# ACADSS8C Anchor Clamp for Round Fibre Optic Cable 8-10mm

Product Images

Product Code: S83-3254

---

## Short Description

---

The ACADSS anchoring clamps present an open conical body, a jaw with two plastic wedges and a flexible bail. These cable clamps are used for the termination of fibre optic round ADSS cables deployed on distribution networks where spans do not exceed 90m.

Thanks to the conical clamping system, the installation of the ACADSS clamps requires no specific tools and considerably reduces the intervention time.

Cable clamp: 165mm

Span : < 90m

Model: ACADSS8C for Round Fibre Optic Cables 8-10mm
