

RidgeGear RGHK5 MEWP Restraint Kit - XL

Product Images

Product Code: S83-1041

Short Description

The MEWP Restraint Kit comes with a two point safety harness and an adjustable work restraint safety lanyard ensuring users are safe whilst working in cherry pickers.

Accredited to: EN 361:2002, EN 354:2010

Kit Contains:

RGH2 front and rear D harness, RGL12 1.5m adjustable restraint lanyard with 2 x attached RGK1 karabiners

[The RGH2 Full Body Harness](#)

The RGH2 Full Body Harness is the workhorse of the industry. The harness is fitted with a Rear D Ring and a chest mounted Front D Ring.

The harness is fully adjustable and is fitted with rip stitch indicators.

The ring connection between the chest & the shoulder straps, ensure no stress loading when force is applied to the Front D Ring.

- Fitted with a Rear D Ring and a chest mounted Front D Ring
- Fully adjustable and is fitted with rip stitch indicators
- EN:361 45mm water repellent polyester

In the interests of safety, this item is non-returnable and non-refundable (unless faulty)

RGL12 1.5m Adjustable Restraint Lanyard

A single leg adjustable work restraint safety lanyard which works as a leash for operatives working at height.

The adjustable feature of this lanyard means the product can be adapted to the correct length for the task at hand.

Meaning there is no need to have multiple lanyards. Please ensure that operatives must understand the principles of 'fall restraint' as this lanyard should only be used for this purpose.

This is due to the fact that the lanyard does not have a shock absorption built into the system. 37kN webbing is used in the manufacturing of this lanyard which provides greater strength compared to other systems.

This safety lanyard is for restraint purposes only as there is no shock absorption built into the system.
