Product description

The splice only Flexibox is a wall box designed for internal/external use with up to 12 splice trays and up to 8 individual inputs for up to 24 cables. Each splice tray is able to accommodate up to 24 fibre splices and the box has an excess storage or loop storage area. The Flexibox is available with a lock for security and also has a removable cover for extra access whilst splicing and routing fibres. The Flexibox utilises the same internal components as Prysmian external closures to simplify installation practises and save time.

*To be confirmed/tested
