

Tempo Tele-Mate TM-700UK Test Telephone with BT Plug

Product Images

Product Code: C00-4111

Short Description

The TM-700 helps technicians install, service, and maintain voice services with ease. DSL compatible in

both Monitor and Talk modes, the TM-700's LCD screen makes reading polarity, voltage, current, and ringing frequencies easier than ever, and clearly shows speed dials and recent numbers for faster access.

The TM-700 features over-voltage and over-current detection for safer operation and also features an Intercom mode, a built in toner for pair tracing, and DTMF detection and measurement for enhanced productivity. Use the builtin loudspeaker or with a headset (included) for easy hands free operation.

The Tempo Communications TM-700 makes your job faster, safer and easier

Features

- LCD for easy dialing, programming, caller ID, voltage, current, ringing, and DTMF measurements
- Safe over voltage and over current protection
- Intercom for "dead-pair" talking
- SmartIntercom™ between Tele-Mate® Pros allows "ringing" the far end
- Tone generator for pair identification•Luminescent (glow-in-the-dark) keypad
- DSL line filter•Super Impedance Amplifier to monitor lines without disrupting traffic
- Tone and Pulse dialing for old and new phone lines with Pause and Flash (TBR)
- User options allow USA or ETSI telephony with individual options available
- RJ11 socket for easy cord changes
- Ten last number redial & ten number speed dial memories
- Headset (included) for hands free operation, with loudspeaker option
- Volume control & mute
- Requires just two AA cells, readily available and low cost
