

VeEX FL41 Fault Locator

Product Images

Product Code: C00-7633

Short Description

Optical Fault Locator for Service Activation and Maintenance

The FL41 is a budget friendly and palm-sized Fault Locator/ Optical Power Meter for measuring fibre spans up to 20 km in length. The FL41f has a built-in filter for in-service fault locating.

The FL41 is the perfect tool for service activation technicians who need to measure short fibre links and drop fibre for PON, 5G rollout, FTTx, LAN/WAN, and CATV.

Features

- Singlemode cable length verification
- Single test port - fixed SCAPC connector
- Less than 30 seconds typical test time with one touch automatic mode
- In-Service testing with built-in filter
- NoApp™ QR code generation capability for faster result saving*
- Simple user interface that saves time on the job
- High contrast display with backlight
- Handheld, lightweight rugged design
- Splash and dust resistant design
- Save up to 10 test results
- Micro USB charging point
- Battery autonomy >350 tests

Please contact our sales department for further information.
