

# Heightec H28QL Neon Rigger's Quick Connect Harness - Large

Product Images

Product Code: S83-1082

## Short Description

Heightec's NEON full body rigger's harness is designed to a high specification, giving riggers maximum

comfort and security.

The chest rings and articulated hip section with floating waist belt aligns the webbing to give the optimum fit and superb freedom of movement.

The ergonomic waist belt with large lumbar pad for high level comfort and support during positioning. Side D-rings stay in place for ease of attachment.

Bolt bags can be attached directly around load bearing webbing.

SafeLock™ quick connect leg and waist buckles make fitting fast and easy. As the buckles do not need to be slackened to remove the harness readjustment is not required every time it is worn.

Shoulder buckles allow quick and easy adjustment with one hand. Elastic webbing retainers on shoulder and waist straps allow slack webbing to be stowed neatly and easily.

The new NEON rigger's harness, quick connect also features integrated parking points allow lanyards to be stowed when not in use yet break free in a fall preventing issues from incorrect loading. Positioned on the should pads to avoid the trip hazard associated with longer lanyards.

**Sizes available:**

- H28Q NEON, quick connect, standard – Torso 80-120 cm. Waist 75 – 155 cm. Thigh 65 – 95 cm
- H28QL NEON, quick connect, large – Torso 95-135 cm. Waist 95 – 160 cm. Thigh 65 – 120 cm
