

Solar PV MC4 Terminal Ratchet Crimping Tool

Product Images

Product Code: E00-1030

Short Description

High Precision Solar Photovoltaic Terminal Ratchet Crimping Tool producing 1.2 metric tons of pressure

1

at the crimping face with minimum effort.

Features

- High-precision ratchet mechanism
- Interchangeable high-precision crimping die set
- Interchangeable magnetic locator for precision positioning of terminals
- Ratchet release point in case of user error when crimping
- Crimping range of 2.5/4/6mm²

Capacity: 2.5 - 6 mm²

Length: 280 mm

Weight 0.745kg

Description

High Precision Solar Photovoltaic Ratchet Crimping Tool producing 1.2 metric tons of pressure at the crimping face with minimum effort.

Features

High-precision ratchet mechanism

Interchangeable high-precision crimping die set

Interchangeable magnetic locator for precision positioning of terminals

Ratchet release point in case of user error when crimping

Crimping range of 2.5/4/6mm²

Capacity: 2.5 - 6 mm² (AWG 14, 12 and 10)

Length: 280 mm

Weight 0.745kg
