

Hyundai 52cc Petrol Earth Auger, Borer and Drill

Product Images

Product Code: P57-4325

HYUNDAI HYE5200X

Powered by 52cc, 2hp 2-stroke petrol engine
For easy starting, low emissions and reliable running in all weather conditions

Easy control
Due to its low weight but high power to weight ratio

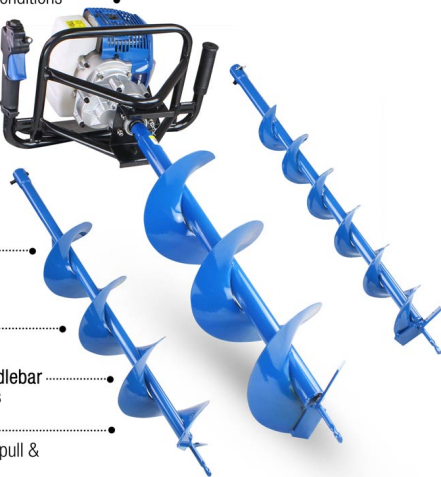

Supplied with 3 auger drill attachments
(100mm, 150mm & 200mm diameter)

Easily drill multiple size holes up to 730mm in depth

Variable head speed settings

Large vibration-reducing handlebar & fingertip handlebar controls

easy-start technology
Ensures the engine is easier to pull & quicker to start

Short Description

The HYE5200X petrol earth auger from Hyundai is powered by a 52cc 2-stroke petrol engine with easy recoil start. Built to penetrate ground quickly this petrol borer is well suited for tough and solid soil.

Ideal for a wide range of drilling projects, the HYE5200X sometimes referred to as a post hole digger, post hole borer or fence post auger is perfect for setting fence posts, post holes, trees, shrubs & foundation stumps for both domestic and professional usage. Supplied with 3 interchangeable steel drill attachments ranging from 100mm, 150mm & 200mm in diameter to perform professional quality work quickly and easily. It has quick-action release ensuring the steel drill bit attachments can be changed swiftly.

Giving you convenient control at your fingertips and equipped with gear reduction for better drilling performance.

The 52cc 2 stroke engine has excellent mid-range torque so the machine does not need to be operated at maximum revs. This makes for a quieter user experience and reduces fuel consumption, whilst promoting a long engine life.

Equipped with a fully enclosed anti-vibration system to reduce stress and fatigue on the operator's arms and back is essential for extended periods of use. Fitted with easy-start technology the HYE5200X engine is easier to pull & quicker to start and its heavy duty air filter ensures long engine life for the toughest of drills.

Reliable and easy to start the HYE5200X is fitted with a large vibration-reducing handlebar enabling absolute control of the augers level and depth.

The HYE5200X is designed to be handled easily making drilling jobs a breeze. A rugged steel frame ensures long term reliability, easy operation and straightforward maintenance. Full spares available to maintain your earth auger for years to come.

The on/off switch, fingertip throttle control and safety trigger are mounted on the right hand grip, providing easy, precise and safe control.

In The Box: HYE5200X Auger, 100mm, 150mm, 200mm Drill Attachments, 2 Stroke Mixing Bottle, User Manual, Toolkit.

Covered by 3 year HYUNDAI warranty.

Features

Powered by 52cc, 2hp 2-stroke petrol engine for easy starting, low emissions and reliable running in all weather conditions.
