTION MICRO QUAD OTDR

NOYES OFL 280 HANDHELD OTDR

The Noyes OFL280 FlexTester is singlemode 1310/1550nm OTDR with PON-optimized and standard test modes, optical power meter, 1310/1550 nm laser source, and visual fault locator.

Testing at 1310 and 1550 nm is normally sufficient to certify point-to-point or FTTx PON fibres and allows the detection of macro bends providing the best balance of functionality and value.

- Rugged, handheld and light weight
- Standard OTDR, PON OTDR, live fibre OTDR, and FTTx PON meter all from the same test port
- 0.8 m event dead zone, 3.5 m attenuation dead zone
- 34 dB dynamic range
- Fast Real Time OTDR mode

GREENLEE FI-100 FIBRE IDENTIFIER KIT

A fast, simple & rugged fibre identification kit which includes: FI-100 Fibre Identifier, 250µm Adaptor, 900µm Adaptor, 2mm Adaptor, 3mm Adaptor, Soft Carry Case, Sun Shade and 2 x AA batteries.

- Non-intrusive low insertion loss prevents alarm conditions
- Identifies fibre with tone detect and a clear indication of signal transmission direction
- Supports all common fibres including 250µm, 900µm, 2mm, and 3mm and is able to sense light in bend insensitive fibres
- Gives up to 80 hours of operation from 2 x AA battery (included)
- Class 2 laser for safe operation, 1mW output power

GREENLEE 930XC OTDR

The Greenlee 930XC OTDR is an all in one OTDR solution featuring OPPI, VFL, and SLS standard on all 930XC models.

- One button test functions
- Automatically sets test parameters for optimum test results
- Graphical interface. Easy to read, even in low or bright lighting conditions
- Up to 38 dB dynamic range. Probe longer cables and see smaller reflections
- Measure lengths and defects. Quickly locates faults
- Cable acceptance reports. Generate customised reports that include trace signature and fibre events

GREENLEE 910FS FUSION SPlicer KIT

The Greenlee Communications 910FS Optical Fusion Splicer is designed to meet virtually any FTTx application. Ideal for both indoor and outdoor splicing applications, the 910FS allows technicians to diagnose, splice, and solve a variety of fibre optic problems with ease.

It features Core Alignment to minimize splice losses and rework time. Pre-terminated splice-on connectors reduce prep time and yield lower connection losses.

With dual cameras, 240X magnification, and a large 5.7" color LCD, technicians can analyse cleaved fibre optic cable faster than ever.

Up to 5,000 splice records can be stored, and the long-life, quick recharge battery keeps on working even in remote locations.

Available as a kit with or without cleaver.

Please contact sales for a quote.

FUSION 500 SERIES METAL CONNECTION BOXES

A range of lightweight steel connection boxes for use with 10 pair terminal strips. These boxes are available in 340, 680 and 1020 pair sizes. Requires disconnection strips (T70-2203)

510 (340 pair) Box Connection 1000 x 300 x 130mm

520 (680 pair) Box Connection 1000 x 500 x 130mm

530 (1020 pair) Box Connection 1000 x 750 x 130mm

PART NO.	DESCRIPTION	PRICE
T70-2603	340 PAIR BOX CONNECTION 510	142.19
T70-2604	680 PAIR BOX CONNECTION 520	145.75
T70-2605	1020 PAIR BOX CONNECTION 530	182.50

FUSION VERTICAL DISTRIBUTION FRAME

A single or double vertical distribution frame that requires no assembly and can be transported and installed by one person.

It has been designed and manufactured to accept up to 70 or 140 10 pair disconnection modules or other industry standard IDC strip connectors.

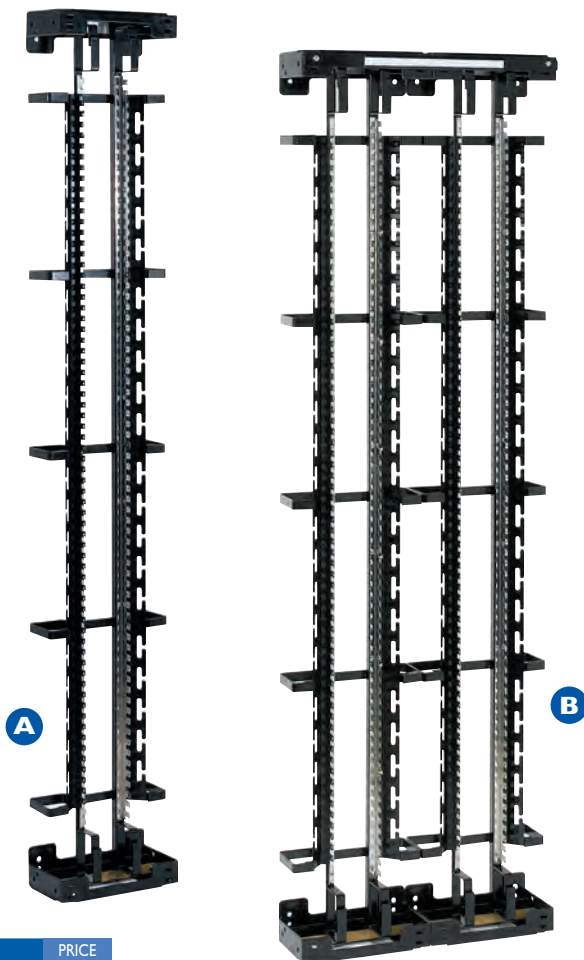

- The four way earth bar can be top or bottom mounted
- High density cable management bars ensure the tidy dressing and routing of cable
- Adjustable feet provide additional support when installing on an uneven floor or against a wall
- Manufactured in mild steel with a LSZH black finish

A) Dimensions 1850 x 279 x 150mm Weight 15kg

- Up to 700 connections can be made on a single vertical frame

B) Dimensions 2000 x 360 x 150mm Weight 30kg

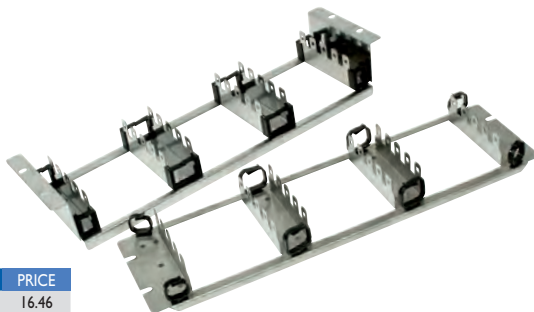

- Up to 1400 connections can be made on a double vertical frame

PART NO.	DESCRIPTION	PRICE
T70-0349	A) SINGLE VERT DISTRIB FRAME	173.20
T70-0351	B) DOUBLE VERT DISTRIB FRAME	204.75

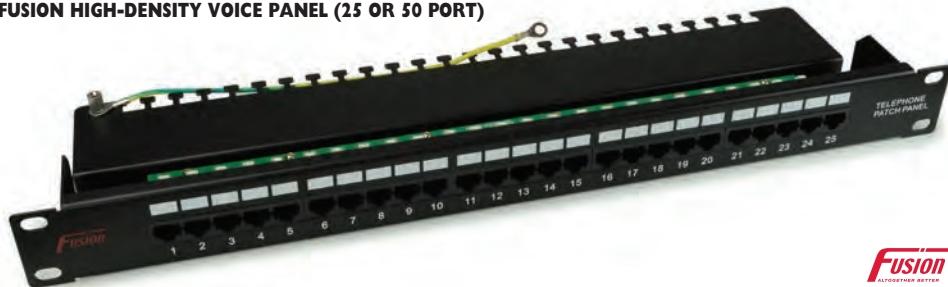

FUSION SUB-RACK

Designed to fit any standard 19" cabinet or rack, this 3U sub-rack comes as either recessed or flat. Horizontal and vertical versions are also available. Compatible with Fusion disconnection modules.

PART NO.	DESCRIPTION	PRICE
T70-0007	3U 150 PAIR RECESSED FRAME	16.46
T70-0008	3U 150 PAIR FLAT FRAME	15.44

FUSION HIGH-DENSITY VOICE PANEL (25 OR 50 PORT)

Fusion
ALTERNATION BETTER

- Wire Termination KRONET™ style IDC
- Cable Management: Quick-fit cable tie fixing point per port
- RJ45 sockets: 8 position, 8 contact socket Gold plated contact pins 3, 4, 5, 6 connected
- Supplied with cable ties, 4 cage nuts, fixing bolts and earthing kit

PART NO.	DESCRIPTION	PRICE
T77-0042	25 PORT HIGH-DENSITY VOICE PANEL	21.21
T77-2183	50 PORT HIGH-DENSITY VOICE PANEL	42.94

FUSION VOICE MODULES

Available in PABX Master, Full master and Secondary versions. Manufactured in ABS white with external identification window-compatible with most faceplates.

Ideal for distributing voice over structured cabling.
Dimensions: 25 x 50mm.

Fusion

NETGEAR PROSAFE™ SMART MANAGED SWITCHES**NETGEAR**

The ProSafe™ Smart Switches from Netgear are entry level managed switches offering key management features, enabling businesses to cost effectively extend a fully managed network or add management and control to an existing unmanaged network.

- Easy-to-use web-based management
- SNMP protocol, v1
- Traffic prioritisation (IEEE 802.1p standard)
- Port trunking
- DHCP client
- Up to 64 static VLAN groups (IEEE 802.1q standard)
- Spanning Tree (IEEE 802.1d standard)

NETGEAR PROSAFE™ UNMANAGED PLUS POWER OVER ETHERNET (PoE) GIGABIT SWITCHES

NETGEAR ProSAFE® Plus Switches meet this growing need by providing fundamental network features that will help optimise the performance of business networks.

On top of the plug-n-play Gigabit Ethernet connectivity, these switches also offer essential networking features such as VLAN, QoS, IGMP Snooping, Link Aggregation (LAG), rate limiting and traffic monitoring.

NETGEAR ProSAFE® Plus Switches are an exceptional value for businesses looking to add intelligence to their network beyond what unmanaged switches can provide.

- Data switching & Power-over-Ethernet (PoE) in one unit
- 5 and 16 data switching ports, providing PoE on 2 and 8 ports respectively
- Reduces cables & eliminates need for dedicated electrical outlets
- AutoUplink™ auto detects speed, duplex & cable type
- Automatically detects PoE devices & supplies power as needed
- Quality of Service (QoS) for traffic prioritisation
- C04-4725 includes rackmount brackets

NETGEAR PROSAFE™ UNMANAGED GIGABIT SWITCHES**NETGEAR**

These unmanaged Gigabit Ethernet Switches are equipped with 10/100/1000 Mbps ports giving a small or growing business network the capacity to handle huge workloads. Desktop versions are available in 5, 8 & 16 port versions, while rackmount units are available in 16 and 24 port options.

- Gigabit speeds meet performance needs of bandwidth hungry applications
- Automatic speed and full/half-duplex sensing on every port
- Auto-sensing on each port detects at the best network speed (10, 100 or 1000)
- Auto Uplink™ technology auto adjusts for different types of Ethernet cable

PLANET FAST ETHERNET DESKTOP SWITCHES

The FSD-503 and 803 Fast Ethernet Switches from Planet are simple and cost-effective, highly reliable network switches. They are the ideal devices for bridging Ethernet to Fast Ethernet workgroups or networks.

- 1/2k MAC address table
- Store and Forward switch architecture
- Flow control to eliminate packet loss
- MAC address learning and ageing
- Auto MDI/MDIX on each port

PLANET POWER OVER ETHERNET INJECTOR/SPLITTERS

With Planet IEEE 802.3af Power over Ethernet devices, only a single Ethernet cable has to be installed to carry both power and data to remote devices, such as wireless LAN access points, IP phones or IP cameras.

- A) The POE-151 injects 48V into the ethernet cable. Max distance between the injector and splitter is 100m with a 100Mbps data rate.
- B) The POE-152 injects 48V into the ethernet cable. Max distance between the injector and splitter is 100m with a 1000Mbps data rate.
- C) The POE-152S is a 1000Mbps Power over Ethernet splitter ideal for quick PoE environment deployment. The POE-152S can split the 48V DC over the Ethernet cable into 5V/12V DC power output.

POWER OVER ETHERNET EXTENDERS & TESTER

A) Extends both the reach of Ethernet Data and IEEE 802.3af Power over Ethernet over the standard 100m (328 ft.) CAT5e/6 UTP cable to 200m, 300m or longer distance.

B) Extends both the reach of Gigabit Ethernet Data and IEEE 802.3at / 802.3af Power over Ethernet over the standard 100m (328 ft.) CAT. 5/5e/6 UTP cable to 200m, 300m, 400m and maximum 500m.

C) Easy-to-use PoE diagnostic adapter for network installers, company MIS and even home users to quickly identify the existence of Power over Ethernet on applications network. It is designed to detect if the IEEE 802.3af/at PoE voltage runs over the UTP cable and identify the type of PSE (Power Source Equipment) for troubleshooting.

PLANET WALL PLUG UNIVERSAL WIFI REPEATER/TRAVEL ROUTER

802.11n Wall plug wireless repeater, simply plug into an electrical outlet for 300Mbps high speed wireless network sharing. It offers switch modes including AP Repeater and Client, which help users to immediately set up a wireless network without software configuration.

- 300Mbps wireless transmission rate with MIMO technology
- IEEE 802.11n, 802.11b/g standard compliant to Multiple Point and WDS mode

PLANET 300MBPS 802.11N WIRELESS RANGE EXTENDER

- Wall or ceiling-mountable design
- Backward compatible with 802.11b/g standard
- Supports IEEE 802.3af standard-based PoE or local AC power
- Advanced security: 64-/128-bit WEP, WPA/WPA2 and WPA-PSK/WPA2-PSK (TKIP/AES encryption), 802.1x
- Multiple operation modes including AP (Multi-SSIDs), Client, Repeater/Universal Repeater, WDS Point-to-Point (PtP) and WDS Point-to-Multipoint (PtMP)

C04-4788	300MBPS WIRELESS RANGE EXTENDER

PLANET 900MBPS DUAL BAND CEILING MOUNT WIRELESS ACCESS POINT (2 GIGABIT LAN, IEEE802.3AT POE+)

Features 3 high sensitivity dual-band antennas, dual-band 2.4GHz + 5GHz wireless access capability and has the ability to transmit power up to 500mW. The unit features a unique compact design and IEEE 802.3at PoE PD power ability.

- Wall or ceiling-mountable design
- Wireless Modes: Access Point, WDS PtP, WDS PtMP, Repeater, Universal Repeater
- Transmission Distance: Indoor up to 100m
- 2 x 10/100/1000Base-T Ports with 1-port PoE

C04-4789	900MBPS DUAL BAND ACCESS POINT

PLANET 300MBPS 802.11N IN-WALL WIRELESS ACCESS POINT

Specifically designed for hotels, offering guests with convenient Wireless LAN service. Simply fits into a 1 gang backbox and with the support of a PLANET access point controller (not included) you don't need to spend extra time and cost to deploy the wireless network.

- Maximum data rate of 11n 300Mbps via PLANET access point controller
- IEEE 802.3af/at PoE, suitable for in-wall installation.
- Built-in RJ11 port for phone pass-through and 100BASE-TX RJ45 port for Ethernet connection to such device as IPTV or laptop, enabling to integrate a hotel network with its all-in-one interface
- 1 x 10/100BASE-TX port and one PoE powered device (PD) port
- 1 x RJ11 port for phone line connection

C04-4790	300MBPS 802.11N RJ45 & RJ11 FACEPLATE

PLANET 1200MBPS 802.11AC DUAL BAND CEILING-MOUNT WIRELESS ACCESS POINT

Supports IEEE 802.11a/b/g/n/ac dual band standards with 2T2R MIMO technology; therefore, it provides the wireless speed up to 300+867Mbps, which is 16X faster than the 11a access point at 5GHz frequency and 5.5X faster than the 11g access point at 2.4GHz frequency. It is equipped with Gigabit Ethernet Port.

- Complies with IEEE 802.11ac (draft 2.0) and IEEE 802.11a/b/g/n standards
- 1 x 10/100/1000Base-T Port with 1-port PoE (PD, Powered Device)
- IEEE 802.3at Power over Ethernet design
- Features 2.4GHz (802.11b/g/n) and 5GHz (802.11a/n/ac) concurrent dual band for more efficiency of carrying high load traffic

A RANGE OF OPEN ACCESS RACKS, SPECIFICALLY DESIGNED FOR THE AV INDUSTRY

These racks are the ideal solution for customised installations, whether in cupboards, under stairs or just free standing. The open design gives all-round access for rigging during installation and maintenance. The racks have a footprint of 50cm width by 60cm depth and are supplied, as standard, with heavy duty 70mm lockable castors.

The racks are supplied flat packed, manufactured from 2.0mm steel to take the weight of heavy AV gear and are supplied, as standard, in black with a choice of heights from 21U (1130mm inc. wheels) to 39U (1930mm inc. wheels). The 4 uprights are pre-punched to accept caged nuts and consequently all standard 19" rack accessories.

A full range of accessories is shown opposite:

- Ideal for customised installation
- Supplied flat packed with easy assembly instructions
- 19" pre-punched upright profiles
- Available 21U (1130mm) to 39U (1930mm)
- Manufactured from 2.0mm steel
- Heavy duty lockable 70mm castors
- Full range of accessories available
- Shelves sold separately- see opposite page

Image for illustration only.

Shelves and other accessories sold separately.

Fusion CAT 6 UTP

Altogether better because...

- We've specially designed our Fusion CAT 6 boxes with large cable delivery apertures ensuring a snag free cable delivery. Plastic reinforced handle grips and heavy duty cardboard provide support when carrying boxes on site.

Fusion CAT 6 UTP cable meets or exceeds the latest ISO and TIA requirements for category 6 compliance. As with our Cat 5e range, the Fusion CAT 6 product has been designed for ease of use and to save installer time. When installed by a registered Fusion Installer, the system is guaranteed for 25 years.

FUSION 4 PAIR CAT 6 UTP PVC & LSOH CABLE 305M

Supplied in heavy duty boxes – 305M (1000ft) solid core.

23 AWG unshielded cable. Supplied metre marked for easy installation and to prevent wastage.

Approved for the Fusion 25 year system warranty when installed by an approved Fusion Installer.

25 YEAR UNLIMITED PRODUCT WARRANTY

The Fusion Cabling System is backed by an altogether better 25 year warranty to show our commitment and responsibility in ensuring that all our products perform to an exceptional standard.

The 25 year product warranty covers Cat 5e and Cat 6 cabling copper systems and gives you protection on all your Fusion structured cabling installations. It is available only to Fusion Registered Installers.

For further information please see page 48.

Mini 4 Data System

The Mini 4 Data System uses specially designed internal and external bends, flat angles and tees that incorporate large, smooth curves to give the bend radius control which is essential when installing Cat 6 and fibre cable.

These accessories are used in conjunction with the 38 x 25mm MMT4 standard mini trunking on the opposite page to give a complete range of controlled bend radius trunking suitable for the latest high performance installations.

UNDERGROUND BURIAL CORRUGATED FLEXIBLE HDPE CONDUIT

This double-walled underground burial conduit has a corrugated exterior and a smooth core. It is made from HDPE and has a high chemical and water resistance. It has an impact resistance of higher than 450N on 5cm at +20°C. Its flexibility and mechanical resistance allows installation even in the presence of irregularity in the ground. Supplied in black. Other colours available on request.

Each coil comes complete with integral draw wire.

FIBERGUIDE®

FiberGuide® is a raceway system designed to protect and route fibre optic patch cords and multi-fibre cable assemblies to and from fibre splice enclosures, fibre distribution frames and fibre optic terminal devices.

The FiberGuide® system is a complete set of products designed and manufactured to ensure total off frame protection and ease of use. Basic components include horizontal and vertical straight sections, horizontal and vertical elbows, downspouts, junctions and numerous support hardware and flex-tube kits.

Available in a broad range of sizes from 2x2 through to 4x24 inch systems.

Key features include:

Speed of Installation

FiberGuide® systems feature a variety of products that allow for quick and easy installation. Express Exit™ drops as well as tool-less products including Snap-Fit™ junctions, snap-on covers and new hinged cover options save valuable time for installers.

Speed of Deployment

The Express Exit system enables new drops to be added or removed quickly and easily. A drop can be added into a fully loaded raceway in seconds - without cutting.

Raceway Flexibility

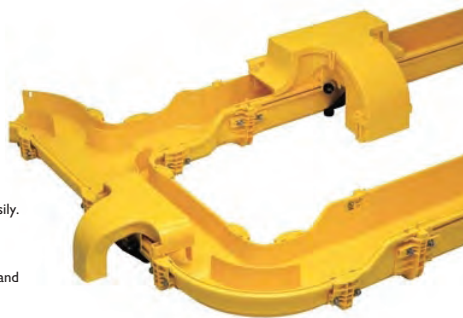

FiberGuide® features 38 support structures, over 75 fittings, multiple drop options and several other components to suit any application you create.

Fibre Protection

CommScope's broadband expertise translates into maximum protection for your network. Two inch (50 mm) minimum bend radius is maintained throughout the system regardless of the raceway size.

Strength and Durability

100% raceway reliability - stands up to any challenge.

304 GRADE STAINLESS STEEL BALL-LOCK CABLE TIES

Metal ties are ideal for all applications that require high strength, reliability and fire resistance.

In the event of a fire, cables will remain securely held in place and will not fall to block emergency exits.

These MBT (Metal Ball Bearing Ties) ties have a patented non-releasable locking feature and offer infinite adjustment within their length. The MBT ties are heavy duty. Once installed they can be opened and re-used if required.

This range of stainless steel cable ties can be used in chemical industries and on oil platforms as well as in mass transit, shipbuilding and mining industries. MBT ties are also suitable for machine building, apparatus construction and in the outside area of radio technology.

It is strongly recommended that these cable ties are applied using the S00-5631 Tensioning Tool (below) to ensure reliable and efficient fixing.

- Patented non-releasable locking feature
- Corrosion resistant
- Outstanding chemical resistance
- High temperature resistance
- Non-burning

TENSIONING TOOL FOR STAINLESS STEEL CABLE TIES

This application tool is designed for installing heavy duty stainless steel cable ties from 4.5 - 12.3mm strap width. The tensioning strength can be adjusted while pulling the trigger. The tool is easy to handle and far more reliable than trying to tension the ties by hand.

- Tough metal tool
- Operator controlled tensioning
- Cut off by pulling the hand lever

PART NO.	DESCRIPTION	PRICE
S00-5632	TENSIONING TOOL FOR STAINLESS STEEL TIES	84.05

STAINLESS STEEL SCREW FIXING MOUNTS

Suitable for the secure fixing of cables, tubing, conduits and pipes within the most arduous of environments. Providing a complete fastening and fixing solution when used in conjunction with stainless steel ties up to 10.0 mm width.

Made from Grade 316 Stainless Steel (SS316).

Dimensions: 10.2mm (w) x 23.0mm (l) x 4.5mm (h)
Available with three different hole sizes.

Supplied in packs of 100.

PART NO.	DESCRIPTION	PRICE
S00-5633	4.2MM Ø HOLE - STAINLESS STEEL P MOUNTS PK100	38.39
S00-5634	5.3MM Ø HOLE - STAINLESS STEEL P MOUNTS PK100	38.39
S00-5635	6.3MM Ø HOLE - STAINLESS STEEL P MOUNTS PK100	38.39

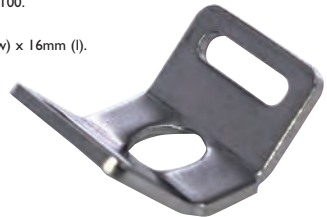

STAINLESS STEEL CRADLE MOUNT CLIP

A cradle mount clip that meets the requirements of BS761, 3rd Amendment, 7th Edition.

Suitable for use with stainless steel cable ties up to and including 7.9mm. Features a No.8 (4mm Ø) fixing hole for securing on to the building fabric. Supplied in a pack of 100.

Dimensions: 12mm (w) x 16mm (l).

PART NO.	DESCRIPTION	PRICE
S00-5636	STAINLESS STEEL CRADLE MOUNT CLIP PK100	21.54

STAINLESS STEEL FIRE CLIP FOR 25X16 MINI TRUNKING

The safest solution to securing cable within mini trunking. Supplied in packs of 50.

- Suitable for 25 x 16mm mini trunking
- Easy to apply without the need for a tool – simply fold the tabs to retain the cables
- Completely invisible once mounted within the trunking
- No. 8 (4mm Ø) fixing hole for securing the clip to the building fabric
- Manufactured from Stainless Steel 430 material
- Holds cables in position, even in the event of a fire
- The safest way of securing cables within mini trunking

Dimensions: 21mm (w) x 20mm (l).
Made from Grade 430 Stainless Steel (SS430)

PART NO.	DESCRIPTION	PRICE
S00-5637	FIRE CLIP FOR MINI TRUNKING PK50	14.95

Fusion Data Distribution Boxes

Designed to accept Lj6 (6C) and Eurostyle Modules.

Data distribution boxes manufactured from aluminium. Use with the supplied removable frame for standard 6C modules (22.5 x 37mm) or without the frame for Eurostyle modules (25 x 50mm).

Glands, nuts and 'L' fixing brackets are supplied separately.

FUSION 4 WAY DATA DISTRIBUTION BOXES WITH 25MM INLET

- This Box accepts 4 x Lj6 (6C) modules or 6 Eurostyle Modules

- Produced in accordance with ISO9002

SERIES 2 MARSHALL TUFFLEX DOUBLE SIDED POWER POLES

Second generation Marshall Tufflex Power Poles, with smart elliptical shape with double sided hinged flaps concealing 14 accessory boxes with accommodation for a further 14.

The Series 2 Poles are available in anodised aluminium or white and are supplied 3.6m in length.

As with the standard Poles (shown right), for exceptionally high ceilings or voids an extended adjusting slide is available which increases the pole length by 1m.

The pole dimensions are 140mm width x 229mm depth x 3.6m high

“ FOR EXTRA HIGH CEILINGS, WE CAN OFFER AN EXTENDED ADJUSTING SLIDE WHICH WILL INCREASE THE LENGTH TO OVER 4.5 METRES ”

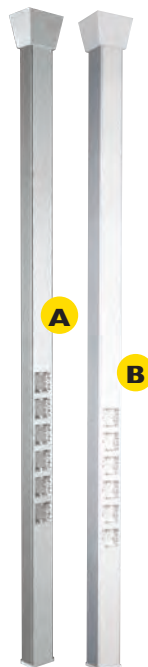

POWER POLES

Our range of two high quality Power Poles, with all anodised aluminium body and fully adjustable white UPVC sides. Both poles are supplied at a length of 3.6m which can be easily shortened to fit the job. For exceptionally high ceilings or voids an extended adjusting slide is available and compatible with both poles. This increases the length of the pole by 1 metre. Both poles are supplied complete with six 30mm deep Accessory Boxes which can be mounted at any height.

The Pole Dimensions

A) Size 1 Power Pole
63mm deep x 102 mm wide x 3.6 m high.

B) Size 2 Power Pole
98mm deep x 102 mm wide x 3.6m high.

AIR BLOCKS

A range of 3 sealable grommets especially designed for raised floor applications, optimising thermal management of data rooms. Manufactured from high strength flame retardant ABS and available in 3 options:

- A) A smart round split grommet with seal – requires a cut out size of 150mm, depth 42mm.
- B) Identical to the above grommet but with brush instead of a gasket seal, cut out size 150mm, depth 42mm.
- C) A smart rectangular split grommet with gasket seal, requires a cut out size of 200 x 110mm, depth 42mm.

Colour: Black.

