

T-Matting Trench Cover MK2

Product Images

Product Code: S00-3651

Short Description

T-Matting is a new and unique innovation, designed specifically for 'Narrow' and 'Micro' trenching applications - which is becoming a popular method for the installation of fibre broadband networks and has been tried and tested by many of the major network providers in many different areas of the UK. Supplied in 2 metre lengths.

Key Benefits of T-Matting:

- Footways can remain open so it provides minimal disruption to the public.
- Protects against water ingress, depressions and shrinkage further down the line.
- Highly visible for additional public safety.
- Tested to BS7976 slip test.
- Tested to the Load Test outlined in the HAUC advice note 2018/01. *However, this is not a bridging device and should always be used with support of ground.

Product Features

- 225mm width with 70mm x 60mm T-Piece.
- Ideal for traditional backfill method.
- Tried, tested and approved.
- Anti Skid Ribbing.
- Flame Resistant PVC.
- Ideal for “narrow trenching” applications.
- Flexible material to cope with uneven surfaces and bends.
- Ideal for temporary cover of narrow trenches awaiting reinstatement.
- Made in the UK
