Digital Clinometer for Solar PV Installation

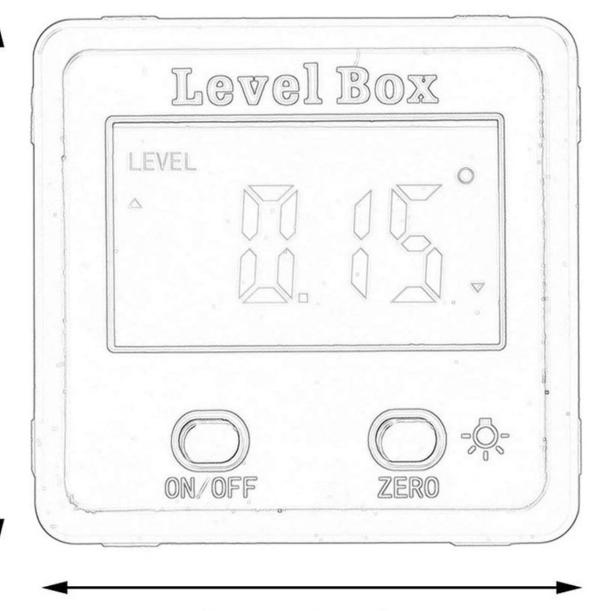

Product Images Product Code: R99-7370

56mm/2.20in

Short Description

This digital protractor / clinometer is a useful angle measurement tool for Solar PV installers when setting the angle of inclination for a solar panel.

Solar panels also need their tilt adjusting during the different seasons of the year. With this high precision digital protractor the photovoltaic system can be set at the optimum angle of inclination throughout the year.

The protractor provides a 360° range making it an incredibly versatile tool.

Features

Small, light and convenient

Magnetic base Large digital LCD display with backlight Fast and accurate measurements Auto power off after 5 minutes without operation

Specifications

Measuring Range: 4*90° (0-360°)

Accuracy: +/- 0.2 degrees Resolution: 0.1 degree Waterproof: IP54

Power: 2x AAA battery (Not included)
