

# UltraCrete QC10 F Rapid Set Flowable Concrete - 56x 25kg Bags

Product Images

Product Code: S00-4040

## Short Description

QC10 F is a rapid setting, fibre modified concrete for backfilling around manhole frames and gullies and

can also be used for surface repairs. It has been HAPAS approved since 2005 and can be opened to traffic in 90 minutes.

### Features

Workability: 5 – 10 minutes

Set time: 10 – 20 minutes

Depth: 30mm – 500mm

20N/mm<sup>2</sup> compressive strength after 90 minutes

Shrinkage compensated

Approved for use on the London Underground and Overground

NBS Plus registered for ease of specification

UltraCrete Accredited Reinstatement Specification (UCARS) product

Supplied on a pallet of:

56x 25kg bags

**Please see datasheet for further details**
