

Bahco 36 Piece Wind Turbine Toolkit

Product Images

Product Code: A10-7650

Short Description

36 piece wind turbine engineers toolkit for heavy duty applications.

Toolcase manufactured with injected copolymer polypropylene structural resin for use in the harshest environments, such as industrial, aeronautical and nautical fields. Air pressure valve for maximum protection against extreme weather conditions. Double robust bolt system for hermetic sealing. TSA-approved padlock.

Contents

- TAH1-100-06-2-4 and TAH1-210-06-2-2 second cut flat engineer's files
- TAH1-230-06-2-2 second cut round engineer's files
- TAH3625PU-50 and TAH489-1100 sledge hammers
- TAHBE64520 chain wrenches
- TAHPINRELEASER pin releaser
- TAHSCB140G steel cable cutting scissors
- TAH24B-27, TAH24B-30, TAH24B-32, TAH24B-36, TAH24B-38, TAH24B-41, TAH24B-46 and TAH24B-50 3/4" drive sockets
- TAH8950N/A 3/4" square torque wrench inserts
- TAH8961 tools for working at height extension
- TAH8953 universal handles
- TAH7452-2 reversible ratchets
- 7452-7-13, 7452-7-17 and 7452-7-19 open end torque wrench inserts
- TAH7455-300-1 and TAH7435-100 torque wrenches
- TAH111M-34, TAH111M-36, TAH111M-41, TAH111M-46 and TAH111M-50 combination wrenches
- TAH7444SG-M-36, TAH7444SG-M-41, TAH7444SG-M-46, TAH7444SG-M-50 and TAH7444SG-M-55 slogging ring spanners
- HD rigid case and 4750RCHDW02 container
- According to the standards defined by the DROPS drop prevention method

Other toolcase specifications

Retractable handle for when rolling on wheels

60 x 37 wheels on ball bearings for easy transport even when very loaded

Padlockable

Interstackable

1 rubber coated heavy duty handle

2 PP resin foldable handles on sides for when transporting between 2 persons

4 Closing latches, 4 bottom studs

Integrated identification/name badge

Dimensions: 480 x 290 x 630 mm

Weight: 34KG

All tools covered by Bahco's Lifetime Guarantee*

Please see specification sheet for further details
