
Fluke Voltstick 1AC-11

Product Images

Product Code: S19-0031

Short Description

Fluke 1AC II is an easy to use VoltAlert tester that you can use anywhere: the perfect tool for electricians.

- Fast answers available anywhere: the tip glows red and a beeper sounds when voltage is detected
- Continuous self-test so you always know it's working
- Voltage detection range for wide application use - 90 V to 1000 V AC or 200 V to 1000 V AC
- Volt stick with Audible/Silent mode for added convenience

Description

The portable 1AC II non-contact voltage tester from Fluke is easy to use – just touch the tip to a terminal strip, outlet, or supply cord. When the tip glows red and the unit beeps, you know there's voltage present. This tool is the perfect non-contact voltage tester for electricians, maintenance, service, safety personnel, and homeowners. They can quickly test for energized circuits in the workplace or at home and even detect miswires of an electrical outlet.

- The tip glows red and a beeper sounds when voltage is detected
- A loud, easy to hear beeper will sound and the tip will glow red when voltage is detected
- Optionally, the beeper can be disabled for use in quiet environments
- Continuous self-test so you always know it's working
- When the tip blinks red you know it's working properly
- Provides a continual visual indication that the 1AC II VoltAlert is on 90 V to 1000 V AC or 200 V to 1000 V AC voltage detection range for wide application use
- Wide voltage detection range allows for use in a broad range of applications
- Also available in a low voltage model from 20 V to 90 V AC for controls circuits
- Safety features
- Rated to CAT IV 1000 V for added protection
- CE and CSA approved