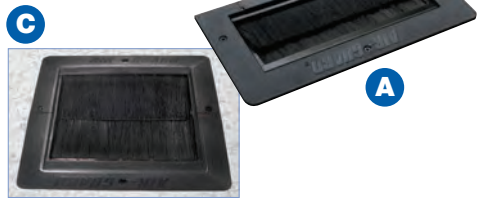

PART NO.	DESCRIPTION	PRICE
R06-1148	A) ROUND AIR BLOCK WITH GASKET SEAL	17.69
R06-3885	B) ROUND AIR BLOCK WITH BRUSH SEAL	23.82
R06-3886	C) RECT.AIR BLOCK WITH GASKET SEAL	21.95

AIR GUARDS

A range of rectangular brush grommets especially designed for raised floor applications, optimising thermal management of data rooms. Manufactured from high strength flame retardant ABS and available in 3 options:

- A) Integral Air Guard
 - Cutout sizes:
 - Within floor panel = 265 x 115mm
 - Panel edge: 265 x 135mm
 - Cable opening size: 230 x 65mm
 - Overall size: 328 x 162mm
- B) Extreme Air Guard
 - Cutout sizes:
 - Within floor panel = 230 x 165mm
 - Overall dimensions: 275 x 210 x 40mm
 - Cable opening size: 180 x 120mm
- C) Retrofit Air Guard
 - Cutout sizes:
 - Within floor panels = 200 x 200mm
 - Overall dimension: 255 x 255 x 25mm

Colour: Black.

PART NO.	DESCRIPTION	PRICE
R06-1147	A) INTEGRAL AIR GUARD	43.75
R06-3887	B) EXTREME AIR GUARD	49.89
R06-3888	C) RETROFIT AIR GUARD	44.58

CIRCULAR CABLE GROMMETS

Manufactured from flame retardant high impact ABS - available in 75mm, 102mm & 127mm diameter - black or grey:

- A) 75mm Circular Cable Grommet - 38mm depth - 15x60mm adjustable cable mouth.
- B) 102mm cut out Circular Cable Grommet - 38mm depth - 15x60mm adjustable cable mouth.
- C) 127mm Circular Cable Grommet - 38mm depth - 15x70mm adjustable cable mouth.

Intumescent Fire Products

When it comes to fire protection, every risk must be considered to ensure loss of life and property are kept to a minimum. While many people are aware of the importance of fire barriers in preventing or delaying the spread of fire, they do not always consider the effects of breaching the fire barrier, perhaps so that electrical or network cabling or other services can pass through.

Installers have an obligation to ensure that running cables, trunking etc. through walls doesn't compromise the fire resistance of that wall. IEE Regulations state that where cables, conduits, trunking or other items of wiring systems pass through walls, floors or ceilings, any part of the hole that is left around the material shall be made good to the same degree of fire resistance as that required for the element being passed through.

Mills offer a range of products to ensure that gaps and holes can be filled to help prevent the spread of fire. Intumescent products work by expanding to tightly fill any gaps or holes when attacked by fire, preventing fire spreading along cable routes.

“OUR RANGE OF INTUMESCENT FIRE PRODUCTS PROVIDES THE SOLUTION TO MEETING IEE REGULATIONS”

INTUMESCENT WRAPS

A range of foil-clad intumescent wraps for use around pipes or cables in brick or block walls and in concrete floors. When attacked by fire, the wraps will crush PVC pipes as they melt, filling the hole and preventing the passage of fire and smoke. Tested to BS476 Part 22 (1987) and offering up to 4 hours protection.

Pipe size Internal Diameter	Wrap Internal Diameter	Wrap External Diameter
50mm	55mm	63mm
75mm	90mm	102mm
100mm	115mm	131mm

PART NO.	DESCRIPTION	PRICE
S00-7912	INTUMESCENT WRAPS 50MM	4.41
S00-7913	INTUMESCENT WRAPS 75MM	7.09
S00-7914	INTUMESCENT WRAPS 100MM	7.30

INTUMESCENT PADS

Intumescent pads have self-adhesive tape backing and are designed to fit inside steel, UPVC and PVC trunking where it passes through fire barrier walls or floors, enabling access at all times to the cables. In a fire the pads expand, filling the trunking to stop the passage of fire for up to 3 hours.

Choose pads by the size trunking they are to fit. 50mm x 50mm trunking would use one pad, 75mm x 50mm should be fitted with two pads and 150mm upwards uses three pads. Pads are supplied in pairs or sets of three as appropriate. For multi-section trunking use pads of appropriate size for each section.

PART NO.	DESCRIPTION	PRICE
S00-7917	INTUMESCENT PADS FOR 50MM X 50MM	3.39
S00-7918	INTUMESCENT PADS FOR 75MM X 75MM	4.94
S00-7919	INTUMESCENT PADS FOR 75MM X 50MM	4.04
S00-7920	INTUMESCENT PADS FOR 100MM X 100MM	5.23
S00-7921	INTUMESCENT PADS FOR 100MM X 50MM	5.03
S00-7922	INTUMESCENT PADS FOR 150MM X 50MM	6.93

INTUMESCENT FIRE AND SMOKE PILLOWS

Pillows are made from a hard wearing glass cloth, filled with a fire-proof sponge and intumescent material. The pillows are soft and pliable, enabling them to be packed into gaps around pipes, cables and over cable trays. They can fit any size opening and can be easily fitted or removed.

For sizes other than those listed, please call the Sales Office on 020 8833 2626

PART NO.	DESCRIPTION	PRICE
S00-7923	INTUMESCENT PILLOW 150 X 150 X 40MM	6.12
S00-7924	INTUMESCENT PILLOW 250 X 127 X 40MM	6.93
S00-7925	INTUMESCENT PILLOW 300 X 300 X 80MM	17.12

INTUMESCENT ACRYLIC MASTIC

A halon-free intumescent mastic with good adhesion to all materials, for filling gaps from 1mm to 60mm. After application a face skin forms allowing painting but stays permanently flexible. The mastic expands up to 5 times its size in a fire. Supplied in 310ml tubes.

PART NO.	DESCRIPTION	PRICE
S00-7926	INTUMESCENT MASTIC 310ML	3.20

PVE/A FOAM

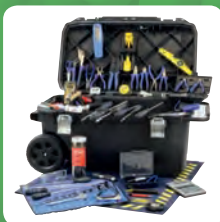

A polyurethane foam emitting virtually no fumes or gases when affected by flame. The foam expands to 40 times its original volume on application and is ideal for filling around awkward openings and around services and behind door and window frames

PVE/A foam is supplied with a tube for easy application. PVE/A/G foam can be used with the industrial trigger gun for precise control.

PART NO.	DESCRIPTION	PRICE

EUROCASE 2000

The versatile range of rugged Eurocases provides the ideal solution to most field service engineers' requirements.

The Eurocase 2000 range has polypropylene side shells offering greater impact resistance, strength and more resilience to heat changes and chemical spillage. Handles have a cushion grip for extra comfort.

Maximum load capacity of 30kg.

All cases have 3 hinges, 2 toolboards, chromed lockable toggle latches and logo indent allowing relabelling with your company name or corporate message.

WATER RESISTANT STORAGE CASE

High impact injection moulded water resistant case for the safe storage of technician's instruments and/or equipment. Heavy-duty design with extra protection surrounding the hinges and easy-open latches.

Neoprene seal around the inside of the lid ensures that the case is completely water resistant and a pressure equalising valve can balance the atmosphere inside and out. Features a comfortable folding handle and twin padlock points. Two pieces wave foam and two pieces pre-cut foam allow user to create a secure and perfect fit for the intended contents. IP67 Rated.

MILLS HEAVY DUTY INSTALLER'S TOOLBOX

This toolbox is ideal for professional and trade use, and constructed from a combination of tough high impact plastic with heavy duty bright yellow steel body. A pull out inner tote tray allows for storage of smaller items and the lid incorporates a stainless steel groove section which is ideal for resting work, such as pipes or wood, prior to cutting.

The toolbox also benefits from a soft grip handle and can be secured by the use of two double latches and padlock eye. The heavy duty construction of the box also means it can be used as a step.

External dimensions: 570mm (22.5") x 250mm (10") x 220mm (9½").

MINIM 2.5 SELF ADJUSTING CUTTER STRIPPER

Self-adjusting cutting and stripping tool for PVC insulated wires and cables 0.2mm² (24AWG) to 6.0mm² (13AWG).

This innovative design uses precision carbon steel laminated stripping blades that automatically form around the insulation to provide quick and accurate safe stripping.

The sliding wire-stop is easily adjusted to preset exact strip lengths and the integral wire/cable cutter is shielded for safety.

PART NO.	DESCRIPTION	PRICE
E70-6114	MINIM 2.5 SELF ADJUSTING CUTTER STRIPPER	23.95

MAXIM 6 SELF ADJUSTING CUTTER STRIPPER

Self-adjusting cutting and stripping tool for PVC insulated wires and cables 0.2mm² (24AWG) to 6.0mm² (10AWG).

This innovative design uses precision carbon steel laminated stripping blades that automatically form around the insulation to provide quick and accurate safe stripping.

The sliding wire-stop is easily adjusted to preset exact strip lengths and the integral wire/cable cutter is shielded for safety.

PART NO.	DESCRIPTION	PRICE
E70-6115	MAXIM 6 SELF ADJUSTING CUTTER STRIPPER	32.50

MILLS SELF ADJUSTING CUTTER STRIPPER

This automatic wire stripper features a convenient wire cutter below the stripping jaws. Works with 0.5mm to 2.5mm (10 to 24 AWG) stranded or solid wire. Strip length may be set between 5 to 23 mm (3/16" to 7/8"). Length 170mm.

PART NO.	DESCRIPTION	PRICE
E70-5002	SELF ADJUSTING CUTTER STRIPPER	14.52

MILLS AUTOMATIC WIRE STRIPPER

Ideal for the fast and clean removal of insulation.

Automatic clamping action & length gauge. Facility ensures stripped ends are uniformly stripped. Blades are accurately notched and honed to strip four insulation diameters.

PART NO.	DESCRIPTION	PRICE
E72-3007	MILLS AUTOMATIC WIRE STRIPPER 1.0-3.2MM	15.78

MILLS MASTERCLASS MULTIPURPOSE TOOL FOR CUTTING, CRIMPING AND STRIPPING

Stripping capacity 0.13 - 6.0mm² (26 - 10awg). Crimps red, blue, yellow and most non-insulated terminals.

4 PIECE ROUND HEAD PARALLEL PIN PUNCH SET

These pin punches are made from uniformly heat treated carbon steel and are used for removing pins in parallel holes. The removal of the pins should first be started with a hand or taper punch to avoid damage to the end of the parallel punch.

This set of four punches includes one of each of the following:
3.0mm, 4.0mm, 5.0mm and 6.35mm tip diameters.

Length: 100 mm (4 in).

PART NO.	DESCRIPTION	PRICE
J04-6848	4PC ROUND HEAD PARALLEL PIN PUNCH SET	7.30

8 PIECE LONG SERIES ROUND HEAD PIN PUNCHES

Faithfull Long series pin punch with extended parallel shank, used for the removal of tight pin and metal dowels from mechanical fittings and machinery.

Designed for heavy-duty use and are made from uniformly heat treated tool steel with a round head and a knurled body for a firm grip.

This set of 8 punches includes:
1.6, 2.4, 3.2, 4, 4.8, 6, 8 and 10mm.

Pin length: 90mm (3.1/2in).

Overall length: 200mm (8in).

PART NO.	DESCRIPTION	PRICE
J04-6839	8PC LONG SERIES ROUND HEAD PIN PUNCHES	7.30

MILLS EXTRA HEAVY DUTY 7.5M TAPE MEASURE

Exceptionally robust tape measures with rubberised shells capable of withstanding the most harsh working conditions.

The yellow power return blade is easily locked by a positive lever action. All tapes are fitted with metal belt clips. The extra wide blades are very clearly marked in 1/16ths and mm.

This 7.5m (24ft) tape measure features a 25mm (1") wide blade.

PART NO.	DESCRIPTION	PRICE
K70-5012	7.5M (24FT) TAPE MEASURE	10.45

FATMAX XTREME TAPE MEASURE

Blade armour coating on the first 150mm reduces the risk of breaking the tape

- Huge standout of almost 4 metres for easy one person measuring
- 32mm wide blade makes reading the numbers easy
- Cushion grip provides sturdy, slip-resistant hold
- Mylar coated blade is up to 10 times more resistant to abrasion than normal lacquered blades
- Belt clip

PROFESSIONAL GAS SOLDERING IRON KIT WITH FLINT

The gas iron can be refilled in 10 seconds using Butane gas lighter fuel and under normal use will last approximately 60 minutes. The torch has an integral fitted ignitor and safety cut out switch. The Professional Gas Soldering Iron Kit is supplied with the following accessories in a blow moulding storage case:

- 1 x 2.4mm Single Flat Tip
- 1 x Blow Torch Tip
- 1 x Hot Blower
- 1 x Hot Knife Tip
- 1 x Wire Stand
- 1 x Cleaning Sponge & Cup

PART NO.	DESCRIPTION	PRICE
D52-1243	PROFESSIONAL GAS SOLDERING KIT	40.19

SUPERPRO HEAVY DUTY GAS SOLDERING IRON KIT

A heavy duty 8 piece gas soldering iron kit adjustable from 25-130 watts. The gas iron can be refilled in 10 seconds using Butane gas lighter fuel and under normal use will last approximately 2 hours. The gas soldering iron further benefits from automatic Piezo ignition and is ready to melt solder in less than 30 seconds. It utilises Piezo ignition for total user convenience. Switch on and ignition are accomplished in two smooth ergonomic movements.

The Super Pro Soldering Kit contains:

- Super Pro Soldering Iron
- 1 x 2.4 Double Flat Tip (SPT-6)
- 1 x 4.8mm Double Flat Tip (SPT-8)
- 1 x Hot Air Blower Tip (SPT-9)
- 1 x Hot Knife Tip (SPT-10)
- 1 x Deflector (SPT-12)
- 1 x Wire Stand (SPT-15)
- 1 x Cleaning Sponge & Cup (SPT-19)

PART NO.	DESCRIPTION	PRICE

MINI MILLSLITE CREE LED ZOOM LENS TORCH

Manufactured from high quality corrosion resistant and durable aluminium. This mini torch can be easily stored in small tool wallets and pockets. The torch is powered by 2 x AA cell batteries (not included) and uses an intense XPG

Cree 3w LED. The beam of the Mini Millslite torch can easily be adjusted from flood to spot.
Length: 147mm, diameter 29mm.
Weight: 102g.

PART NO.	DESCRIPTION	PRICE
M99-6914	MINI MILLSLITE CREE LED ZOOM LENS TORCH	8.95
M99-6820	AA BATTERY PK 2	1.15

MILLSLITE COMBINED LED TORCH & WORKLIGHT

This 2 in 1 worklight features a powerful Cree style COB (Chip On Board) LED flashlight.

The Millslite is manufactured from high quality corrosion resistant and durable aluminium. This is an essential addition to all toolkits and benefits from a strong end-fitted magnet, making it ideal for

providing hands-free illumination. The torch is powered by 4 x AAA cell batteries (not included) and has a 'glow in the dark' power button for ease of operation.

Length: 170mm. Diameter 43mm.
Weight: 280g.

PART NO.	DESCRIPTION	PRICE
M99-6916	MILLSLITE COMBINED LED TORCH & WORKLIGHT	14.95
M99-6864	AAA BATTERY PK 2	1.25

MILLS LED HEAD TORCH

Professional 4-Mode Head Torch, ideal for proximity lighting for inspection work producing 60 lumens.

The head torch benefits from a fully adjustable washable 25mm head strap, and has 45 degree lamp adjustment.

It features 2 white lighting modes, ultra bright 60 lumen and low powered 10 lumen. In addition, the two red light options are useful for maintaining night vision and dramatically preserves battery life.

The product is supplied in white ABS and requires 3 x AAA batteries (not included).

Weight: 41g.

Dimensions: 60 x 40 x 35mm.

PART NO.	DESCRIPTION	PRICE
M99-5489	MILLS LED HEAD TORCH	9.80
M99-6864	AAA BATTERY PK 2	1.25

MILLS 24 LED HAND INSPECTION LIGHT

Powerful 24 white LED Inspection worklight producing 30 lumens and ideal for providing proximity lighting for inspection work. The lamp has a durable ABS case with swivel hook and magnet fixing for positioning the torch in the workplace.

Supplied with 3 x AA Batteries.

Weight: 120g.

Dimensions: 201 x 60 x 30mm.

PART NO.	DESCRIPTION	PRICE
M14-6915	24 LED HAND INSPECTION LIGHT	7.95

MILLS RECHARGEABLE LED FLOODLIGHT 10W

Lithium-ion rechargeable worklight. Includes mains charger and cigarette lighter adaptor for charging from vehicles.

- LED chip illumination
- IP 65 rated
- Working time: 3hrs
- 4400Mah Li-Ion Battery

PART NO.	DESCRIPTION	PRICE
M99-5797	RECHARGEABLE LED FLOODLIGHT 10W	29.99

30 LED SOFT GRIP RECHARGEABLE INSPECTION LAMP

Features clear polycarbonate lens and soft grip handle. Rechargeable 3.7V Li-ion battery pack within the handle. Useful swivelling hang-up hook at opposite end. Gives up to three hours continuous working time between charges while producing a brilliant 108 lumens of light. Charged by direct connection or by removing the battery and placing in the charger.

Dimensions: 42 x 19.2 x 10.6cm.

PART NO.	DESCRIPTION	PRICE
M70-0288	30 LED CORDLESS RECHARGEABLE LIGHT	24.60

MILLS INTRINSICALLY SAFE TORCH

A portable, handheld intrinsically safe flashlight, Atex IECEx Approved, for use in hazardous locations and can be powered with three size C alkaline cells (not included). It has high and low mode operating functions that allow users to operate for high brightness or long duration lighting. The torch further benefits from a pocket clip and wall fixing bracket.

- Intrinsically safe for use in hazardous locations
- High and Low mode functions
- Uses high power CREE LED
- Submersible in water
- Tough and durable casing
- High efficient heatsink
- Screw fastener for safety precautions
- Build-in release vent

PART NO.	DESCRIPTION	PRICE
M14-6884	MILLS INTRINSICALLY SAFE TORCH	32.95

MILLS LED POCKET INSPECTION LAMP

Handy bright white 8 way LED pocket lamp producing 15 lumens. This mini torch has pocket clip and a magnet for securing the lamp in position. The lamp is supplied with 3 x AAA batteries. Length 160mm.

Features:

- Integral Pocket Clip & Magnet
- 8 x Bright White LEDs
- 3 x AAA batteries included

PART NO.	DESCRIPTION	PRICE
M14-5489	MILLS LED POCKET INSPECTION LAMP	4.25

1000V INSULATED LONG NOSE PLIERS

Toothed grip inductively tempered blades suitable for for hard and soft wire. Made of tempered Vanadium steel with polished Chrome head.

- Cutting power minimum 60 HRC
- Tested to EN/IEC 60900:2004

PART NO.	DESCRIPTION	PRICE
H87-6478	1000V INSULATED LONG NOSE PLIERS 160MM	22.88
H87-6479	1000V INSULATED LONG NOSE PLIERS 200MM	25.07

1000V INSULATED DIAGONAL SIDE CUTTERS

Diagonal Side Cutters with inductively tempered blades for hard and soft wires. Available in 160mm and 180mm sizes.

- Tested to EN/IEC 60900:2012

PART NO.	DESCRIPTION	PRICE
H87-6474	1000V INSULATED SIDE CUTTERS 160MM	22.35
H87-6475	1000V INSULATED SIDE CUTTERS 180MM	23.57

1000V INSULATED CABLE CUTTERS FOR COPPER/ALUMINIUM

A) For cutting and stripping cable before the lug is applied. For soft stranded cables up to 35mm².

B) For cutting stranded and multi-fine wire conductors. For cables up to 15mm² in a single cut or 18mm² in two stages.

C) For cutting and stripping cable before the lug is applied. For cables up to 50mm².

D) For cutting cables up to 20mm² in a single cut and 25mm² in two stages.

E) For cutting cables up to 75mm².

- Tested to EN/IEC 60900:2012

PART NO.	DESCRIPTION	PRICE
H87-6469	A) 1000V STRANDED CABLE CUTTER UP TO 35MM ²	29.17
H87-6470	B) 1000V STRANDED CABLE CUTTER UP TO 18MM ²	35.02
H87-6471	C) 1000V CABLE CUTTER UP TO 50MM ²	26.57

CABLE SHEATHING KNIVES

A range of 3 cable coring knives which include blade covers.

A) 60mm blade 180mm overall length.

B) 60mm curved blade. 180mm overall length.

C) 55mm curved blade. 125mm overall length.

PART NO.	DESCRIPTION	PRICE
H87-6482	A) 1000V HEAVY DUTY BLADE CABLE KNIFE	11.53
H87-6483	B) 1000V CURVED BLADE CABLE KNIFE 60MM	23.85
H87-6484	C) NON-INSULATED CURVED BLADE CABLE KNIFE	10.42

1000V INSULATED COMBINATION PLIERS

Lineman's Pliers available in 160mm and 180mm.

- Material: Chrome Vanadium
- Finish: Mirror Chrome
- Tool Body hardness HRC 45 +/- 3
- Cutting Edge hardness HRC 62 +/- 2
- High leverage design for increased cutting power
- Tested to EN/IEC 60900:2012

PART NO.	DESCRIPTION	PRICE
H87-6476	1000V INSULATED COMBINATION PLIERS 160MM	21.73
H87-6477	1000V INSULATED COMBINATION PLIERS 180MM	22.95

1000V INSULATED SLIP JOINT PLIERS 250MM

These 1000V insulated slip joint pliers feature adjustable positions and provide optimal leverage.

- Tested to EN/IEC 60900:2012

PART NO.	DESCRIPTION	PRICE
H87-6481	1000V INSULATED SLIP JOINT PLIERS 250MM	27.17

1000V INSULATED PLIERS END WIRE STRIPPING 165MM

End Wire Stripper - 165mm long, made of tempered steel and featuring a fine adjustment screw. Fully Insulated.

- For solid and stranded conductors of up to Ø 5mm
- Tested to EN/IEC 60900:2012

PART NO.	DESCRIPTION	PRICE
H87-6480	1000V INSULATED WIRE STRIPPERS	25.12

1000V INSULATED JUNIOR HACKSAW 150MM

Lightweight 150mm 32 TPI insulated junior hacksaw featuring a multi-coated insulated strong compact frame.

- Tested to EN/IEC 60900:2012

PART NO.	DESCRIPTION	PRICE
H87-6485	1000V INSULATED JUNIOR HACKSAW 150MM	12.08

1000V INSULATED ADJUSTABLE WRENCHES

Chrome Vanadium steel with measurement scale on jaws to size nuts and pipes. The cross section of the knurl is tapered to give a smoother and more precise action. Available in 150, 200 & 250mm.

• Tested to EN/IEC 60900:2012

PART NO.	DESCRIPTION	PRICE
H87-6486	A) 1000V INSULATED ADJUSTABLE SPANNER 150MM	22.95
H87-6488	B) 1000V INSULATED ADJUSTABLE SPANNER 200MM	25.37

1000V INSULATED P-HANDLE 2-6MM ALLEN KEY SET

• 4 piece set comprising 2mm, 3mm, 4mm & 5mm keys

• High torque softgrip screwdrivers for hexagon socket screws

• Precision hardened Chrome-Vanadium-Molybdenum steel blade

• Blade insulation directly moulded onto the blade

• Ergonomic, softgrip multi-component handle

• Tested to EN/IEC 60900:2012

PART NO.	DESCRIPTION	PRICE
H87-6502	1000V P-HANDLE 2-6MM ALLEN KEY SET	30.20

1000V INSULATED CABLE JOINTER'S MIRRORS

A) Mirror manufactured from plastic with a rubber moulded casing for easier handling. 125 x 100mm.

PART NO.	DESCRIPTION	PRICE
H87-6503	1000V CABLE JOINTER'S MIRROR 125X100MM	10.80
H87-6504	1000V ICABLE JOINTER'S MIRROR 150MM Ø	18.12

1000V INSULATED SCREWDRIVERS

High torque softgrip slotted & pozzi screwdrivers with precision hardened Chrome-Vanadium-Molybdenum steel blade.

Ergonomic, softgrip multi-component handle with blade insulation directly moulded onto the blade.

Available as a 5 piece set comprising:

Slotted 2.8 x 75mm, 4.0 x 100mm,

5.5 x 150mm

PZ1 x 80mm, PZ2 x 100mm

• Tested to EN/IEC 60900:2012

NON-MAGNETIC TITANIUM TOOLS

Ultra-lightweight and completely non-magnetic, titanium tools are the only choice for use in environments such as MRI, NMR, bio-medical and diagnostic imaging where the presence of high power magnetic fields makes the use of any ferrous tools extremely dangerous.

MILLS MASTERCLASS GENERAL DUTY CABLE CUTTERS

Cable cutters suitable for cutting cable diameters of up to 10mm. Spring operation with closed lock handles.

Overall length 165mm.

PART NO.	DESCRIPTION	PRICE
E66-1008	MILLS GENERAL DUTY CABLE CUTTERS	5.06

MILLS MASTERCLASS CABLE CUTTERS FOR 10.5MM O.D.

High quality cable cutter/strippers for use specifically on copper and aluminum cables up to 10.5mm outside diameter. The pre-formed rounded jaws ensure that the cable does not flatten out during cutting which is important when terminating the cable.

Overall length 160mm.

PART NO.	DESCRIPTION	PRICE
E00-1113	MILLS MASTERCLASS 10.5MM CABLE CUTTERS	9.43

MILLS COAXIAL CABLE CUTTER

A specialist cable cutter with v-shaped blades for quick and accurate cutting of RG6, RG58, RG59 and CT100 coaxial cables with copper, aluminium or steel conductors.

The cutter can also be used on other coax and general cables up to a diameter of 10.5mm

The cutter further benefits from a handle locking lever for safe, easy storage and comfort grip handles.

Overall length: 165mm.

PART NO.	DESCRIPTION	PRICE
E00-6176	MILLS COAXIAL CABLE CUTTER	9.90

MILLS MASTERCLASS CUTTER CABLE HAND NO.2

For thick ethernet, 100 pair telephone cable (27mm) & up to RG174, RG9 coax cables.

Wire and cable cutter for precision cutting of large diameter aluminium and copper cables up to a diameter of 27mm (100 Pair). The wire cutter benefits from a built-in return spring and locking latch for convenient and safe storage.

Overall length 220mm.

PART NO.	DESCRIPTION	PRICE
E00-3021	MILLS MASTERCLASS CUTTER CABLE HAND NO.2	11.33

ECO-TOOLS CABLE CUTTER FOR 20MM DIAMETER

A cost-effective general purpose cable cutter for copper cable up to a diameter of 20mm with PVC blue dipped handles.

Overall length: 250mm.

PART NO.	DESCRIPTION	PRICE
E22-6376	ECO-TOOLS CABLE CUTTER 20MM	4.95

MILLS MASTERCLASS CABLE CUTTER 2B (450MM)

High leverage parrot beaked cable cutter suitable for cutting non-armoured and non ferrous cables of up to a maximum 25mm diameter.

Overall length 450mm.

PART NO.	DESCRIPTION	PRICE
E66-6891	MILLS MASTERCLASS CABLE CUTTER 2B - 450MM	24.95

HYDRAULIC CABLE CUTTER

A hand operated hydraulic tool specifically designed to cut copper, aluminium and telecommunications cables with a max. overall diameter of 40mm, exerting up to 7 tonnes of pressure. The blades are manufactured from Chrome Vanadium Steel, heat treated to ensure a long service life. Suitable for steel and aluminum shields.

Weight: 6kg.
Overall length: 600mm approx.

PART NO.	DESCRIPTION	PRICE
E00-6597	HYDRAULIC CABLE CUTTER 40MM	245.00

TABBING SHEARS

Shears designed specifically for making longitudinal cuts in cable sheath and metallic shield. The lower snout is rounded and thinly contoured to fit smoothly between the cable shield and the core wrap without damaging conductors.

Suitable for steel and aluminum shields.

PART NO.	DESCRIPTION	PRICE
E66-4668	TABBING SHEARS	69.95

MILLS MASTERCLASS RATCHET CABLE CUTTER

Ratchet action cable cutter with precision ground cutting edges. Ideal for high leverage cutting, without deformation, of copper and aluminium multi stranded cables and up to 32mm diameter telco cable. Features comfort grip handles for repetitive applications

Overall length: 265mm.

PART NO.	DESCRIPTION	PRICE
E66-1259	MILLS MASTERCLASS RATCHET CABLE CUTTER	65.00

1000V CABLE CUTTERS

234

HEAVY DUTY FIBRE CABLE CUTTER

A specialist shear cutter designed for cutting steel wire rope and ideal for cutting catenary wire and drop cable containing a strength member.

