
Fibre Transportation Tubing Clear 2.8mm ID 4mm OD - 50m Roll

Product Images

Product Code: R02-5073

Short Description

Transportation tubing is used to manage and protect fibre bundles or elements between the end of the cable and the chosen splice tray.

Supplied as a 50 metre roll which can be cut to the required length, the clear tubing allows for the bundles or elements to be seen whilst being threaded in to position.

Inside Diameter: 2.8mm

Outside Diameter: 4.0mm

Length: 50 metres
