

Tempo Lan Tone and Probe Kit

Product Images

Product Code: C00-8935

Short Description

The LAN tone and probe kit combines the AT8L LAN toner and the 200EP-G inductive amplifier in a rugged carrying case. This kit can be used on any wiring system including datacom, telecom, security/alarm, audio and CATV. Designed for network installation and maintenance, the new LAN toner has the unique feature of sending tone in addition to blinking hub, switch port and PC activity lights for

fast identification, 8-position modular breakout tabs for testing both datacom and telecom, low battery indication and automatic shut-off to preserve battery life.

- Trace wires and perform basic testing on LAN cabling
- Blink hub, switch port and PC activity lights for fast identification
- Tone generator and modular breakout adaptor
- Send tone, check continuity and test polarity on any pair
- Adjustable volume probe with visual signal indicator
- Special probe tip protects against damage to sensitive electronics
