

Metal Jerry Can Green - 10 Litres

Product Images

Product Code: S83-2743

Short Description

Plasma-welded, laser-cut steel body with a leak-proof bayonet closure and pin

Description

Manufactured in a computer-controlled, 31-stage process. Precision laser-cut pieces are plasma-welded together by robots for strength and durability.

Nano-ceramic plating followed by powder coating, inside and out, provides a tough, durable finish that won't corrode.

A 2-stage, high-pressure test on every can ensures a perfect seal. Includes integrated carry handle and lid locking pin. UN approved.

Capacity - Volume 10Ltr

Finish Painted

Product Weight 2.31kg

Thickness 0.8MM

Volume 10Ltr

Secondary Construction: Rubber gasket