Capacity 6mm and overall length 190mm, the cutter has heavy duty handles for repetitive applications and spring with locking catch.

PART NO.	DESCRIPTION	PRICE
E00-6861	MILLS HEAVY DUTY FIBRE CABLE CUTTER	24.95

MILLS RATCHET CABLE CUTTER 2700 PAIR - 53MM CAPACITY

Ratchet action cable cutters with precision ground cutting edges. Ideal for high leverage cutting, without deformation, of copper and aluminium multi stranded cables up to 53mm diameter (2700 pair telco cable). Features comfort grip handles for repetitive applications.

Overall length 280mm.

PART NO.	DESCRIPTION	PRICE
E66-3742	MILLS RATCHET CABLE CUTTER 2700 PAIR	87.00

MILLS MASTERCLASS 3-WAY FIBRE OPTIC STRIPPER

Features high frequency heat treated / induction hardened cutting edges that ensure repeatable precision cutting & stripping to the very highest tolerances, whilst offering extreme durability. The strippers further benefit from bi-material comfort grip handles for repetitive use. The three stripping edges are ideal for general fibre installation and assembly work, covering the following applications:

- Stripping & removal of 2mm outer jacket
- Stripping 900µm buffer insulation
- Stripping 250µm acrylate coating

PART NO.	DESCRIPTION	PRICE
E00-6170	MILLS MASTERCLASS 3-WAY FIBRE OPTIC STRIPPER	21.90

MILLS MASTERCLASS 5-WAY FIBRE OPTIC STRIPPER

Features high frequency heat treated / induction hardened cutting edges that ensure repeatable precision cutting & stripping to the very highest tolerances whilst offering extreme durability. The strippers further benefit from bi-material comfort grip handles for repetitive use. The five stripping edges are ideal for general fibre installation and assembly work, covering the following applications:

- Strips outer jacket from 2.0 – 2.4mm fibre
- Strips outer jacket from 2.8 – 3.0mm fibre
- Strips loose tube from 2.0 – 3.0mm fibre
- Strips 900µm buffer insulation
- Strips 250µm acrylate coating

PART NO.	DESCRIPTION	PRICE
E00-6175	MILLS MASTERCLASS 5-WAY FIBRE OPTIC STRIPPER	32.95

MILLER 'TRI-HOLE' FIBRE OPTIC STRIPPER

Three-hole model performs all common fibre stripping functions in one compact tool.

- Standard 250 to 125µm stripping
- Removes 900 tight buffer to 250µm buffer coating
- Hole for removal of 2 to 3mm fibre jackets

PART NO.	DESCRIPTION	PRICE
E00-7712	MILLER TRI-HOLE STRIPPER	52.69

MILLER FIBRE OPTIC BUFFER STRIPPER 10A

The industry standard original Miller 10A tool used for stripping 250µm primary acrylate coating (buffer) from 125µm optical fibre. All cutting surfaces are precision formed, hardened, tempered and ground assuring precise buffer removal.

PART NO.	DESCRIPTION	PRICE
E00-2021	MILLER FIBRE STRIPPER 10A	28.12

MILLS FIBRE STRIPPER 1A

A compact fibre optic cable stripper for circumferential and longitudinal stripping. At just 73mm long this versatile fibre stripper is ideal for stripping in confined spaces. The stripper uses two 'V' groove steps (0-3.2mm and 3mm - 6.4mm) making it suitable for circumferential and longitudinal stripping of most fibre optic cables up to a maximum diameter of 6.4mm.

PART NO.	DESCRIPTION	PRICE
E00-6912	MILLS FIBRE STRIPPER 1A	14.95

JONARD FIBRE CABLE STRIP & RING TOOL

Designed to slit and ring cables, buffer tubes and jackets on fibre optic cables up to 7.5mm (0.3") in diameter. The tool features an easily adjustable slit blade and ring blade as well as a removable and reversible V block that improves slitting performance and accommodates smaller to larger diameter cables.

- For 1.2-7.5mm outer diameter cables
- Ring & Slit functions

PART NO.	DESCRIPTION	PRICE
E00-6414	JONARD FIBRE CABLE STRIP & RING TOOL	26.75

IDEAL FIBRE/UTP/STP/COAX STRIPPER (5-8MM)

Stripper suitable for a range of cable types with an outside diameter of 5-8mm. Adjustable blades can be set for any depth to help ensure nick-free strips. Includes one round and three straight blades.

PART NO.	DESCRIPTION	PRICE
E00-3035	IDEAL FIBRE/UTP/STP COAX STRIPPER	20.00

IDEAL STRIPPER FIBRE 1A (UP TO 3.2MM)

Most commonly used to remove the secondary coating from loose jacket optical fibres or RG174/179/187 coax. Features 3 blades, one located on each side of the unit and one at the front for slitting. Blades can be adjusted individually for the type of strip desired, termination or window. For use on cables up to 3.2mm outer diameter.

PART NO.	DESCRIPTION	PRICE
E00-2018	IDEAL STRIPPER FIBRE 1A	16.87

**IDEAL MULTICORE FIBRE/
COAX STRIPPER FOR
3.5-5.5MM**

A precision clothes peg style stripper that is very compact and simple to use. The adjustable blades can be set for any depth to help ensure nick-free stripping on a variety of coaxial cables including twisted pair, tightly wrapped stranded cable, CATV, CB Antenna cable, SO, SJ, SJT with a diameter 3.2mm – 5.6mm (1/8" to 7/32"). The stripper is supplied with one round and three straight blades. In addition the stripper can be used for circumferential and longitudinal stripping of fibre cables with a diameter of between 3.2mm – 5.5mm (1/8" to 7/32").

PART NO.	DESCRIPTION	PRICE
E00-5878	MULTICORE FIBRE/COAX STRIPPER FOR 3.5-5.5MM	24.05

**IDEAL MULTICORE
FIBRE/COAX STRIPPER
FOR 6.5-14MM**

A precision clothes peg style stripper that is very compact and simple to use. The adjustable blades can be set for any depth to help ensure nick-free stripping on a variety of coaxial cables including twisted pair, tightly wrapped stranded cable, CATV, CB Antenna cable, SO, SJ, SJT with a diameter 6.35mm – 14.29mm (1/4" – 9/16"). The stripper is supplied with one round and three straight blades. In addition the stripper can be used for circumferential and longitudinal stripping of fibre cables with a diameter of between 6.35mm – 14.29mm (1/4" – 9/16").

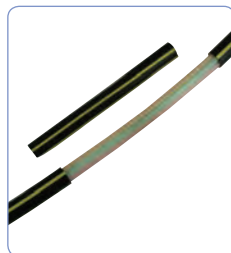

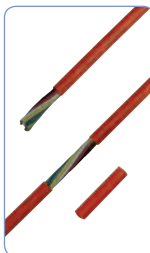

PART NO.	DESCRIPTION	PRICE
E00-7700	MULTICORE FIBRE/COAX STRIPPER FOR 6.5-14MM	33.23

**MILLS MASTERCLASS
STRIPPER CABLE
SHEATH NO.5A**

An exceptionally simple and robust stripper with the capability to circumferentially and longitudinally strip sheath from 6-25mm diameter cables. The hardened steel cutting blade automatically repositions depending on direction of travel making the tool suitable for most stripping applications, as well as plastic pipe cutting. The ergonomic shape fits comfortably into your hand and the blade depth is easily adjustable.

Dimensions: 94 x 49 x 40mm.

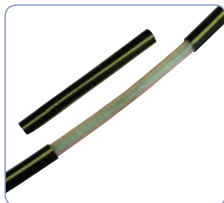

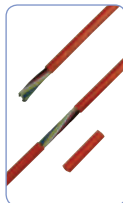

PART NO.	DESCRIPTION	PRICE
E00-6626	MILLS STRIPPER CABLE SHEATH NO.5A	19.95
E00-6627	SPARE BLADE FOR STRIPPER CABLE SHEATH NO.5A	3.95

MILLS MASTERCLASS CABLE RINGING TOOL

The patented cable sheath stripper is designed specifically for removing the outer sheath from power and telecommunication (fibre and copper) cables with a diameter from .18" to 1.0" (4.5 to 25mm). It features an ergonomically shaped tool handle.

The blade is set for circumferential cutting with a control lever for repositioning the blade to enable a spiral or longitudinal cut. Blade cutting depth is easily adjustable.

PART NO.	DESCRIPTION	PRICE
E70-5001	MILLS MASTERCLASS CABLE RINGING TOOL	14.86
E70-5003	SPARE BLADE FOR CABLE RINGING TOOL	2.70

**KABIFIX STRIPPER
CABLE SHEATH NO.5**

A stripping tool for circumferential and longitudinal stripping of cables up to a diameter of 28mm.

In addition the tool is ideal for gaining access to the microducts in subducts. Suitable for both copper and fibre applications.

PART NO.	DESCRIPTION	PRICE
S83-0952	KABIFIX STRIPPER CABLE SHEATH NO.5	27.93

**JONARD CABLE STRIPPER
& RINGING TOOL**

This Cable Sheath Stripper is used to ring-cut many types of tight buffer, loose tube buffer, breakout cables and other types of jacketed fibre cables. A slitting blade is built into the tool and can be used to slit open the cable sheath if needed. Depth of the cut has two adjustments for .018" or .031" thick plastic, rubber or fabric insulation, and can handle cable diameters from 1/8" to 3/8". One spare blade of each style is included with the tool. Also known as CT2860, Replacement stripping blades and ringing blades are also available.

PART NO.	DESCRIPTION	PRICE
E00-6422	JONARD CABLE STRIPPER & RINGING TOOL	52.20
E00-4824	REPLACEMENT STRIPPER BLADES PK 6	6.50
E00-4825	REPLACEMENT RING BLADES PK 6	6.50

MILLS MID SPAN ACCESS FIBRE SLITTER 1.5-3.3MM

A simple and effective longitudinal sheath stripper tool for easy removal of the outer sheath of most fibres with a diameter of 1.5mm to 3.3mm.

Once the fibre has been placed in one of the 4 preset grooves:

- 1.5 - 1.9mm
- 2.0 - 2.4mm
- 2.5 - 2.9mm
- 3.0 - 3.3mm

The 'Slitter' can simply be pulled along its length, slitting the outer sheath into two halves.

PART NO.	DESCRIPTION	PRICE
E00-6625	MILLS MID SPAN ACCESS FIBRE SLITTER	19.02

MID-SPAN ACCESS TOOL FOR 5 SIZES

Features 5 cable slots: 1.9, 2.2, 2.5, 2.7, 3 mm.

Allows easy mid-span (window cut) access to optical fibres in loose buffer tubes.

Shaves precise opening to prevent fibre damage.

PART NO.	DESCRIPTION	PRICE
E00-4986	MID-SPAN ACCESS TOOL 5 SIZE	55.98
E00-4987	SPARE BLADES (PK5)	10.82

DROP FIBRE 36F FIBRE OPTIC STRIPPER

"Butterfly" Drop Fibre stripping tool for Prysmian Group 36 Fibre Overhead Ultra Lightweight Cable, COF36F.

The ideal tool for the fast and safe removal of the outer sheath for Drop Fibre cables.

Lightweight, one piece moulded body with totally enclosed blades ensures a safe single handed push-on then pull-off operation in any working environment.

The precisely calibrated blades guarantee no damage to the internal fibres. This tool is also factory set therefore no adjustments are needed and it is ready to use out of the box.

PART NO.	DESCRIPTION	PRICE
E00-9575	DROP FIBRE 36 FIBRE OPTIC STRIPPER	16.67

JONARD FIBRE OPTIC DROP CABLE SLITTER (SLIPPERY FISH)

Simplifies the slitting of drop cable jackets at the end of the cable or mid-span. Developed specifically for FTTH technicians working with flat fibre drop cables. For flat cables, where the height is .305"-.350" and the width is .155"-.185". These are the dimensions of a typical Corning SST-Drop flat cable with a jacket thickness of 0.03-0.04 inches.

The tool will work on other cables with similar dimensions.

It slits both sides of the jacket giving easy access to the fibre or strength member. Simply position the tool around the cable, pull and slit. A simple twist of the cable allows the jacket and strength members to separate from the buffer tube leaving the fibre undamaged.

PART NO.	DESCRIPTION	PRICE
C00-6785	JONARD SLIPPERY FISH CABLE SLITTER	44.95
C00-6786	REPLACEMENT BLADES (PK10)	1.50

JONARD MID SPAN SLITTERS

A) Designed to provide easy access to optical fibres in loose buffer tubes 1.2mm - 3.3 mm diameter. Features 6 precision grooves for buffer tube slitting: 1.2-1.5mm, 1.5-1.8mm, 1.8-2.1mm, 2.1-2.5mm, 2.5-2.9mm, 2.9-3.3mm.

B) Designed to provide easy access to optical fibres in loose buffer tubes 2.9mm - 6.8mm diameter. Features 5 precision grooves for buffer tube slitting: 2.9-3.6mm, 3.6-4.4mm, 4.4-5.2mm, 5.2-6.0mm, 6.0-6.8mm.

Replacement blades are available.

PART NO.	DESCRIPTION	PRICE
E00-6426	A) JONARD MS-6 MID SPAN SLITTER	63.50
E00-6427	B) JONARD MS-26 LARGE MID SPAN SLITTER	69.95
E00-6423	REPLACEMENT BLADE SET FOR E00-6426 (MS-6)	28.18
E00-4826	REPLACEMENT BLADE SET FOR E00-6427 (MS-26)	28.18

FIBRE TUBE SCORING TOOL

A uniquely designed precise one-step buffer tube scorer that scores tube sizes from 1.6mm to 6.0mm. Factory pre-fixed steel blade means no adjustment required.

PART NO.	DESCRIPTION	PRICE
E00-4743	FIBRE TUBE SCORING TOOL	12.88

DROP FIBRE 12F FIBRE OPTIC STRIPPER

The ideal tool for the fast and safe removal of the outer sheath of 12F Drop Fibre cables. The lightweight, one-piece moulded "butterfly" body with totally enclosed blades ensures a safe single handed, push-on then pull-off, operation in any working environment. The precisely calibrated blades guarantee no damage to the internal fibres. The tool is factory set, requiring no adjustments and is therefore ready to use straight out of the box. Stripping Capacity: Overhead 12F Hybrid Drop Fibre.

PART NO.	DESCRIPTION	PRICE
E68-6809	DROP FIBRE 12F FIBRE OPTIC STRIPPER	17.95

MILLER ARMoured CABLE SLITTER 8MM-28.6MM

Professional grade tool ideal for slitting the corrugated copper, steel or aluminum armour layer on Fiber Feeder, Central Tube, Stranded Loose Tube fibre optic cables and other armoured cables.

Tool slits outer polyethylene jacket and armour in one operation:

- Performs longitudinal slitting and circumferential (ringing) for end stripping
- Blade rotates 90 degrees by activating blade lever, allowing easy mid-span preparation (ringing and slitting)

Adjustable from 0.315" (8mm) to 1.125" (28.6mm) cable outside diameter.

PART NO.	DESCRIPTION	PRICE
E00-0469	MILLER ARMoured CABLE SLITTER 8MM-28.6MM	89.89

ARMoured & MICRO CABLE SLITTER 4-10MM

Professional grade tool ideal for slitting the corrugated copper, steel or aluminum armour layer on Fibre Feeder, Central Tube, Stranded Loose Tube fibre optic cables and other armoured cables.

Tool slits outer polyethylene jacket and armour in one operation:

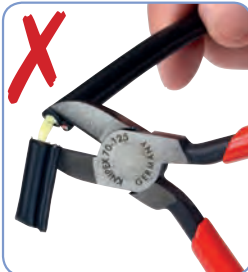

- Performs longitudinal slitting and circumferential (ringing) for end stripping
- Blade rotates 90 degrees by activating blade lever, allowing easy mid-span preparation (ringing and slitting)

Adjustable from 0.157" (4mm) to 0.393" (10mm) cable outside diameter.

PART NO.	DESCRIPTION	PRICE
E00-4742	ARMoured & MICRO CABLE SLITTER 4-10MM	105.86

ALL-IN-ONE FIBRE CABLE & KEVLAR CUTTER

Designed specifically to cut through Kevlar and steel wire reinforced fibre optic drop cables (including slippery fish and other hybrid cables) in one simple movement with just this one tool.

This specialist 160mm length diagonal side cutter is drop forged from Chrome Vanadium Steel combined with Tungsten Alloy and benefits from a special high frequency induction hardened edge.

This gives the cutter the ability, strength and durability to easily cut steel strength members whilst maintaining a sharp enough edge to simultaneously neatly cut any Kevlar too, making it a truly unique tool.

PART NO.	DESCRIPTION	PRICE
E00-6885	ALL-IN-ONE FIBRE CABLE & KEVLAR CUTTER	34.95

HEAVY DUTY FIBRE CABLE CUTTER

A specialist shear cutter designed for cutting fibre drop cables containing strength members, steel wire rope, and is also ideal for cutting catenary wire. The cutter has heavy duty handles for repetitive applications and features an integrated spring with locking catch. Capacity 6mm and overall length 190mm.

PART NO.	DESCRIPTION	PRICE
E00-6861	MILLS HEAVY DUTY FIBRE CABLE CUTTER	29.95

MILLS KEVLAR SCISSORS

Lightweight scissors for cutting Kevlar strength members found in fibre optic cables.

The serrated scissor blades reduce slipping and the tool further benefits from ergonomic moulded handles resulting in an effortless cutting action.

Length: 140mm.

MILLS MASTERCLASS CABLE & KEVLAR SCISSORS

Scissors for cutting copper cable and can also be used for cutting Kevlar strength members found in fibre optic cables.

The serrated scissor blades reduce slipping and the ergonomic, moulded handles provide comfort for both right and left-handed users.

Length: 140mm.

PART NO.	DESCRIPTION	PRICE
E00-5004	MILLS KEVLAR SCISSORS	13.20

PART NO.	DESCRIPTION	PRICE
N70-7868	MILLS MASTERCLASS CABLE SCISSORS 140MM	11.93

MILLS STRIPPER CABLE SHEATH 7 (4-16MM)

Cable Sheath Stripper for making both longitudinal and circumferential cuts in cables 4-16mm outside diameter.

PART NO.	DESCRIPTION	PRICE
S83-0914	MILLS STRIPPER CABLE SHEATH 7 (4-16MM)	9.95

STRIPPER CABLE SHEATH 8 (8-28MM)

Cable Sheath Stripper for making both longitudinal and circumferential cuts in cables 8-28mm outside diameter.

PART NO.	DESCRIPTION	PRICE
S83-0912	STRIPPER CABLE SHEATH 8 (8-28MM)	10.95

STRIPPER CABLE SHEATH 9 (29-35MM)

Cable Sheath Stripper for making both longitudinal and circumferential cuts. For stripping cable diameters 29-35mm.

PART NO.	DESCRIPTION	PRICE
S83-0915	STRIPPER CABLE SHEATH 9 (29-35MM)	14.45

STRIPPERS COAXIAL 8A & 9A

A 8A Cable Stripper
Designed for 3 level stripping of BT2001, BT2002 and BT2003 cables.

B 9A Cable Stripper Designed for 3 level stripping of BT300 coax cable with outer diameter of 2-9mm dia.

The 9A Cable Stripper can also strip RG179, RA7000, RA8000 and TZC cable when used with appropriate cam and guide sets. Contact sales for more information.

PART NO.	DESCRIPTION	PRICE
E00-6510	A) STRIPPER COAXIAL 8A	88.00
E00-6511	B) STRIPPER COAXIAL 9A	88.00

CUTTER LONGITUDINAL 1A

This tool can be used to strip the sheath longitudinally from around blown fibre microduct or other Telco style cable without damaging it. The unwanted tube which surrounds the fibre can be stripped off with ease.

PART NO.	DESCRIPTION	PRICE
E00-0470	CUTTER LONGITUDINAL 1A	49.51

STRIPPER DROPWIRE 10A

Stripping tool for overhead Dropwire cables 10B, 11, 12 and CAD55. The ideal tool for the fast and safe removal of the outer sheath for Dropwire cables.

PART NO.	DESCRIPTION	PRICE
E68-5487	STRIPPER DROPWIRE 10A	12.50

MILLS CATV COAX STRIPPER

Specialist Coaxial Stripper for RG6/59 and RG7/11 Coaxial Cable. A simple and ergonomically designed coaxial cable stripper with reversible, replaceable cartridge and integral depth stop to ensure consistency of strip length.

The stripper also benefits from an integral hook & loop pad which can be used to safely and efficiently smooth back braid prior to connector crimping.

Overall length 130mm

NEW!

PART NO.	DESCRIPTION	PRICE
E00-6177	A) MILLS CATV COAX STRIPPER	7.30
E00-6178	B) REPLACEMENT BLADE CARTRIDGE RG6/59/7/11	2.75

MILLS EASY ACCESS COAXIAL STRIPPER

A compact 2-level CATV Cable Stripper for cable RG6/59 and RG7/11.

- Compact design – only 94mm long
- Braid dielectric strip length 0.25" (6.4mm)
- Pre-set – no adjustment needed for cable preparation
- Fitted with cable stopper
- Braid folding assist (NEW)
- One reversible stripping cassette (replaceable)

PART NO.	DESCRIPTION	PRICE
E00-5853	A) MILLS EASY ACCESS COAXIAL STRIPPER	10.00
E00-5854	B) REPLACEMENT BLADE CARTRIDGE RG6/59/7/11	4.00

MILLS 'STUBBY' COAXIAL STRIPPER

The Mills Stubby Stripper is a coaxial cable stripper specifically designed to end-strip RG6/59 coax cable in a wall outlet. This tool eliminates the need to run new cable, thereby saving time and money.

- Easy to use; insert cable, rotate like a screwdriver and remove
- Tool will not cut the braid or score the centre conductor
- Replacement blade cartridges are easily changed and replaced

PART NO.	DESCRIPTION	PRICE
E00-6588	A) MILLS 'STUBBY' COAXIAL STRIPPER	7.95
E00-6589	B) REPLACEMENT BLADE CARTRIDGE RG6/RS9	2.75

MILLS COMPACT COAXIAL STRIPPER

For RG6/59 and RG7/11 coaxial cables, this compact stripper has pre-set blades to cut the outer jacket and strip the braid/dielectric to a length of 0.25" (6.4mm) in both stripping stations.

PART NO.	DESCRIPTION	PRICE
C00-8209	COMPACT COAXIAL STRIPPER	7.30

MILLS UNIVERSAL COAXIAL CABLE STRIPPER

This 3-level cable stripper is the latest in design and coaxial cable stripping technology. This tool strips most coaxial cable between 4.50 and 7.00 mm without or just small adjustment to the individual fitted blades. The stripping length is factory set at 8.00mm for the braid and 4.00mm for the dielectric, but can be adjusted to 6.00mm.

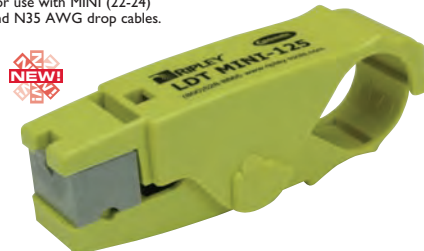

PART NO.	DESCRIPTION	PRICE
E00-5006	UNIVERSAL COAXIAL CABLE STRIPPER	6.40

LIGHTWEIGHT DROP TRIMMER (LDT MINI-125) COAXIAL STRIPPER

Lightweight and compact body design allows cable preparation of RG59, RG6 and N48 coax cable (std, tri and quad) without adjustment or blade cassette change out.

One-step cable preparation precisely exposes the centre conductor by 1/4" (6.35mm) and removes the proper length of jacket at 1/4" (6.35 mm).

For use with MINI (22-24) and N35 AWG drop cables.

PART NO.	DESCRIPTION	PRICE
E00-4980	LDT MINI-125 COAXIAL STRIPPER	11.85

MILLS MASTERCLASS COAXIAL STRIPPERS

A range of MasterClass coax strippers all featuring three blades to remove cable jacket, braid and dielectric in one rotary stripping operation. The stripping dimensions between the blades are: 8mm braid & 4mm dielectric.

- A) E00-1180: Set-up to strip RG6 cable on one side of the reversible V-block and RG59 cable on the other side.
- B) E00-2019: Set-up to strip coaxial cables with an O/D of approx. 10.3 MM such as RG11, RG213 and Thick Ethernet cable.
- C) E00-1005: Set-up to strip RG59 cable on one side of the reversible V-block and RG58 and Thin Ethernet cable on the other side. It may also be used for RG62.

PART NO.	DESCRIPTION	PRICE
E00-1180	A) MASTERCLASS RG6/RG59 COAX STRIPPER	6.40
E00-2019	B) MASTERCLASS RG11/RG213 COAX STRIPPER	9.40
E00-1005	C) MASTERCLASS RG58/RG59/RG62 COAX STRIPPER	6.40

MILLS COAXIAL STRIPPER 3.5 - 5.0MM

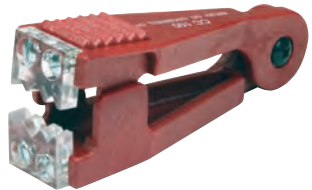

Rotary operation, 3-blade, coaxial cable stripper to remove cable jacket, braid and dielectric in one stripping operation. Suitable for RG coax cable sizes with an outside diameter of 3.5-5.0mm.

PART NO.	DESCRIPTION	PRICE
E00-3741	UNIVERSAL COAXIAL CABLE STRIPPER	9.40

COAX CONDUCTOR CLEANER

V shaped scraping blades for removal of residual dielectric from conductors of trunk cable.

PART NO.	DESCRIPTION	PRICE
C00-1572	COAX CONDUCTOR CLEANER	17.74

BT 2003 & 3002 COAXIAL CABLE STRIPPERS

BT Coaxial cable strippers for use with either 2003 or 3002 type cable.

PART NO.	DESCRIPTION	PRICE
E68-3008	A) BT 2003 COAXIAL CABLE STRIPPER	16.13
E68-1047	B) BT 3002 COAXIAL CABLE STRIPPER	16.13

MILLS RG174 COAXIAL STRIPPER

Rotary operation, 2-blade stripper removes jacket & dielectric in one operation.

PART NO.	DESCRIPTION	PRICE
E00-3740	MILLS RG174 COAXIAL STRIPPER	6.40

TWISTED PAIR (CAT5E/CAT6/CAT6A) STRIPPERS

A) MILLS CYCLOPS UTP/STP STRIPPER

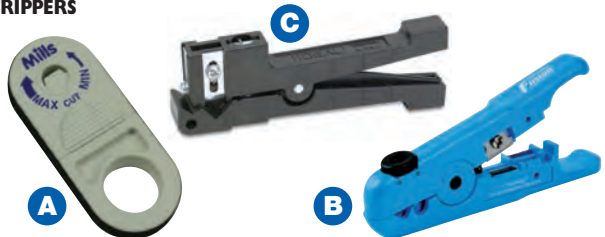

Cyclops data cable stripper for twisted pair (UTP & STP) & multicore (screened & unscreened video, data, audio, security) & fibre optic cables up to 11mm O.D.

B) FUSION UTP/STP STRIPPER

This stripper has a unique fine adjustment cutting depth mechanism making it ideal for stripping larger diameter UTP/STP such as Cat.6 as well as Cat.5e cable.

C) IDEAL UTP/STP STRIPPER

Stripper suitable for a range of cable types with an outside diameter of 5-8mm. Adjustable blades can be set for any depth to help ensure nick-free strips. Includes one round and three straight blades.

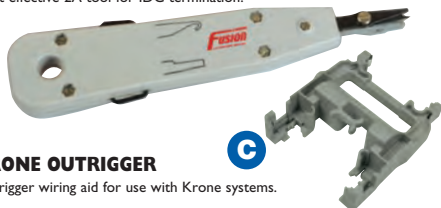

PART NO.	DESCRIPTION	PRICE
E68-3002	A) MILLS CYCLOPS DATA CABLE STRIPPER	7.33
T70-9957	B) FUSION TWISTED PAIR STRIPPER	5.90
E00-3035	C) IDEAL UTP/STP STRIPPER	20.00

KRONE LSA-PLUS WIRE INSERTION TOOL

Tools for LSA-PLUS® IDC termination. Inserts and crops wires simultaneously. Complete with extraction tool and stop clip. It also has a sensor to ensure the conductor is fully inserted into the contact before allowing excess wire to be cut off.

