Sticklers 1K+CleanClicker For 1.25MM Ferrules

Product Images

Product Code: C05-5804

Short Description

The Sticklers CleanClicker +1k – has the capability to clean (a minimum of) 1,000 connectors per device.

- Industry leader with 1,000 to 1,200 clicks per clicker
- Proprietary bundled microfiber cleaning strand cleans end faces with one click
- Static dissipative materials minimize static build-up during cleaning
- Compact size, ideal for tool kits and belts
- 1.25mm version: Cleans LC and MU, APC and UPC style

Sticklers™ new +1000 CleanClicker™ uses a proprietary bundled microfiber cleaning strand that yields at least 1,000 cleans per clicker. Tests confirm that each clicker delivers up to 1,200 cleans for long service life and the lowest cost per clean. Made with static dissipative materials, it prevents static buildup during tool movement that attracts dust to the end face with cleaning. Technicians will appreciate using this compact tool that leads the industry in performance and number of cleans per clicker.

For additional cleaning performance, use Sticklers™ Fiber Optic Splice & Connector Cleaner cleaning fluid for a perfectly clean fiber end face every time.
