

Martindale LOK8 Compact MCB Lock Off Device

Product Images

Product Code: C00-0143

Short Description

The robust and slim-line Martindale LOK8 Lock Off device is made from aluminium and fits the majority

of domestic MCB's and RCBO's.

Its size allows installation on breakers where access is impeded by test buttons or other obstructions and its width permits installation without interference with neighbouring breakers.

An ideal choice in any engineers' lock-off kit.
