

Inspection Camera 5" IPS Screen

Product Images

Product Code: S00-3140

Short Description

- 1080P Dual Lens -An extra HD inspection camera is built on the side of the main borescope camera to help detect the sides of the pipe. endoscope camera switch button is built into the cable to turn on the sided camera to create a 160-degrees-viewing-angle. Endoscope has an integrated CREE LED flash light for dark area working assistance.
- 5 Inch IPS HD Screen- 5-inch screen now gives this model 3 times ultra HD image compared to the 4.3-inch model on the market. The screen of the Industrial endoscope is made of toughened glass; also the endoscope's body is anti-fall and rainproof that made for outdoor work.
- 16.5 FT Gooseneck Cable Waterproof Camera-The flexible, semi-rigid cable with an 8mm inspection camera can be passed through the hard-to-reach area pipe or gap and can be kept 3.28ft straight without bending. The IP67 waterproof snake cable drain camera with 7 adjustable LED lights support for working underwater 3.28ft.
- 32GB Memory Card-Built-in Memory Card support JPEG images and MPEG-4 videos recording. Wi-Fi connection or downloading driver software is NOT required to power on the handheld endoscope camera. This device can be used for mechanical inspection, car repair, pipeline, housework, wall, chimney, and air conditioning maintenance. Its applicable temperature range: 32°F to 113°F (0°to 45°C)
- Packing Content -Teslong NTS300 Industrial Endoscope, 32G MicroSD Card (Installed), Accessories (Hook, Magnet), Micro-USB Cable, User Manual, Hard Plastic Case.
