

Wheel Set for Probst Vacuum Slab Power Lifter

Product Images

Product Code: S83-4033

Short Description

Wheel set for use with S00-2697 Vacuum Slab Power Lifter, enabling a one man lift.

Until now, two people have been required for the transportation and installation of slabs and kerbs with the battery-driven S00-2697 Vacuum Power Handy VPH.

Now a wheel set is available, turning the standard VPH two man vacuum slab lifter into a single operator trolley.

The two solid rubber tyres carry the load, the operator just pushing the unit along.

It takes just a couple of minutes for the wheels to be mounted and used.
