

Bosch Alu-Caddy Collapsible Mobility

Product Images

Product Code: P09-0717

Short Description

The Aluminium Caddy provides convenient transport in line with the Bosch Mobility System. It is made of aluminium and comes with a collapsible handle and wheels for lightweight and space-saving storage. The compatible base plate and the elastic band securely fix stacked L-BOXX elements for safe transportation. With a load-bearing capacity of 125 kg on ground and 60 kg on stairs, this caddy is stable and robust. It is an ideal transport solution for L-BOXX elements and L-Cases.
