

Jonard KWC-700 Multi-function Kevlar & Wire Cutting Shears 175mm

Product Images

Product Code: E00-6432

Short Description

Designed with serrated blades, large cutting notch, non-insulated terminal crimpers, and spring-loaded handles the Jonard Tools KWC-700 Multi-function Kevlar® & Wire Cutting Shears are the ultimate scissors for any fibre technician or electrician.

Features

- Blades made from 4034 Japanese stainless steel for the best cutting performance and long life
- Curved handle design with spring-loaded handles greatly reduce hand and wrist fatigue
- Handles are made of dual component nylon and Santoprene™ materials for superior comfort and long term durability
- Serrated blade edge grips Kevlar and other delicate materials firmly while cutting
- Round cutting notch cleanly cuts soft copper cable up to 6 mm or soft metal wire 2 mm
- Built-in terminal crimpers crimp non-insulated terminals for 22 - 14 AWG wire

Description

Designed with serrated blades, large cutting notch, non-insulated terminal crimpers, and spring-loaded handles the Jonard Tools KWC-700 Multi-function Kevlar® & Wire Cutting Shears are the ultimate scissors for any fibre technician or electrician.

Features

Blades made from 4034 Japanese stainless steel for the best cutting performance and long life
