Description

Braided expandable sleeving is a range of lightweight, self-fitting, flexible sleeving that provides tough protection for bundles of cables.. Low smoke, low toxicity and halogen free with an expansion ratio of 3:1. Braided sleeving offers superior cable protection, the special structure of the polyester braiding keeps out moisture and dirt which makes it suitable for car and railway vehicle manufacturing, as well as machine tools, robotics and automatic equipment.

Size: 12-20mm.

Length 50m

Colour: Black
