

UltraCrete Perma-Soil Stabiliser - 30x 25Kg Buckets

Product Images

Product Code: S00-4030

Short Description

Perma-Soil turns excavated spoil into backfill within minutes. It is ideal for use with small utility

excavations, backfilling poles, water metres and water tobies. Appendix A9 approved, Perma-Soil reduces the need for virgin aggregates and can be re-excavated.

Features

Quick and easy to use in-situ
Eliminates the need/cost to haul away spoil
Meets the requirements set out in the Utility WRAP Agreement
Cost saving

Supplied on a pallet of:

30x 25kg buckets

Please see datasheet for further details
