

Bahco ERGO 9033 Extra Wide Jaw Adjustable Wrench 250mm / 10"

Product Images

Product Code: H72-1388

Short Description

The Bahco 90 Series Series (20 & 30) Black Phosphated ERGO™ Adjustable Wrenches have a 40% wider opening compared to a standard adjustable wrench of equivalent size. The head combines slimness for accessibility with strength for performance, this combined with a convenient length of the handle and low weight makes it perfect for plumbers and other tradesmen that carry their tools with them. The jaws are angled at 15° to provide maximum access in confined spaces.

Precision-hardened and anti-corrosion treated. With comfortable slip free, warm thermoplastic handle. Left-reading, measurement scale in mm.

Length: 250mm

Jaw Width: 46.5mm
