
Fibre Dropwire Clamp White

5.4mm - 6.2mm Pk10

Product Images

Product Code: S83-3251

Short Description

The anchor clamp Fiberlign® range of PLP has been developed to meet with new generation of ADSS cables having a micromodule structure.

The radial force is distributed over a length with even pressure in order to minimise the strain on the cable and ensure long term performance life of optical fibres.

Maximum Allowable Tension 80 daN

Features

- Patented design
- Easy, quick and safe assembly• User-friendly cable adjustment
- Assembly and disassembly without any tools
- UV treated
- Expected lifespan of over 30 years

Fibre Optic Dead End also known as a FODE.

Supplied in a pack of 10.