**FUSION KRONE STYLE WIRE INSERTER**

Cost effective 2A tool for IDC termination.

**KRONE OUTRIGGER**

Outrigger wiring aid for use with Krone systems.

PART NO.	DESCRIPTION	PRICE
C00-8998	A) GENUINE KRONE LSA-PLUS SENSOR WIRE INSERTER	22.92
T70-2877	B) FUSION KRONE STYLE WIRE INSERTER	6.53

S83-2674	B) SID™ OUTRIGGER	33.95

QDF STYLE TOOL

IDC Tool provides fast and reliable installation of wires on QDF Blocks.

The QDF impact installation tool is spring loaded and automatically generates the force required for correct wire installation.

It features a built-in wire removal hook for removing terminated wires.

A magazine removal tool for releasing QDF-E magazine from its mounting bracket is also incorporated.

PART NO.	DESCRIPTION	PRICE
E00-672 I	QDF STYLE TOOL	39.95

INSERTER WIRE 10A (3M STYLE)

Single point insertion tool with automatic wire cropping facility, suitable for connecting wires to 3M's MS2 Modular Cross Connexion System.

PART NO.	DESCRIPTION	PRICE
S83-0874	INSERTER WIRE 10A (3M STYLE)	50.19

INSERTER WIRE 11A (3M STYLE)

Single point insertion tool suitable for connecting wires to 3M's MS2 Modular Cross Connexion System connectors, when wire cut-off is not required.

PART NO.	DESCRIPTION	PRICE
S83-0839	INSERTER WIRE 11A (3M STYLE)	55.56

WIRE INSERTER FOR HUAWEI STRIPS

This tool inserts and crops wires simultaneously on Huawei IDC and has integral hook and spudger. It also has a simple wrist lanyard for security during use.

PART NO.	DESCRIPTION	PRICE
C00-4982	WIRE INSERTER FOR HUAWEI STRIPS	19.75

A) EXTRACTOR 57

Used to remove Protector Module 1a and 2a from Jack Test 44-49.

B) EXTRACTOR 58

Used on Porta Jacks Test Series 44-49.

S83-4246	A) EXTRACTOR 57	9.95
C00-9001	B) EXTRACTOR 58	24.62

Low cost termination kit supplied in blow moulded case and comprising:

E00-2026 Ratchet Crimper RJ45/45
E68-3002 Cyclops Stripper
T70-2192 RJ45 Modular Plug pkt 10
T70-2193 RJ45 Plug Boots pkt 10

PART NO.	DESCRIPTION	PRICE
C00-3013	TERMINATION KIT	44.05

Ratchet-controlled tool frame made from hardened steel and fitted with bi-material comfort grip handles for extra control. Four high quality die sets are included to crimp modular plugs RJ45 and RJ11, the 4-contacts telephone handset connector RJ22 and BT631A and BT431A telephone plug. The tool frame is supplied with two thumb screws for tool-free die change.

Contents:

- Ratchet-controlled tool frame
- Die set for modular plug AMP RJ45
- Die set for modular plugs RJ11
- Die set for telephone handset plug RJ22
- Die set for BT telephone plug BT631A & BT431A

PART NO.	DESCRIPTION	PRICE
E00-0454	CRIMP TOOL CASE W 4 INT-DIE SETS	54.60

This strong PVC case with a foam cut-out contains a cable cutter, 2 blade coaxial cable stripper, a ratchet controlled tool frame and five high precision die sets covering almost any hexagonal dimensions from 1.07mm to 10.9mm across flats. Please consult the table below for each of the five die sets. Individual crimp dimensions supplied with the Kit.

[illegible]

PART NO.	DESCRIPTION	PRICE
E70-9339	UNIVERSAL COAXIAL TERMINATION KIT	60.00

Ratchet controlled tool frame made from hardened steel to fit a wide range of precision made high quality die sets for RJ-modular plugs and coaxial connectors. Frame supplied with two thumb screws for tool-free die change and two Phillips™ screws. For tidy storage and easy transportation, a strong PVC carrying case with a foam cut-out for the tool frame and up to eight die sets is available:-

The crimper can be purchased either separately (E70-9580), with case only (E00-1016) or complete with the following popular dies, RJ45 (AMP), RJ45 (STEWART STAMPING), RJ11 (AMP), RJ (DEC) and COAX RG 58/59.

F CONNECTOR TERMINATION AID

This termination aid for RG6/59 cable helps reduce termination time and improve connection quality. The tool is used to flare the braid before fitting the connector to avoid short-circuiting and the F socket aids pushing the plug firmly on the cable before crimping.

PART NO.	DESCRIPTION	PRICE
E72-8259	F CONNECTOR TERMINATION AID	3.80

WIRE WRAPPING AND UNWRAPPING

Wire wrapping is a method of making a wire connection by coiling the bare wire around the sharp corners of a terminal under mechanical tension, providing a high-reliability connection that is also easily removed to correct or modify a wiring layout.

The PTX series wire wrapping tools from OK Industries feature a lightweight, well-balanced construction, dual-finger short-throw trigger and a long handle to mitigate pressure on the palm. These features help prevent repetitive stresses and result in an industry-leading design from a comfort and safety standpoint. Mains and battery powered versions are available.

Supplied with a European style plug.

BOSCH GOP 18V-28 CORDLESS MULTI-CUTTER

The Bosch GOP 18V-28 is a flexible cordless multi-cutter which packs as much power as a corded multi-tool with a high performance BRUSHLESS motor and keyless accessory change. This is the latest STARLOCK model with tool-less blade change. Comes with a 16 piece accessory kit consisting of 10 assorted blades, a delta sanding pad and 5 sanding sheets.

- GOP 18V-28 Multi-Cutter
- 2 x 2.0Ah Li-Ion Battery
- 1x Quick charger (AL 1860 CV)
- Assorted Plunge Cut Saw Blades
- Assorted Segment Saw Blades
- Assorted Grouting Blades
- Sanding Pad & 5 x Sheets
- L-Boxx
- Accessory Box

STANDARD ALUMINIUM FIXED HEIGHT LOW LEVEL WORK PLATFORM (ORIGINAL ODD JOB)

A trade quality lightweight aluminium platform that enables the user to access those areas that are just out of reach from ground level. It is ideal for painters and decorators, plumbers and plasterers – in fact, it's so versatile that there are a few professionals that could not find a use for it.

- Perfect for all odd jobs around the home or workplace
- Easy to use, easy to store
- Broad base for extra stability
- Large working platform area

Specification:

- Platform Size - 0.3 x 0.7 m
- Platform Height - 0.51m
- Folded size - 0.734 x .0378 x 0.175m
- Safe Working Height- 2.0m
- Duty Rating - 110kg (17.3 stone)
- Product Weight - 4.0kg

"LADDERMATE"

"Laddermate" has been successfully tried and tested over a period of years and is now being used by many companies and individuals as a standard part of their equipment when using a ladder.

The easy to use "Laddermate" is assembled in seconds and offers the user peace of mind that a safer working environment has been created in which to work, and concentrate on the job in hand.

- Stops outward ladder slip
- Reduces ladder bounce
- Enhances sideways stability
- Ensures correct ladder angle
- Costs less than a day's pay for a 'Footer'

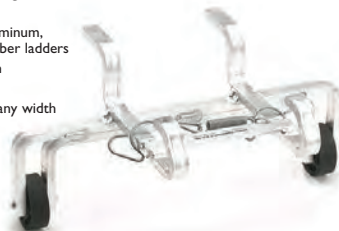

PART NO.	DESCRIPTION	PRICE
S00-4250	LADDERMATE	78.46

THE COMPACT

The Compact boasts both high reach and compactness with no bulky outriggers. Ideal for window cleaners and general maintenance.

- D Wheels are standard for safety and easy extending
- Lightweight. The Compact weighs approx 1.5 kg
- Quick fitting
- Fits all class of aluminum, glass fibre and timber ladders
- Single-piece design
- Higher reach
- Suits windows of any width
- Dual action Safety
- Easy handling

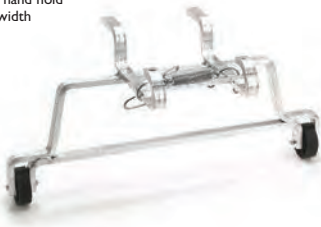

PART NO.	DESCRIPTION	PRICE

LADDER M8RIX PROFESSIONAL

The revolutionary Ladder M8rix gives secure footing for ladders on most hazardous exterior surfaces such as oily concrete, gravel, decking, paving slabs, grass and even solid ice. A matrix of 2000 heavy duty metal spikes on the base securely grip the surface to prevent sliding, while the top surface uses a rubber grips and shoulder system to secure the base of the ladder.

Supplied with rugged carry case.

PART NO.	DESCRIPTION	PRICE
S00-7961	LADDER M8RIX PROFESSIONAL	57.34

LADDER M8RIX PRO-PLUS

The Ladder M8rix Pro-Plus features the Ladder M8rix Professional for secure footing on external surfaces plus a modified case for grip on polished internal surfaces. A heavy duty rubber moulding on the underside of the case provides high-grip on surfaces such as ceramic or marble tiles, laminate flooring, vinyl or even glass floors and prevents the spikes of the Ladder M8rix from damaging the floor.

Supplied with rugged carry case.

WOOD

Manufactured from specially selected Ash and Hardwood timbers, tapered and deep fitted into the extra long socket to give optimum strength and durability. Designed for strength and durability and will outperform the requirements of BS3388 under all tests.

STEEL

Tubular steel shafted solid socket designed for the professional for heavier usage. Contoured tubular steel handles are rotary welded into the body of the shovel socket for extra strength and rigidity – thus producing a very robust yet lightweight tool for digging. Outperforms the requirements of BS3388 under all tests.

POLYFIBREPRO

Solid forged contractors tools offering a high degree of fibreglass strength along with the comfort of a profile moulded PYD hand grip. Injection moulded polypropylene sheathing totally encloses the polyester resin fibreglass core – virtually eliminating the danger of handle breakage and potential injury. PolyFibrePRO tool handles will not rot, shrink, dry out or become more susceptible to breakage through periods of inactivity. Outperforms the requirements of BS3388 under all tests.

FIBREMAXPRO

The ultimate in strength for contractors tools. Developed to provide almost unbreakable tool handles, the solid core 28mm dia. resin bonded glass fibres produce great flexibility and superior strengths, far exceeding the requirements of BS3388.

SHOCKSAFE

A range of insulated contractors tools providing full conformity to the exacting specifications of 'BS8020: Tools for Live Working'. BS8020:2002 demands full adherence to detailed manufacturing and testing procedures for safe working practices to be maintained by the user when working on or in close proximity to live conductor cables. A specially integrated collar prevents the user's hand slipping onto the steel blade. Every single tool is flash tested to 10,000 Volts before being uniquely numbered and the issue of a certificate, unique to each implement. This ensures total traceability and a guarantee of safety to the user, in a potentially dangerous live-working environment.

JOINTER'S POLE TENT

Designed in association with leading telecom contractors to assist with the BDUK fibre roll out programme, allowing engineers to complete time dependant jointing and inspection work during wet and windy conditions - ensuring projects are delivered on time, profitably, whatever the weather. The tent can be erected in less than 15 seconds and be completely operational and secured to a pole within 3 minutes. Utilising a 5 piece zip door with Velcro strapping, the tent offers left, central and right positioning to suit most pole sites. Erect dimensions: 120cm x 120cm with a height of 210cm

PART NO.	DESCRIPTION	PRICE
S83-5974	JOINTER'S POLE TENT	1026.67

JOINTER TENTS POP UP

A and D door models, supplied in yellow and white.

- Quick erect Jointer Tents
- Ready to use in less than 10 seconds!
- Manufactured from flame resistant fabric meeting CPAI/84 specifications.

These tents are light weight, easy to use and available in 'A Door' version and 'D Door' version (two zips). The D-Door version (2 zips) is the preferred choice for telecommunication use, being easily able to fit over most street enclosures.

Both tents have the same erect dimensions, 180 x 180 x 200cms, weighing just 8kg.

The tent can be quickly packed away into a carry bag (supplied).

Packed dimensions: A) 145 x 40 x 40cms.

B) 130 x 20 x 20cms

EXTRA LARGE CABLE ROLLER STAND

For cable reels up to 1000mm diameter.
Maximum carrying capacity 700kgs.

Dimensions:

Height 160mm x Width 750mm x Length 780mm

PART NO.	DESCRIPTION	PRICE
S00-5000	EXTRA LARGE CABLE ROLLER STAND	167.45

ALUMINIUM CABLE ROLLER STANDS

Cable drum unreeling frame in light alloy. Suitable for a safe and fast unrolling of cable drums. The sturdy frame is manufactured in an aluminium alloy structure, with galvanized steel revolving rollers. New anti-sliding ramps with minimum incline angle include lateral guide devices to contain the drum to enable safe and easy drum positioning on the unrolling frame. Available in two sizes.

Features:

- Adjustable rubber supports
- Re-positioning galvanized steel rollers with spring closing device
- Ramps with minimum angle of inclination, designed for easy and safe loading
- Anti-sliding ramps

A) Standard Cable Roller Stand. Suitable for cable drums with diameters 200 mm to 700 mm, max. drum width 515mm and max. drum weight 200kg. Weight: 8kg.

B) Large Cable Roller Stand. Suitable for cable drums with diameters 200 mm to 700 mm, max. drum width 670mm and max. drum weight 250kg. Weight: 11kg.

PART NO.	DESCRIPTION	PRICE
S03-6600	A) STANDARD CABLE ROLLER STAND	123.28
S03-4817	B) LARGE CABLE ROLLER STAND	149.97

CABLE DRUM ROLLER RAILS

A pair of robust roller rails capable of accepting reels with diameters from 400mm to 800mm, and a maximum weight of 200kg

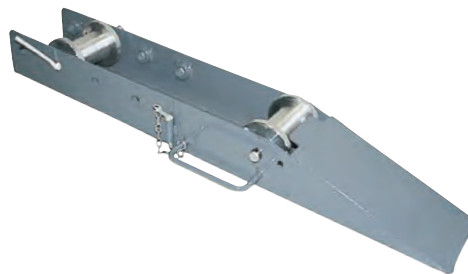

PART NO.	DESCRIPTION	PRICE
S00-5013	CABLE DRUM ROLLER RAILS (PAIR)	146.60

HEAVY DUTY CABLE DRUM ROLLER RAIL

Heavy duty and extra heavy duty cable roller rails featuring aluminium rollers.

Please note these roller rails are sold/supplied individually, however a pair is required for operation.

A) Heavy duty cable drum roller rail with aluminium rollers capable of accepting cable drums up to a weight of 1000kg with a diameter of 400mm to 1200mm. Weight: 18kg

B) Extra heavy duty cable drum roller rails with aluminium rollers capable of accepting cable drums up to a weight of 1000kg with a diameter of 800mm to 1850mm. Weight: 9kg

PART NO.	DESCRIPTION	PRICE
S00-6173	A) HEAVY DUTY CABLE ROLLER RAIL (SINGLE)	166.66
S03-6601	B) EXTRA HEAVY DUTY CABLE ROLLER RAIL (SINGLE)	181.34

MILLS UNIVERSAL CABLE DRUM DISPENSER

A heavy duty multi-purpose cable caddy, ideal for use with telecom, security datacom and electrical cable reels.

The cable caddy will accept cable reels with a diameter up to 360mm, a maximum width of 330mm and a spindle diameter up to 35mm.

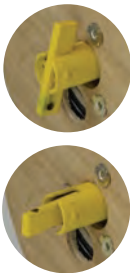

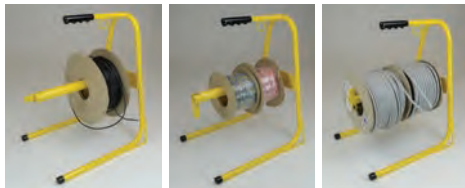

Cable reels can be quickly and easily loaded on the cable caddy and retained in position by the captive 'quick action' antilutce fastener.

In addition, the cable caddy has a comfort carry handle and is very balanced when carrying cable of all sizes and weights.

A 30mm tie off ring is provided to assist with storage and transportation.

Key Features

- Ideal for communication, security and power cable or a combination of all three.
- Suitable for most cable reels with a diameter up to 360mm
- Compact and lightweight design
- Quick action, antilutce fitting to quickly secure and release reels

PART NO.	DESCRIPTION	PRICE
S00-5796	UNIVERSAL CABLE DRUM DISPENSER	28.75

DISPENSER DROPWIRE 2B

A specialist cable stand and dispenser, manufactured from a tubular steel construction. Features an adjustable tensioning device to prevent overrun of the drum. The drum is held by means of a spring loaded spindle. The unit further benefits from telescopic handle.

PART NO.	DESCRIPTION	PRICE
S00-8426	DISPENSER DROPWIRE 2B	131.66

CABLE DEREELER

For dispensing reeled cables, Fitted with dual-locking mechanism.

Size: 600 x 300mm

Features removable spindle.

Load Capacity: 50kg.

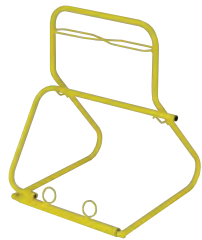

PART NO.	DESCRIPTION	PRICE
S00-8175	CABLE DEREELER	20.83

DISPENSER 1A

A lightweight cable dispenser manufactured from tubular steel. Designed for dispensing reeled wire jumper & internal cable (up to 6 pair). It will accept drums up to a diameter of 50cm.

Dimensions:
330 x 330 x 460mm
Weight: 1.8 kg

PART NO.	DESCRIPTION	PRICE
S83-4688	DISPENSER 1A	29.87

UNIVERSAL CABLE DRUM STAND

Suits drums up to 600mm diameter, 500mm width and weight of 100kg.

Dimensions:
780 x 750 x 180mm
Weight: 10 kg

PART NO.	DESCRIPTION	PRICE
S00-1200	24" CABLE DRUM STAND	41.93

DRAWROPE DISPENSER

A specialist stand with locking handle for dispensing standard 6mm Draw Rope No.1 from 500m reels.

Dimensions:
530mm x 280mm x 60mm
Weight: 4.7kg

PART NO.	DESCRIPTION	PRICE
S00-1239	DRAWROPE DISPENSER	42.89

HYDRAULIC CABLE JACKS

Lightweight hydraulic drum jacks which are almost indispensable for use in the cable yard. Versatile & easily adjustable within seconds to accommodate vast ranges of drums. Excellent all-round stability. Fitted with wheels to be easily moved by one person. Complete with spindle & collars

GALVANISED FIXING CONES

A range of galvanised fixing cones for securing drums in place on spindles.

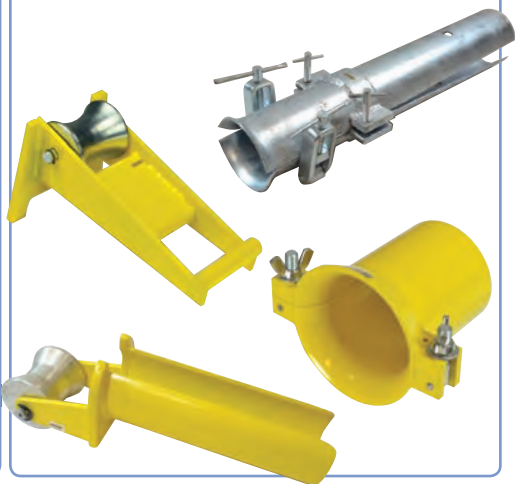

Supplied individually, however a pair is required for operation.

- A) A cable drum spindle fixing cone tapering from 115-65mm and to suit a 60mm spindle.
- B) A cable drum spindle fixing cone tapering from 130-85mm and to suit a 75mm spindle.
- C) A cable drum spindle fixing cone tapering from 150-110mm and to suit a 90mm spindle.

PART NO.	DESCRIPTION	PRICE

CABLE PULLING WINCH (UNDERGROUND FRAME)

This lightweight capstan winch is designed for use within manholes, for simple cable pulling and cable recovery.

Powered by a 5HP Honda Engine through a right angle gearbox, it has a pulling capacity of 1000kg using a 12mm diameter rope (recommended) via a 100mm diameter aluminium Diablo capstan at a rope speed of 18m per minute.

Dimensions
520mm x 370mm
x 370mm.

Dry Weight 26kg.

CABLE JOE

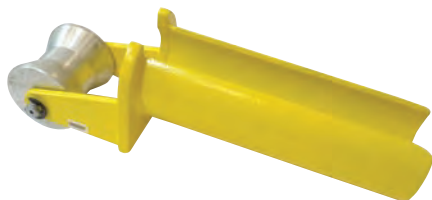

Six roller design gives 75mm square opening. The cable guide can be clamped onto most support bars, joists and corners to allow multiple cable pulls without snagging.

PART NO.	DESCRIPTION	PRICE
S00-5229	CABLE JOE	103.87

GUIDE CABLING 17A

Used to guide standard cabling ropes and steel wire in or out of duct mouths.

PART NO.	DESCRIPTION	PRICE
S00-1238	GUIDE CABLING 17A	66.63

GUIDE CABLING NO.1

Used to draw cable straight into the duct, duct sizes 89 and 92mm.

PART NO.	DESCRIPTION	PRICE
S83-0770	GUIDE CABLING NO.1	113.16

GUIDES CABLING 4A & 4B

A) A flexible steel tube 3 metres long with a 63mm bore. Used to guide light cables between the cable drum trailer and the duct mouth. Incorporates an integral bellmouth and a pair of securing chains.

B) As Guide Cabling 4A but a 1.5m version.

PART NO.	DESCRIPTION	PRICE
S83-2644	A) GUIDE CABLING 4A	427.14
S83-0985	B) GUIDE CABLING 4B	244.38

BELLMOUTHS

Used to prevent damage when drawing cable into ducts. Consists of a two part tubular sleeve which is assembled around the cable whilst in situ.

No.1 Split Bellmouth

For use on 83mm ducting.

No.2 Split Bellmouth

For use on 90/92mm ducting.

PART NO.	DESCRIPTION	PRICE
S00-1240	NO.1 SPLIT BELLMOUTH	35.78
S00-1241	NO.2 SPLIT BELLMOUTH	40.24

ROLLER ROPE GUIDING SURFACE

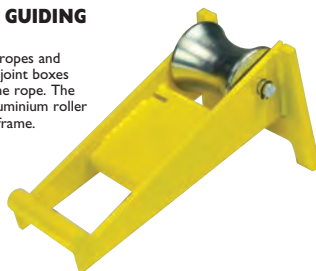

Used to guide draw ropes and cabling ropes out of joint boxes avoiding fraying to the rope. The unit comprises an aluminium roller mounted on a steel frame.

Height: 150mm.

Width: 152mm.

Length: 254mm.

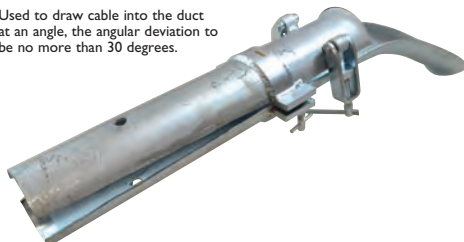

Weight: 4kgs.

PART NO.	DESCRIPTION	PRICE
S00-1237	ROLLER ROPE GUIDING SURFACE	51.36

GUIDE CABLING NO.2

Used to draw cable into the duct at an angle, the angular deviation to be no more than 30 degrees.

PART NO.	DESCRIPTION	PRICE
S83-0771	GUIDE CABLING NO.2	130.67

GUIDE CABLING 6A & 6B

A) Cable guide for heavy cabling work can be connected together to extend the duct entry to the cable drum trailer. Length of this guide: 1.5m.

B) 3m version of Guide Cabling 6A.

PART NO.	DESCRIPTION	PRICE

STRAIGHT CABLE ROLLER GUIDE

A compact cable roller for use in narrow trenches and confined areas. The unit consists of a heavy duty frame and galvanised steel roller which tapers from 110mm to 75mm and has a width of 170mm.

The footprint of the stand is 300mm x 240mm x 250mm.

Weight: 4.1kg.

Dimensions: 300 x 240 x 250mm.

PART NO.	DESCRIPTION	PRICE
S03-6611	STRAIGHT CABLE ROLLER GUIDE	25.36

CURVED MANHOLE LEAD CABLE GUIDE

A heavy duty cable roller for placing at the leading edge of the manhole or pit entrance.

The unit consist of three galvanised steel rollers which taper from 107mm to 79mm and have a width of 185mm.

The footprint of the stand is 490mm x 224mm with a height of 400mm. Weight: 9kg.

PART NO.	DESCRIPTION	PRICE
S03-4755	CURVED MANHOLE LEAD CABLE GUIDE	110.77

CORNER CABLE ROLLER GUIDE

A heavy duty cable roller for pulling the heaviest cables around difficult corners. The unit consists of a heavy duty frame with two vertical and one horizontal galvanised steel rollers which taper from 110mm to 75mm and have a width of 185mm.

The footprint of the stand is: 550mm x 340mm x 370mm.

Weight: 14kg.

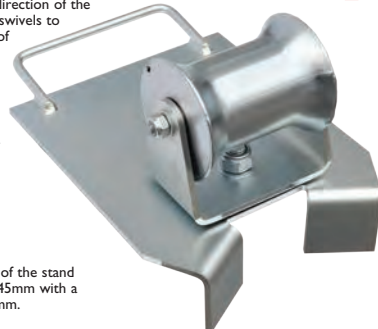

Corner cable roller guides can be linked together with stake pins provided to form a continuous corner roller system.

PART NO.	DESCRIPTION	PRICE
S03-6612	CORNER CABLE ROLLER GUIDE	79.95

SWIVELLING EDGE ROLLER NO.1

A heavy duty cable roller designed to provide an even pull at the corner of the manhole allowing the roller to swivel in the direction of the pull. The unit swivels to the direction of the pull. It has a galvanised steel roller which tapers from 107 to 79mm and has a width of 127mm.

The footprint of the stand is 300mm x 245mm with a height of 150mm.

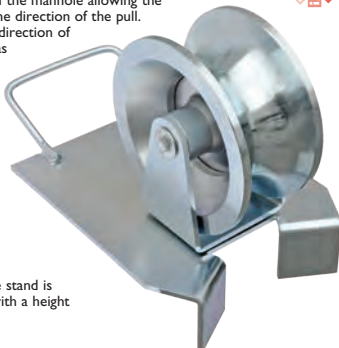

Weight: 6kg.

PART NO.	DESCRIPTION	PRICE
S03-4754	SWIVELLING EDGE ROLLER NO.1	79.23

SWIVELLING EDGE ROLLER NO.2

A heavy duty cable roller designed to provide an even pull at the corner of the manhole allowing the roller to swivel in the direction of the pull.

Unit swivels to the direction of the pull. The unit has a galvanised steel roller which tapers from 130 to 90mm and has a width of 75mm.

The footprint of the stand is 300mm x 220mm with a height of 245mm.

Weight: 6kg.

MILLS STANDARD ROD SET

Ideal for use for installations in false ceilings and raised floors.

Manufactured from new and innovative materials: A basalt fibre core with polypropylene coating which guarantees the highest flexibility, resistance and shape stability whilst ensuring sheer strength and reliability.

The system is comprised of a set of easily connectable rods and a selection of essential accessories complete with storage/transporation bag.

The standard set comprises 5 x 1m sections:

- Qty 2: 5.6mm x 1000mm (red)
- Qty 3: 4.6mm x 1000mm (yellow)
- Flexible nylon rod 175mm
- Chain
- Round starting head
- Pulling eyelet with ring
- Magnet

MILLS BIG ROD SET

Ideal for use for installations in false ceilings and raised floors.

Manufactured from new and innovative materials: A basalt fibre core with polypropylene coating which guarantees the highest flexibility, resistance and shape stability whilst ensuring sheer strength and reliability.

The system is comprised of a set of easily connectable rods and a selection of essential accessories complete with storage/transporation bag.

