

Stainless Steel Bucket Trowel 7"

Product Images

Product Code: S83-9341

Short Description

The Faithfull Prestige Bucket Trowel has a tapered blade for removing materials from the sides and bases of buckets.

Description

The Faithfull Prestige Bucket Trowel has a tapered blade for removing materials from the sides and bases of buckets. The blade is solid forged from one-piece of chrome vanadium steel for strength. Rounded edges allow the blade to glide around bucket bases with minimal scratching. The ergonomic soft grip handle provides a superior grip and the high lift design allows sufficient knuckle clearance.

The Prestige range is manufactured to the highest standards and is also covered by a 10 year guarantee.

Specification:

Blade Size: 180 x 93-120mm (7in)
