

Regin REGK30 Pressure Vessel Hand Pump

Product Images

Product Code: S00-7378

Short Description

REGK30 - Pressure Vessel Pump

The REGK30 is a hand pump for pressurising pressure vessels. It features an extended 3 metre long hose which helps access difficult to reach areas. The pump is freestanding and has a large, easy to read 0 - 5.1 bar (0 - 75 psi) barrel mounted gauge.

The first choice and best selling pump for all engineers.

- For pressurising expansion vessels.
- 3 metre extended hose helps access difficult to reach pressure vessels.
- Freestanding.
- 0 - 5.1 bar (0 - 75 psi) barrel mounted gauge.
- Oversize barrel for high efficiency.
- Durable steel barrel.
- Fits all standard Schrader valves.
- Can be used with angled adaptor.
