Prysmian Flexibox Termination Box 24SCA
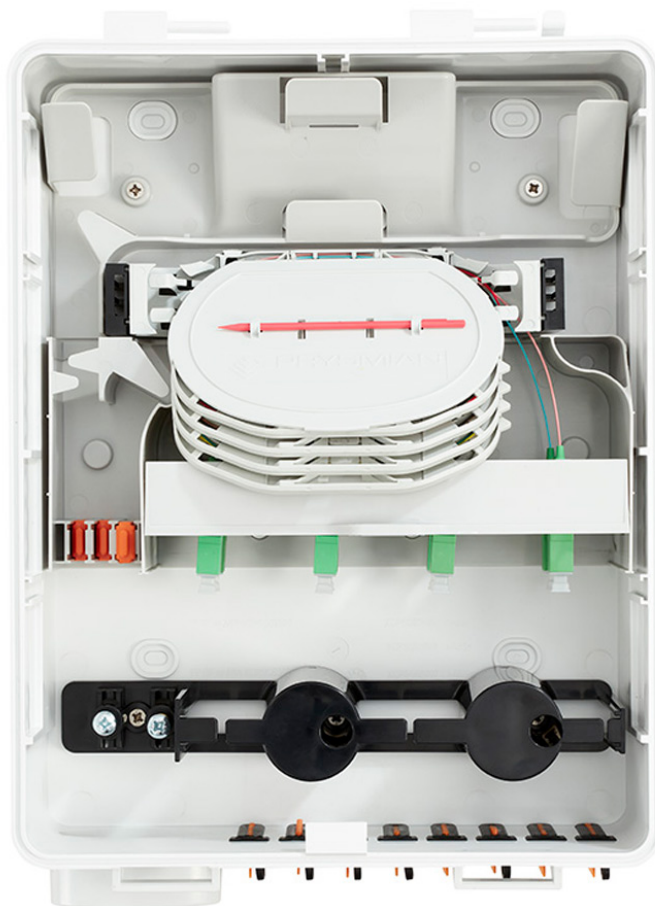

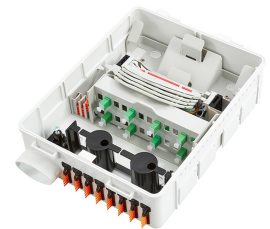

Product Images   **Product Code: XCPSC04097**

8F SCA version shown

8F SCA version shown

Short Description

The Flexi-termination box has been designed for internal/external use with up to 8 splice trays, an oval

port and up to 48 inputs for up to 48 preterminated cables. Each splice tray is able to accommodate up to 24 fibre splices and the box can be configured with a loop storage area.

The Flexibox has a removable cover for improved access whilst splicing and routing fibres and utilises the same internal components as Prysmian external closures to simplify installation practises and save time.

Specifications

Flexibox termination box 24SCA with pigtails, 48 splices, internal with security lock, loop storage, entry system B.

Please see datasheet for further details
