UV Resistant White Cable Tie 300MM x 4.8MM (Pack Of 100)

Product Images

Product Code: S00-1415

Short Description

These UV stabilised cable ties have a higher carbon content for greater resistance to ultraviolet exposure in outdoor usage, making them suitable for a multitude of uses in various industries for indoor and outdoor environmental conditions.

These heat stabilised cable ties also provide additional thermal endurance, without affecting performance.

- Specifically for use in areas that are subject to high temperatures - e.g. in close proximity to exhausts or brakes
- Manufactured From Nylon Polyamide 6/6
- Resistant to external agents
- Natural (with a green tint) colour
- Working Temperature Range: -40°C to +120°C (Continuous or extended exposure to +105C)
- Pack of 100
