

Martindale TC71 Soft Carry Case

Product Images

Product Code: C70-7321

Short Description

The TC71 Carry Case has been tailor-made to fit the Martindale VI-13800 and the PD440S and SX models as well as the PD690S and SX versions.

Many users have both voltage indicators and Proving Units floating around in toolboxes sustaining damage. This carry case helps to avoid much of this damage as well as offering convenience when using its contents.

The Proving unit compartment has a clear front with holes to access the test points of the proving unit without the need to remove it.

The best way to protect valuable test equipment from damage in the toolbox.

Replaces the Martindale TC69 VIPD Soft Carry Case.
