

Tempo Tone Probe Cable Tracer Kit in Wallet

Product Images

Product Code: C00-1554

Short Description

A tone generator and amplifier kit supplied in a handy two pouch wallet. The toner offers a convenient choice between continuous or alternating tones and a 3-colour LED display which indicates correct polarity, reverse polarity, the presence of AC, as well as continuity. Also included is the amplifier probe with adjustable sensitivity levels which lets you zero in on cable groups, pairs & individual wires. The kit comes in a sturdy nylon pouch for convenient storage and protection and requires 2 x PP3 9V batteries (Part No. M99-1203)

Supplied in sturdy nylon pouch.
