

UltraCrete Instant Road Repair 6mm Grade - 56x 25kg Bags

Product Images

Product Code: S00-4012

Short Description

Instarmac UltraCrete Instant Road Repair is a permanent, cold lay tarmac for instant repairs to footways, footpaths and cycle tracks. HAPAS Approved, it can be used in any weather allowing traffic to return immediately.

UltraCrete Instant Road Repair 6mm grade has been designed to fix potholes in footways, footpaths and cycle tracks, gaining HAPAS approval in 2002. It is instantly trafficable causing minimal disruption to pedestrians and cyclists and is the most trusted cold lay tarmac on the market being specified consistently by local authorities for repairing the approximate 900,000 potholes which develop in the UK each year.

IRR 6mm is supplied on a pallet of 56 x 25kg bags.

- Suitable for permanent pothole repairs
- Can be used in all weathers – even in the rain
- Depth: 15 – 100mm
- Approved for use on the London Underground and Overground
- Suitable for use as a PCSM in accordance with Appendix A2.4 of the New Roads and Street Works Act 1991 : Specification for the Reinstatement of Openings in Highways (SROH)
- Size: Each bag 25kg
- NBS Plus registered for ease of specification
