

Tetra Skylite Crawlboards for Flat Roofs & Unboarded Lofts - Pair

Product Images

Product Code: S83-1030

Short Description

The use of crawlboards enable an operative to distribute their weight to allow safe travel within un-

boarded loft areas and across flat roofs.

They can also be used under a ladder to prevent damage to a flat roof surface.

Supplied as a pair.

Description

The use of crawlboards enable an operative to distribute their weight to allow safe travel within an un-boarded loft area and across a flat roof.

They can also be used under a ladder to prevent damage to a flat roof surface.
