
F Connector Termination Aid

Product Images

Product Code: E72-8259

Short Description

This termination aid for RG6/59 cable helps reduce termination time and improve connection quality. The tool is used to flare the braid before fitting the connector to avoid short-circuiting and the F-socket aids pushing the plug firmly on the cable before crimping.

One end to enlarge space between shield and insulation for RG59, another end for RG6, the other end lock F connector tool socket and twist it onto a stripped cable end.
