

HSS Metal Cutting Sabre Saw Blades 150mm 10 TPI - Pack of 5

Product Images

Product Code: P08-1056

Short Description

These Metal Cutting Sabre Saw Blades are made from HSS Fully-Hardened Super-Speed Steel. Suitable for cutting applications in metal, aluminium and non-ferrous metals. Manufactured for precision and stability when cutting. Selecting the correct sabresaw blade for the task at hand is essential if the material is to be cut successfully and the desired result achieved.

Will fit Sabresaws from the following brands: AEG, Black & Decker, Bosch, DeWalt, Elu, Fein, Hitachi, Makita, Metabo, Milwaukee, Ryobi and most other brands on sale within the UK.

These reciprocal saw blades are ideal for medium to thick sheet metal (3-8mm) fine, closed pipes and profiles (10-100mm).

Specifications

Length: 150mm (6in)

Teeth: 10 TPI

Supplied in a pack of 5
