Description

Adjustable Length Drill Bandolier is designed to ensure a drill can be carried over the users shoulder while climbing a ladder, helping to maintain 3 points of contact. Can be used with a variety of tools

Pull the black webbing through lanyard slot and create a loop

Feed purple strap through the black webbing loop.

Pull Purple strap completely through the loop to choke the drill bandolier in position

Pull the black webbing through there's no drill handle if no lanyard slot in the drill and create a loop, repeat process as above
