

# Two Channel Bridge Cable and Hose Ramp - 850 x 300 x 125mm

Product Images

Product Code: H87-2200

## Short Description

Hose ramp designed to protect cables and hoses for pedestrian or light road traffic. It is ideal as a

temporary or semi-permanent solution with built in high visibility strips to warn against tripping hazards and to help slow down traffic.

With a steel insert the ramp is capable of withstanding a maximum load up to 44 tonnes.

All hose protectors are made with a hard wearing SBR/NR blend rubber to offer a long service life. They can be joined together using the connectors provided to create any length required.

Suitable for cables and hoses up to 100 mm diameter.

Dimensions: L850 x W300 x H125mm