The Big Set comprises 10 x 1m sections:

- Qty 3: 6.6mm x 1000mm (black)
- Qty 3: 5.6mm x 1000mm (red)
- Qty 3: 4.6mm x 1000mm (yellow)
- Qty 1: 4.0mm x 1000mm (white)

and includes 10 types of end fittings:

- Flexible nylon rod 175mm
- Cable pulling grip
- Chain
- Super beam LED
- Threader
- Round starting head
- Adaptor
- Pulling eyelet with ring
- Magnet
- Hook

MILLS FISH/DRAW WIRE AND TAPES

Mills recognises the importance of correctly installed cable for maximum network performance. We have designed our range of Fish/Draw Wire and Fish Tapes to be as flexible and durable as possible, incorporating a replaceable spring end leader. Cable can now be pulled into position by the most timely and efficient route reducing cable strain, ensuring correct bend radius and saving money.

(A) Fibreglass Fish Tape 16M (50 ft)

Comprising a 4mm reinforced, non-conductive fibreglass core with self-lubricating outer Nylon coating. The tape is easily retracted and stored in an impact resistant case. The 180mm flexible leader can bend through a radius of just 50mm.

(B) Steel Fish Tape 30M (100 ft)

This traditional 30m (100ft) fish tape is manufactured from high strength flexible 3mm wide spring steel with hooked end to avoid snagging in use. It is housed in a sturdy impact resistant rotating plastic storage case.

(C) Under Carpet Tape 7.5M (25ft)

This under carpet tape is made from annealed stainless steel and is flat for running wire between carpet and underlay. The tape has one rounded end with a hole and one curled end and fits into its own PVC case. Length 25 ft (7.5m).

(D) 4mm Nylon Draw Wire

Supplied in 10m (33ft) and 30m (98ft) lengths. Non-conductive 4mm nylon construction for use in telecom, electrical, wall and floor conduit.

It is designed for pulling cables through occupied duct and panel boxes. The draw tape has a breaking strain of 100kg, a bend radius of 38mm and has a 150mm flexi end leader with pulling eye at one end of the rod.

(F) Polyester Draw Wire 15m (49ft)

A simple triple stranded 4.5mm polyester draw wire with a breaking strain of 140kg and a bend radius of 100mm.

It is terminated with a 125mm long flexi end with brass pulling eye on one end and a fixed brass pulling eye on the other.

(G) Polyester Draw Wire 25m (82ft)

A simple triple stranded 4.5mm polyester draw wire with a breaking strain of 140kg and a bend radius of 100mm.

The draw rope is terminated in a 125mm long flexi end with brass pulling eye on one end and fixed brass pulling eye on the other.

(H) Fibreglass Fish Tape 20m (65ft)

20m length, 3mm diameter fibreglass core with outer Polypropylene coating.

Comes complete with starting / ending M5 threaded end fitting.

(E) Fish Tape Winder Reel 7.5m (25ft)

A 7.5m (25") flat steel fish tape in a handy winder case with crank handle. The 6mm wide tape has a tapered plastic end piece and is ideal for installing cable above false ceilings or under carpets, where the flat profile helps the tape feed in a straight line without deflection.

MILLS PULL PUCK

An essential aid for providing extra grip, when pulling and pushing most cable up to a diameter of 16mm. Manufactured from a high visibility yellow rubberised material, and at just 76mm diameter the Mills cable pulling puck fits into the palm of your hand.

PART NO.	DESCRIPTION	PRICE
S00-6417	PULL PUCK	2.94

ACME WIRING AND CABLE TACKER

The new 25AC ACME Cable Tacker has been designed in conjunction with the leading telecom utilities to provide a patented "No Crush" action, preventing signal loss. Indeed, because of this patented action, it is the only tacker to be allowed by a growing number of organisations, who are continually demanding increased speeds from their networks.

The staples will tack cable up to a wire diameter of 6.35mm (1/4") and consequently are ideal for use on RG6 and RG59 cables. To enhance the fixing, ACME staples have off-set legs which have a glue coating that acts as a lubricant, before setting. The staples are available in packs of 5000 and in galvanised, black or white.

EYE PROTECTION

A) SAFETY GOGGLES

A compact and lightweight goggle offering extremely good value. Tough Polycarbonate lens offers high resistance to impact from flying particles. This goggle has a vented body, PVC frame and a Polycarbonate lens. It conforms to EN 166.I.B.

B) SAFETY SPECTACLES

Economical single polycarbonate lens wraparound style. Moulded browguard and vented side shields. Conforms to EN 166.I.FT.

C) BOLLE BANDIDO II SAFETY SPECTACLES

Made entirely of highly-resistant polycarbonate the BANDIDO II is the perfect value safety spectacle option. Features antifog and anti-scratch coating. Conforms to EN 166 & EN170 2-1.2, 2C-1.2. 99.9% UVA/UVB protection.

E) BOLLE PILOT SAFETY GOGGLES

Features a co-injected, ventilated frame that guarantees unequalled adaptability and comfort. The clear transparent lens features anti-scratch & anti-fog coating. Conforms to EN 166; EN170 2-1.2, 2C-1.2. 99.9% UVA/UVB protection.

F) LASER SAFETY SPECTACLES

Wraparound frame Laser Safety Spectacles for use when working with live fibre cables and equipment. C.E. certified. See millsld.com for full specifications.

D) BOLLE BANDIDO SMOKED

Safety solar protection Spectacles Made entirely of highly-resistant polycarbonate the BANDIDO II is the perfect value safety spectacle option. Features antifog and anti-scratch coating. Conforms to EN 166; EN170 2-1.2, 2C-1.2 & EN172 5-2.5 and 5 to 4.1. 99.9% UVA/UVB protection.

HEAD PROTECTION

A) SHORT PEAK (2CM) SAFETY HELMET

Features adjustable harness and fully adjustable slip ratchet headband. Conforms to EN397, ANSI289, EN50365.

B) A range of assorted colour safety helmets that have been designed and manufactured to ensure optimum impact protection from objects including stones, roofing tiles and bricks. Complies with EN 397:2012+A1:2012 and EN 50365:2002.

C) Chin strap for securing safety helmets.

D) Baseball Bump Hat designed as a safeguard against accidental bumping or scraping of the head. Conforms to EN812

E) ARC FLASH PROTECTION FACE VISOR AND HARD HAT

Features an Arc Rating of 12cal/ cm² (ATPV according to ASTM F2178) and utilises nanotechnology to provide a clearer, more transparent window for improved visibility. The faceshield unit includes ventilation ribs that allow a natural convection air flow through the top of the face shield. This reduces fogging of the visor, lowers CO₂ levels and improves comfort for the user.

The assembly is also tested and certified to GS-ET-29, Class 2.

HAND PROTECTION

A) CANADIAN RIGGERS GLOVES

Standard Canadian rigger gloves manufactured from grey split leather with a striped cotton back and open cuff. These gloves are loose fitting with an elasticated back and are half-lined with fleece - providing comfort during the trickiest of tasks. These CE marked rigger gloves are suitable for most handling operations. Supplied as standard in Size 10.

A

D) LATEX GRIP GLOVES

Latex palm ensures the user has a firm all round grip. Soft knitted fabric with uncoated back allows the hand to breathe whilst the textured grip and ribbed knit wrist improves dexterity and comfort for user. Ideal for cable handling and general building and construction work. Size 10.

D

G) 6" CUFF GAUNTLETS

Grey Leather Tig Welders' Gloves with a soft, high quality nappa leather palm and stiff 150mm chrome leather cuff offering a superb feel and good durability for precision welding. 360mm overall length. EN420. (Dexterity) Level 5. Size 10.

G

B) ANTI SLIP HANDLING GLOVES

Spun nylon glove with interlocking criss-cross coating. Ideal for handling cartons, glass and other items with a sheer finish. Size 10.

B

E) REFLEX GLOVES

Cotton/Polyamide palm coated gloves with flexible latex coating. Excellent grip in both wet and dry conditions for safe and secure handling.

E

C) WATERPROOF PVC GLOVES

Standard weight waterproof red PVC fully coated glove with knitted wrist. EN388 CAT 2. Size 10.

C

F) RED PVC GAUNTLETS

Standard weight general purpose red PVC fully coated 14" waterproof gauntlet. EN388 CAT 2. Size 10.

F

H

H) MATRIX® FINGERLESS GLOVES

Seamless knitted nylon liner with polyurethane palm coating.

I

I) TOUCHSTONE GRIP™

100% Kevlar® glove provides increased protection against cuts, slashes and abrasion whilst allowing free movement, maintaining a high degree of dexterity for the wearer.

J

J) LATEX DISPOSABLE GLOVES LARGE PK100

Supplied in packs of 100 ambidexterous gloves. Available in powdered or powder free.

K

K) VINYL DISPOSABLE GLOVES LARGE PK100

Supplied in packs of 100 ambidexterous gloves. Available in powdered or powder free.

L

L) 1000V GLOVES CLASS 0

Pair of fully insulating gloves, each test stamped for 5000V with a working voltage of 1000V max. Manufactured to EN60903. 1.0mm thickness.

Available in six sizes: 7-12.

GASALERT MICRO CLIP X3 PORTABLE MULTI-GAS DETECTOR

Small size. Easy to use. Reliable operation. Affordable protection.

It's no wonder the GasAlertMicroClip is the world's most popular multi-gas detector, serving as your trusted companion in hazardous environments, keeping you safe without weighing you down. Plus, it's the first multi-gas detector with a rating of IP68 for unmatched water protection. So you can be confident it will stand up to challenging conditions.

The GasAlertMicroClip X3 features a three-year warranty and a new oxygen sensor that extends overall operational life expectancy.

- Advanced engineering for reliable battery performance
- Reflex Technology™ automated self-test function routinely checks the operating condition of the sensors to increase safety, up-time, and overall worker confidence
- Compact, lightweight and easy to use - no expertise required
- Flashing green IntelliFlash™ light for compliance at a glance
- Five-year life expectancy - plus a three-year warranty
- An all-new oxygen sensor that operates consistently for five years with no replacement costs for the life of the detector
- Superior cost of ownership - with minimized maintenance and maximized uptime

Available in A) 2 Gas (CH4 & H2S) and B) 4 Gas (O2, H2S, CO & Combustibles) versions.

Supplied with 12in-car charger. Mains charger available separately.

Calibration service available. Please call sales for details.

DISPOSABLE URINAL

Travel John disposable urinal is convenient, sanitary, discreet and compact. It immobilises bacterial growth, quickly absorbs the liquid waste and turns it into an odourless, spill-proof gel bag that is non-toxic and waste disposal safe.

Supplied in pack of 3.

PART NO.	DESCRIPTION	PRICE
P33-0758	DISPOSABLE URINAL - 3PK	5.58

WATER SAMPLING KIT

UK Environment Agency is responsible for the protection of "controlled waters" from pollution under the Water Resources Act 1911 and it is an offence to cause pollution either deliberately or accidentally. To prevent prosecution, a simple water test can determine if a licensed waste disposal contractor is required to dispose of any polluted water found or identified.

The telecoms water sampling kit will enable clear identification of polluted water and comes complete in a black plastic case with:

- 3 x sampling bottles
- 1 x metal sample bottle flange with 3m of cord (for 'at depth' sampling)
- 10 x disposable gloves
- 1 x reference/method card

PART NO.	DESCRIPTION	PRICE
S83-0698	WATER SAMPLING KIT	80.00

MILLS WORK TRAY POLE SPLICING

The Mills Work Tray Pole Splicing has been specifically designed to assist engineers with installation and maintenance of BDUK Pole Fibre Distribution Points (FDP's).

It is manufactured from 2mm steel and has three universal secure mounting location tabs which allow the tray to easily be attached to the pole cabinet, centrally or biased to the left or right.

The tray dimensions are 500mm wide by 250mm deep with a 10mm lip to prevent loss of tools and materials. All corners have been radiused to prevent damage to fibre in addition to being designed to allow any excess rain water to easily drain away.

It is finished with a non-reflective black powder-coat paint.

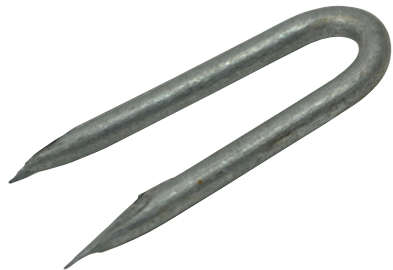

PART NO.	DESCRIPTION	PRICE
C00-5919	MILLS WORK TRAY POLE SPLICING	37.57

RODS CONTINUOUS (COBRAS)

Cobra rods represents a faster and more economic solution to screw together duct rods and are available in standard diameters from 4.5mm to 14mm and range of lengths to suit most applications.

The conduit rods are supplied in robust zinc plated steel frames and utilise a high quality reinforced fibreglass rod with high tensile strength ensuring on-going reliability and performance. 4.5mm and 6mm units are free standing whilst the heavier 9mm, 11mm and 14mm units are supplied with wheels for mobility and ease of use.

For rod and frame, or replacement rods sizes 9mm and above, the below prices include standard delivery to mainland U.K. (excludes Scottish Highlands).

STRAIGHT CABLE ROLLER GUIDE

A compact cable roller for use in narrow trenches and confined areas. The unit consists of a heavy duty frame and galvanised steel roller which tapers from 110mm to 75mm and has a width of 170mm.

The footprint of the stand is 300mm x 240mm x 250mm.

Weight: 4.1kg.

Dimensions: 300 x 240 x 250mm.

PART NO.	DESCRIPTION	PRICE
S03-6611	STRAIGHT CABLE ROLLER GUIDE	25.36

CURVED MANHOLE LEAD CABLE GUIDE

A heavy duty cable roller for placing at the leading edge of the manhole or pit entrance.

The unit consist of three galvanised steel rollers which taper from 107mm to 79mm and have a width of 185mm.

The footprint of the stand is 490mm x 224mm with a height of 400mm. Weight: 9kg.

PART NO.	DESCRIPTION	PRICE
S03-4755	CURVED MANHOLE LEAD CABLE GUIDE	110.77

CORNER CABLE ROLLER GUIDE

A heavy duty cable roller for pulling the heaviest cables around difficult corners. The unit consists of a heavy duty frame with two vertical and one horizontal galvanised steel rollers which taper from 110mm to 75mm and have a width of 185mm.

The footprint of the stand is: 550mm x 340mm x 370mm.

Weight: 14kg.

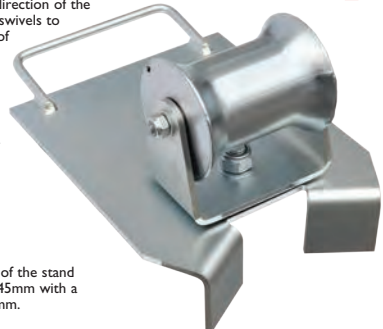

Corner cable roller guides can be linked together with stake pins provided to form a continuous corner roller system.

PART NO.	DESCRIPTION	PRICE
S03-6612	CORNER CABLE ROLLER GUIDE	79.95

SWIVELLING EDGE ROLLER NO.1

A heavy duty cable roller designed to provide an even pull at the corner of the manhole allowing the roller to swivel in the direction of the pull. The unit swivels to the direction of the pull. It has a galvanised steel roller which tapers from 107 to 79mm and has a width of 127mm.

The footprint of the stand is 300mm x 245mm with a height of 150mm.

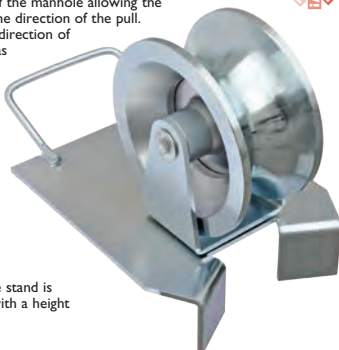

Weight: 6kg.

PART NO.	DESCRIPTION	PRICE
S03-4754	SWIVELLING EDGE ROLLER NO.1	79.23

SWIVELLING EDGE ROLLER NO.2

A heavy duty cable roller designed to provide an even pull at the corner of the manhole allowing the roller to swivel in the direction of the pull.

Unit swivels to the direction of the pull. The unit has a galvanised steel roller which tapers from 130 to 90mm and has a width of 75mm.

The footprint of the stand is 300mm x 220mm with a height of 245mm.

Weight: 6kg.

PART NO.	DESCRIPTION	PRICE
S03-4753	SWIVELLING EDGE ROLLER NO.2	125.69

PART NO.	DESCRIPTION	PRICE
S83-0709	PUMP LUBRICANT 2A	225.92

LUBRICANT CABLE 2A

This lubricant reduces the friction between the cable and duct walls. Supplied in 20 litre containers.

PART NO.	DESCRIPTION	PRICE
S83-2665	LUBRICANT CABLE 2A	77.33

CABLE EASE BLOWING LUBRICANT

Designed for telecommunication cable placement operations using blowing and air carrying techniques. Supplied in 1 litre bottle.

PART NO.	DESCRIPTION	PRICE
S83-3630	CABLE EASE	13.08

JETTING LUBE

Used to lubricate cables when jetting into ducts.

Supplied in 0.95 litre bottle.

PART NO.	DESCRIPTION	PRICE
S83-3696	JETTING LUBE	18.33

GEL CABLE PULLING LUBRICANTS

Gel, suitable for most cable types. Available in 1.1 litre & 22.5 litre containers.

PART NO.	DESCRIPTION	PRICE
C00-1563	1.1L GEL CABLE PULLING LUBRICANT	7.66
C00-1564	22.5L GEL CABLE PULLING LUBRICANT	46.67

POLYWATER® PRELUBE 2000™ CABLE BLOWING LUBRICANT 0.95L

Ideal for blowing cables and relining ducts. Polywater® Prelube 2000™ reduces frictional drag during the blowing of outside plant cable into duct. It increases the length of cable that can be blown in a single shot. Prelube 2000™ can also be used to blow in the hollow microtubes intended to hold future microcables.

Over the last decade, Prelube 2000™ has been proven in the blowing of tens of thousands of kilometers of cable in over 20 countries on a variety of cable blowing machines.

- Cable blowing lube for air-assisted fibre optic cable installations.
- Compatible with cable jackets.
- Approved & recommended by numerous blowing equipment manufacturers.
- Increases blowing distance with lower friction.

PART NO.	DESCRIPTION	PRICE
S83-6675	PRELUBE 2000™ CABLE BLOWING LUBRICANT 0.95L	9.25

POLYWATER® PRELUBE 5000™ CABLE BLOWING LUBRICANT 0.25L

Polywater® Prelube 5000™ is more concentrated than the Prelube 2000™. It is intended for blowing microcable into small diameter microtubes. The improved chemistry allows this product to spread further and lower friction at extremely low coating levels. The lower viscosity allows practical application into the microtubes.

- Microfibres/Microduct applications.
- Cable blowing lubricant for air assisted installations.
- Compatible with micro cable plastic jackets.
- Reduces friction, drag, and increases blowing length

Polywater® Prelube 5000™ is easy to use. It can be squeezed into the small diameter microducts.

It works at extremely low coating levels. It coats further and more effectively than conventional blowing lubricants.

Polywater® Prelube 5000™ is compatible with known microcable plastic jackets. However, it should not be used for resin-coated fibre cables.

PART NO.	DESCRIPTION	PRICE
S83-6676	PRELUBE 5000™ CABLE BLOWING LUBRICANT 0.25L	13.49

POLYWATER® F LUBRICANT 3.8L

Polywater F Lubricant is a high performance, pourable liquid, cable pulling lubricant recommended for pulling underground fibre optic cable. It is also suitable for pulling coaxial and copper-pair cable. Polywater F is a thick liquid, and is applied by pouring or pumping the lubricant into the duct system. It is a popular lubricant and used in the pulling over 50,000 miles (80,000 km) of fibre optic cable into duct.

- Field proven high performance pourable lubricant
- Easy to pour into innerducts and feeder tubes
- Works on underground fibre optic, coaxial, and copper cable pulls
- Approved and recommended by many cable manufacturers
- Superior friction reduction
- Carries with cable for long distance - wets and clings to cable.
- Compatible with cable jackets
- Clean and non-staining

PART NO.	DESCRIPTION	PRICE
S83-6677	POLYWATER® F LUBRICANT 3.8L	11.74

POLYWATER® FTTX LUBRICANT 0.95L

Polywater® FTTx Fibre Lubricant makes the installation of fibre drops easy. The lubricant is concentrated, only a thin film is required for immediate tension reduction that lasts even as the lubricant dries. Spray or wipe the cable or conduit. Quick and easy to use without mess or excess lubricant.

- Perfect for Fibre Optic Drops
- Non-Staining, Quick Clean-Up
- Easy Application with Spray
- Lubricates with Very Thin Film, Performs After Drying
- Compatible with Common Cable Jackets Including Polyethylene

FTTx Lubricant works even after it has dried. The residue is a thin, slippery film that retains lubricity for months after use.

PART NO.	DESCRIPTION	PRICE
S83-6678	POLYWATER® FTTX LUBRICANT 0.95L	9.46

POLYWATER® SQUEEYKLEEN™ CABLE CLEANING WIPES

Supplied in a dispenser with 300 5" x 6" (127mm x 152mm) premoistened cable cleaning wipes.

New SqueeKleen™ cleans and fans fibre in two wipes without alcohol, saving time & money. No follow-up with alcohol required to get fibres squeaky clean and separated for fast & easy splicing.

SqueeKleen™ reduces chemical odors & harmful vapour concentrations in splice trailers and vaults while being less harsh on hands.

Its unique formulation and specially designed high-performance toweltette work to remove pik from the entire surface of loose tube or ribbon fibres, leaving no residue.

SqueeKleen™ helps keep splice equipment clean for better fibre alignment & splice quality. Will not harm acrylate on loose tube cable or Mylar on ribbon fibre.

PART NO.	DESCRIPTION	PRICE
S83-6679	POLYWATER® SQUEEYKLEEN COMMUNICATIONS CLEANER	27.06

POLYWATER® AQUAKLEEN™ FIBRE CLEANER 60ML

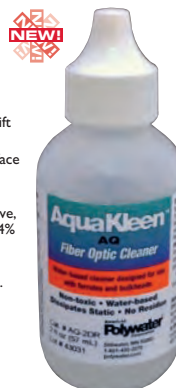

For cleaning ferrules, bulkheads and fibre endfaces.

AquaKleen™ Fibre Cleaner is formulated for cleaning fibre-optic cables and endfaces. Its excellent wetting reaches precision parts to lift dust, buffer gel, lint, finger prints, and oils.

AquaKleen™ dissipates static to remove surface charges so that the surface is less likely to be re-contaminated.

AquaKleen™ Fibre Cleaner contains innovative, water-based technology. A special blend of 94% ultra-pure deionized water with proprietary solvents; it does not leave a residue. Supplied in a squeeze bottle with dropper tip.

- Eco Friendly, Non-Toxic
- Water-based
- No Residue
- Excellent Solvency
- Non-Flammable
- Easy to Transport

PART NO.	DESCRIPTION	PRICE

PART NO.	DESCRIPTION	PRICE
S00-0005	T HANDLE 20" MANHOLE KEY (PAIR)	11.20

LIFTER MANHOLE COVER 4B

A hydraulic type lifter used for lifting all types of carriageway cover. A range of different keys can be fitted to suit the type of cover to be lifted. The lifter is used by attaching the main beam to the manhole cover via the appropriate lifting key and operating the ram with a pump action. A release valve is incorporated to lower the cover back into position.

The lifter comes complete with a ram operating handle, a lifter manoeuvring handle and carrying handle, and is supplied complete with bars and full set of keys.

Replacement parts for old style Lifter Manhole Cover 4B

- 1A Used in pairs to lift Ekington type manhole covers.
- 2A Used in pairs to lift unit type manhole covers.
- 3B Used for lifting triangular type covers such as Silent Knight and Covers Carriageway C and D. These keys should be ordered in sets of 6 to cater for the largest installation of 6 pairs of covers.
- 4A Used in pairs to lift old types of manhole covers.
- 5C Used in pairs for lifting Unit Type Light Covers and Covers Driveway.

ARNOLD MK I COVER LIFTER

Arnold Mk.I is designed to allow a single person to safely remove and replace a variety of manhole, duct and trench covers with minimal effort. It is designed to fold into a compact size making it easy to store and transport. It can also be manoeuvred in its storage mode. The pivoting bearer beam allows the lid to remain horizontal during the removal and replacement process.

It has a safe working load of 125kgs.

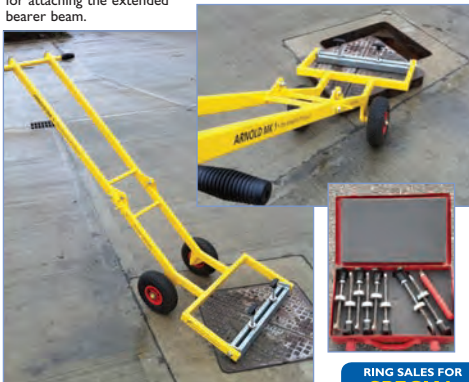

Product weight: 20Kgs.

Folded dimensions: 912(l) x 660(w) x 623(h)mm.

Open dimensions: 1543(l) x 660(w) x 1240(h)mm.

Supplied with box of fully forged keys comprising:
35mm T, 25mm T, for the majority of manhole covers.
25mm L key, for telecoms covers.

Hook key for grates, gullies, vented lids and for attaching the extended bearer beam.

XAGA 500 HEAT-SHRINKABLE JOINT CLOSURE

CommScope's XAGA 500 is a heat-shrinkable composite joint closure system for environmental and mechanical protection of joints in the unpressurised telephone network : aerial, buried or ducted, non filled or jelly filled cables with polyethylene, lead, steel or aluminium sheaths. Extended size range can accommodate splices up to 800 pairs.

COMMSCOPE®
DISTRIBUTOR

Features:

- Composite structure of the sleeve offers an excellent resistance to mechanical abuse during and after the installation
- Integrated moisture barrier reconstitutes the cable sheath over the total splice area
- Hot-melt adhesive forms a watertight seal to the cable sheath
- Supporting liner insulates, shapes and compacts the splice bundle
- Up to 3 cables at each end can be accommodated using three finger clips with hot-melt adhesive
- Installation indicators: heat-sensitive paint, adhesive flow and white line
- Extended size range can accommodate splices up to 800 pairs
- Unlimited shelf life

Note:

The standard XAGA 500 kit is designed for max. 2 cables branched at one end only. Branched joints with more cables require the use of one additional branch-off kit per added cable.

Kit content

- Heat-shrinkable sleeve
- Channels with underclip
- Flexible liner
- Cleaning tissue
- Abrasive strip
- Branch-off kit
- Shield continuity wire
- Installation instruction

XAGA 530 HEAT-SHRINKABLE JOINT CLOSURE

CommScope's XAGA 530 is a heat-shrinkable composite joint closure system for environmental and mechanical protection of joints in the unpressurised telephone network : aerial, buried or ducted, non filled or jelly filled cables with polyethylene, lead, steel or aluminium sheaths. It offers excellent performance under high humidity and in tropical conditions. Up to 3 cables at each end can be accommodated using three finger clips with hot-melt adhesive. Extended size range can accommodate splices up to 800 pairs.

COMMSCOPE®
DISTRIBUTOR

Kit content

- Heat-shrinkable sleeve
- Channels with underclip
- Flexible liner
- Cleaning tissue
- Abrasive strip
- Desiccant (Silica gel)
- Aluminium foil
- Branch-off kit
- Shield continuity wire
- PVC tape
- Installation instructions

Features:

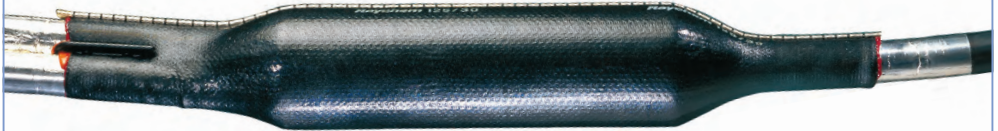

- Composite structure of the sleeve offers an excellent resistance to mechanical abuse during and after the installation
- Integrated moisture barrier reconstitutes the cable sheath over the total splice area
- Hot-melt adhesive forms a watertight seal to the cable sheath
- Variable non-hygroscopic liner insulates, shapes and mechanically protects the splice bundle
- Excellent performance under high humidity and in tropical conditions
- Up to 3 cables at each end can be accommodated using three finger clips with hot-melt adhesive
- Installation indicators: heat-sensitive paint, adhesive flow and white line
- Extended size range can accommodate splices up to 800 pairs
- Unlimited shelf life

XAGA 550 HEAT-SHRINKABLE JOINT CLOSURE

CommScope's XAGA 550 is a heat-shrinkable composite joint closure system for environmental and mechanical protection of joints in the unpressurised telephone network: aerial, buried or ducted, non filled or jelly filled cables with polyethylene, lead, steel or aluminium sheaths. The composite structure of the reinforced Rayfort sleeve offers an excellent resistance to mechanical abuse during and after the installation.

