

Hyundai HYCP5030 87cc Petrol Compactor with Wheel Kit & Paving Pad

Product Images

Product Code: P57-4320

Short Description

The HYCP5030 is powered by an 87cc 4-stroke recoil start petrol engine, with a large 1.6L fuel tank for long running. It's ideal for compacting loose soil, gravel and sand together to create a solid and even foundation, providing a cost-effective alternative to hiring for the building, construction and landscaping industries.

It's fitted with a large plate measuring 495mm x 320mm (L x W) for making quick work of large areas and has a traveling speed of 25m/min, with a compaction depth of 150mm. The V-belt is covered by a guard which protects it from the knocks and bumps of construction work.

The throttle control is conveniently mounted on the handle, which also has a soft grip cover for increased comfort. It's designed for building patios, driveways, block paving, garage extensions and conservatory foundations and the compactor plate comes with a paving pad to protect patios and block paving from any marks or damage during use.

To make storage easy, the handles can be folded down over the main unit.

The wheel kit is also available to assist with transporting the compactor from one job to the next.

All Hyundai compactor plates are covered by a Hyundai 3 year platinum warranty.

Features

Powered by an 87cc 4-stroke recoil start petrol engine for reliable performance.

Ideal for compacting soil, gravel and sand together for patios, driveways, conservatories and more.

Equipped with a large 1.6L fuel tank for long running.

Fitted with a large 495mm x 320mm plate for working effectively on large areas.

Has a traveling speed of 25m/min, with a compaction depth of 150mm.

Wheel Kit and Paving Pad included.

Specifications

Gross Weight (kg) 53.00

Warranty 3 Year

Engine Type Hyundai 4-stroke

Displacement (cc) 87cc

Starting Method Recoil Pull

Fuel Type Unleaded Petrol

Fuel Tank Capacity (L) 1.60

Noise Rating (dBA) 86.00

Plate Size LxW (mm) 495 x 320

Centrifugal Force (N) 8200.00

Exciter Speed (VPM) 5900.00

Compaction Depth (mm) 150.00

Travel Speed (m/min) 25.00

Exciter Oil Capacity (ml) 60.00

Gross Weight (kg) 53.00

Dimensions L x W x H (mm) 850 x 660 x 1150

Vibration value m/s² 17.50
