

UltraCrete SCJ Seal and Tack Coat Spray 750ml - Box of 12

Product Images

Product Code: S00-4107

Short Description

Instarmac Ultracrete SCJ is a bitumen cold joint sealer applied straight from the can onto the vertical

edges and surface base before the application of asphalt or cold lay tarmac to help prevent water ingress and to give an even stronger bond to repairs. HAPAS approved since 2005.

Ultracrete SCJ is ideal for use with S00-4012 Instant Road Repair and S00-4014 Instaband ECO Thermoplastic Overbanding.

- Can be used in all weathers
- Simple and economical to apply
- Approved for use on the London Underground and Overground
- Supplied in a box of 12 x 750ml cans
- Coverage per can: Approx. 10 linear metres, based on width of 60mm and 2mm thickness
- NBS Plus registered for ease of specification
- Use with S00-4012 Instant Road Repair IRR 6mm and S00-4014 Instaband ECO Thermoplastic Overbanding Tape
