

Aerial Casalink Drop Closure (ACDC)

Product Images

Product Code: ACDC-0001

Short Description

Prysmian Aerial Casalink Drop Closure (ACDC) is a compact pole mounted product perfect for congested poles, with dimensions 260 (h) x 155 (w) x 67.5mm (d) and capacity of up to 32 PIA approved 3mm LC drop cables. The compact size also allows a smaller mounting bracket whilst storing enough excess cable for easy pole removal. The ACDC has been designed to allow easy installation of customer drops with no tools or removal of parts required - just simple tear-offs. Drop cables are secured with cable ties and neatly retained in their dedicated slot.
