
RidgeGear RGL14 Twin Leg Webbing Restraint Lanyard 1.3m

Product Images

Product Code: S83-1027

Short Description

This twin leg work restraint safety lanyard is an industry standard.

As this lanyard is for work restraint it is important that the operative is working from a static position, whilst connected to a fixed anchor point.

As this is a twin leg, movement between anchorage points can be achieved through means double clipping.

This safety lanyard is for restraint purposes only as there is no shock absorption built into the system.

Specifications

Accredited to: EN 354:2010

Length: 1.3m

Material: 26mm water repellent polyester

Max Arrest Force: Restraint only - not to be used as fall arrest.