COMMSCOPE®
DISTRIBUTOR

Features:

- Integrated moisture barrier completely reconstitutes the cable sheath over the total splice area.
- Hotmelt adhesive forms a watertight seal to the cable sheath.
- A metal canister shapes and mechanically protects the splice bundle.
- Up to 3 cables at each end can be accommodated using three finger clips with hotmelt adhesive.
- Installation indicators: heat sensitive paint, adhesive flow and white line
- Extended size range can accommodate splices up to 3600 pair with any connector type.
- Unlimited shelf life.

Kit content

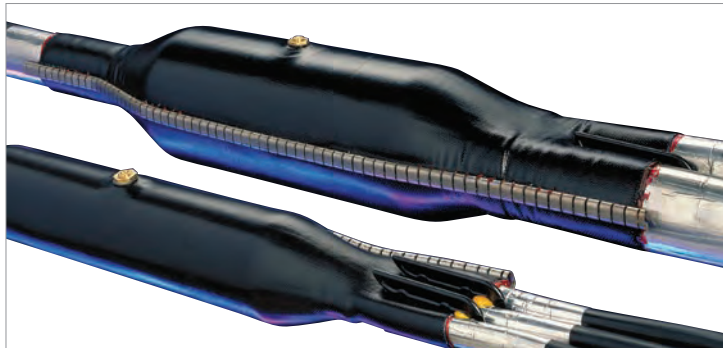

- Heat-shrinkable sleeve
- Metal canister (2 metal half shells)
- Self adhering aluminium strip
- Channels with underclip
- Branch-off kit
- Abrasive strip
- Desiccant (silica gel)
- Aluminium foil
- Cleaning tissue
- Shield continuity wire
- Installation instructions

XAGA 1000 HEAT-SHRINKABLE JOINT CLOSURE

CommScope's XAGA-1000 is a joint closure system for copper telephone pressurised networks and is suitable for aerial, buried and ducted applications.

COMMSCOPE®
DISTRIBUTOR

Features:

- Composite material provides high mechanical strength
- Range of closures to suit all cable sizes
- Applicable for polyethylene and metal jacketed cables
- Pre-installed valve for pressure access and measuring
- Suitable for use with all standard connector systems
- Up to 4 cables out at each end
- Wraparound closure suitable for both maintenance and new construction
- Interchangeable air valve/connector
- Hotmelt adhesive designed specifically for pressurised closure applications

Kit content

- Heat-shrinkable sleeve
- Metal canister (2 metal half shells)
- Flexible stainless steel channels
- Underclips
- Aluminium closing strip
- Valve nut + 1 valve plug + 1 valve insert
- Shield continuity wire
- Cleaning tissue
- Aluminium tape
- Abrasive strip
- Installation instructions

Note

Branch off kits must be ordered as a separate item.

MECHANICAL JOINT CLOSURE (MJC)

Watertight splice closure for aerial, underground and direct buried splices in the unpressurised copper telecommunication network.

No special tools are needed for installation or re-entry and includes integrated mounting brackets for aerial and wall installation.

The cable entries **MUST** be fitted with branching plugs. Dependent on the number of cables and their sizes, a variety of branching plugs and reducers are available. These are required items but are not supplied with the closure and **MUST** be ordered separately due to the number of different options available.

COMMScope®
DISTRIBUTOR

Port L	100 pr.5 mm cable
Blanking plug	

L port reducer
MJC-PR-L

M port reducer
MJC-PR-M

Blanking plug
MJC-BP

Features:

- Robust construction with high mechanical strength
- Proven gel sealing system: Easy to handle at all temperatures / Easy to re-enter
- Innovative cable fixation system
- No special tools needed for installations or re-entry
- Closure uses over-centering 'ski boot' type latches
- Flexible branching plug system allowing installation of cables
- Integrated mounting brackets for aerial and wall installation
- Reduced inventory as fewer size closures needed to cover a wide range of applications up to 100 pairs
- Both dome-ended and in-line closures are available
- Cable configuration changes possible with a minimum of extra accessories
- No shelf life

Kit content

- Closure
- Cable clamps
- Cleaning tissue
- Gel tape
- Installation instructions
- Measuring tape

TDUX KITS

TDUX is a unique inflatable wraparound duct sealing system for permanently sealing telephone cable ducts in order to prevent the leakage of water from the duct into exchange vaults or manholes.

- Suitable for use with plastic, concrete or steel ducting wall-feedthrough systems.
- Can be used with polyethylene or lead-jacketed cables.
- Duct Inflation Tool required.
- Various sizes available for sealing a wide range of ducts and cables

Features

- Fast and easy to install, even in congested enclosures, requiring only three parts for completion
- Very flexible and reliable wraparound sealing system
- Independent of duct or cable ovality
- Can be installed while water is flowing out of the duct.
- Water and airtight up to 50 kPa
- Environmentally friendly and non-toxic
- Resistant to chemicals and bacteria
- Easy and fast removal

**Note**

TDUX kit will seal vacant ducts and ducts occupied with 1 or 2 cables.

To seal ducts occupied with more than 2 cables, TDUX-CL clips are available as separate items. Call sales for further information.

FOSC 400 & FOSC 450G EXTERNAL FIBRE OPTIC SPLICE CLOSURES
COMMScope®
DISTRIBUTOR

CommScope's FOSC 400 products are butt-type closures used in the outside plant network when mass splice storage is the main requirement.

They are available in four different sizes and are typically used as track joints. Depending on the closure size, the splice storage and organiser trays can accommodate from 6 to 768 single fibre splices. All splicing trays are hinged at one end and any fibre can be accessed without disturbing fibre on other trays, kinking buffer tubes, or introducing losses. All cable termination and sealing functions are provided with the closures. Uncut loose buffer tube storage is provided in optional storage baskets.

**FOSC 450G****FOSC 400**

The FOSC 400 range is available with traditional heat shrink cable seals or CommScope's new gel sealing system. FOSC 450G gel sealed splice closures have the same splice capacity as standard FOSC 400 closures and feature the same reliable and easy-to-use dome-to-base clamping system. The major difference with the FOSC 450G closures is that the cable sealing terminations use gel sealing technology instead of traditional heat shrink. Gel seal cable terminations automatically adjust to cable size and shape, and require no special tools, tapes or mastics to install. Gel seals enable quick and easy cable removal and are completely re-usable.

Ring sales for **ordering guide** or visit: www.millsltd.com

TENIO FIBRE CLOSURES
COMMScope®
DISTRIBUTOR

Building on almost 30 years of innovation and industry leadership, CommScope's new TENIO closures enable 30-percent faster, future-proof network deployments in 30-percent less space. TENIO closures feature modular building blocks and combine proven fibre management hardware with a new sealing system to simplify training and reduce inventory. The closure's 100-percent mechanical, tool-less and intuitive design facilitates lower-skilled network deployments. Full modularity of the closure platform supports a phased CAPEX network deployment scheme, reducing up-front CAPEX investment.

Designed for use with any cable construction (loose buffer tube, central core tube, loose fibre), the closures deploy in any environment (aerial, pedestal, handhole, manhole) and CommScope's superior gel-sealing technology guarantees sealing regardless of cable type and form.

FIST-GC02 EXTERNAL FIBRE OPTIC SPLICING CLOSURES

CommScope's generic closure FIST-GC02 is an environmentally sealed enclosure for the FIST fibre management system. The closure is a single-ended design made of a thermoplastic material. The base and dome are sealed with a clamp (or latches) and an O-ring system. One oval entry port for looped (uncut) cable and 6 or 16 round ports for single cable entry/exit are provided in the base. (8 round or 6 + 1 oval port for GC02-FX version).

COMMSCOPE®
DISTRIBUTOR

FIST-GC02 has provision for all cable termination and sealing requirements. Cable seals are manufactured from heat-shrinkable or gel material. The universal mounting system profiles provide the foundation for mounting combinations of SOSA2 Tray and/or SASA2 splitter modules, which consist of a modular groove plate and trays.

Ring sales for [ordering guide](http://www.millsltd.com) or visit: www.millsltd.com

FIST-GC0G2 GEL SEALED EXTERNAL FIBRE OPTIC SPLICING CLOSURES

CommScope's generic gel closure FIST-GC0G2 is an environmentally sealed enclosure for the FIST fibre management system. The closure is a single-ended design made of a thermoplastic material. The base and dome are sealed with a clamp (or latches) and an O-ring system.

Six round cable ports are provided in a wrap-around block with pre-installed gel profile for cable sealing. This block can be opened and closed repeatedly without the need to remove or replace the gel.

COMMSCOPE®
DISTRIBUTOR

FIST-GC0G2 has provision for all cable termination and sealing requirements. The universal mounting system profiles provide the foundation for mounting combinations of trays and/or splitters.

CORDLESS DUCT WINDOW-CUTTER

A professional grade multicutter available with a selection of blades incorporating a depth stop which have been designed to cut into ducts without damaging the cables. The blades are 35mm in width and available with a range of depth stops 4, 5, 6, 8mm. Other depths are available on request.

The duct cutter features a cordless motor is supplied with charger and 2 x 2Ah Batteries and Heavy Duty Carry Case

Designed to fit Starlock Plus blades and incorporates an easy blade change system, leaving no contact with a potentially hot blade. Powerful motor for many mid to high-draw cutting and sanding applications. 3D interface allows maximum power transmission and fast work progress. LED work light illuminates the cutting edge, ideally suited to low light working. Compatible with all Bosch 18V batteries.

- 6-Speed
- LED Work Light
- Soft-Grip Handle
- Slide On/Off Switch
- All-Metal Gearing
- 2 x 1.4° Oscillation
- Fan-Cooled Motor

THE COMPACT DSP TEST SET

Low cost compact test set featuring the unique "Digital Services Protection" design feature which allows the tester to be used safely in a mixed analogue and digital services network.

Datasheet available online

Features:

- Low cost, fully featured test set
- 'DSP' protection against dropping a digital line
- Main cross protection
- Over voltage and current protection
- Auto power off
- Rugged belt clip
- Hands free via headset
- Drop test compliant - 3 metres
- 1 year warranty
- Supplied complete with croc clip cord and BT modular plug

TELE-MATE TM-500

The Tele-Mate TM-500 from Greenlee supersedes the DSTS 2 Test Telephone and can be used safely on a DSL enabled line.

Features

- Glow-in-the-dark keypad
- Can be used safely on a DSL enabled line
- High Impedance Monitor for monitoring line without disrupting existing traffic
- Over voltage and over current protection
- Tone and Pulse dialing for versatility on old and new phone lines
- Polarity test with LED indicator
- 32 digit last number redial and pause
- 10 number speed dial
- Adjustable volume control plus mute
- Pause
- Flash to generate a timed break recall
- Line powered, no battery needed
- Headset (included) for hands free operation
- RJ11 socket

Datasheet available online

Supplied with BT plug cord.

PART NO.	DESCRIPTION	PRICE
C00-3493	TELE-MATE TM-500	106.69

TELE-MATE TM-700

The Tele-Mate TM-700 from Greenlee supersedes the Compact Pro with Caller ID. DSL compatible in both Monitor and Talk modes, the LCD screen makes testing easier than ever, and clearly shows speed dials and recent numbers for faster access.

Features:

- LCD displays: Caller ID and Call Waiting
- Dialed number
- Over-voltage conditions
- Phone status (monitor, on hook etc.)
- High impedance monitor enables use on DSL line
- 32 digit memories
- 10 x speed dial memories plus ten "last number redial" stores
- Over voltage and over current protection and warning.
- Tone and pulse dialling for versatility
- Intercom Mode
- DTMF detection and measurement
- Built in toner
- Headset included for hands-free operation
- Supplied complete with croc clip cord.

ALERT TEST TELEPHONE

Professional test butt in robust case sealed to IP67 standards and supplied with 3 year warranty.

With loudspeaker function. All the benefits of the Nautilus product range. Alert 340 now comes with DSL filters fitted as standard. No chance of disrupting traffic with the super high impedance monitorfunction or dropping DSL service by accidentally going "Off-hook". Alert 340 has Digital Services Protection (DSP).

In the "on hook" mode, on connection to a circuit, the Test Telephone sounds an alarm to alert the user to the presence of voltages above 75V DC. Such voltages are normally present on circuits carrying digital services.

Supplied with croc clip cord, compatible with cordset blocks, C00-5988, C00-7902 and C00-7903 (see page 352).

Features:

- 3 year warranty
- Digital circuit safety
- Excessive voltage alarm
- Automatic lock-out
- Loudspeaker listening
- Volume boost
- Microphone mute

DIGALERT™ TEST TELEPHONES

For complete protection of services we have increased the ability to detect new digital services offered to customers. These telephones are equipped with DSP which detects higher voltages experienced from non POTS lines, e.g. ISDN (BRI & PRI), E1 & Pair Gain systems. With Data detection we can now discriminate between POTS and DSL.

The test telephones are protected against accidental connection to high voltages. Test telephone is prevented from going "Off hook" in the presence of high voltages. Digital traffic is protected when the test telephone is "On-hook".

DigAlert™ 361 is a two way hands free version which also features an ADSL type filter that allows it to work on an ADSL line without affecting data transmission.

DigAlert™ 350 does not feature the ADSL filter.

Supplied with croc clip cord, compatible with cordset blocks, C00-5988, C00-7902 & C00-7903 (see page 352).

Features:

- 3 year warranty
- Digital circuit safety
- Excessive voltage alarm
- Automatic lock-out
- Loudspeaker listening
- Volume boost
- Microphone mute
- Confirmatory key beeps
- Talk/Monitor status LED
- Tone/pulse, redial (10 x 24 memories)

FLUKE NETWORKS TS[®]25D LCD TEST SET

The TS25D Test Set features data lockout and lockout override, making you completely safe in talk or monitor mode. The DSL/POTS filtering technology allows you to safely draw dial tone without downing DSL. A built-in analog tone generator simplifies wire identification with a probe. An amplified speaker makes monitoring the line hands-free, so you can keep working. The Talk Battery function provides voltage to carry voice conversation on non-powered pairs. Also includes Caller-ID and Call-waiting Caller-ID functions. All in a compact unit with an oversized, robust liquid crystal display (LCD) that makes the intuitive, common-sense menus easy-to-read and use.

Please see table on right for full details.

FLUKE NETWORKS TS[®]22 SERIES TEST SETS

The TS22 Series offers a unique built-in, one-way amplified speaker that provides three audio levels for hands-free listening and use with automated voice response systems. Multiple memories enable storage of nine 18-digit telephone numbers in repertory dialer (speed dialing) for easy access to test boards, the central office and other frequently called numbers. The last number redial feature eliminates the need to re-key your last entry. The TS22 test set offers an unbeatable combination of reliability, durability and expanded utility.

Please see table on right for full details.

FLUKE NETWORKS TS[®]19 TDR TEST SET

The Fluke Networks TS19 Test Set combines all the essential test set features at an affordable price.

This test set was specifically designed for in-house telecom technicians.

Its high impedance monitor prevents accidental disruption of service from clipping onto a data line while in monitor mode, thus ensuring the integrity of critical data lines.

Features such as tone (DTMF) or pulse operation, talk/monitor capabilities, polarity test button and last number redial make this test set the perfect combination of features and price.

Supplied with angled bed-of-nails connector.

Please see table on right for full details.

CORDSETS

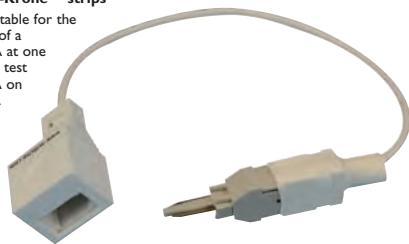

Test cordsets available in three styles to allow connection of standard 4mm banana plugs to Krone®, BT and RJ11 connectors.

PART NO.	DESCRIPTION	PRICE
C00-5988	A) TEST CORD SET BT	6.45
C00-7902	B) TEST CORD SET RJ11	7.29
C00-7903	C) TEST CORD SET KRONE®	21.49

CORDSET 6/10B 1 PLUG 244A**(2 pole) -Krone™ strips**

A Jack suitable for the insertion of a Plug 631A at one end and a test plug 244A on the other.

PART NO.	DESCRIPTION	PRICE
C29-0547	CORDSET 6/10B (2 POLE)	6.47

6/10D 440A PLUG, 1 CROC CLIP, KRONE™ STRIPS (2 POLE)

A Jack suitable for the insertion of Plug 631A on one end and a test plug on the other. In addition, an earth wire is brought out and terminated on a crocodile clip.
For use on Strips Connection 237A.

PART NO.	DESCRIPTION	PRICE
C29-0552	DISCONNECTION CORDSET 6/10D (2 POLE)	7.09

6/10D 440A PLUG, 1 CROC CLIP, KRONE STRIPS (4 POLE)

A Jack suitable for the insertion of Plug 631A on one end and a test plug on the other. In addition, an earth wire is brought out and terminated on a crocodile clip.
For use on Strips Connection 237A.

PART NO.	DESCRIPTION	PRICE
C29-0553	MONITORING CORDSET 6/10D (4 POLE)	10.02

CORDSET 6/10E 3 CROC CLIPS FOR GENERAL USE

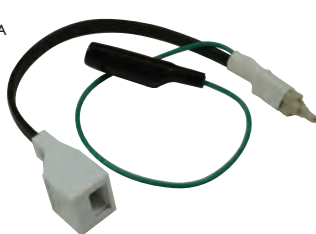

A Jack suitable for the insertion of Plug 631A on one end and three crocodile clips on the other. The third wire is for an earth connection, required for checking "Feature Calling" option.

PART NO.	DESCRIPTION	PRICE
C29-0548	CORDSET 6/10E	10.64

CORDSET 6/10K 2 POLE CORDSET

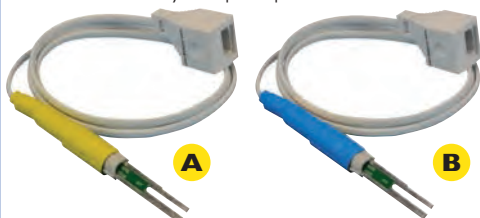

A Jack suitable for the insertion of a Plug 631A on one end and a test plug for use on low profile 10 pair Strip Connection 241B as used in Box Connections 201C.

PART NO.	DESCRIPTION	PRICE
C29-0549	CORDSET 6/10K (2 POLE)	10.34

CORDSET P 2 WAY FOR POUYET® STRIP

Test cords for use on Pouyet® 10 pair Strip Connections.

PART NO.	DESCRIPTION	PRICE
C29-0546	A) DISCONNECTION CORDSET P 2 POLE	7.59
C29-0545	B) MONITORING CORDSET P 4 POLE	7.59

CORDSETS SID

Available in 2 or 4 pole. Test cords for use on SID low-profile 10 pair Strip Connections. Earth lead allows for checking "Feature Calling" option.

PART NO.	DESCRIPTION	PRICE
C29-0551	A) DISCONNECTION CORDSET SID 2 POLE	9.64
C29-0550	B) MONITORING CORDSET SID 4 POLE	10.40

CORDSET URLS

Single pair lead for series 3 cabinet boxes.

PART NO.	DESCRIPTION	PRICE
C29-2874	3M STYLE CORDSET	14.31

CORD D94469

Test cord, open ended used on connection and disconnection modules, 2 pole single plug supplied on 1.5m.

PART NO.	DESCRIPTION	PRICE
S83-0808	CORD D94469	8.33

CORD D94470

Test cord used on connection and disconnection modules, 2 pole supplied with 2 plugs.

PART NO.	DESCRIPTION	PRICE
S83-0809	CORD D94470	15.45

CORD D94471

Test cord similar to D94469 but used on switching and disconnection modules, 4 pole.

PART NO.	DESCRIPTION	PRICE
S83-0810	CORD D94471	12.64

CORD D94473

Test cord similar to D94470 but used on switch and disconnection modules, 4 pole.

PART NO.	DESCRIPTION	PRICE
S83-0811	CORD D94473	30.33

CORD D95737

Test cord used on low profile switching and disconnection modules, 2 pole supplied with a single plug on 1.5 m cordage.

PART NO.	DESCRIPTION	PRICE
S83-0807	CORD D95737	7.00

CORD CONNECTING 4/8C

Used to test line & exchange equipment on Jacks Test 49.
It has a Plug 510A at one end and 2 plugs.

PART NO.	DESCRIPTION	PRICE
S83-3186	CORD CONNECTING 4/8C	14.00

ADAPTOR TEST 15A

A test cord for use with BIX connectors with 4mm terminals.

PART NO.	DESCRIPTION	PRICE
S83-0705	ADAPTOR TEST 15A	26.36

ADAPTOR TEST 17A

This cord set is used on 3M modules, supplied with ring terminals.

PART NO.	DESCRIPTION	PRICE
S83-0704	ADAPTOR TEST 17A	34.92

ADAPTOR TEST 48A

Test adaptor for use on old types of block terminals.

PART NO.	DESCRIPTION	PRICE

ADAPTOR TEST 51A

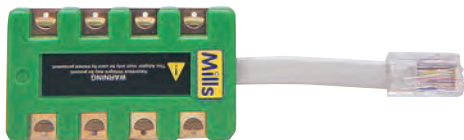

Test adaptor for use on Boc Connections 18/19A.

PART NO.	DESCRIPTION	PRICE
S83-0703	ADAPTOR TEST 51A	12.92

ADAPTOR TEST 50A

Modular adaptor RJ45. Similar to model 3A but for RJ45 modular plugs.

PART NO.	DESCRIPTION	PRICE
C00-1574	MODULAR ADAPTOR RJ45	10.33

ADAPTOR TEST 3A

Modular adaptor 3A BT plug. To make connections when no access to bare copper or terminals is available.

PART NO.	DESCRIPTION	PRICE
C00-0556	MODULAR ADAPTOR B.T. PLUG	5.29

CORDSET SA9083

Replacement cordset for use with the Tester SA9083.

PART NO.	DESCRIPTION	PRICE
C72-3535	SPARE TEST LEADS	19.09

LINE CORD 300A

Field replaceable serpentine test leads for Test Telephone.

PART NO.	DESCRIPTION	PRICE
S83-3659	LINE CORD 300A	14.80

B.T. PLUG MALE TO RJ11 FEMALE

Fusion
ELECTRONIC DESIGN

PART NO.	DESCRIPTION	PRICE
T70-2509	RJ11 FEMALE X B.T. PLUG MALE	0.68

RJ11 SOCKET TO RJ45 PLUG ADAPTOR

An adaptor to enable an RJ11 plug to be connected to an RJ45 socket. Designed specifically for use with Tone and Probe cable tracing kits that commonly have RJ11 plugs on the tone oscillators to prevent the damage that often occurs when an RJ11 plug is inserted directly into an RJ45 socket.

PART NO.	DESCRIPTION	PRICE
T70-4807	RJ11 SOCKET TO RJ45 PLUG ADAPTOR	3.95

CLIP TEST 38A

A general purpose crocodile clip.

PART NO.	DESCRIPTION	PRICE
S83-0933	CLIP TEST 38A	0.36

DSTS2 BT LEAD

Replacement BT type lead for the DSTS2 Test Telephone.

PART NO.	DESCRIPTION	PRICE
C00-5884	DSTS2 BT LEAD	6.95

BT LEAD FOR DIGALERT 350 TEST BUTT

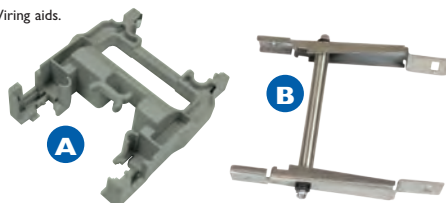

Replacement BT type lead for the DIGALERT 350 Test Telephone.

S83-3661	20DB ADSL ATTENUATOR	10.05
S83-3662	40DB ADSL ATTENUATOR	11.72

TONE AND PROBE CABLE TRACER KIT - PTS

A low cost Tone and Probe Kit designed for identifying and tracing wires or cables within a group without damaging the insulation. Supplied in a sturdy cordura twin pocket pouch, the kit comprises:-

PTS 100 Tone Tracer Probe

- Works with any oscillator 500Hz to 1.2kHz
- Sensitivity control 30dB adjustment
- Easy push button operation
- Water and dust resistant
- Built in loudspeaker

PTS 200 Mini Oscillators

- Output level – 3.0dBm + 0.3dBm
- Frequency 1004Hz + 100Hz sweep tone
- Sweep rate = 6 Hz nom
- Polarity/voltage test to >1500V at 50V
- Resistance test to >1000V

Requires two PP3 batteries

PART NO.	DESCRIPTION	PRICE
C00-1205	CABLE TRACER KIT PTS	47.20
M99-1203	PP3 BATTERY PKT I	1.98

THE NEW 'NAUTILUS' SUPER RANGE TONE TRACER SET

Probably the most heavy duty tracer in the market today. Sealed to IP67 & designed to meet the needs of organisations operating large copper networks & committed to improving service delivery & reducing whole life costs.

N.B: Tone generator requires 4XAA Alkali batteries and Probe requires 1X PP3 9V battery.

The only fully waterproof Tone and Probe on the market.

British Telecom approved (Amp 109J & Oscillator 87J).

CATV CABLE TONE TEST SET

Designed specifically for the CATV industry. Now you can tone through splitters, directional couplers and traps. No more long delays trying to figure out non-tagged or mis-tagged cable drops.

- Transmitter and receiver are equipped with female F-connectors
- Kit provides both audible and LED test and tone indications
- As a continuity tester, the product provides both audible tone and LED display to indicate resistance levels
- Identifies the presence of AC or DC voltage on the cable under test
- Each kit contains: one transmitter, one receiver, one male F-to-F connector adaptor cable, one male F-to-alligator clip adapter cable, and a carrying pouch
- 1-year warranty
- Battery-operated (2 x 9V not included)

LAN TONE AND PROBE KIT

This kit can be used on any wiring system including Datacom, Telecom, Security/Alarm, Audio and CATV. Designed for network installation and maintenance, the LAN Toner has the unique feature of sending tone in addition to blinking hub, switch port, and PC activity lights for fast identification.

- Trace wires and perform basic testing on LAN cabling
- Blink Hub, Switch Port and PC activity lights for fast identification
- Tone Generator and modular breakout adaptor
- Send tone, check continuity and test polarity on any pair
- Adjustable volume probe with visual signal indicator
- Special probe tip protects against damage to sensitive electronics

PART NO.	DESCRIPTION	PRICE
C00-8935	LAN TONE AND PROBE KIT	141.40

SECURITY & ALARM TRACING KIT

- Traces Security and Alarm wiring for easy identification
- The choice of industry professionals
- Quickly confirms switch function
- Locate intermittent faults

Designed specifically for the Security and Alarm industry, this kit offers convenience, ease of use, and true performance. As a Continuity tester, it can be connected to a normally open or normally closed loop pair and provides a distinct audible tone when the alarm condition occurs.

The Latching feature provides a simple method for identifying intermittent failures and confirming operation of switches at remote locations. In the latching mode the tracer will latch the alarm condition and continue sounding until the tester is reset.

As a tone generator, the unit provides a traditional variable tone that can be applied using the 24" test leads or the RJ11 connector.

A convenient magnetic plate allows the product to be mounted directly to the control panel cabinet or door.

TESTER 132J KIT

Designed for tracing UG cable and pair ID.

Kit includes:

- Tone Generator 600J
- Amplifier 109K
- Headset Receiver 17A
- Probes (Inductive & Capacitive)
- Adaptor and Cable.

