

Hyundai Hyc6200x 62cc 20" Petrol Chainsaw, 2-Stroke Easy-Start

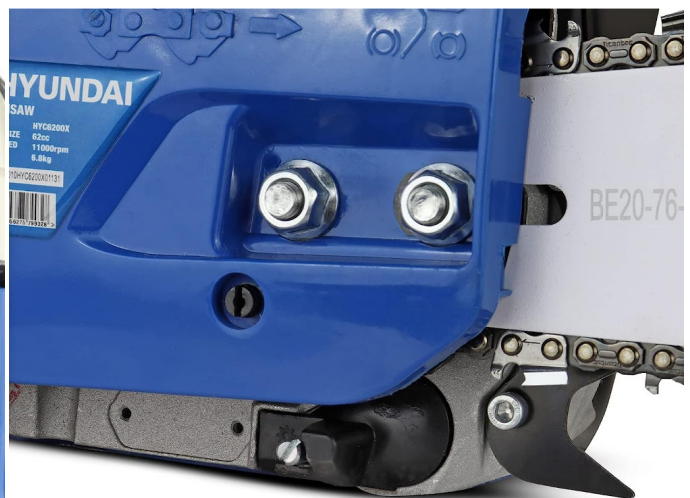

Product Images

Product Code: P57-2916

Anti-Kick-Back
Anti-Kick-Back safety brake reduces the likelihood of injuries from unexpected kick-backs.

Chain Tension

Easily-accessible side mounted chain tensioner

Short Description

The HYC6200X is a powerful 2-stroke petrol chainsaw from Hyundai. This heavy-duty, durable and lightweight chainsaw has been specially designed to deal with tough sawing requirements, such as felling large trees, but is also suitable for smaller garden tasks such as chopping logs.

Designed to be used by everyone from gardening beginners to expert gardeners, this Hyundai chainsaw is highly versatile, delivering high performance in all weathers.

Features

- **62cc 2-stroke Hyundai petrol engine:** High power to weight ratio for the most effortless and efficient wood cutting
- **Weighs just 6.9kg:** Easy to use and move around for precise cutting at different angles
- **20" bar and chain:** Tackle large trees as well as smaller clearance jobs
- **Comfortable to use:** Anti-vibration technology protects your hands and arms
- **Includes storage bag and bar cover:** Protects the chain links and bar

Powerful Chainsaw

This powerful chainsaw's 62cc 2-stroke engine has EURO 5 engine technology, which lowers fuel consumption and emissions whilst maintaining a powerful cutting speed.

2-stroke engines offer a fantastic power to weight ratio, offering a great way to maximise the power from your equipment whilst keeping weight comparably low.

Weighing just 6.9kg (including the bar and chain), the HYC6200X is comfortable to use for prolonged periods of time without causing any strain or discomfort to your hands, arms, shoulders or back.

20 Inch Chainsaw

The HYC6200X is fitted with Hyundai's own professionally engineered 20" bar and chain, capable of tackling anything from large trees and cutting firewood to smaller garden clearance jobs.

This powerful petrol chainsaw's easy starting mechanism enables you to start and operate the machine easily. Fitted with a decompression valve, Hyundai's easy-start recoil design for ultra-easy pull starting each and every time.

Low Maintenance Chainsaw

Built with easy maintenance in mind, the chainsaw's side-mounted chain tensioner makes adjustment extra quick and easy.

Its automatic lubrication system ensures that the chain is always lubricated while in use to minimise downtime and keep the chain in good health. Regular servicing and correct chain sharpening will help ensure that it keeps delivering the excellence built-in as standard by Hyundai.

Easy-To-Use Chainsaw

With its ergonomic and comfortable design, the HYC6200X also has anti-vibration technology to minimise any discomfort in your hands or arms whilst in use.

When not in use, the HYC6200X can be stored safely with the included carry bag and supplied bar cover that protects the all-important cutting links on the chain from getting damaged and keeps the bar in good condition.

Specification

Model HYC6200X

Start Method Recoil

Ignition Mode Easy

Bar (inches) 20

Chain Pitch Size (inches) 0.325

Chain Lubrication Automatic pump with adjuster

Handle Type Anti-vibration

Safety Features GS/CE

Engine Model 1E48F

Engine Type Hyundai 2-stroke petrol Euro V

Engine Size (cc) 62

Rated Power (kW/kVA) 2.85

Rated Speed (RPM) 8500

Chain Stopping Speed (Kickback) less 0.21S

Chain Speed (RPM) (m/s) 22

Fuel Unleaded petrol / semi-synthetic 2-stroke oil

Fuel Capacity (ml) 550

Engine Oil 2 Stroke

Engine Oil Capacity (ml) 300

Gross Weight (kg) 8.72

Net Weight (kg) 6.9

Fully Assembled Dimensions (H x W x L) (mm) 290 x 265 x 870

Package Dimensions (H x W x L) (mm) 300 x 260 x 500

Fuel/Power Source Petrol
Commercial Warranty (years) 1
Model EAN 5056275799328

In The Box HYC6200X, 2 Chains, Mix bottle, 20bar, Bar cover, Bag, Manual, Service Card, Tool Kit
