

# Mills Fibre Optic Wipes Pack of 90

## Product Images

Product Code: C00-4316

## Short Description

Mills Fibre Optic Wipes are high quality, lint-free wipes engineered for cleaning bare fibre before splicing and for cleaning jumpers and other male connectors used in fibre optic networks. These wipes have exactly the right absorbency, quality and packaging to make cleaning fast, reliable and affordable.

The wipes are made from soft, hydroentangled polyester fabric, made without troublesome glues or

cellulose which can leave residues on end-faces. The strong fabric resists shredding even when cleaning LC connectors. These wipes lift away fingerprint oils, grime, dust and lint. This makes them ideal for cleaning bare fibre or fibre optic connector end faces, plus lenses, mirrors, diffraction gratings, prisms and test equipment.

The packaging has been designed to make cleaning easier for technicians. The handy mini-tub is rugged and spillproof. Each wipe is protected with a plastic over wrap which keeps fingerprints and moisture off the wipes.

Contents: 90 Wipes

Wipe Size: 120 x 53mm

Tub diameter: 70mm

Weight: 55g

## Description
