

Brother Flexible ID Tape Black on White 24mm TZe-FX251

Product Images

Product Code: C92-3603

Short Description

Designed to be used for the identification of cables and fibre, this Brother TZe-FX251 24mm black on

white label tape cassette has been developed with a special adhesive that allows the label to be either wrapped repeatedly around a cable, or attached to itself in the style of a flag.

Key Features

24mm wide, 8m long

High quality genuine Brother cassette

Ensure durable, easily readable results

This flexible-ID labelling tape has a special adhesive that makes it ideal for use in labelling fibres and cables – the tape can easily be wrapped repeatedly around the surface if required – while the clear black on white colour ensures that labels are easy to read under any conditions.

And this versatile TZe-FX251 labelling tape is also suitable for other applications where there are tightly curved surfaces such as pipes and conduits.

Designed to withstand extremes of sunlight and temperature, as well as water, chemicals and abrasion, the TZe-FX251 is a true toolkit essential.
