

Hyundai HYP5200X 52CC Long Reach Petrol Pole Saw / Pruner / Chainsaw

Product Images

Product Code: P57-5051

Short Description

The HYP5200X is a 52cc long reach petrol pole saw from Hyundai, designed to provide impressive cutting power on branches in hard to reach locations.

Long 2.7m reach

The HYP5200X pole pruner provides an impressive reach of up to 2.7m when fully extended, allowing you to prune safely with your feet firmly on the ground - no need to take risks using a ladder.

Powerful pole saw

Powered by a 2-stroke 52cc Hyundai engine, the HYP5200X provides impressive cutting power to tackle the most demanding of hard-to-reach twigs or branches.

Comfortable to use

The padded front handle allows you to comfortably grip this pole pruner at different positions whilst working at different angles and heights. It also has the added bonus of a double shoulder support harness, providing a comfortable and stable cutting experience.

Quality design

Anti-vibration technology on the HYP5200X protects your hands and arms while using this petrol pole pruner, making it comfortable to use even for longer periods.

Easy to maintain

This petrol long-reach saw with a 260mm bar and chain features automatic chain lubrication, which provides the right amount of oil required for each cutting task whether hardwood or softwood. It also ensures that the chain is always lubricated while in use to minimise downtime and keep the chain in good health.

Compact to store and transport

This powerful pole saw also features an aluminium 3-piece shaft, specially designed to make the long reach pole saw as lightweight as possible and allow for easy transportation and storage.

Saw safety

Always use saws safely to avoid accidents.

Features

- Impressive 2.7m reach: Perfect for cutting hard-to-reach branches
- Powerful Hyundai 52cc 2-stroke Euro V petrol engine: Easy to start each and every time
- Stable cutting experience: Thanks to its padded handle and double shoulder support harness
- Comfortable to use: Anti-vibration technology protects your hands and arms
- Triple split shaft design: Convenient to transport and store

03/04/2024

Start Method Recoil
Cutting Length (mm) 260
Chain Pitch Size (inches) 3/8
Gauge (inches) 0.05
No. Links 39
Chain Lubrication Automatic
Handle Type Loop and Bar
With Harness? Yes
Shaft Aspect Straight
Split Shaft? Yes
Clutch Type Centrifugal
Safety Features -
Engine Type Hyundai 2-Stroke 52cc Air Cooled
Engine Size (cc) 52
Rated Power (kW/kVA) 1.45
Rated Speed (RPM) 9200
Fuel Petrol/Oil Mix
Fuel Capacity (L) 1.2
Engine Oil 2-Stroke
Fuel / Oil Ratio 40:1
Gross Weight (kg) 8
Net Weight (kg) 5.6
Fully Assembled Dimensions (H x W x L) (mm) 310 x 320 x 2830
Package Dimensions (H x W x L) (mm) 29.5/9 x 27 x 108
Engine Capacity (CC) Under 100
Fuel Type / Power Source Petrol

In The Box: HYP5200X Pole Saw, Tool Kit, Double Support Harness, Extension Bar, 2-Stroke Mixing Bottle, User Manual
