
Wire Scratch Brush 250mm

Product Images

Product Code: R99-1073

Short Description

Wire scratch brush used for removing rust, corrosion, paint and primer and for generally producing a clean surface.

This wire brush has a unique curved profile and a narrow face, making it ideal for accessing hard-to-reach places.

The high density wire fill and contoured plastic handle allows users to apply a higher pressure than that of a conventional wire brush.

Length: 250mm
