
Heavy-Duty Kerb Lifter

Product Images

Product Code: S00-1932

Short Description

Heavy-Duty Kerb Lifter with a fully galvanised, rust-resistant metal construction with rubber handles and kerb grips. Designed for two-person operation for lifting and laying kerbs, edging stones and paving slabs.

The quick operation clamp allows fast and accurate movement of heavy items without stress on the back and knees.

Specification:

Rubber Grip Length: 100mm

Clamping Range: 360mm

Load Capacity: 100kg

Overall Length: 850mm
