
EnduraSign Pedestrians Reversible Plate Only

Product Images

Product Code: S00-5103

Short Description

The Pedestrians Reversible Arrow Quickfit Endurasign is great for deploying where footpaths and footways have been closed. The sign face clearly displays the work Pedestrians, along with an arrow that can be adjusted to indicate the most appropriate direction for pedestrians to take as an alternative.

These signs are fully compliant with current UK regulations when deployed in accordance with the regulations set out by the DFT. You can find more information on these rules in the NRSWA Red Book which sets out street works-road practice.

Other plates for the Endurasign are available on request, please contact our sales office.

Description

The Pedestrians Reversible Arrow 7018 Quickfit Endurasign is great for deploying where footpaths and footways have been closed. The sign face clearly displays the work Pedestrians, along with an arrow that can be adjusted to indicate the most appropriate direction for pedestrians to take as an alternative.