AS SUPPLIED TO BT

PART NO.	DESCRIPTION	PRICE
C00-1331	TESTER 132J KIT	284.68

A) RECEIVER HEADGEAR 17A

Lightweight & robust headset delivers audio signals from Amplifier 109K & 500J to the user. Used with Tester 132J.

B) HEADSET 7A

Active headset enables hands free operation for cable joiners when used with Field Telephone (Tapper) during cable change over.

PART NO.	DESCRIPTION	PRICE
C00-3663	A) RECEIVER HEADGEAR 17A	20.15
C00-3664	B) HEADSET 7A	36.48

INDUCTIVE SEARCH COIL 3A

Coil tuned to 1kHz frequency of 87J.

Designed to give Null when held vertically over target cable.

Excellent for: • Tracing UG cable routes • Cable verification

Used with Tester 132J.

PART NO.	DESCRIPTION	PRICE
C00-3665	INDUCTIVE SEARCH COIL 3A	52.76

COAXIAL CONNECTING CORD

Connects the search coil/probe to the amplifier.

Quality RF connectors eliminate unwanted noise from reaching headset. Used with Tester 132J.

PART NO.	DESCRIPTION	PRICE
C00-3666	COAXIAL CONNECTING CORD	10.58

FLUKE NETWORKS PRO3000™ ANALOGUE TONE AND PROBE

Pro3000 Analogue Tone and Probe Kit tones and traces wire.

- Tone and trace wire on non-active networks
- SmartTone™ technology provides five distinct tones for exact pair identification
- Sends loud tone up to 10 miles (16 kilometers) on most cables
- Loud speaker on Probe makes the tone easier to hear through drywall, wood, and other enclosures
- Angled bed-of-nails clips allow easy access to individual pairs
- RJ-11 connector is ideal for use on telephone jacks
- Attach the nylon pouch (included in kit) to your belt for easy transport
- Lights for fast identification

FLUKE NETWORKS INTELLITONE™ PRO 200 LAN TONER AND PROBE

The IntelliTone Pro 200 LAN Toner and Probe Series from Fluke Networks is the first network cable toner and probe to offer digital and analog signaling all in one tool. The IntelliTone Pro 200 LAN Toner and Probe Series from Fluke Networks gives you superior vision for locating cables hidden in floors, ceilings, walls, and in bundles. Its breakthrough digital technology makes it the first tool to tone and trace safely and effectively on active networks.

- Ends cable location confusion - decisively rejects noise and false signals
- Locates cables on active networks - even when terminated at a switch
- Isolates cable and wiring within a bundle despite cable bleed
- Confirms cable location, verifies continuity, and detects faults (opens, shorts, and reversed pairs) in one step

SmartTone® analogue toning technology:

- Isolates individual wire pairs precisely by changing tone when shorted
- Effectively traces and locates voice, audio, and video cabling

NG HARRIER BASIC RATE ISDN TESTER

The NG Harrier is a two part test system that overcomes the complexity associated with installing, commissioning and maintaining ISDN circuits.

The PC software component commands the hand held test instrument to comprehensively test an ISDN installation and store the results. The displayed information on the tests and how they relate to the ISDN service virtually eliminates the need for training.

The hand held unit can operate independently of the PC to allow quick verification of the U-interface, S/T-interface and the derived POTS interface.

- Hover Help system
- Active buttons
- Automatic testing scripts
- Automatic access detection
- Signal level measurement
- PC or hand held operation
- One key voltage and signal level measurement
- Measurement of round trip delay and inter-channel delay

Can be used in conjunction with a laptop (not included)

PART NO.	DESCRIPTION

POCKET COAX TESTER

The pocket coaxial tester is designed to assist in fault finding, cable identification and DC continuity testing in coaxial cables. It will also indicate if a coax cable has a DC supply present (warning: max voltage 18Volts DC).

The tester has a two part body. The main body has a push-on F-connector to allow fast connection and disconnection. A red LED indicates if a short circuit is present on the cable under test. An F-barrel adaptor converts the tester for testing F-type plugs. The detachable sounder can be connected to the remote end of the cable and generates a tone when a DC voltage is present.

- Tests coax cables
- Push-on connector for quick and simple testing
- Detachable sounder
- Pocket clip
- Battery included

PART NO.	DESCRIPTION	PRICE
C00-8780	POCKET COAX TESTER	12.83

TELSCOUT TS90 TDR CABLE TESTER FOR TELEPHONE APPLICATIONS

Designed specifically for telephone local loop applications, the TS90 applies the newest technology to provide both ease of use and telephony performance that cannot be found in any other TDR. The TS90 is designed for ease-of-use – you'll spend less time operating the TDR, and more time repairing faults. Simply select the cable type to be tested and the TS90 does the rest. Impedance, Vp, gain, pulse width, and vertical position are automatically selected and adjusted as you scan the cable. Just move the cursor to the fault to pinpoint its location.

On the performance side, the TS90 employs optimized pulsing and sampling, coupled with advanced filtering and signal processing techniques, to ensure the maximum measurement range. That way, you'll always have a clean waveform for easier fault interpretation.

The TS90 provides a 5 ns pulse width for close-in resolution. Faults as near as 3 ft. from the pedestal can be located with ease.

FAULTCASTER

Digital TDR Cable Length Meter & Fault Locator - Ideal for stock checking!

- Low cost full specification Professional Digital TDR
- Measures distance to open or short circuit faults
- Extended measuring range to 2000m (6000ft) on all cable types
- Fast-edge step TDR technology for improved range and resolution
- Voltage warning and test inhibit
- Built in tone generation for pair tracing and identification
- Rugged and compact – 350g (12 oz) water and dust proof to IP54
- Complete with tool-belt holster and test leads

C00-1340	TX6000 CABLE FAULT LOCATOR/TDR	653.85

TX2003 TDR - TIME DOMAIN REFLECTOMETER AND TONER CABLE FAULT LOCATION

The TX2003, 6k (19,000ft) range Time Domain Reflectometer weighing only 350 grams (13oz) fits neatly into the hand. With its 128x64 pixel backlight, scratch resistant display, provides accurate and easy to read fault locations on metallic cables. With a 3 nano second pulse, rise time "near end" cable faults can be clearly identified without the need to suppress the transmitted pulse. Housed in a rugged IP54 rated ABS enclosure, the TX2003 is suitable for outside use.

Using pre determined gain and pulse widths for each range setting and with only 4 control buttons, all major operating and setting parameters can be easily accessed. A 6km cable run can be scanned in seconds, allowing the operator a view of the cable run, yet arriving quickly to the fault. By using the TX2003 scan lock facility, the cable can be continually scanned or the trace held for closer analysis. To enable the TX2003 to test all metallic cables, four user selectable output impedances are provided 25, 50, 75 & 100 ohms.

Faulty cables may be traced using the TX2003 warble tone feature - an oscillating tone is injected into the suspect power or transmission line and by using a commercially available tone tracing probe, the suspect line can be identified.

- 6 km (19,000ft)
- 0.5mtr Dead Zone
- Selectable Cable Impedance
- Warble Tone Generator
- Rapid Fault Location
- Large 128x64 LCD with Backlight
- Scratch Resistant Display
- Scan Lock
- Environmental Protection IP54
- CE Approved
- 3yrs Manufacturers Warranty
- 60 Hours Battery Life
- Includes Soft bag & Test Leads

FLUKE NETWORKS POCKET TONER®

The Pocket Toner® connects to any voice, data, or video cable to detect open/short circuits, continuity, AC/DC voltage* and dial tone* all while protecting up to 52 volts. All of the Pocket Toners have dual audible indicators in the main body and detachable buzzer toner units, removable push on connectors, auto shut-off and easy-to-read indicators.

- Low-voltage circuit protection for both the unit and the detachable toner
- Dual audible indicators in the main body and detachable buzzer toner units
- Auto shut-off
- Easy-to-read indicators; removable push-on connectors
- Male and female adaptable toner section
- Lightweight, durable anodized aluminum body

Model	Description
PTNX1	Identify and test low-voltage, singular coax cables for continuity, opens/shorts and 50-75 Ω termination. Low-voltage protection up to 52 volts. Kit includes NX1 unit, toner, F-type (M-push, Speed 81™) adapters and 1 x AAA battery
PTNX2	All the features of the NX1 plus AC/DC voltage detection- all in an easy-to-read LCD. Kit includes NX2 unit, toner, F-type (M-push, Speed 81) adapters and 1 x AAA battery
PTNX2-DLX	All the NX2 features. Kit includes NX2 unit, toner, 66 block adapter, RJ-11 adapter, RJ-45 adapter, Dial Tone Detective™, alligator clips with RJ-45 adapter, F-type (F, 9-M-push, M-71, Speed 81) adapters, RCA (M, F) adapters, BNC (M, F) adapters, 1 x AAA battery and deluxe case with belt clip
PTNX2-CABLE	All the NX2 features. Kit includes NX2 unit, toner, alligator clips adapter, F-type (F, M-push, M-71, Speed 81) adapters, 1 x AAA battery and small canvas case
PTNX8	All the features of the NX1 and NX2 plus the ability to test up to 8 cables at once. NX8 unit, toner, F-type (M-push, Speed 81) adapters, 1 x AAA battery and deluxe case with belt clip
PTNX8-CABLE	All the NX8 features. Kit includes NX8 unit, toner, 8 ID caps, alligator clips, F-type (F, 9-M-push, M-71, Speed 81) adapters, 1 x AAA battery and deluxe case with belt clip
PTNX8-CT	All the NX8 features. Kit includes NX8 unit, toner, 8 ID caps, 66 block adapter, RJ-11 adapter, Dial Tone Detective, alligator clips with RJ-11 adapter, F-type (F, 9-M-push, M-71, Speed 81) adapters, 1 x AAA battery and deluxe case with belt clip
PTNX8-DLX	All the NX8 features. Kit includes NX8 unit, toner, 8 ID caps, 66 block adapter, RJ-11 adapter, RJ-45 adapter, Dial Tone Detective, alligator clips with RJ-45 adapter, F-type (F, 9-M-push, M-71, Speed 81) adapters, RCA (M, F) adapters, BNC (M, F) adapters, 1 x AAA battery and deluxe case with belt clip
PTNX8-VV-PRO	All the NX8 features. Kit includes NX8 unit, toner, 8 ID caps, 66 block adapter, 8-RJ-11 adapters, RJ-45 adapter, Dial Tone Detective, alligator clips w/ RJ-11 adapter and RJ-45 adapter, F-type (F, 9-M-push, M-71, Speed 81) adapters, RCA (M, F) adapters, BNC (M, F) adapters, 1 x AAA battery and deluxe case with belt clip
ADAP-PTNX-KIT	Alligator clips and RJ-45 adapter, alligator clips and RJ-11 adapter, Dial Tone Detective, RJ-11 adapter, 66 block adapter, RJ-45 adapter, F-type (F, M-Push, M-71, Speed 81) connectors, RCA (M, F) connectors, BNC (M, F) connectors and 2-wire clip adapter
CASE-PTNX-SM	Small case
CASE-PTNX-LG	Large case
PTNX8-ID-1-8	8-ID caps
ADAP-PTNX-RJ11	8 RJ-11 adapters
ADAP-PTNX-RJ45	8 RJ-45 adapters
ADAP-PTNX-TNR	1 Toner

FLUKE NETWORKS TS®90/TS® 100 CABLE FAULT FINDER

Fluke Networks' cable fault finders are easy-to-use, three-in-one testers: a fault locator, a cable inventory manager and a toner with SmartTone® technology. Easily find the distance to opens or shorts on electrical wire, telephone wire, security wire and coax. Displays distance reading rather than waveform.

- TS90 works on any two or more conductor cables up to 2,500 feet
- TS100 works on any two or more conductor cables up to 3,000 feet (metric unit also available)
- Instantly measures distance to open or short from one end of any cable pair
- Patented SmartTone® tone generator positively identifies pair
- Measures cable distance on spool
- Measures constantly while "on"

Model	Description
26500000	TS100 Cable Fault Finder, BNC alligator clip
26500090	TS90 cable fault finder with BNC to alligator clips
26501100	TS90/TS100 line cord, BNC to alligator clip
26501160	TS90/TS100 pouch with belt clip
26501700	TS90/TS100 line cord, BNC to banana to ABN

FLUKE NETWORKS TS®100 PRO CABLE FAULT FINDER

Invest in the right tool for all your technicians. The new TS100 PRO Cable Fault Finder with PowerBT™ Bridge Tap Detect is a telecom technician's first line of defense against bridge taps on a subscriber's line. Because a bridge tap is a significant source of DSL network performance problems due to unwanted signal reflectance, it needs to be identified and fixed quickly before the problem causes customer attrition. The TS100 PRO can accurately locate multiple bridge taps in seconds on up to 3,200 feet of cable with the touch of a button.

- Bridge tap detection for xDSL pre-qualification on up to 3,200 feet (975 meters)
- Tests opens and shorts up to 8,000 feet (2.4 kilometers)
- Sees past bridge taps to the end of the cable
- Patented SmartTone® tone generator with five different tones for exact pair identification
- Built-in TDR and toner
- AC/DC voltage detection and digital read out

Model	Description
TS100-PRO-BT-TDR	TS100 PRO Cable Fault Finder TDR Kit with Bridge Tap Detect
LEAD-ABNP-100	Test lead with angled-bed-of-nails and piercing pin. Compatible with the TS100 and TS100 PRO
CASE-TS100	TS100/TS100PRO pouch with Fluke Networks' logo
LEAD-ALIG-100	Test lead with alligator clips. Compatible with the TS100 and TS100 PRO
LEAD-ABN-100	Test lead with angled-bed-of-nails. Compatible with the TS100 and TS100 PRO

TEST
EQUIPMENT

STRUCTURED CABLE TESTERS

A) Mills Structured Cable Tester.

A simple-to-use structured cabling tester which tests for shorted pairs, open pairs, crossed pairs, reversed pairs and indicates results with continually sequencing, bi-colour LEDs on both master and remote.

Two screened RJ45 sockets are provided, one wired for TIA468 A and B systems and the other for USOC.

B) Low Cost Cable Tester. Quickly and easily check for cable continuity, miswiring, open, short, straight-through or cross-wiring. Ideal for UTP, STP and coaxial cables.

C00-5816	B) LOW COST CABLE TESTER	10.38

MILLS LANCASTER™ 1000 STRUCTURED CABLE TESTER AND WIRE MAP CERTIFIER

The LanCaster™ 1000 displays on-screen wiring configurations showing the length of all 4 pairs and length of pair to fault up to 150 metres (500').

The LanCaster™ 1000 will store up to 1000 test results which can then be downloaded to PC using the LanCaster™ 1000 software (provided). Test results can then be customised with your corporate identity and certificates produced displaying the customer's location/job, length, cable VP and testing standard.

The 1000 comes complete with one intelligent remote office identifier, with a further 15 units available as optional accessories. Unlike far end units on competitor products the LanCaster™ remotes are intelligent and indicate if a test has passed or failed.

Now USB Plug n Play!

- Dimensions 165 x 90 x 37mm
- Weight 350g
- Uses 4 x AA batteries (Provided)

The kit comprises:

- LanCaster™ Cable Tester
- 1 x remote unit
- 2 x RJ45 patch leads
- 4 x AA batteries
- Full instructions

C00-1330	NETCAT® MICRO WIRING TESTER	86.42

NETCAT® PRO 2

The NETcat Pro 2 is a digital tool for fast, accurate checking of cables, wiring and network service. The NETcat Pro 2 can be purchased with one remote or in a case c/w 7 additional remotes.

Product Features:

- Touch screen display with contrast adjustment and backlight
- Tests shielded twisted pair (STP) unshielded twisted pair (UTP) and coaxial cables.
- 0-2000 foot cable length via TDR
- Generates four distinct, precision tones for tracing low-loss cables like Cat 5e.
- Identifies active network devices (PC or Hub) on 10/100 Base-T networks.
- Patch cable and remote jack wire-map
- Detects shorts, opens, reversed, crossed and split pairs

Dimensions:

35 x 170 x 85mm

Weight: 200g

Power Source:

PP3 9V alkaline battery (included).

MT-8200-49A	MicroMapper and MicroMapper Remote, patch cable, 6-volt alkaline battery and user guide

MICROSCANNER2 CABLE VERIFIER

Next generation MicroScanner streamlines voice/data/video cable and service testing. The user interface makes testing fast, easy, and crystal clear. Everything cable technicians need to know, including available services (10/100/1000 Ethernet, POTS, PoE voltage), cable length, wiremap, cable ID, and distance to fault all are displayed on one oversized backlit screen. Replace multiple tools by testing all RJ-11, RJ-45, and coax (F) media with no adapters. Built-in IntelliTone™ digital and analog toning precisely locates virtually any cable or wire pair – even on active networks. Ergonomic design features sleek rubber over mold to enhance grip and ruggedness. Includes carry case.

- Displays cable length, wiremap, cable ID, and distance to fault on one screen
- Detects today's media services, including 10/100/1000 Ethernet, POTS, and PoE
- Locates virtually any cable or wire pair with IntelliTone digital and analog toning

FLUKE NETWORKS CABLEIQ™ QUALIFICATION TESTER

CableIQ network cable qualification test tool is designed for network technicians who need to troubleshoot connectivity problems and qualify cabling bandwidth. It detects speed and duplex settings of attached switches and PCs. Intelligent wiremap graphically shows distance to faults (e.g.: pin 1 break at 37 ft). Lightweight, rugged, reliable unit tests all copper cabling. Its ease and power helps you close trouble tickets faster and ensure smooth upgrades to higher network speeds.

- Sees if your existing cabling can support voice, VoIP, 10/100/Gigabit Ethernet
- Troubleshoots why existing cabling plant can't support the desired network bandwidth
- Discovers what's at the end of any cable and displays device configuration (speed/duplex/pairing)
- Frees up switch ports and identifies unused links
- Graphically maps wiring configuration and shows distance to faults, graphical wire mapping, opens, and shorts.
- Locates and traces cable with IntelliTone™ digital signaling technology

Model	Description
CIQ-100	CableIQ with remote adapter, soft carrying case and four AA batteries
CIQ-KIT	CableIQ main unit, eight remote adapters, Reporter software, IntelliTone 200 Digital Probe, (2) RJ45-RJ45 patch cords, USB cable, coax 'F' push-on adapter, 75-ohm coax patch cord, RJ45/11 universal coupler, RJ11-RJ11 patch cord, four AA batteries, and hard carry case
CIQ-KRQ	CableIQ, RJ-45 patch cord (2), RJ-11 patch cord (2), bare wire adapter, speaker wire adapter, coax cable, coax BNC adapter, coax RCA adapter, "Qualified" labels (50) and a soft carrying case
CIQ-FTKSFP	Copper and Fibre Technician's Kit—includes the CableIQ (CIQ-KIT) and SimpliFiber Pro (FTK1000) Fibre Test Kit. See Photo

FLUKE networks. VERSIV™

Versiv™ Cable Certification System

Versiv users report spending 1/3 the time on testing and reporting, cutting the total cost of a job by 10%.

Certifying a cable is one part of a process that starts with design of a structured cabling system and ends with systems acceptance. The faster that process goes, the more profitable you'll be. Unfortunately, there are a lot of things that slow the process down – testing to the wrong limits, waiting for lead technicians to set up or troubleshoot, and discovering that you have incomplete results after your team has left the construction site.

Research shows that over 90% of contractors report dealing with issues related to set-up, testing, and reporting every month. It adds up to a week of wasted labour on a typical 1,000 drop job.

Versiv is designed to eradicate these problems. Its ProjX™ System manages job requirements and progress from setup to systems acceptance, making sure all tests are completed correctly. The Taptive™ User Interface simplifies set up, eliminates errors and speeds troubleshooting. The LinkWare™ Live cloud service gives you visibility and control of the whole process: you can set up and track your testers and inspect results from any mobile device while the job is in process. It even lets you upload and integrate results from multiple testers at multiple jobsites so you can quickly generate reports with the de-facto industry standard LinkWare PC.

Eliminate the problems, get jobs done faster, and make money every time you use Versiv.

Versiv™ Saves You Money.*

FLUKE NETWORKS DSX-5000 CABLEANALYZER™

The DSX-5000 CableAnalyzer improves the efficiency of copper certification with unmatched speed for testing Cat 6A and Class FA while meeting IEC Level V—the most stringent accuracy requirement.

The ProjX Management System ensures jobs are done correctly the first time and helps track progress from set-up to systems acceptance. Taptive user interface troubleshoots faults faster by graphically indicating the source of failures including crosstalk, return loss, and shield faults. Analyze test results and create professional test reports using LinkWare™ Cable Test Management Software.

Fluke Networks' DSX-5000 CableAnalyzer is Intertek (ETL) Verified in accordance with the IEC 61935-1 specifications for accuracy Level IIIe, IV, and Level V, and in accordance with the ANSI/TIA-1152 specifications for Level IIIe.

- Versiv™ modular design supports copper certification, fibre loss, and OTDR testing
- Taptive™ user interface simplifies set-up, and eliminates errors
- Manage and track testers, setups and results, and generate reports with LinkWare PC and Linkware Live
- Endorsed by more than 28 cabling manufacturers worldwide
- Alien Crosstalk testing capability included

FLUKE NETWORKS DSX-8000 CABLEANALYZER™ THE WORLD'S FIRST CERTIFIED CATEGORY 8 FIELD TESTER

The DSX-8000 CableAnalyzer is the first field tester independently certified and endorsed to meet all the requirements for the Category 8 field testing standard. The DSX-8000 is the latest addition to the Versiv™ Cable Certification Family, continuing the Fluke Networks tradition of designing products to help data communications installers more quickly, accurately and profitably achieve system acceptance for copper and fibre jobs. The Fluke Networks DSX-8000 CableAnalyzer has been confirmed by Intertek to meet the ANSI/TIA-1152-A Level 2G requirements for measurement accuracy.

With the launch of a field tester, designers and installers now have the tools they need to deploy Cat 8 in support of 25 and 40 gigabit Ethernet networks.

Features:

- The first Permanent Link and Channel adapters with a full 2 GHz range, allowing field certification of TIA Cat 5 through 8 and ISO/IEC Class C through FA and I/II
- The first tester to be endorsed by Cat 8 cabling manufacturers. One of the main reasons for certifying installed cabling is to obtain a manufacturer's warranty. Without their endorsement, the certification is of no use for this purpose.
- Manage and track testers, setups and results, and generate reports with LinkWare PC and Linkware Live
- The first tester independently verified to meet the ANSI/TIA-1152-A Level 2G requirements for measurement accuracy required for Cat 8 testers.
- The first tester (along with the DSX-5000) to test screen continuity along the path of the cabling as required for Level 2G testers

AUTORANGING MULTIMETER

The Martindale MM39 multimeter is autoranging and features a large rotary knob for easy selection of the required test, even when wearing gloves.

There are two additional buttons, one to lock the range and the other to hold the result on the display. The multimeter functions include DC Volts, AC Volts, AC Amps, Ohms, Continuity with Audible Indication and Diode Test.

Each MM39 multimeter is supplied with standard test leads, batteries, protective rubber holster and instruction manual.

- AC Voltage: 0.1mV to 600V (5 ranges), 50Hz - 500Hz
- DC Voltage: 0.1mV to 600V (5 ranges)
- AC Current: 0.01A to 10A, 50Hz to 500Hz
- DC Current: 0.01A - 10A
- Resistance: 0.1Ω to 20MΩ (6 ranges)
- Continuity Buzz at <250

General Specifications

- 3 1/2 digit LCD display
- Auto polarity & zero
- Data hold
- Diode test
- Overvoltage: CAT III 600V
- Dimensions: 143 x 68 x 47mm
- Weight: 315g approx

HANDYPAT 500

The Martindale HPAT500 is a fantastic, portable, battery operated low volume PAT tester.

It offers ease of use, combined with the legal minimum requirement for the testing of class 1 & class 2 appliances, as well as IEC & extension leads.

With one-button test selection, the HPAT500 PAT tester is fast and gives test results with a pass / fail indication.

The HPAT500 includes a built-in battery charger, and is supplied with rechargeable batteries, giving it a clear advantage over the competition.

Each HPAT500 is supplied with earth bond probe & croc clip, rechargeable NiMH batteries, mains battery charger, extension lead adaptor, soft carry case and instruction manual.

Dimensions : (without holster)
210mm(H) 90mm(W) 54mm(D)
Weight : (with battery) 700g.

TRUE RMS DIGITAL MULTIMETER

The MM68 is a True RMS digital multimeter which measures AC voltage up to 750V, DC voltage up to 1000V and both AC and DC current up to 10A.

It measures frequency, capacitance, resistance, and also has duty cycle, diode test and an audible continuity test which sounds at less than 100Ω. The 4 1/2 digit LCD screen displays the results as values and on a 22 segment analogue bar graph. The MM68 also has an auto-power off feature and on screen low battery indication.

This meter comprises -

- 4 1/2 digit LCD display
- AC V : 0.1mV - 750V True RMS
- AC A : 0.01A - 10A True RMS
- DC V : 0.1mV - 1000V
- DC A : 0.01A - 10A
- Ohms: 0.1Ω - 220MΩ
- Continuity: Buzz at < 100Ω
- Diode Test
- Frequency: 0.01Hz - 22MHz
- Dimensions: 165mm (H) x 78mm (W) x 42.5mm (D)
- Weight: 285g
- Includes: Test leads, magnetic strap, battery, spare fuse and user manual

IEC 1010 CAT III

GREENLEE DM-810A MULTIMETER

True RMS, autoranging, digital hand held meter with a 3 - 5 1/2 digit, 5000 count, liquid crystal backlit display with bar graph. Meter comes complete with carry case and GS38 test leads, including probes, fused at 10A.

- Voltage Measurement: 60mV to 1000V AC/DC
- Amperage Measurement: 600mA to 10A AC/DC
- Resistance: 600Ω to 60MΩ
- Frequency (Hz): 40 - 500
- Measurement Category: Cat IV 1000V
- Auto and manual ranging
- True RMS
- High visibility 10000 count LCD dual digital display
- Beep-Jack™ audible and visible warning to guard against improper A and mA terminal plug in
- Capacitance measurement capability
- Intelligent auto-power off, display backlight, analogue bar graph
- PC interface capability using optional USB RS-232 cable with data recording PC software

COMMERCIAL EQUIVALENT TO BT "METER MULTIFUNCTION 1B"

PART NO.	DESCRIPTION	PRICE
C00-3671	GREENLEE DM-810A MULTIMETER	144.91

EARTH LEAKAGE CLAMP METER WITH POWER FUNCTIONS

The MD 9240 is a high-quality and extremely easy to handle power clamp meter. The current clamp enables TRMS AC current measurement up to 1000 A, single-phase power analysis, DC, AC voltage measurement, temperature measurement and more.

Test functions

- DC and TRMS AC voltage up to 600 V
- TRMS AC current measurement up to 1000 A
- Resistance measurement
- Continuity test
- Frequency measurement
- Contact temperature measurement
- Power factor
- Power (W, VA, Var)

Includes

- Current clamp MD 9240
- Test lead with probe, 2 pcs
- Temperature probe, type K
- 1.5 V battery, type AAA, 2 pcs
- Pouch
- Instruction manual
- Warranty

NEW!

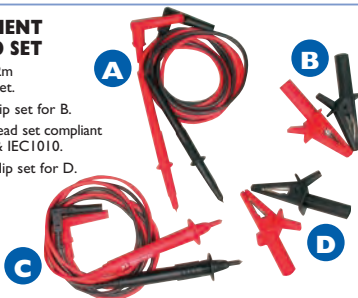

Dimensions (w x h x l): 78 x 40 x 224 mm.
Mass (without accessories): 224g.

REPLACEMENT TEST LEAD SET

- A) Standard 1.2m fixed prod set.
B) Crocodile clip set for B.
C) Fused test lead set compliant with GS38 & IEC1010.
D) Crocodile clip set for D.

PART NO.	DESCRIPTION	PRICE
C46-1071	A) STANDARD 1.2M FIXED PROD SET	5.85
C46-1072	B) CROCODILE CLIP SET	7.48
C46-1075	C) FUSED TEST LEAD SET GS38	22.38
C46-1076	D) CROCODILE CLIP SET	11.15

SAFETY VOLTAGE INDICATOR

GS38 compliant contact voltage indicator rapidly and safely checks for AC and DC voltages from 50V to 600V. Bright neon indicators give clear and immediate display of voltage level range.

PART NO.	DESCRIPTION	PRICE
C50-7828	SAFETY VOLTAGE INDICATOR	44.67

TRUE RMS 1500A AC/DC CLAMP METER

The CM87 is a high specification True RMS clamp meter, packed full of functions for the installation, testing and maintenance of domestic and industrial installations. This robust clamp meter provides True RMS measurement of AC current up to 1500A and AC voltage to 750V. It will also measure DC current to 2000A and DC voltage to 1000V.

The meter comprises -

- Large size clamp meter
- True RMS technology ensures accuracy on irregular waveforms
- Tests AC current to 1500A and DC current to 2000A
- AC voltage to 750V and DC current to 1000V
- Resistance levels to 66MΩ
- Capacitance to 6.6mF
- Frequency to 1MHz
- Duty cycle from 5 to 95%
- Temperature measurement up to 1000°C
- Diode test & 660Ω continuity test
- 6600 count LCD display with bargraph
- CAT IV 600V and CAT III 1000V rated (or CAT II 1000V rated with probe tip caps removed)
- Includes test leads, thermocouple, case, battery and user manual

NEW!

PART NO.	DESCRIPTION	PRICE
C72-4991	TRUE RMS CLAMP METER	236.79
C00-0006	STANDARD CALIBRATION	36.56

A) NON-CONTACT VOLTAGE DETECTOR

A pocket sized AC line voltage detector. Easy to use – just touch the tip to an outlet or wire and a bright LED and audible alarm indicate the presence of AC voltage up to 1000V.

- Detects 50-1000V AC
- Convenient pen-style fits in shirt pocket
- Measurement category IEC 61010-1 CAT IV, 1000 V
- Uses 2 x 1.5V AAA batteries (included)

A

B) DV25 POCKET SIZE AC VOLTAGE DETECTOR WITH FLASHLIGHT

Features:

- Non-contact detection of AC Voltage with 2 ranges: 24 - 1000V AC and 100 - 1000V AC
- For use on 50/60Hz circuits
- Audible and Visual voltage indication
- Built-in bright flashlight with On/Off button
- Rugged double-moulded housing
- Tip fits into outlets or against wire insulation testing

B

PART NO.	DESCRIPTION	PRICE

CHECK PLUGS

- A) Simply plug into a live 13A socket & the check plug will show whether or not the socket is correctly wired. Fault indicators are instantly identified using the key on the face label.

- B) As Model A but with audible indicator

- C) Earth loop indicator with voltage and wiring checks. Gives earth loop impedance checking without tripping RCDs.

C

C50-1224	A) SOCKET CHECK PLUG	10.12
C50-1613	B) BUZZITT AUDIBLE INDICATOR CHECK PLUG	15.35
C50-7832	C) NON-TRIP EARTH LOOP CHECK PLUG	52.93

INFRARED GUN TYPE THERMOMETER

- This pistol style infrared thermometer has a laser marker to ensure accurate spot measurement. The display can show temperatures in Fahrenheit or Celsius.
- Temperature Range: -30°C to 550°C / -22°F to 1022°F
 - Display Resolution: 0.5/1°C (Auto), 1°F
 - Display: 3½ digit liquid crystal display (LCD) with maximum reading of 1999
 - Low battery indication
 - Auto power off: 10 seconds, can be disabled.
 - Standby current consumption: <5µA
 - MAX, MIN record function
 - Display with back-light
 - Battery: Standard 9V battery (PP3, NEDA 1604, IEC6F22006P)
 - Dimensions: 148mm(H) x 105mm(W) x 42mm(D)
 - Weight: approx. 157g (including battery)

STRAPS CABLE FIXING

Supplied in packs of 100 with the exception of 10A Black which is supplied in packs of 50.

PART NO.	DESCRIPTION	PRICE
S83-2704	1C NATURAL 100MM X 2.5MM (T18R)	0.60
S83-2703	1C BLACK 100MM X 2.5MM (T18R)	0.90
S83-2929	1A NATURAL 270MM X 4.8MM (LK2A)	2.50
S83-0904	1A BLACK 270MM X 4.8MM (LK2A)	2.50
S83-0896	10A BLACK 540MM X 13.0MM (LK5B)	12.31

CABLE TIE BASE

Self adhesive cable tie mounting bases designed for holding heavier cable bundles offering very secure fixing, allowing 4 way entry for cable ties. Available in black.

Supplied in packs of 50, except for S83-3902 MB5A which are supplied in packs of 100.

PART NO.	DESCRIPTION	SIZE (MM)	STRAP WIDTH (MAX)	PRICE
S83-3899	MB2A	13 X 13	2.7MM	4.35
S83-3900	MB3A	19 X 19	4.1MM	14.85
S83-3901	MB4A	28 X 28	5.4MM	4.68
S83-3902	MB5A	38 X 38	10MM	49.00

TAG MARKER

An identification tag used to identify cable and cable runs. It can be fastened to cables using cable ties up to 4.6mm wide. Tag Marker 1A is 63mm long and accommodates up to 8 collet Markers. Tag Marker 2A is 100mm long and accommodates up to 14 Collet Markers. Supplied in packs of 100, in black or natural colour.

Supplied in packs of 100.

PART NO.	DESCRIPTION	PRICE
S83-3907	TAG MARKER 1A BLACK	5.46
S83-3908	TAG MARKER 1A NATURAL	5.46
S83-3909	TAG MARKER 2A BLACK	5.88
S83-3910	TAG MARKER 2A NATURAL	5.88

STRAP CABLE FIXING I (RSI)

Bobble cable tie, ideal for label holder. Size 110mm x 2mm.

Supplied in packs of 100.

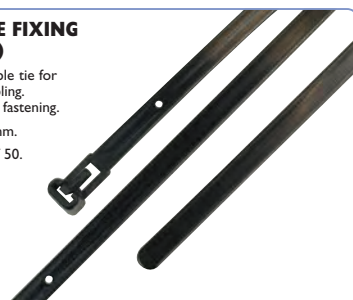

PART NO.	DESCRIPTION	PRICE
S83-2930	STRAP CABLE FIXING (RSI)	7.10

STRAP CABLE FIXING 12A (REL180)

Black, releasable cable tie for use in overhead cabling. Ideal for temporary fastening.

Size: 180mm x 7.5mm.

Supplied in packs of 50.

PART NO.	DESCRIPTION	PRICE
S83-0886	STRAP CABLE FIXING 12A (REL180)	3.05

CABLE TIE FIXING

Used with up to 9mm wide cable ties to secure cable or pipe runs to brick, concrete or wood. Installed by knocking into 7mm to 8mm diameter holes. The LOK01B is designed for soft brickwork and 6mm holes.

Supplied in packs of 100.

PART NO.	DESCRIPTION	PRICE
S83-3903	CABLE TIE FIXING LOK01 44 X 12MM	12.57
S83-3904	CABLE TIE FIXING LOK01B 30 X 12MM	8.72

TENSIONERS (CABLE TIES)

Low cost plastic & metal cable tie tensioning tools. Suitable for various cable tie sizes.

PART NO.	DESCRIPTION	PRICE
S83-0945	TENSIONER 5A (PLASTIC) 2.4 - 4.6	10.50
S83-0853	TENSIONER 7A (PLASTIC) 4.6 - 7.6	26.11

CABLE TIE GUN

Automatically tightens up cable ties with a simple pull of a trigger. All steel construction with red lacquered coating. Designed for use on nylon cable ties with widths from 2.2 to 4.8mm and a thickness up to 1.6mm. It features an adjustable tension dial for bundling pressure and an automatic cut-off once tension achieved.

PART NO.	DESCRIPTION	PRICE
S57-3005	PROFESSIONAL CABLE TIE GUN	14.00

FUSION CABLE TIE HANDY PACK

A convenient tube of black and white cable ties containing:

- 2.5 x 100mm 100 pieces
- 2.5 x 150mm 50 pieces
- 3.6 x 200mm 50 pieces

304 GRADE STAINLESS STEEL BALL-LOCK CABLE TIES

Metal ties are ideal for all applications that require high strength, reliability and fire resistance.

In the event of a fire, cables will remain securely held in place and will not fall to block emergency exits.

These MBT (Metal Ball Bearing Ties) ties have a patented non-releasable locking feature and offer infinite adjustment within their length. The MBT ties are heavy duty. Once installed they can be opened and re-used if required.

This range of stainless steel cable ties can be used in chemical industries and on oil platforms as well as in mass transit, shipbuilding and mining industries. MBT ties are also suitable for machine building, apparatus construction and in the outside area of radio technology.

It is strongly recommended that these cable ties are applied using the S00-5631 Tensioning Tool (below) to ensure reliable and efficient fixing.

- Patented non-releasable locking feature
- Corrosion resistant
- Outstanding chemical resistance
- High temperature resistance
- Non-burning

PART NO.	LENGTH (MM)	WIDTH (MM)	MAX. Ø	QTY	PRICE

TENSIONING TOOL FOR STAINLESS STEEL CABLE TIES

This application tool is designed for installing heavy duty stainless steel cable ties from 4.5 - 12.3mm strap width. The tensioning strength can be adjusted while pulling the trigger. The tool is easy to handle and far more reliable than trying to tension the ties by hand.

- Tough metal tool
- Operator controlled tensioning
- Cut off by pulling the hand lever

PART NO.	DESCRIPTION	PRICE
S00-5632	TENSIONING TOOL FOR STAINLESS STEEL TIES	84.05

STAINLESS STEEL SCREW FIXING MOUNTS

Suitable for the secure fixing of cables, tubing, conduits and pipes within the most arduous of environments. Providing a complete fastening and fixing solution when used in conjunction with stainless steel ties up to 10.0 mm width.

Made from Grade 316 Stainless Steel (SS316).

Dimensions: 10.2mm (w) x 23.0mm (l) x 4.5mm (h)
Available with three different hole sizes.

Supplied in packs of 100.

PART NO.	DESCRIPTION	PRICE
S00-5633	4.2MM Ø HOLE - STAINLESS STEEL P MOUNTS PK100	38.39
S00-5634	5.3MM Ø HOLE - STAINLESS STEEL P MOUNTS PK100	38.39
S00-5635	6.3MM Ø HOLE - STAINLESS STEEL P MOUNTS PK100	38.39

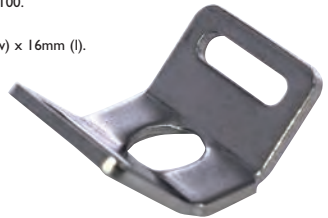

STAINLESS STEEL CRADLE MOUNT CLIP

A cradle mount clip that meets the requirements of BS761, 3rd Amendment, 7th Edition.

Suitable for use with stainless steel cable ties up to and including 7.9mm. Features a No.8 (4mm Ø) fixing hole for securing on to the building fabric. Supplied in a pack of 100.

Dimensions: 12mm (w) x 16mm (l).

PART NO.	DESCRIPTION	PRICE
S00-5636	STAINLESS STEEL CRADLE MOUNT CLIP PK100	21.54

STAINLESS STEEL FIRE CLIP FOR 25X16 MINI TRUNKING

The safest solution to securing cable within mini trunking. Supplied in packs of 50.

- Suitable for 25 x 16mm mini trunking
- Easy to apply without the need for a tool – simply fold the tabs to retain the cables
- Completely invisible once mounted within the trunking
- No. 8 (4mm Ø) fixing hole for securing the clip to the building fabric
- Manufactured from Stainless Steel 430 material
- Holds cables in position, even in the event of a fire
- The safest way of securing cables within mini trunking

Dimensions: 21mm (w) x 20mm (l).
Made from Grade 430 Stainless Steel (SS430)

PART NO.	DESCRIPTION	PRICE
S00-5637	FIRE CLIP FOR MINI TRUNKING PK50	14.95

HOOK & LOOP CABLE TIES - PKT 100

The Hook and Loop Tie is both quick and simple to use without the need for tools. It is corrosion free, resistant to ageing and re-usable many times. These ties are ideal for use on telephone, optical fibre and data cables.

PART NO.	DESCRIPTION	PRICE
R51-8450	BLACK TIE 13 X 150MM (PKT 100)	16.67
R51-8451	BLACK TIE 13 X 230MM (PKT 100)	23.33
R51-8452	BLACK TIE 13 X 330MM (PKT 100)	26.67

HOOK AND LOOP ROLLS

Hook and Loop Tie available on a 25m roll and is simple to use without the need for tools. It is corrosion resistant to ageing and re-usable many times. Ideal for use on telephone, optical fibre and data cables. Available in 25m rolls, in 9mm and 16mm widths. Supplied in black.

PART NO.	DESCRIPTION	PRICE
R02-7002	9MM HOOK & LOOP 25M ROLL	9.17
R02-7003	16MM HOOK & LOOP 25M ROLL	13.83

CRITCHLEY K-TYPE BLACK ON WHITE MARKER KIT

Ready Filled 40 Compartment Cable Marker Kit

The K-Type marker standard kits come with numbers, letters, symbols and carrier strips and provides an ideal marking system for cables, cable bundles and conduit. Contains:

- 100 of each 0-9, A-Z, +, -, /, EARTH
- 200 x 12 Digit Carriers
- 100 x 7 Digit Carriers

DYMO XTL 300 24MM LABEL PRINTER KIT

Tired of complicated labelers? Simplify labeling with the DYMO® XTL™ 300. A life-like on screen print preview and built-in label applications help save time on the job. Prints labels from 1/4" (6 mm) up to 1" (24 mm), including heat-shrink tubes, barcode and pre-sized labels.

- Life-like on screen print preview and colour display shows exactly how labels will look when applied to cables, pipes, panels, and more
- Prints 1/4" (6 mm) up to 1" (24 mm) durable labels including continuous length tape, laminated wire/cable wraps, heat-shrink tubes and pre-sized labels
- Built-in label applications make getting started from the home screen easy
- Pre-set layouts for almost 100 patch panel models eliminate size and spacing guesswork
- Durable built-in cutter for fast label production
- PC-connectivity and free DYMO ID software for easy transfer of labels to and from the XTL 300 for jobsite editing and printing
- Maximized print area helps reduce label waste

**Kit contents:**

- DYMO XTL™ 300 Label Maker
- AC Charging Adapter
- Carrying Case
- Rechargeable Lithium Polymer Battery
- 24 mm x 7m All-Purpose Vinyl, Black on White Cartridge
- 21 x 39mm in Laminated Wire / Cable Wrap, Black on White, 150 labels
- USB Cable
- Lanyard
- Quick Start Guide
- Software Download Card

RHINO 4200 LABEL PRINTER

The Rhino 4200 is a compact, easy to use, time-saving, and economical general purpose labelling tool. It gets labelling jobs done fast – and done right. Easily navigate the familiar QWERTY keypad. Use one-touch “Hot Key” shortcuts to quickly create and format wire/cable wraps, flags, fixed-length labels and more. Print labels up to 19mm wide in a variety of materials and colours – PLUS print directly on heat-shrink tubes.

- Familiar computer-style QWERTY keyboard for fast and easy text entry
- Patented “Hot Keys” provide shortcuts for creating and formatting wire/cable wraps, flags, Barcode 39 and Barcode 128, fixed-length, general and module labels
- Print 6mm, 9mm, 12mm and 19mm wide industrial-strength labels in a variety of materials and colours – PLUS print directly on heat-shrink tubes
- “Favorites” key provides single-key access to your most commonly used labels, symbols and terms
- Avoid repeated steps with the “Custom” key – customize and save settings for individual label formats
- Pre-programmed library with 150 symbols and terms for security, electrical, pro A/V, and facilities management
- Integrated rubber bumpers help prevent damage from accidental drops and falls
- Large back-lit display is easy to read, even in dimly-lit work areas
- Auto save/auto power-off – extend battery life without losing current work
- Runs on 6 AA batteries (not included) – also compatible with quick-charging Lithium-ion battery (included with kit version or sold as an accessory – call sales for details).

Available in Two packages:

RHINO 4200 Kit Case:

- Rhino 4200 Label Printer
- Carry case
- Lithium-ion rechargeable battery
- AC adaptor/charger
- 12 mm white vinyl label cartridge
- Quick Reference Guide

BRADY BMP21-PLUS TELEDATACOM THERMAL LABEL PRINTER KIT

The BMP21-PLUS Telecoms/Datacoms Kit is recommended for telecom and datacom installers and contains three cartridges of label material commonly used for cable marking and panel and port identification. The hard carry case will protect the printer and provides somewhere to store extra label cartridges too.

It takes on the toughest labeling jobs in the field. Whether you're in a server room, servicing a breaker box or organizing your workplace, you can count on the BMP21-PLUS labeler to get the job done. And it will get the job done quickly. With smart automatic formatting, all you need to do is drop a label cartridge in, type and print. Simple.

- Drop tested printer - super-rugged with moulded rubber bumpers providing protection from falls.
- Heavy-duty magnet accessory and lanyard for hands-free printing
- ABC keypad, graphics library, hot keys and menu functions for fast label creation
- Smart Cell technology for automatic label set up and automatic formatting for wire wraps, terminal blocks, patch panels, cable flags and general labels

- Label widths from 6mm to 19mm
- Auto label formatting
- Graphic library
- Label cutter & label grabber

Includes: Hard carry case, Li-ion battery pack, Mains power cable, 1 x M21-750-499 nylon cloth label cartridge, 1 x M21-1250-427 self-laminating label cartridge, 1 x M21-250-423 6.35mm Black on White polyester tape cartridge.

SELF-ADHESIVE CABLE CLIPS

These self-adhesive cable clips are available in three sizes. Made from natural Nylon 66, they are tough, provide excellent electrical insulation and are resistant to chemicals, petrols, oils, grease and alkalis. Will withstand continuous working temperatures of -20°C to +60°C.

High levels of instant tack and shear adhesion are achieved with a coating of synthetic rubber adhesive on both sides of the white polyethylene foam base.

PART NO.	DESCRIPTION	PRICE
S83-2916	PAPER TOWELS (ROLL) PK 24	25.83

STANDARD TERMS AND CONDITIONS OF BUSINESS

Mills Ltd. (the Supplier) agrees to supply goods/services to third parties (the Customer) on the following terms and conditions to the exclusion of any other terms and conditions and which may only be varied under the authority in writing of the Supplier.

1. Terms of Payment

- 1.1 Where credit terms are extended and unless separately agreed the due date for payment will be 30 days from invoice date. The due date for payment shall be of the essence. Interest at 5% over Lloyds Bank PLC Base Rate is chargeable on overdue accounts accruing on a daily basis until payment is made, whether before or after judgement. The Supplier reserves the right to claim interest under the Late Payment of Commercial Debts (Interest) Act 1998. Credit facilities may be withdrawn without notification.
- 1.2 No payment shall be deemed to have been received until the Supplier has received cleared funds.
- 1.3 The Supplier shall at its discretion (without prejudice to its right to treat the contract as repudiated and claim damages) be entitled to withhold despatch of the good and/or performance of the services until all monies owing to the Supplier by the Customer have been paid in full.
- 1.4 If any invoice to a customer shall remain outstanding and unpaid beyond the usual thirty day credit period, then the seller shall be entitled to withdraw all credit facilities granted to that customer and require immediate payment of all outstanding invoices due from them including any in respect of which the thirty day credit period has not yet expired.

2. Prices

- 2.1 Prices are those ruling at the time of delivery or collection.
- 2.2 Unless otherwise specified prices quoted do not include Value Added Tax.
- 2.3 At any time before delivery has been completed the Supplier shall be entitled to vary the price of the goods/services for so doing may include but shall not be limited to any of the following: increased labour costs; increased material or processing costs; increased transport costs (if carriage is included in the quote price); varying currency exchange rates; implementing any request by the Customer for expedited despatch or changes in delivery, schedules, completion dates, quantities, design specification or performance; and delays caused by instructions of the Customer or by failure to give adequate instructions or information.

3. Quotations

- 3.1 All quotations are invitations to treat and no order is binding on the Supplier until the Supplier has received and accepted the Customers order. The Customers order shall be deemed to be accepted by the Supplier unless it contacts the Customer (in writing or verbally) in respect thereof within seven working days from receipt of the order.
- 3.2 Quotations are valid for 30 days.

4. Ownership

- 4.1 All goods supplied remain the property of the Supplier until all monies due to the Supplier are paid in full and the Customer shall hold them identified accordingly as bailee and grants an irrevocable licence to the Supplier to enter on to the Customer's premises for the purpose of repossessing the Supplier's goods.
- 4.2 The goods are at the risk of the Buyer from the time of delivery.
- 4.3 Until ownership of the goods has passed to the Customer, the Customer must:-
- 4.3.1 store the goods (at no cost to the Supplier) separately from all other goods of the Customer or any third party in such a way that they remain readily identifiable as the Supplier's property.
- 4.3.2 maintain the goods in satisfactory condition and keep them insured on the Supplier's behalf for their full price against all risk to the reasonable satisfaction of the Supplier. On request the customer shall produce the policy of insurance to the Supplier.

5. Delivery

- 5.1 Delivery times are quoted in good faith but the Supplier accepts no liability for late delivery.
- 5.2 Time of delivery of the goods and/or performance of the services shall not be of the essence of the contract.
- 5.3 Unless otherwise agreed the Customer will provide at its expense all adequate and appropriate equipment and manual labour for loading the goods.
- 5.4.1 the Customer shall nevertheless pay the Supplier in accordance with Clause 1 of the Conditions as if such taking up or delivery has occurred; and
- 5.4.2 the goods will be deemed to have been delivered.
- 5.5 Where the Supplier's carrier attempts to deliver to the address specified by the customer and fails, or if the customer or its agent refuses delivery at the address specified by the customer, when the goods are redirected back to the Supplier as a result, the Supplier reserves the right to charge the customer for any re-delivers
- 5.6 Cabinet Deliveries: Please note that cabinet deliveries are made to ground floor (from reception or loading bay) only. Two men, sited deliveries are available at extra cost, please contact sales for details and costs.
- 5.7 Collection of Goods—Where personal collection of goods has been requested by the customer, it should be noted that this must be done within 72 hours of arranging the collection. Goods not collected within this period will be returned to stock and a restocking fee of £15.00 plus VAT will be invoiced to the customer.
- 5.8 It is the responsibility of the customer to check the contents and condition of the delivery prior to signing with the courier. Unless signed for "unchecked", claims cannot be made for damaged deliveries.

6. Quality

- 6.1 Goods supplied are warranted to be of satisfactory quality but no warranty is given for any particular purpose other than the purpose commonly applied or those specified by the relevant manufacturer.
- 6.2 Any goods claimed to be damaged must be returned with the appropriate receipt or evidence of purchase and where it is proved that the goods were defective at the time of sale the Supplier shall have the options of repair or replacement. The property in replaced goods remain with or converts to the Supplier. The Supplier recommends that all goods should be unpacked and inspected before the customer signs for them. Once the customer has signed for the delivery, the customer has in effect confirmed that all the goods on the delivery note have been received in perfect working order. A signed proof of delivery at the address specified on the customers' order completes the delivery and exempts the Suppliers liability for the product (except in the case of faulty goods). Any goods returned to the Supplier on the basis of being faulty are subject to a charge of £50 should, after inspection, the goods are found not to be faulty.
- 6.3 The Supplier should be notified of any damaged goods or discrepancies within 48 hours of receipt of the goods.
- 6.4 Sub-clause 6.1 of this Clause 6 shall be subject to the proviso that no warranties provided by the Supplier will apply:-
- 6.4.1 where the goods have been installed, repaired or alteration made by anyone other than the Supplier's representatives or authorised agent; or

- 6.4.2 where the goods have not been commissioned or operated in accordance with procedures prescribed by the Supplier.

- 6.5 All other warranties, conditions and other items implied by statute or common law (save for the conditions implied by Section 12 of the Sale of Goods Act 1979) are, to the fullest extent permitted by law, excluded from the contract.

7. Returned Goods

- 7.1 The customer should contact Customer Services before returning any products to obtain a RMA number. The Supplier accepts no liability for goods returned, without the written authority of the Supplier
- 7.2 The Supplier reserves the right to refuse returns without a valid RMA number shown clearly on the outside of the package. An unauthorized return, i.e. one for which an RMA number has not been issued or one without a valid RMA number shown clearly on the outside of the package, will be returned to the customer at the customers expense
- 7.3 Any goods that may need to be collected that are not as a result of the Supplier or its representative(s) negligence may incur a minimum collection fee of £15.00 (plus VAT).
- 7.4 Items which are non-stock and are ordered specifically against the customers purchase order e.g. cut lengths of fibre and custom built cabinets, are non cancellable and non returnable and are outside this policy (unless faulty).
- 7.5 Cabinets and enclosures are non-returnable and non-refundable (unless faulty).
- 7.6 Cancellation of orders will not be accepted unless agreed in writing by the Supplier and where any cancellation is agreed the Customer will be liable handling charges.
- 7.7 Handling charges apply where the reason for return is not as a result of the negligence of the Supplier or its representative(s) i.e goods no longer required or ordered incorrectly by the customer. For such returns the customer must request an RMA number within 3 working days of the delivery date. The product and the product packaging must be in perfect working order/ condition and in the Suppliers view suitable for resale. By agreeing to return products you are agreeing to the Supplier handling charge policy.
- 7.8 The Supplier reserves the right to levy a handling charge of 20% of the goods value or a £30 (+VAT) fixed fee (whichever is higher) to cover the cost of the administration of the return and where appropriate our initial delivery costs.

8. Safe Use

- 8.1 Customers have a duty to use/operate all goods supplied in accordance with manufacturers instructions for safe use and to ensure that such instructions are conveyed effectively by the Customer to any persons using the goods.
- 8.2 Subject to the provisions of Clause 8.4 below the Supplier accepts no liability for injury or losses from the use of products.
- 8.3 All contracts for the supply of goods/services shall be deemed to have been agreed at the Suppliers premises and both parties agree to be bound by English Law.
- 8.4 Nothing in these Conditions excludes or limits the liability of the Supplier for death or personal injury caused by the Supplier's negligence or fraudulent misrepresentation.

9. Trademark

- 9.1 The customer /buyer shall not tamper with, alter the face or remove any of the names, logos or marks or numbers affixed to or marked on the goods, or allow anyone else to do so. All Trademarks are acknowledged and belong to the Supplier.

10. Important Notice

- 10.1 All information detailed on the Mills Website site and in the Mills catalogue is a guideline for product selection only. Product images are for illustration only. Every effort is made to be technically accurate. However, the company does not accept any liability for errors or omissions and reserves the right to change and modify products. If you have a specific requirement or wish to confirm technical details, dimensions etc, contact Mills Ltd prior to ordering. It is prohibited to reproduce in any way any part of Mills' catalogue or website without written consent from Mills Ltd.

11. Customer Account, Password & Security

- 11.1 Mills web account customers will receive a password and account number upon completing the registration process. You are responsible for maintaining the confidentiality of the password and account and are fully responsible for all activities that occur under your password or account. You agree to (a) immediately notify Mills Ltd of any unauthorised use of your password or account and any other breach of security, and (b) ensure that you exit from your account at the end of each session. Mills Ltd cannot and will not be liable for any loss or damage arising from your failure to comply with these terms.

12. Unfair Contract Terms Act

- 12.1 The above terms and conditions have been drawn with the Unfair Contract Terms Act 1977 in mind and the Supplier believes them to be fair and reasonable. If the Buyer believes that they are not fair and reasonable he must convey such belief to the Supplier in writing prior to contracting.

Buy Gold. Make your investment count

FLUKE networks.

Protect Your Investment and Minimize Business Downtime with Gold Membership

Gold Membership is much more than just a repair warranty. It is a comprehensive maintenance and support programme that offers expanded coverage for Fluke Networks' products and accessories. It provides a premium level of support to minimize business downtime and ensure a high return on your investment.

3-Year Gold Membership provides a 10% discount off current Gold pricing along with 3-year price protection. On average customers can save up to 19% over 3-years by taking advantage of the 3-year Gold Membership option. Gold Membership is available for most Fluke Networks products in 1-year or 3-year (save 10% with 3-year) contracts.

What's Included with Gold Membership?
